

# **Afslut geopolitik, vedtag LaRouches Fire Love for fred – mellem Rusland, Kina og USA.**

## **Helga Zepp-LaRouche i Nyt Paradigme Webcast, 4. jan., 2018**

*Folk må ændre deres tankegang! Det er ikke et nulsumsspil. Det er ideen om, kan vi definere mål for menneskeheden; kan vi gøre det, der blev diskuteret i Federalist Papers allerede i det unge Amerika? Kan vi finde en måde at regere os selv på, der er for det langsigtede perspektiv for vort samfunds overlevelse? Jeg mener, vi kan. Jeg mener, at menneskeslægten er i stand til fornuft; jeg mener endda, vi er i stand til kærlighed – og folk tror, kærlighed intet har med politik at gøre, men det er ikke sandt! Udfaldet af Trediveårskrigen var en forfærdelig ødelæggelse i Europa, men ud af det kom den Westfalske Fred. Ser man på principperne i den Westfalske Fred, så var de to vigtigste træk, at, for fredens skyld, glem alt ondt, der blev begået af den ene eller den anden side, og koncentrer om fælles udvikling; og det andet princip var, for fredens skyld, så må udenrigspolitik fra nu af være baseret på »den andens interesse, i kærlighed«.*

*Jeg mener, dette er, hvad Kina gør: Det er i overensstemmelse med ideen om en harmonisk udvikling af alle nationer, og det var John Quincy Adams' politik, så det er ikke fremmed for amerikansk historie. Det var også associeret med humanisme i Europa, med ideerne hos Leibniz, Cusanus og mange andre store personer, der tænkte i forhold til udvikling som historiens*

mål.

*Så vi befinder os alle sammen i en afgørende forandring af æraen, hvor vi må lade geopolitikkens æra bag os og bevæge os til en helt ny fase i civilisationens historie.*

# **Helga Zepp-LaRouches Nytårsbudskab og et nyt potentiiale for menneskehedens fremtid**

*31. dec., 2017 – Schiller Institutets stifter og præsident Helga Zepp-LaRouche optog følgende Nytårsbudskab til LaRouche PAC Action Committee (LPAC):*

Kære borgere i verden,

Lad mig først ønske jer et Godt og Fredeligt Nytår 2018. Som det vigtigste mål for 2018 ønsker jeg at definere overvindelse af geopolitik. Geopolitik har været årsag til to verdenskrige i det 20. århundrede, og det turde stå enhver klart, at, i atomvåbenalderen, kan krig ikke længere være et middel til konfliktløsning. Geopolitik er ligeledes baseret på den forældede koldkrigstankegang og tankegangen med nulsumsspil, altså den idé, at, hvis ét land vinder, må de andre tabe. Det er den fejlagtige idé om, at det er legitimt at forfølge en nations eller gruppe af nationers interesse, på bekostning af andres interesse.

Heldigvis har Kina sat det nye koncept for udenrigsrelationer, for relationer mellem nationer, et win-win-samarbejde til alles fordel, på dagsordenen. Reaktionen på dette har været blandet: Kina har tilbudt USA, og ligeledes de europæiske lande, at samarbejde. Nogle har reageret med entusiasme, fordi de ser fordelene ved samarbejde inden for infrastrukturområdet og andre områder. For eksempel har Central- og Sydeuropa reageret meget positivt; mange udviklingslande er med om bord. Alt i alt er flere end 70 lande allerede en del af dette nye paradigme.

Men andre har reageret med et hysteri, der netop nu tager til, fordi de ser Kinas fremkomst, og de ved, at dette er en mere succesfuld model, som er mere attraktiv for mange lande i verden. De hævder, at den kinesiske model er en trussel mod deres demokratier.

Men måske gør kineserne noget mere korrekt, end disse vestlige demokratier. Kina har trods alt bevæget 700 mio. mennesker ud af fattigdom, og de har erklæret, at de ligeledes ønsker at bringe de resterende 42 mio. mennesker ud af fattigdom frem til år 2020. Kina har endda aflagt løfte om at fjerne fattigdom på verdensplan frem til år 2050.

Dette ville selvsagt betyde, at Europa må overvinde fattigdom for 90 mio. borgere, der lever i denne tilstand, og USA har henved 42 mio.: Dette er absolut muligt, hvis de samarbejder med den Nye Silkevej.

En af de største, geopolitiske udfordringer, der skal overvindes, er udfaldet af den kamp, der finder sted i USA, hvor man netop nu har høringer i Kongressen, hvor det utrolige, aftalte spil, der har fundet sted mellem Obama-administrationen, Hillary Clintons valgkampagne, det Demokratiske lederskab, cheferne for efterretningstjenesterne, og så britisk efterretning helt klart har forsøgt at stjæle valgsejren fra Trump i 2016, og, hvis alt dette kommer frem, og Trump lykkes med sine bestræbelser for at genetablere en

anstændig relation med Rusland og Kina, hvilket var den første årsag til Russiagate; så kan en ny æra for civilisationen virkelig begynde.

Samarbejdet mellem alle nationer i den Nye Silkevej er ligeledes den eneste måde, hvorpå vi kan forhindre, at finanssystemet krakker i 2018; hvilket, hvis det skete, ville blive meget værre end i 2008. Dette ville kræve, at vi gør en ende på kasinoøkonomien i Vesten, vedtager en Glass/Steagall-bankopdeling, etablerer et kreditsystem og dernæst samarbejder med banker som AIIB, den Nye Silkevejsfond og andre banker, for at genopbygge realøkonomien.

Dette er ikke alene vigtigt for USA og Europa, men er i særdeleshed vigtigt, hvis vi ønsker at genopbygge Mellemøsten efter mange års forfærdelige krige, som var resultatet af interventionskrige, regimeskifte og 'farvede revolutioner'; så må vi samarbejde med Kina omkring den Nye Silkevej, for at forlænge dette koncept ind i Mellemøsten.

Den eneste måde, hvorpå vi kan løse flygtningekrisen på en human måde, på en menneskelig måde, er at samarbejde med Kina omkring den økonomiske udvikling af hele Afrika. Hvis vi gør dette i det kommende år, har vi mulighed for utrolige gennembrud for verdensfreden, men også inden for området af videnskab og teknologi, hvor, f.eks., reelle gennembrud mht. at opnå termonuklear fusionskraft skues i horisonten. Hvis vi lykkes med dette, kan vi få sikkerhed for energiforsyning og for forsyning af råmaterialer.

Hvis vi kombinerer alt dette med en dialog mellem kulturer, hvor hver nation repræsenterer sine bedste traditioner, så andre kan lære dem at kende, er jeg fuldstændig overbevist om, at dette vil resultere i en større kærlighed til menneskeheden.

Så der er al mulig grund til optimisme for de kommende år, for der *findes* løsninger. Lad os simpelt hen gennemføre dem på en

beslutsom måde.

Godt Nytår.

# **Den Nye Silkevej forandrer nu verden: USA må tilslutte sig i 2018. Helga Zepp-LaRouche i Schiller Institut Nyt Paradigme Webcast, 28. dec., 2017**

*Kan vi i tide, før et nyt finanskak kommer ned over os – det hænger jo over vores hoved som et Damoklessværd – kan vi i tide skabe denne form for forandring i USA i særdeleshed, men også i Vesteuropa, hvor vi tilslutter os dette nye paradigme, eller vil denne kamp for civilisationen blive tabt? Jeg er meget optimistisk mht., at den kan vindes, men det kræver aktivitet: Vi oplever ikke dialektisk materialisme, eller historisk materialisme, hvor positive begivenheder får deres eget liv; for, det er altid den subjektive faktor, der spiller en meget stor rolle, og et sted, hvor dette ses meget tydeligt, er med Xi Jinping, der virkelig har frembragt en positiv kinesisk udvikling, en total opgradering og en total*

*transformation ind i et nyt paradigme. Og vi har brug for sådanne mennesker i Vesten til at gøre ligeså.*

*Schiller Instituttet har absolut indgået en forpligtelse til at gøre alt, hvad der står i vores magt, for at få USA og Europa til at samarbejde med den Nye Silkevej, for det vil blive den afgørende kamp i det nye år.*

Jeg mener, dette simpelt hen kræver en fortsættelse af vores mobilisering. Jeg ved, vore kolleger i USA fra LaRouche PAC har produceret en ny brochure med krav om at gennemføre min mand, Lyndon LaRouches Fire Love, og om, hvorfor USA må gå sammen med Kina om opbygning af den Nye Silkevej, både hjemme og internationalt. Brochurenen [»LaRouche's Four Laws & America's Future on the New Silk Road«] [1] er udgivet. Jeg vil opfordre vore seere og lyttere til at få fat i dette dokument: Læs det, for det indeholder alle løsningerne, de korrekte økonomiske koncepter for USA og resten af verden for at komme ud af den nuværende krise.

Dette er en presserende hastesag, for vi kunne få en nedsmeltning af systemet, hvornår, det skal være. For lige at nævne det ganske kort, så minder denne bitcoin-mani, der nu finder sted, virkelig om tulipanbøbelen [i 1637] før den brast. Kina har erkendt denne fare og forbyder grundlæggende set spekulation i bitcoins. Alle disse tossestreger gør det klart, at det er presserende nødvendigt at gennemføre Glass-Steagall, og alle hr. LaRouches Fire Love, der især omfatter en massiv forøgelse af arbejdsstyrkens produktivitet gennem et forceret program for fusionsteknologi, samarbejde om rumforskning og højteknologiske investeringer generelt; og med mindre, man gør dette, inkl. højteknologisk infrastruktur – og den nylige Amtrak-ulykke i staten Washington understreger blot, at dette er absolut nødvendigt – med mindre man gør dette som en samlet pakke, tror jeg ikke, verden vil komme ud af denne krise.

## **Helga Zepp-LaRouche i Schiller Institut**

### **Nyt Paradigme Webcast, 14. dec., 2017**

*Jeg mener, der også er en aftale mellem USA og Rusland om sammen at bygge en rumstation på Månen. Og Trumps beslutning – jeg mener, man kan virkelig se, hvem, der er hvem, når man ser, hvordan folk reagerer til dette. ESA, det Europæiske Rumagentur, var fuldstændig entusiastisk og hilste dette velkommen; den kinesiske regering udtrykte glæde over denne beslutning. Alt imens de europæiske medier dækkede dette, som om Trump var fuldstændig sindssyg for at ville tage tilbage til Månen – dette er virkelig utroligt! Alle mennesker, der har været i rummet, astronauterne, de kommer altid tilbage og siger, dette er en utrolig oplevelse, for i rummet betyder det ingen ting, hvilken nationalitet, man har, for man må stole på hinanden, ellers kan man ikke gennemføre en så ekstremt udfordrende mission. En russisk kosmonaut har netop sagt: Vi bør udvikle en holdning til at løse problemer på Jorden i*

*samme ånd, med hvilken vi samarbejder i rummet.*

Schiller Institut Nyt

7. dec., 2017, med Helga

*I Europa ser det endnu mere dystert ud, for de europæiske nationer befinder sig i en totalt kaotisk tilstand. Der er de øst- og sydeuropæiske nationer, der ønsker at gå sammen med Kina i Bælte & Vej Initiativet; der er et totalt hysteri fra EU's side og også i vid udstrækning fra den tyske regerings side – hvad der så er tilbage af den – og som siger, »Kina opsplitter Europa«. Hvilket ikke er sandt! Kinesernes svar på denne anklage var, at Kina ikke behøver opsplitte Europa, det har det allerede selv gjort. Men der finder ingen diskussion sted i Europa om bankopdeling. Faktisk traf EU for blot et par uger siden beslutning om nye retningslinjer, der forbyder bankopdeling. De europæiske nationers overlevelse og disse EU-politikker er således uforenelige.*

*Vi må have en offentlig diskussion i Tyskland om f.eks., at vi må vende tilbage til den form for kreditpolitik, vi havde i perioden efter krigen med Kreditanstalt für Wiederaufbau (Kreditanstalt for genopbygning); men, vi må have finansiering af realøkonomien, og hele denne kasinoøkonomi må lukkes ned.*

*Jeg mener, at den største fare lige nu består i et ukontrolleret kollaps. Disse advarsler fra Bundesbank og BIS er virkelig en advarsel om, at folk må se at vågne op og ændre politik, før det er for sent: Så gå sammen med os i kampen for at få Glass-Steagall på dagsordenen, også i de europæiske lande.*

# **Tiden er kommet til at begrave Muellers kupforsøg, så USA kan komme med om bord i den Nye Silkevej**

*Leder fra LaRouche PAC, USA, 5. dec., 2017 – Kupforsøget mod Trumps præsidentskab, som orkestreres af den særlige anklager Robert Mueller efter et manuskript fra britisk efterretning, tager vand ind til højre og venstre og er nu i alvorlig fare for helt at synke. I takt med, at der kommer flere og flere beviser frem for dagens lys om den centrale rolle, som spilles af FBI-topagent, og makker til Mueller, Peter Strzok, og om relateret aktivitet fra 'Få ram på Trump'-specialstyrken, der*

klart har overskredet grænsen fra det blot beskidte og tvetydige til decidederede forbrydelser mod forfatningen, går det op for Mueller et al., at, hvis det ikke lykkes for dem, vil de snart selv ende i fængsel.

Krav om en afslutning af anti-Trump-heksejagten vokser i medierne, inklusive i et indlæg i dag i *Wall Street Journal*, underskrevet af redaktionen, og som insisterer, at »Offentligheden har ret til at vide, om [britisk efterretnings] Steele-dossier var anledningen til Comeys kulegravning, og om det førte til nærgående aflytning af regeringen«. *WSJ*'s redaktører skriver, at de betvivler »hr. Muellers evne til at gennemføre en fair og troværdig kulegravning af FBI's anselige andel i Rusland-Trump-dramaet«.

Men, det er ikke nok blot at udskyde Muellers bestræbelser, eller endda alvorligt skade dem. De skal begraves. Til dette formål har *EIR* annonceret, at andet oplag af dets specialrapport, »**Robert Mueller er en umoralsk, juridisk morder: Han vil gøre sit job, hvis I giver ham lov**«, snarest bliver udgivet.

Den bydende nødvendige grund til dette er at skabe de betingelser, under hvilke USA kan gå sammen med Kina, Rusland og andre nationer i opbygningen af den Nye Silkevej, til fordel og gavn for hele menneskeheden. Som Helga Zepp-LaRouche i samtale med sine medarbejdere i dag sagde:

»*Lande, der ikke samarbejder med Bælte & Vej Initiativet, vil blive kørt ud på sidelinjen, til skade for deres egne befolkninger.*«

Zepp-LaRouche forklarede, at der er tektoniske skift i gang på globalt plan, med det gamle, transatlantiske finanssystems, med dets spekulation, undergang, og den hastige fremvækst af det nye system, Bælte & Vej Initiativet.

»*Der finder en utrolig dynamik sted*«, rapporterede Zepp-LaRouche.

»Der finder konferencer sted hver dag, hvor flere lande, flere kræfter, flere foretagender og industrier tilslutter sig dette Nye Paradigme. Den japanske premierminister Abes erklæring om, at Japan vil samarbejde med Bælte & Vej, er virkelig vigtig. Lande, der ikke samarbejder, vil blive kørt ud på sidelinjen, til skade for deres egne befolkninger.

Denne kinesiske politik er ikke imod nogen nation, og den udgør heller ikke på en eller anden måde en konflikt mellem USA og andre lande. Dette her drejer sig om at gå med i fremtiden; om at gå med i et absolut fantastisk perspektiv. Den tidligere rumænske astronaut, Dumitru-Dorin Prunariu, har netop udtalt, at, 'efter Bælte & Vej Initiativet tror jeg, at Kina har et galaktisk initiativ i tankerne'. Dette er absolut tidens ånd.

Vores kampagne fokuserer på *Lyndon LaRouches Fire Love*, på LaRouches økonomiske metode, på USA's tilslutning til den Nye Silkevej og på USA's samarbejde med andre lande om rumforskning. Og jeg mener, dette er et perfekt tidspunkt til at forvandle hele USA til en optimistisk kampagne. Dette kan blive til den absolut afgørende kraft for hele USA. Tiden er kommet til at forsvare præsidenten, besejre kuppet, besejre Det britiske Imperium og til at gå ind i en fuldstændig ny og fremgangsrig, skøn fremtid. Jeg mener, dette er et vidunderligt perspektiv.«

Lyndon LaRouche, på sin side, opsummerede den strategiske situation og de opgaver, der ligger foran os, på følgende vis:

»Der kan gøres mere. Vi har midlerne til at gøre det. De er i vore hænder. Tag dem, og skab det, der må gøres. Handl på det!«

ugentlige strategiske  
webcast,

Siden afslutningen af den historiske Schiller Institut-konference i Bad Soden, Tyskland, den 26. november, er tempoet for udviklinger for udvidelsen af det kinesiske Bælte & Vej Initiativ (BRI) accelereret dramatisk. Dagligt har der været konferencer, forummer og meddelelser om nye aftaler, der omfatter Asien, Afrika, Østeuropa og Sydamerika i takt med, at den Nye Silkevejsånd spreder sig i hele verden. På én af disse konferencer om den Maritime Silkevej, der blev afholdt i Zhuhai, Kina, holdt Schiller Institutets Helga Zepp-LaRouche en stor præsentation.

I takt med, at denne positive bevægelse går frem, bliver det i stigende grad mere utåleligt, at heksejagten mod præsident Trump, der begås af de Londondirigerede,

neokonservative/neoliberale imperiekrafter, med det formål at forhindre Trump i at bringe USA fuldt og helt ind i et samarbejde med BRI, får lov at fortsætte. Nye beviser er ved at komme frem, som demonstrerer, at, som vi har sagt fra begyndelsen, disse angreb intet som helst har med »russisk indblanding« at gøre, men derimod udgør bestræbelser fra disse »Deep State«, 'staten i statens' side på at holde hele menneskeheden som gidsel for deres dødbringende krige, bailouts og morderiske nedskæringspolitikker.

BRI's fremskridt, såvel som de nye beviser, der afslører den af Mueller anførte heksejagt som værende et desperat, »Made in London«-svindelnummer, gør det nu mere muligt end nogen sinde for borgere til at handle for at bringe deres regeringer ind i et samarbejde med det Nye Paradigme, hvis de kendte sandheden om disse afgørende, strategiske udviklinger. Det er grundten til, at Helga Zepp-LaRouche har indledt disse ugentlige opdateringer, så borgere kan handle på en fuldt informeret baggrund for muligheden for en totalt ubegrænset fremtid for menneskeheden.

**Europæisk appell til præsident  
Trump  
om at indføre Glass/Steagall.  
Liliana Gorini fra**

# **konferencesalen, Frankfurt, Tyskland, 25.-26. nov., 2017**

*I sidste måned besluttede vi, fordi den Europæiske Union forbyder diskussionen, at bringe diskussionen fra Italien til USA. På hvilken måde? Vi skrev et brev til præsident Trump for at minde ham om det løfte, han gav under valgkampagnen, om at genindføre Glass/Steagall-loven. Et hundrede treogtredive parlamentsmedlemmer underskrev brevet – fra det italienske parlament, det Europæiske Parlament, inklusive hr. Zanni, der indsamlede otte underskrifter fra parlamentsmedlemmer på dette brev, samt fra nationale parlamentsmedlemmer: regionale rådsfolk fra Lombardiet, Veneto og folk fra Syditalien.*

**Liliana Gorini:** Mit navn er Liliana Gorini, og jeg er forkvinde for *Movisol*, LaRouches organisation i Italien og en nær medarbejder til fr. Helga Zepp-LaRouche og hr. LaRouche gennem 40 år. Jeg siger dette, fordi jeg af fysiske årsager ikke har deltaget i konferencer, og nu er jeg her endelig: Så mange mennesker kender mig måske ikke.

Jeg vil gerne kommentere, hvad Zanni netop sagde om situationen i Europa, og især i mit land, Italien, og fuldt ud bekræfte det, han sagde om virkningerne på befolkningen af den Europæiske Unions vanvittige politik, og især om bail-in. Der er allerede ofre i Italien for denne bail-in-politik og Bankunionen: To pensionister tog deres eget liv, fordi de mistede hele deres opsparing. Dette var ikke rige mennesker. Dette var almindelige mennesker, der havde sparet op i hele deres liv, og deres penge blev ganske enkelt stjålet med denne bail-in (ekspropriering af bankindskud). Det er ikke en løsning; der skaber faktisk flere problemer.

Efter problemet med bankerne i Veneto har vi nu også et

problem med de væsentligste samarbejdsbanker i Genova, *Carige*, der er ved at gå fallit, og folk er bange. De ikke alene mister deres jobs, og økonomien synes at fortsætte udelukkende, fordi folk lever af deres opsparede midler. Italienere har tendens til at opspare penge; men hvis de også mister deres opsparinger, vil de ikke alene ikke have et job, men de vil heller ikke være i stand til at overleve. Så det græske mareridt er ved at komme meget, meget tæt på for alle italienere.

Men, i den Nye Silkevejsånd findes der en løsning, så jeg vil gerne overbringe de gode nyheder til alle i den optimistiske ånd, som fr. LaRouche gav udtryk for i sin åbningstale: I Italien har vi haft en diskussion, som vi begyndte for mange år siden, baseret på LaRouches Fire Love, og især den første lov, Glass/Steagall. Den debat, som *Movisol* – vi – skabte, har nu bragt otte lovforslag ind i det italienske parlament; i mellemtiden debatteres det i fire regionale råd. Der var for nylig en diskussion i Finanskomiteen om dette.

I sidste måned besluttede vi, fordi den Europæiske Union forbyder diskussionen, at bringe diskussionen fra Italien til USA. På hvilken måde? Vi skrev et brev til præsident Trump for at minde ham om det løfte, han gav under valgkampagnen, om at genindføre Glass/Steagall-loven. Et hundrede treogtredive parlamentsmedlemmer underskrev brevet – fra det italienske parlament, det Europæiske Parlament, inklusive hr. Zanni, der indsamlede otte underskrifter fra parlamentsmedlemmer på dette brev, samt fra nationale parlamentsmedlemmer: regionale rådsfolk fra Lombardiet, Veneto og folk fra Syditalien.

Mange andre mennesker underskrev dette: Betydningsfulde økonomer, journalister, ledere af aviser, jeg selv – jeg var selvfølgelig blandt de første underskrivere.

Vores idé er at bringe dette brev til Kongressen i januar måned for at fremme de tværpolitiske lovforslag, der er blevet foreslået i den amerikanske Kongres. Som I ved, har et par

republikanere og mange demokrater introduceret [eller medsponsoreret] lovforslag. Glass/Steagall-loven var i partiprogrammet for både det Republikanske og det Demokratiske Parti, ligesom det også er i de fleste italienske partiers partiprogram. I Italien afholder vi parlamentsvalg, sandsynligvis i maj. Alle [forslagene] om bankopdeling og Glass/Steagall er i alle disse italienske partiers partiprogrammer, fra venstre til højre.

Dette skyldes alt sammen vores kampagne i Italien. Jeg vil særligt gerne introducere denne unge mand – der er årsag til, at jeg er her, for han kørte mig – Massimo Coldamassaron. Det var ham, der indsamlede alle underskrifterne, opsøgte politikere og slog dem oven i hovedet og sagde, »Jeg vil redde mine børns fremtid, og I må vedtage Glass/Steagall, ellers vil vi meget snart stå uden et land.« Han har denne samling appeller, og han spurgte – og jeg gør dette, eftersom vi er her – om der er nogen af jer, som helt sikkert Hussein Askary, Ulf Sandmark, Jacques Cheminade, alle, der har en position, en eller anden fremtrædende politisk rolle, og vi vil gerne tilføje flere navne til disse 130 italienere, et par mennesker fra Frankrig, fra Tyskland, fra Sverige, fra Danmark, således, at når vi tager til Washington, vil det stå klart, at, ikke alene Italien, men hele Europa, hele Europa ønsker LaRouches Fire Love og Glass/Steagall.

Så kom hen til mig eller Massimo, og vi vil tilføje din underskrift, og vi vil sørge for, at denne appell ender i præsident Trumps hænder: Vi vil sørge for det. Mange tak.  
[applaus]

**Zepp-LaRouche:** Jeg vil gerne fuldt ud støtte denne idé. Jeg mener, det er et meget nyttigt forslag, så alle fra alle lande, der ønsker at støtte dette initiativ, bør kontakte Liliana og Massimo. Jeg mener, at europæerne ikke har forenet deres stemmer, og jeg mener, at det, MP Zanni udtrykte, at der er denne diskrepans mellem den Europæiske Unions politik og så de europæiske landes evne til at forsvare deres egen

interesser, er meget klar. Jeg mener, at denne konference kan være et godt udgangspunkt for at optrappe et sådant krav.

Jeg vil opfordre jer alle til at henvende jer til Liliana og hjælpe med i denne kampagne, ikke blot ved at levere en underskrift, men ved at forpligte jer til at gøre det, Massimo gjorde. Vi kan alle sammen henvende os til politikerne, til borgmestre, til parlamentsmedlemmer og kræve, at de forsvarer det almene vel.

For blot at styrke det, der blev sagt om finanskrisen: Vi sidder på en total krudttønde. Tegnene på, at krisen i 2008 gentager sig i langt større skala, er overvældende. Gældskrisen er større end i 2008; alle parametrene – derivaterne, de forgældede stater, selskaber, studenters gæld, krisen på ejendomsmarkedet – alle parametrene er omkring 40 – 80 % værre end i 2008. Og den Europæiske Union har netop udstedt retningslinjer, der går ud på, at de ikke har nogen værktøjer ud over at stjæle borgernes penge. Dette er virkelig et meget farligt øjeblik, som vi bør bruge som udgangspunkt for at gå ind i en regulær mobilisering for at få disse Fire Love gennemført.

Jeg har personligt haft mulighed for at se udviklingen af denne idé, der på mange måder reelt set begyndte med dette store menneske – min ægtemand, Lyndon LaRouche; der, for mange årtier siden – for næsten et halvt århundrede siden – fik ideen om en ny, retfærdig, økonomisk verdensorden. Dette blev dernæst mere manifest i 1970'erne, '80erne og især i 1991, da Sovjetunionen opløstes, og hvor denne idé om at skabe en ny, retfærdig, økonomisk verdensorden blev meget fremtrædende.«*

# **Helga Zepp-LaRouche deltager i Zhuhai 21. Århundredes Maritime Silkevejsforum**

3. dec., 2017 – Straks efter den meget succesfulde, internationale Schiller Institut-konference i Bad Soden, Tyskland, var forkvinde og stifter af Schiller Institutet, Helga Zepp-LaRouche, én af hovedtalerne på en konference den 29. nov. i Zhuhai, Guangdong, Forum for det 21. Århundredes Maritime Silkevej, om international kommunikation og kinesiske (Guangdong) selskaber, der går globale. Forummet er arrangeret af Guangdongs provinsregering, og på forummet talte nationale og regionale regeringsrepræsentanter, ledere af erhvervssamfundet og diverse organisationsfolk fra Kina, Asien, USA, Europa og Afrika. Konferencen var tydeligvis inspireret af »Den Nye Silkevejsånd« og en atmosfære af optimistisk afgang, der i den grad mangler i Vesten.

Zepp-LaRouches tale, med titlen, »Bælte & Vej Initiativet og en dialog mellem kulturer, baseret på deres højere udtryk«, blev vel modtaget.

En del af forummets program var besøget til Zhuhai City Planlægningscenter, en udstilling af det overordnede design bag industrizonerne i Zhuhai og den omgivende region, »byplanlægning, når den er bedst«, som en af deltagerne bemærkede. Udstillingen reflekterer præcis de principper, som Lyndon LaRouche har skitseret mht. principper for modulopbygning og foreningen af maksimal effektivitet og menneskelige betingelser og skøn arkitektur.

Turens højdepunkt var besøget til Hong Kong-Zhuhai-Macao-broen, der forbinder Hong Kong på østbredden af Perlefloodens delta med Zhuhai og Macao på vestbredden. Denne HKZM-bro er den længste hovedvej over vand i Kina, og med sine 55 km

inkluderer den hovedbroprojektet med 29,6 km, tre faciliteter ved grænseovergange i Hong Kong, Zhuhai og Macao, samt tre udfaldsveje til disse tre regioner. Broen er næsten færdig efter kun otte års byggetid, og fremkaldte 120 patenter på banebrydende, teknisk kunnen. »Vi står på en afgørende del af Verdenslandbroen«, kommenterede Helga Zepp-LaRouche.

En anden gren af turen inkluderede Guangzhou, Guangdongs hovedstad, om hvilken delegationen fra Schiller Institututtet var enige i, at den demonstrerer, at den mest moderne arkitektur kan være smuk, og dette er et meget slående tilfælde, hvor byens nye del er smukkere end den gamle og reflekterer en orientering mod befolkningens velbefindende.

## **Vi er vidne til indvielsen af en helt ny æra på planeten. LaRouchePAC Internationale Webcast, 1. dec., 2017**

**Vært Matthew Ogden:** Godaften; det er 1. dec., og dette er vores strategiske fredags-webcast fra larouchepac.com.

Vi har meget stof at gennemgå i aften, for vi bliver i øjeblikket vidne til indvielsen af en helt ny æra på denne planet. Det, vi bliver vidne til, især i løbet af den seneste uge, siden afslutningen af den ekstraordinært historiske Schiller Institut-konference, der fandt sted nær Frankfurt, Tyskland, i sidste weekend, er den kendsgerning, at den Nye

Silkevejsdynamik – denne dynamik med store projekter og »win-win«-samarbejde, der er blevet initieret af Kina – denne Nye Silkevejsdynamik er nu den dominerende og virkelig uimodståelige dynamik på denne planet. Dette er noget, der fuldstændig er i færd med at omforme alle nationers politik på denne planet. Og tyngdecentret er skiftet væk fra det gamle paradigme, som vi har set i det transatlantiske system, og til dette Nye Paradigme, der nu har fået overtaget pga. de initiativer, som frem for alt Kina har taget.

Jeg vil gerne lægge ud med at afspille et kort uddrag af Helga Zepp-LaRouches ekstraordinære hovedtale, som hun holdt på denne konference, der var sponsoreret af Schiller Institutet nær Frankfurt, Tyskland, i sidste weekend. Konferencens titel var »At opfylde menneskehedens drøm«, og titlen på Helga Zepp-LaRouches hovedtale var »Den Nye Silkevej; Den nye model for internationale relationer«. Her er et kort uddrag af Helgas tale:

HELGA ZEPP-LAROUCHE

: So, let me start with an idea  
of Gottfried Wilhelm Leibniz. He said that we are actually  
living in the best of all possible worlds. This is a very  
fundamental ontological conception. It's the idea that we are  
living in a developing universe; that what makes the universe  
the  
best of all possible ones is its tremendous potential for  
development. It is in such a way created, that every great  
evil  
challenges an even greater good to come into being. I think  
when  
we are talking about the New Silk Road and the tremendous

changes which have occurred in the world, especially in the last four years, it is actually exactly that principle working. Because it was the absolute manifest lack of development of the old world order which caused the impulse of China and the spirit of the New Silk Road having caught on that now many nations of the world are absolutely determined to have a development giving a better life to all of their people.

Now, I think that the New Silk Road is a typical example of an idea whose time had come; and once an idea is in that way becoming a material reality, it becomes a physical force in the universe.

Now the Chinese Ambassador to Washington, Cui Tiankai, recently made the point, that there were 16 times in world history, when a rising country would surpass the dominant country up to that point. In twelve cases it led to a war, and in four cases the rising country just peacefully took over. He said that China wants neither, but we want to have a completely different system of a "win-win" relationship of equality and respect for each other.

Obviously, the most important question strategically, if you think about it, is that we can avoid the so-called Thucydides trap. That was the rivalry between Athens and Sparta in the 5th Century BC, which led to the Peloponnesian War and the demise of ancient Greece. If this were to occur today between the United

States and China in the age of thermonuclear weapons, I think nobody in their right mind could wish that; and therefore, we should all be extremely happy that Trump and Xi Jinping have developed this very important relationship. I stuck my neck out

in the United States in February of this year by saying, if President Trump manages to get a good relationship between the United States and China, and between the United States and Russia, he

will go down in history as one of the greatest Presidents of the

United States. Naturally, everybody was completely freaked out

because that is not the picture people are supposed to have about

Trump. But I think if you look at what is happening, you will see that Trump is on a very good way to accomplish exactly that.

So, he came back from this Asia trip with \$253 billion worth of deals with China. I watched the press conference of the Governor of West Virginia, Jim Justice, where he said that now,

because of China, there is hope in West Virginia. West Virginia

is a totally depressed state; they have unemployment and a drug

epidemic. But he said now we can have value-added production, we

will have a bright future. So, the spirit of the New Silk Road

has even caught on in West Virginia. Obviously the United States

has an enormous demand for infrastructure, especially now after

the destruction of all these hurricanes; which just to restore what has been destroyed requires \$200 billion, not even talking

about disaster prevention. So, this is all on a good way that China will invest in the infrastructure in the United States, and

vice versa; US firms will cooperate in projects of the Belt and

Road Initiative.

So, just think about it, because almost everything I'm saying goes against everything you hear in the Western media.

But think: From whom comes the motion for peace and development?

Is it coming from those who attack Putin, Xi, and Trump? And those who side with Obama? It's obviously time for people to rethink how the Western viewpoint is on all of these matters.

Or

change the glasses which they have to look at the world.

OGDEN: So, as you heard from Helga Zepp-LaRouche, that was just a short excerpt from her speech, but she said we have to change the glasses through which we look at the world. That's what she did really with the entirety of her keynote address; which was an hour long. It is available on the [newparadigm.schillerinstitute.org](http://newparadigm.schillerinstitute.org) website right now; but she really did change the glasses, through which people should see the

world; both by reviewing what the strategic breakthroughs have been in terms of the New Silk Road dynamic which has been sweeping the planet and supplanting this outmoded and failed geopolitical world order which has brought the world really to the edge of what she said; this Thucydides trap and the danger of

thermonuclear war. But she also did some very extraordinary; she

took the audience back through the history of the relationship between the Confucianism of China and the Leibnizian philosophy

of Europe. This was the best of European culture, and really the

consolidation of the Renaissance culture of Europe. What Gottfried Leibniz was able to do in his time, recognizing the failures of European culture due to the kinds of rivalries between these warring empires and what had really turned into a

corruption and a rot at the core of the European system at that

time; he said the future can be secured if we recognize the best

of European culture – the Christianity and the heritage of the Greek philosophy which built European culture; but put this together with the aspects of Chinese Confucianism which are in fact harmonious with the best of the ideas of European philosophy. He pointed out, that the idea of an understanding of

the pre-established harmony between man's creative mind and the

created universe is something, which indeed is recognized in Leibnizian European philosophy; but is also at the core of Confucian philosophy.

Helga Zepp-LaRouche said that in a very real way, Xi Jinping has reflected a profound understanding of this kind of harmonious

relationship between man and the created world, and also between

the nations of this planet, and has given it a substance; actualized this idea through the form of the New Silk Road. She

also reviewed the history of her husband's – Lyndon LaRouche's – role in creating the basis of the ideas that are now taking their form in this New Paradigm of development coming out of China and the Belt and Road Initiative. She traced it all the way back to a paper that Lyndon LaRouche had written in the 1970s

about the development of Africa, and the fact that his ideas – which were at the core of that vision – are now what are

actually taking place in Africa and other nations that are being

touched by the Belt and Road Initiative. Again, this is an extraordinary keynote address, and we would encourage you to watch the speech in its entirety.

But after Helga LaRouche's keynote, the conference – which was a two-day conference – unfolded; and it was a series of extraordinary panel after extraordinary panel. The first panel

was titled "The Earth's Next Fifty Years"; obviously taking that

from the title of a wonderful book that was published by Lyndon

LaRouche over a decade ago. But this panel began with a keynote

by Professor He Wenping, who's the Director of African Studies at

the Chinese Academy of Social Sciences in Beijing. The speech was "President Xi's Perspective for the Year 2050 and the Perspective of African Development". That was followed by the former Transport Minister of Egypt, who gave a speech called "Integration of Egypt's Transportation Plans 2030 with the New Silk Road Project". Then, there was a statement from George Lombardi, who is the former social media consultant to President

Donald Trump; and his speech was titled "The Trump Administration: Impending Economic Policies and Media Discord".

Then that panel concluded with a speech by Marco Zanni, who is a

member of the European Parliament from Italy. His speech was titled "A Future for Europe after the Euro".

Panel I was followed by Panel II, which was the second panel of the first day, which was titled "The Need for Europe To Cooperate with China in the Industrialization of Africa and the

Middle East; Transqua as the Rosetta Stone of the Continent's

Transformation". This began with an extensive speech by Hussein Askary, who is the Southwest Asia coordinator for the Schiller Institute. This was on "Extending the Silk Road into Southwest Asia and Africa; A Vision of an Economic Renaissance". The bulk of this is also actually included in a new Special Report that is just been published by the Schiller Institute, that was jointly written by Hussein Askary and Jason Ross. He was followed by the Foreign Director of the Bonifaca S.p.A., Italy, company, which is actually involved with China in building this Transaqua project. It's called the Italy-China Alliance for Transaqua. Then, the General Consul to Frankfurt from Ethiopia spoke – Mehreteab Mulugeta Haile. The title of his speech was "The Need for Europe to Cooperate with China in the Industrialization of Africa". Then that panel concluded with a speech by the Executive Manager of Pyramids International called "Egypt's 2030 Mega Projects: Investment Opportunities for Intermodal and Multimodal Connectivity". The third panel took place on the second day of the conference, and that panel was titled "Europe As the Continent of Poets, Thinkers, and Inventors: An Optimistic Vision for the Future of Europe". It was keynoted by Jacques Cheminade, who's the former Presidential candidate in France. His speech was titled "What Europe Should Contribute to the New World Paradigm". Then, Dr. Natalia Vitrenko, who's the chairwoman of the

Progressive Socialist Party of Ukraine, gave a speech – “China’s Initiative from the Doom of Self-Destruction, to Prosperity and Progress; A View from Ukraine”. Then, a speech from a representative from Serbia; an author and journalist named Dr. Jasmina Simic. Her speech was titled “One Belt, One Road – An Opportunity for Development in the Western Balkans”. Then that panel concluded with a speech from Bulgarian Academy of Sciences Professor Mariana Tian – “Bulgaria’s Contribution to the Belt and Road Initiative”. There were also two other speeches; the chair of the Anglo-Hellenic and Cypriot Law Association, and the founding Director of the China Africa Advisory. Then, the concluding panel of the entire conference, Panel IV; “The System We Live in Is Not Earthbound – Future Technologies and Scientific Breakthroughs”. This was keynoted by Jason Ross, scientific advisor to the Schiller Institute. His speech was titled “The Scientific Method of LaRouche”. He was followed by Prof. Dr. Helmut Alt, from the University of Applied Sciences in Aachen; who gave a speech – “Energy Transition; From Bad to Worse”. Then that concluded with Dr. Wentao Guo, from Switzerland – “Current Situation of High Temperature Gas-Cooled Reactors in China”. Then there was an extensive Q&A period after that, in which there was very important input from the audience. The attendees at this event – which you could see just from the speaker’s list alone – represented countries from Western Eurasia, from

Central Europe, from Africa, from the United States, from Western Europe, from Scandinavia, from really literally all over the world.

This was an extraordinary conference.

There was a resolution that was adopted at the concluding of the conference that I'd like to put on the screen here [Fig. 1].

The resolution is taking a note from what China has committed itself to – eliminating poverty by the year 2020 in China. So,

this is the resolution adopted by the Schiller Institute conference in Bad Soden, Germany:

"At this conference, with the title 'Fulfilling the Dream of Mankind,' we discussed the incredible transformation of the world

catalyzed by the Chinese initiative of the New Silk Road. The Belt and Road Initiative, which is creating optimism in Asia, Africa, Latin America, more and more states in Europe, and after

the state visit of President Trump in China, in several states within the United States.

"The Belt and Road Initiative has the concrete perspective on how poverty and underdevelopment can be overcome through investment in infrastructure, industry and agriculture, based on

scientific and technological progress. The Chinese government which uplifted 700 million out of poverty in the last 30 years,

has now proclaimed the goal to lift the remaining 42 million people living in poverty out of their condition, and create a decent living standard for the entire Chinese population by the

year 2020.

"Within the European Union, there are living approximately

120 million people below the poverty line, according to our own criteria characterizing the costs of life. Given the fact that Europe is still an economic powerhouse, there is no plausible reason why Europe cannot uplift these 120 million people out of poverty by the year 2020, as well. The best way to accomplish this is for the EU, all European nations, to accept the offer by China to cooperate with China in the Belt and Road Initiative on a ‘win-win’ basis.

“We, the participants of the Schiller Institute conference, call on all elected officials to join this appeal to the European governments. Should we in Europe not be proud enough to say, if the Chinese can do this, we can do it, too?”

As you can see here, [newparadigm.schillerinstitute.com](http://newparadigm.schillerinstitute.com), that is the location of the proceedings of this conference which will be published as they’re prepared; but also, that resolution that I just read to you, is available on that website –[newparadigm.schillerinstitute.com](http://newparadigm.schillerinstitute.com) – and it’s collecting signatures. It’s something that you can add your name to and you can circulate that. Obviously, it applies not only to Europe, but applies to the United States as well; this goal of eliminating poverty by building infrastructure and high technology projects to increase the living standards and the productivity of our populations; as China is doing through the Belt and Road Initiative. This is what can be accomplished in the United States. We’ll review a little bit of that. I do want to note that Helga Zepp-LaRouche made a special notice of the statement by West Virginia Governor Jim Justice

after he secured \$87 billion in joint investment into the state of West Virginia; which is greater than the entire GDP of that state. This accomplishment is really the spirit of the New Silk Road, which is now sweeping through the world and has even taken hold in our very own state of West Virginia here in the United States.

Now, let's look at the extraordinary rate of developments that have occurred since this conference happened in Frankfurt, Germany last weekend. This is part of putting on those new glasses that Helga LaRouche talked about in order to see the world as it really is; not to see the world through the kind of spin and propaganda that you're inundated with on a daily basis by the media. If you were following the media, you would think, that the only issue on the table, are the series of sex scandals that are coming out from celebrities and news anchors and so forth and so on. And you would miss the fact that we are literally living in the absolute epicenter right now in history of a total paradigm shift in the history of mankind.

So, let's look at this extraordinary rate of developments. This conference, obviously, in Europe – the Schiller Institute conference – took place right on the heels of President Trump's extraordinarily successful trip to Asia; where he had his state visit-plus visit with President Xi Jinping in China. And the \$250 billion worth of deals that were signed there for joint investments, the fact that President Xi Jinping put directly on

the table the idea of the United States and US businesses collaborating with the Belt and Road Initiative, and the fact that President Xi Jinping and President Trump solidified a very

close personal relationship and really ushered in a new era of US-China collaboration. After that, just during the course of the last five days, you've seen what was just mentioned there in

the resolution from the Frankfurt conference; that nations of Europe are now beginning to reach out and reciprocate the hand of

friendship that's coming from China to participate in the Belt and Road Initiative.

This is taking place most significantly in the more impoverished countries of Eastern and Central Europe. We have the just-concluded 16+1 talks, which occurred in Budapest, Hungary. This is the meeting of the so-called CEEC, or the Central and Eastern European Countries – those are the 16; and then the +1 is China. So, this is the 16+1, the Central and Eastern European Countries plus China. What was discussed at this conference was the further coordination between these countries of Eastern Europe and the Chinese, especially on the idea of the Belt and Road Initiative; the New Eurasian Land-Bridge as it was termed by Helga and Lyndon LaRouche back in

the 1980s. The core feature of that proposal back in the end of

the 1980s, which gave birth to this idea of the Eurasian Land-Bridge, was the idea of taking these Eastern European countries – what had been formerly part of the Soviet Union or the Soviet space – and taking what was an under-developed area of Europe and developing it through bridging Western Europe with

Russia and then beyond through these kinds of transportation corridors and high technology development grids. That's exactly

what China was discussing with these countries in Eastern

Europe during the 16+1 conference. These are mainly countries such as Hungary, Serbia, Poland, which really this is their conception of themselves; they serve as Europe's front door onto the New Silk Road. As the New Silk Road comes westward across Eurasia, the front door to Europe are these Eastern European countries. They have gone from being on the margins of Europe with under-development and poverty and prolonged unemployment and these other crises, they've gone from being on the margins to being at the very center of this new dynamic which is sweeping from the East.

This is referred to in Hungary as their "eastward opening"; that Hungary's future is to orient towards this new era of development which is coming from Eurasia, rather than orienting towards the collapsing system of Western Europe and the failed EU. Zhang Ming, who's China's ambassador to the European Union, published an article that was published immediately prior to the 16+1 meeting on November 27th, in which he emphasized the central role of the Belt and Road Initiative in China's policy towards Europe. He said, "As China and Europe work together to synergize the Belt and Road Initiative, the 16 CEEC countries will play a more prominent role as a hub which connects Asia and Europe. Faster development in CEEC countries contributes to a more balanced development across Europe and European integration." So, in other words, the faster development of these impoverished countries in Central and Eastern Europe will be a "win-win"

for everybody involved. He used these words, that these countries will serve a “prominent role as a hub which connects Asia and Europe.”

Then as Hungarian Prime Minister Viktor Orban stated a few weeks ago – and he was the host of this meeting in Budapest, Hungary obviously – but this was a statement that he made back in October. This is absolutely to the point of what we’re discussing on this webcast today; this idea that the Belt and Road Initiative is now the irresistible and dominant dynamic on

this planet. This is a quote from Prime Minister Orban: “The world’s center of gravity is shifting from West to East.

While

there is still some denial of this in the Western world, that denial does not seem to be reasonable. We see the world economy’s center of gravity shifting from the Atlantic region to

the Pacific region. This is not my opinion, this is a fact.”

Now incidentally, that quote, that statement by Prime Minister Orban, is exactly the point that Lyndon LaRouche made in

this book; this very prescient book that he published over a decade ago called {Earth’s Next Fifty Years; The Coming Eurasian

World}. In that book, Mr. LaRouche said the dominant dynamic of

the world is going to be the rising countries of Asia; these are

where the most concentrations of population are, this is the fastest rates of growth. And this is where the world’s center of

gravity is shifting economically; the coming Eurasian world, or

the Pacific-centered world. So, this is a direct echo of exactly

what Lyndon LaRouche said way back when before any of this

economic miracle took place. But Mr. LaRouche was very prescient on that fact.

Now, while a number of leading European press outlets have been doing exactly what Viktor Orban said – denying this fact; trying to deny this inevitable fact that the center of gravity has shifted from West to East. You had, for example, the {Financial Times} ran an extensive article headlined “Brussels Rattled As China Reaches Out to Eastern Europe”; obviously just

hysterical that these Eastern European countries are now oriented towards the Belt and Road Initiative. Despite that fact, there

are some leading circles in Europe who are, indeed, recognizing

that Europe's future lies in joining this New Paradigm.

Obviously, that could be seen from this extensive speaker's list

at the Schiller Institute conference in Frankfurt; but there was

another very significant conference that occurred just a few days

later this week in Paris. This was the first annual Paris Forum

on the Belt and Road Initiative; so it's going to take place very

year. This is the first annual event. It was co-organized by the Chinese embassy and the French Institute for International and Strategic Affairs – IRIS is their acronym. This is the third largest think tank in Paris. The founding director is Pascal Boniface, who is very positive in terms of his attitude towards this idea of France and Europe as a whole joining with the Belt and Road Initiative. There were some 400 people in participation at this very important event. There were think tanks, there were civil servants, people from the French government, there were heads of different French companies –

CEOs – retired military, there were cultural figures, and there were media who attended. Among them, the forum was addressed by the Chinese Ambassador to France, Zhai Jun. He put directly on the table, France, Europe should join this new emerging paradigm, this Belt and Road Initiative. This goes directly along with the attendance by Raffarin, the former Prime Minister of France to the Belt and Road Forum that occurred this past Spring in Beijing. There have been other prominent figures inside France who have done exactly what these people have done at this very significant event, and said “Look, this is the future of the world economy. The center of gravity has shifted, and we better get on board.” This was also the subject, by the way, of Jacques Cheminade’s speech at the Schiller Institute conference; and this is something that he’s been in extensive conversation with, with numerous leading figures inside France as part of his Presidential campaign. He even met with the former President of France, Francois Hollande, while he was President at the Elysée Palace and discussed exactly this idea. So, as you can see, the movers and shakers behind this, the ideas which are driving history, are really the leaders and the collaborators of the LaRouche Movement worldwide. Let me shift focus now. We’re continuing to catalog the extraordinary rate of developments that have occurred just over

the last five days since this extraordinary conference in Frankfurt. Let's shift focus now to Latin America. We had the

11th China-Latin America-Caribbean Business Summit, which happened in Uruguay; actually it's still happening. It started

yesterday, and it's going through this Sunday, so it's a four-day

conference. This was to discuss the idea of how Western Hemisphere countries, especially countries in South and Central

America, can participate in China's One Belt, One Road Initiative. Whereas this is the 11th annual conference between

the Central and South American countries and China, this was by

far the largest of these conferences to have taken place.

There

were over 2500 people in attendance, which included high-level businessmen, government officials, and policymakers from all over

Latin America. One of the plenary sessions which took place at

this conference was titled, "A New Vision of Collaboration Among

China, Latin America, and the Caribbean in the Framework of the

One Belt, One Road Strategy". So, that's explicit; this is the

idea of Latin American joining the New Silk Road.

Just because we're discussing Latin America, there was a wonderful sentiment which was voiced by Chilean President Michelle Bachelet. This was a speech that she gave on November

23rd at the celebration of the 10th anniversary of the founding

of the Confucius Institute in Chile. She said, "The world is

orienting more than ever towards China and the Pacific Basin. Therefore, we know very well that our relationship with China and the Asia-Pacific in particular, is crucial for us to fulfill our destiny." She said, "Chile's relationship with China goes well beyond trade ties. It is one of our primary political partners on the path to opening integration and cooperation for progress."

Then Michelle Bachelet said after she retires as the President of Chile, she intends to study the Chinese language in depth. So, that's a commitment that perhaps all heads of state should make, as we recognize that the center of gravity of the world's strategic and economic reality is shifting towards China. We did

see that from President Trump's granddaughter, Arabella Kushner – that's Ivanka's daughter – where she recorded the song in Mandarin Chinese. A video of her singing a song in Mandarin Chinese, and sent that as a goodwill offering to President Xi Jinping in China.

And one more item I should just note. This is a yet-unconfirmed report, but it's very credible, that Japan – now we've shifted from Europe to Central and South America, and now we're in the Asia Pacific. Japan is actively considering joint projects with Chinese companies on building the One Belt, One Road. This is hugely significant, judging by the historic conflicts between Japan and China, which have been played on by

these Western geopoliticians for decades; to try to keep these two extraordinarily significant countries from collaborating.

If

Japan and China collaborate on the Belt and Road Initiative, this

is a dynamic which is absolutely unstoppable. There was an article in a Japanese paper titled “Government To Help Japan, China Firms in Belt and Road”. It reports that the Abe government is considering supporting companies to carry out joint

projects with Chinese companies along the Belt and Road. I think

underscoring this fact, as I stated in the beginning of today's

broadcast, that the Belt and Road is an absolutely unstoppable and irresistible dynamic; which has now become dominant and is something which cannot be ignored. Underscoring that fact that,

indeed, this New Silk Road is the dominant irresistible dynamic

on this planet, here's a statement from the {Global Times} which

is absolutely to the point. It says “Generally speaking, Japan's

economy has been always greatly dependent on overseas markets. So, for the sustainable development of its economy, Japan needs

access to the business opportunities offered by the vast infrastructure projects along the Belt and Road route.”

So, this is the sentiment that's being expressed by everybody. We go from the hosts of this first annual conference

on the Belt and Road Initiative in Paris. Look at what Viktor Orban said at the 16+1 conference in Budapest, Hungary. Look at

what Michelle Bachelet said in Chile at the Confucius Institute.

Look at the statements that were made at this Central and South American-China Business Forum. Look at what's now being said in Japan. Look at the statements that were made at the Schiller Institute conference in Frankfurt. And look at what was done by President Trump during his trip to China, and the summit that he had with President Xi Jinping. Everything is being shaped by this initiative, by the New Silk Road; by this initiative which is coming out of China for "win-win" mutually beneficial cooperation on great project development for the entire planet.

This is the dominant of the future.

As Helga Zepp-LaRouche said, you need to put on the new set of glasses to be able to see reality as it really is; not through the skewed mirrors and the propaganda which is coming out of the Western media. I think that perhaps the best statement, and the most candid statement of all – of all of these statements about the reality of this future dynamic – and why the United States and Europe and South America and Asia need to jump on board with the New Silk Road, need to join with this new dynamic and catch this spirit of the New Silk Road; probably the best and most candid of those statements came out of Governor Jim Justice from West Virginia during his press conference that he gave there at the state capital, announcing this extraordinary \$87 billion deal

between China and the state of West Virginia. Here's what Governor Jim Justice had to say:

GOVERNOR JIM JUSTICE

: And I would say to all of you all that may be doubters that this could become a reality, "Don't get on the wrong side of it." Because, really and truly, it's a comin'. It's a comin'."

OGDEN: "It's a comin'." I would say to all the doubters, "this could become a reality, 'Don't get on the wrong side of it.' Because it's a comin'," he said. "It's a comin'." So, that was actually from the conclusion of a really wonderful and

important video that was just put on the LaRouche PAC website this week, all about West Virginia. West Virginia, which as Helga LaRouche said, is known across the country right now as the

epicenter of poverty, unemployment, drug epidemic overdoses, and

just general backward economic conditions. West Virginia could

now become the cutting edge and the economic driver of the entire

Appalachian region here in the United States because of this "win-win" investment that came from China. So, I would encourage

you to watch that video in full on the LaRouche PAC website. But let me just say, this is an extraordinary rate of development of events that have occurred over the past five days.

I think that anybody who is looking at the reality soberly and with clarity will see that, indeed, the efforts of the LaRouche

Movement over the past several years to put this question on the table; to put this idea of a New Paradigm of economic cooperation

and “win-win” development, this New Silk Road – this Eurasian Land-Bridge, this World Land-Bridge idea. Put that on the table

and to shape all of the discussions that are occurring at the highest levels of policymaking worldwide around that idea. I think that truly is becoming the dominant dynamic, and it's a testament to the fact that a small handful of people with very powerful ideas, can indeed be very successful in shaping the course of world history.

Now, I would say that what Helga LaRouche began, those remarks that I played at the beginning of the show; this idea of

the greatest, the best of all possible worlds – what Gottfried Leibniz had to say. This is an understanding of how the universe

corresponds to the creative will of mankind. That there is a principle of good that is behind the creation, the creation of the universe; and that principle of good corresponds with the creative nature of mankind. And when mankind acts on that creative quality, and acts for the benefit of the greatest number

of possible people, the greatest possible General Welfare; acts

on the basis of this principle of good, that the universe corresponds and, indeed, responds. Because of this harmony, this

pre-established harmony which Leibniz discussed. That was at the

core of his understanding of the best of all possible worlds. So, with that axiomatic understanding of the philosophical nature of what this effort is all about – to bring about a New Paradigm of human relations on this planet – let's conclude with

the concluding quote from Helga Zepp-LaRouche during her keynote

at that Schiller Institute conference in Germany. Helga Zepp-LaRouche said the following: "If we revive the Classical culture of all nations, and enter a beautiful dialogue among them, mankind will experience a new renaissance and unleash an enormous creativity of the human species like never before. "So, it is very good to live at this moment in history and contribute to make the world a better place. And it can be done,

because the New Paradigm corresponds to the lawfulness of the physical universe in science, Classical art, and these principles. What will be asserted is the identity of the human

species as {the} creative species in the universe."

So, as Helga Zepp-LaRouche said, it is very good to live at this moment, and to contribute to this New Paradigm which is now

emerging on this planet, and to contribute to the good of mankind.

So, thank you very much for joining us here today. We strongly encourage you to not only watch Helga Zepp-LaRouche's keynote address in its entirety, but to stay tuned to that Schiller Institute channel as all of these panels, all of these

videos, all of these presentations are produced and put up on the

website for you to watch in their entirety. So, thank you for joining in, and let's continue to spread the spirit of the New Silk Road. Thank you and good night.

# **»Den Nye Silkevej er en ny model for internationale relationer«**

## **Hovedtale af Helga Zepp-LaRouche på Schiller Institut konference, 25.-26. nov., 2017, Frankfurt, Tyskland:**

### **»At opfylde menneskehedens drøm«**

*Jeg mener, at den Nye Silkevej er et typisk eksempel på en idé, hvis tid er kommet; og når en idé på denne måde først er ved at blive en materialistisk virkelighed, bliver den til en fysisk kraft i universet. Jeg har personligt haft mulighed for at se udviklingen af denne idé, der på mange måder reelt set begyndte med dette store menneske – min ægtemand, Lyndon LaRouche; der, for mange årtier siden – for næsten et halvt århundrede siden – fik ideen om en ny, retfærdig, økonomisk verdensorden. Dette blev dernæst mere manifest i 1970'erne, '80erne og især i 1991, da Sovjetunionen opløstes, og hvor denne idé om at skabe en ny, retfærdig, økonomisk verdensorden blev meget fremtrædende.*

**Vedtaget på Schiller Instituttets internationale konference, 25.-26. nov., 2017**

*I den Europæiske Union lever omkring 120 millioner mennesker under fattigdomsgrænsen, ifølge vore egne kriterier, der karakteriserer leveomkostningerne. I betragtning af, at Europa stadig er et økonomisk kraftcenter, er der ingen acceptabel grund til, at Europa ikke også skulle kunne løfte disse 120 millioner mennesker ud af fattigdom frem til år 2020. Den bedste måde, hvorpå dette kan opnås, er ved, at EU og alle europæiske nationer tager imod Kinas tilbud om samarbejde med Kina om Bælte & Vej Initiativet på en »win-win«-basis.*

**RESOLUTION: »Europa må ende fattigdom for sine 120 millioner fattige frem til år 2020«**

Resolution vedtaget på Schiller Instituttets internationale konference i Bad Soden, 26. nov. 2017.

Helga Zepp-LaRouche: Hvis der ikke er flere spørgsmål, vil jeg gerne oplæse mit forslag til denne resolution, som jeg gerne vil have, I vedtager – eller én af dem.

På denne konference, der havde titlen, »At opfylde menneskehedens drøm«, drøftede vi den utrolige transformation i verden, der er blevet katalyseret af det kinesiske initiativ for den Nye Silkevej; Bælte & Vej Initiativet, der skaber optimisme i Asien, Afrika, Latinamerika, flere og flere stater i Europa og, efter præsident Trumps statsbesøg til Kina, i flere stater i USA.

Bælte & Vej Initiativet har det konkrete perspektiv for, hvordan fattigdom og underudvikling kan overvindes gennem investering i infrastruktur, industri og landbrug, baseret på videnskabelig og teknologisk fremskridt. Den kinesiske regering, der i løbet af de seneste 30 år har løftet 700 millioner mennesker ud af fattigdom, har nu bekendtgjort målet om at løfte de tilbageværende 42 millioner mennesker, der lever i fattigdom, ud af denne tilstand og skabe en anstændig levestandard for hele den kinesiske befolkning frem til år 2020.

I den Europæiske Union lever omkring 120 millioner mennesker under fattigdomsgrænsen, ifølge vore egne kriterier, der karakteriserer leveomkostningerne. I betragtning af, at Europa stadig er et økonomisk kraftcenter, er der ingen acceptabel grund til, at Europa ikke også skulle kunne løfte disse 120 millioner mennesker ud af fattigdom frem til år 2020. Den bedste måde, hvorpå dette kan opnås, er ved, at EU og alle europæiske nationer tager imod Kinas tilbud om samarbejde med Kina om Bælte & Vej Initiativet på en »win-win«-basis.

Vi, deltagerne på Schiller Instituttets konference, opfordrer alle folkevalgte personer til at tilslutte sig denne appell til

de europæiske regeringer. Skulle vi i Europa ikke være stolte nok til at sige, at, hvis kineserne kan gøre dette, så kan vi også? [applaus]

**RESOLUTION: »For en afslutning af krigen og den humanitære krise i Yemen«**

26. nov., 2017 – Deltagerne på Schiller Instituttets internationale konference i Bad Soden, Tyskland, vedtog enstemmigt følgende resolution om krigen i Yemen:

»I betragtning af den dokumenterede kendsgerning, at krigen mod Yemen, der er blevet ført af den saudisklede koalition siden marts 2015, har været årsag til en humanitær krise uden sidestykke i dette land som resultat af bombardement af landets infrastruktur og den totale blokade til lands, til vands og i luften, der er gennemført, kræver deltagerne på Schiller Instituttets internationale konference i Bad Soden, Tyskland, den 25.-26. nov., 2017:

1. En øjeblikkelig våbenstilstand mellem alle parterne;
2. Ophævelse af blokaderne mod landet, især mod havnen i Hodeida og den internationale lufthavn i Sana'a, og som muliggør omgående humanitærhjælp til landet;
3. En tilbagevenden til den nationale forsoningsproces og dialog, som var i gang, men som blev afbrudt af krigen. (Denne forhandlingsproces må føres under FN-regi og udelukkende mellem nationale, yemenitiske grupperinger uden indblanding fra regionale eller globale magter, men sponsoreret af Rusland, Kina og USA som garanter for gennemførelse af det sluttelige resultat af dialogen.) Formålet med sådanne forhandlinger er at finde en politisk løsning på krisen i Yemen.
4. At hjælpe Yemen med en hurtig og storstilet genopbygningsproces, der fokuserer på infrastrukturprojekter for at genvinde nationens

levebrød og Yemens integration i Bælte & Vej Initiativet.«

**Helga Zepp-LaRouche:**  
**»Vi er endnu ikke i smult vande!«**

**Nyt paradigme webcast torsdag,**  
**23. nov., 2017, kl. 18 dansk tid**

Efterklangen af præsident Trumps tur til Asien og til Kina i særdeleshed rusker fortsat op i amerikansk og global politik i takt med, at flere politiske »mainstream«-personer og tænketanke nu lægger mærke til det; nogle synes endda at være blevet vundet over til den Nye Silkevejsånd. Trump sagde til sin regering, at hans tur til Asien var »en historisk 12 dage lang rejse«, med »aftaler til en værdi af over \$300 mia. ... [hvilket] betyder jobs på et meget højt niveau i USA«.

Kina og Rusland, de to lande, med hvilke Trump ønsker at øge samarbejdet, fortsætter med at gå ind i betydningsfulde, diplomatiske og økonomiske initiativer for at fremme fredeligt samarbejde og fredelig udvikling, og med nye forslag, der kommer fra dem bogstavelig talt hver dag.

Alligevel, som Zepp-LaRouche sagde mandag, »er vi endnu ikke i smult vande«. Man kan se en britisk imperiehånd i Mellemøsten, med krigssnak, der kommer fra Israel og Saudi-Arabien; og finanssystemet er fortsat »én dårlig handel« fra den totale nedsmeltning. Og, som Helga udtalte i sidste uges webcast, så er kansler Merkels forsøg på at sammensætte en »Jamaica-koalition« kollapset, hvilket vil sige, at Tyskland vil være uden en reel regering i denne mulighedernes, og krisernes, tid.

Lyt til vores webcast torsdag og få en ugentlig, strategisk opdatering fra fr. LaRouche.

## **Vil vi stadig være barbarer om 10.000 år, eller vil vi være mennesker?**

*Leder fra LaRouche PAC, USA, 21. nov., 2017 – Mens City of London og Wall Street er travlt beskæftiget med et sidste, desperat forsøg på at genanvende deres finanssystem, der ikke kan genanvendes, ved hjælp af en ECB-plan for bail-in, der er udarbejdet for at gibe alle finansielle aktiver for sig selv – deres tidlige »Cybern-model« i stort format – så orkestrerer Rusland, Kina og allierede nationer i stedet en overordnet handleplan for Mellemøsten og for global stabilisering og fred, som det indikeres i det, man kunne kalde en »Syrien-model«.*

Vi refererer til drøftelserne den 21. november i Sotji, Rusland, mellem den besøgende syriske præsident Bashar al-

Assad og den russiske præsident Vladimir Putin, samt Ruslands militære topkommando, og hvor de diskuterede deres succesfulde samarbejde for at bringe Syrien tilbage fra afgrunden. Helga Zepp-LaRouche beskrev i dag dette bevægende møde med sine kommentarer:

*»Dette er en utrolig idé, for på to år er en fuldstændig håbløs situation blevet vendt omkring. Det syriske folk har gennemlevet utrolige, menneskelige lidelser og har været utsat for enorme prøvelser, men er kommet sejrrigt ud af det.«*

Hvis dette kan opnås i Syrien, et mikrokosmos af de værste rædsler, som er blevet skabt af en døende verdensorden for geopolitik og uplyndring, er der intet til hinder for, at en tilsvarende total vending ikke skulle kunne opnås på globalt plan, hvor vi opbygger et nyt paradigme omkring Kinas Bælte & Vej Initiativ som hovedhjørnesten. Helga Zepp-LaRouche opsummerede den strategiske situation som følger:

*»Hoveddynamikken for forandring må komme fra USA. En opfølgning af Trumps besøg i Kina er det, der vil afgøre situationen. Dette er et enestående øjeblik i menneskehedens, og ikke blot USA's, historie. Det er denne opfattelse, vi skal have igennem til befolkningen.*

*Der er et enormt potentiale. Man ser det i den dynamik, der demonstreredes mellem Xi Jinping og Donald Trump, som var et historisk møde. Man ser det i det faktum, at Panama nu tilslutter sig Kina med Bælte & Vej Initiativet og med Panamas præsident, der udtaler, at dette er den vej, hele Latinamerika vil gå. Det findes i tilnærmelsen mellem Japan og Kina; i Astana-Putin-processen for konsolidering af situationen i Syrien og videre endnu; og i de dybtgående forandringer, der er i gang i Afrika gennem Kinas investeringer dér.*

*Alle disse elementer bevæger sig i en meget positiv retning. Men, Damoklessværdet, i form af et muligt finanskrak, hænger stadig over verden. Instrumenterne for at bevæge USA i retning*

*af Lyndon LaRouches Fire Love eksisterer, men de er endnu slet ikke tilstrækkelige. Potentialet er helt klart til stede og har aldrig været større end nu. Men det ville også være en stor fejltagelse at tro, at vi allerede har vundet, blot fordi vi har været med til at skabe dette potentiiale. Og før, vi har opnået en total sejr for det Nye Paradigme, bør vi ikke have et roligt øjeblik«,*

erklærede Zepp-LaRouche.

Hun konkluderede:

*»Vi bør heller ikke give efter for ideen om, at vi har brug for et eller andet 'nationalt udtryk' for sund interesse. Vi må virkelig kæmpe med folk for, at det, vi har brug for, er et Nyt Paradigme; en fuldstændig ny ramme for relationer, hvor geopolitik slet og ret smides ud af vinduet. For, vi bør definere menneskeheden ud fra fremtiden, fra 10.000 år fra i dag, med et tilbageblik på nutiden: Hvordan ønsker vi at leve om 10.000 år fra i dag? Vil vi da stadig være barbarer, eller vil vi være mennesker?«*

# **Helga Zepp-LaRouche om præsident Trumps Asientur og det nye paradigme Schiller Institut Nyt Paradigme Webcast, 16. nov., 2017; dansk udskrift**

*Dette webcast har til formål at gøre folk aktive; gå med i Schiller Instituttet; hjælp os med at udbrede den idé, at en ny relation mellem nationer absolut er mulig og allerede er ved at blive til virkelighed. Så sid ikke på sidelinjen. Bliv aktiv sammen med os, for dette er en af de perioder, der har et enormt potentiale. I sidste uge talte vi om Murens fald og den store, historiske chance, dette repræsenterede; men jeg mener, at, hvis man ser på den mulighed, at menneskeheden kan bevæge sig ind i en total ny æra, hvor der er velstand for alle; fred mellem nationer definerer en ny civilisationsæra. Det er min absolutte overbevisning, at, under forudsætning af, at der ikke kommer en stor tragedie som et finanskrak, for hvilken der ikke gennemføres nogen løsning i tide, eller en anden krise, der sparkes i gang omkring en eller anden hændelse, en 'fake' historie; jeg mener, at det nye verdenssyn, denne idé om, hvad Vestens populærkultur er blevet til, eller hele kulturen, hvor alt er tilladt, ingen kriterier, ingen standard, ingen moralskhed; det er noget, der ikke kan holde. Det er en falsk tro, det er en ideologi; det er en afsporing af menneskets sande natur, og jeg tror, det vil forsvinde på samme måde, som skolastikken forsvandt, fordi det var en utilstrækkelig idé, der var knyttet til en bestemt periode i Europas historie i middelalderen. Det forsvandt; i*

*dag har vi ingen skolastikkere, i hvert fald ikke i denne gamle form. Jeg er overbevist om, at vi har en chance for at få en ny renæssance, at få en opløftelse af folk, hvor alle kulturers, alle planetens nationers bedste traditioner bliver genoplivet; og ud af dette kan vi skabe en ny renæssance. Jeg mener, dette er en absolut realistisk mulighed. Så være glad og gå sammen med os!*

# **Helga Zepp-LaRouche opfordrer amerikanere til selv at finde ud af, hvad der virkelig skete på præsident Trumps tur til Kina**

*Leder fra LaRouche PAC, USA, 16. nov., 2017 – Helga Zepp-LaRouche, Schiller Instituttets stifter, opfordrede i dag det amerikanske folk til at se bort fra løgnene og udelukkelserne, som dominerer USA's og Europas medier, om præsident Trumps tur til Kina, og i stedet selv undersøge de historiske begivenheder, der fandt sted. På sit faste, ugentlige Nyt Paradigme-webcast [torsdage] sagde Zepp-LaRouche:*

»Jeg mener, det er meget vigtigt, at vores amerikanske seere og forretningsfolk i hele verden virkelig undersøger dette selv; lad jer ikke nøje med det, medierne rapporterer. Få fat i talerne, der alle er arkiveret; lyt selv til dem. Gå ind på kinesisk fjernsyn.

Dette er virkelig en appell til folks fornuft, om ikke at lade sig narre af medierne og ikke gå i en propagandafælde som under den Kolde Krig. Det modsatte af, hvad medierne beretter, finder sted. Vore lyttere og seere – hvilket vil sige, dig – jeg beder jer om at tage tid til at skaffe jer viden; opbyg jeres egen dømmekraft. I behøver ikke tro på os, men prøv at gå til kilderne og dan jer et indtryk på første hånd af, hvad det er, der virkelig finder sted, og ikke, hvad medierne siger.«

I sit webcast gav Zepp-LaRouche sine seere en kort gennemgang af, hvad der fandt sted på turen:

»Jeg mener, det er begyndelsen til en ny æra for strategiske relationer mellem USA og Kina, som Xi Jinping har sagt. Det, de gjorde for at modtage Trump og give ham den største ære, med karakteristikken 'statsbesøg-plus'; og præsident Xi Jinping sagde endda, at dette var et 'statsbesøg-plus-plus'. De rullede den røde løber ud, så at sige, på en måde, de aldrig har gjort for nogen anden, udenlandsk standsperson siden før Folkerepublikken Kinas eksistens.

»De gjorde det, at de på den første dag introducerede præsident Trump til Kinas gamle kultur. Til dette formål lukkede de af for den Forbudte By i en hel dag, og dernæst holdt de en gallamiddag i en af paladserne. De opførte tre forskellige Beijing-operaer; de viste ham restaureringen af kunst, kunsthåndværk og lignende ting. Præsident Xi var selvfølgelig turguide for det hele. Enhver, der har læst eller lyttet til hans taler, ved, at han er meget dannet inden for kinesisk historie, men også inden for universel historie; så dette er virkelig en utrolig ting. Der var selvfølgelig også

andre aspekter, som handelsaftaler for \$300 mia., men dette var angiveligt kun begyndelsen, og dette beløb ville snart blive tredoblet.

Men jeg mener, at det, der var langt vigtigere – hvor vigtige, de økonomiske aftaler end er, og dette vil jeg ikke ignorere – men jeg mener, det var langt vigtigere med den dybe, menneskelige overensstemmelse mellem disse to præsidenter. Jeg vil gøre noget, jeg ikke normalt gør, men, i betragtning af det faktum, at medierne i den grad har forvrænget det, der har fundet sted på dette besøg – hvis de da overhovedet har rapporteret om det – jeg vil gerne oplæse for jer et citat fra det, præsident Trump sagde i sine kommentarer til denne modtagelse. Han sagde,

'I går besøgte vi den Forbudte By, der står som et stolt symbol på Kinas rige kultur og majestætiske ånd. Jeres nation er et vidnesbyrd om tusinder af års levende historie, og i dag var det en fantastisk ære at blive modtaget af den kinesiske delegation her i Folkets Store Hal. Dette historiske øjeblik byder begge vore nationer på en utrolig mulighed for at fremme fred og fremgang, sammen med andre nationer i hele verden. Med et kinesisk mundhelds ord, 'vi må bære sagen fremad, og skabe fremadrettet ind i fremtiden'. Jeg er overbevist om, at vi kan virkeligøre denne vidunderlige vision, en vision, der vil være så god og faktisk så storstået for både Kina og USA'.

Han forsatte dernæst,

'Så vi kommer fra forskellige steder og fjerne egne. Der er meget, der forbinder Øst og Vest. Begge vore lande blev bygget af mennesker med stort mod, en stærk kultur og ønsket om at forcere uvejsomt, ukendt terræn ind i store farer, som de overvandt. Det amerikanske folk har dyb respekt for jeres lands arv og landets befolknings ædle traditioner. Jeres gamle værdier bringer fortiden og fremtiden sammen i nutiden. Så smukt! Det er mit håb, at det amerikanske og kinesiske folks stolte ånd vil inspirere vores bestræbelser på at opnå en mere

retfærdig, sikker og fredelig verden. En fremtid, der er vore forfædres ofre og vore børns drømme værdig'.

Som et eksempel fremdrog Zepp-LaRouche den nedsættende dækning i den tyske »ansete, autoritative avis«, *Frankfurter Allgemeine Zeitung*, som kaldte den kinesiske behandling af præsident Trump for »pomp og pragt« og »et spil for at føre bag lyset«.

»Det virkelige billede af Trump er ikke det billede, man får fra medierne. Jeg har faktisk aldrig set en sådan skandale og kynisme som det, der nu udtrykkes mod Trump. Lige bortset fra mod min mand, selvfølgelig, og en lignende behandling diskes ud mod præsident Putin og præsident Xi. Men enhver, der har været i den Forbudte By, som har været de kinesiske kejseres palads siden det 15. århundrede – man kan ikke andet end at blive imponeret af den majestætiske arkitektur, skønheden i opbygningen, møblerne og hele fremvisningen af kinesisk kunst. At kalde det 'pomp og pragt' viser blot, hvor fuldstændig uvidende, disse bladsmørere virkelig er.«

Zepp-LaRouche sagde, at løftet om gode relationer mellem Kina og USA, som skabes af præsidenterne Trump og Xi, er presserende nødvendigt. USA har presserende behov for at genopbygge sin infrastruktur og sætte sin industri til at arbejde for menneskehedens fælles interesser. Dette kan opnås, hvis USA tilslutter sig Bælte & Vej Initiativet. I foråret sagde Zepp-LaRouche, at, hvis præsident Trump gik med i Bælte & Vej Initiativet og udbedrede USA's relationer med Kina og Rusland, »kunne han blive én af de største, amerikanske præsidenter nogensinde«. Efter Beijing-turen »gør Trump det faktisk«, sagde Zepp-LaRouche.

# Målestokken for strategisk succes

*Leder fra LaRouche PAC, USA, 14. nov., 2017 – I bemærkninger på Air Force One på vej hjem fra Filippinerne til USA efter sin 12 dage lange, historieskabende rejse til Asien, karakteriserede præsident Donald Trump rejsen som »enormt succesfuld«, og at de indgåede aftaler til en værdi af \$300 mia. snart ville blive tredoblet.*

Men, det er mere end dette.

I et par dusin amerikanske stater – fra Alaska til Vest Virginia og Montana – der har direkte fordel af mange af disse aftaler, er en følelse af lettelse og endda optimisme ved at vende tilbage i takt med, at udsigten til at komme ud af landets lange, økonomiske mareridt begynder at tage form i folks sind.

Men det er også mere end dette.

En kronik i dag i Kinas *Global Times* går endnu videre og proklamerer i sin overskrift, at »USA's deltagelse i Bælte & Vej er uundgåelig« – et initiativ for en politik, der er markant knyttet til Lyndon og Helga LaRouche. Artiklens forfatter, Wang Yawei, direktør for Institut for Internationale Anliggender ved Renmin Universitet, skriver, at handelsaftalerne fra præsident Trumps rejse til Kina »vil gøre det muligt for USA bedre at lære om mulighederne og udsigterne for økonomisk samarbejde. På denne baggrund er tiden inde for USA til at genoverveje en tilslutning til Bælte & Vej Initiativet, der tilbyder større rum for samarbejde«. Forfatteren Wang anbefaler endda, at de to lande kunne arbejde sammen om infrastruktur, måske først i udviklede lande, som i USA's Midtvesten, og at USA og Kina kunne oprette en »global infrastruktur-investeringsbank«.

Men, målestokken for strategisk succes er mere end selv dette.

Vi står, udtalte Helga Zepp-LaRouche i dag, over for en situation med endnu større muligheder end situationen i 1989, hvor Berlinmurens fald åbnede for muligheden for, at menneskeheden kunne erstatte den bankerotte, transatlantiske, gamle orden med en politik for et Nyt Paradigme, som Lyndon LaRouche og hans bevægelse på det tidspunkt specificerede. Denne chance blev på tragisk vis forspildt, har fr. Zepp-LaRouche gentagne gange udtalt.

»Dengang havde vi kun vore ideer«, forklarede hun i dag, »men man havde ingen kræfter, de ville gennemføre dem. Men nu har vi verdens største land, der går i retning af at gennemføre det, allieret med 70 andre lande. Vi har hele udviklingen i Asien, der er totalt domineret af dette nye paradigme. Og denne kendsgerning er nu også ved at slå igennem i USA og Europa.«

Det, vi er oppe imod i denne kamp i dag, er Det britiske Imperiums liberale *establishment* og deres hjernevask af befolkningen gennem organisationer såsom Kongressen for Kulturel Frihed (CCF). »Vi angreb CCF i hele denne periode«, erklærede Zepp-LaRouche. »De formede hele efterkrigstidens kulturelle paradigme. Hele den venstre-liberale elite og dens aksiomer kom fra den kulturelle hjernevask, som udførtes af CCF, der blev finansieret af CIA og Udenrigsministeriet. Og hertil kom, at vi også havde Frankfurterskolen; dernæst havde vi 68'erne; og dernæst blev det 'Grønne' paradigme gennemført. Så hvis man ser på blandingen af hele denne hjernevask, så har man eliten af neo-liberalt etablissement, som nu er ved at gå under, og som flipper ud over Trump og selvfølgelig over Kina og Rusland osv.

»Dette er et forkert livssyn, et forkert syn på verden«, fortsatte Zepp-LaRouche. »De er anti-videnskab, de er anti-klassisk kultur. Ud fra et historisk synspunkt vil de gå under, lige som Middelalderens skolastikkere, fordi de troede

på noget, der ikke var i overensstemmelse med universets love.

Det er vigtigt at tænke over dette, for de er vores modstandere; det er, hvad der ligger bag tankegangen à la [USA's særlige anklager Robert] Mueller, bortset fra et par andre ubehagelige, neo-konservative elementer, og så fremdeles. Grunden til, at de hader os, er på grund af det, Lyndon LaRouche har skrevet. De hader passioneret hans måde at tænke på.«

Zepp-LaRouche konkluderede: »Kampen i USA er helt uafgjort; den kan vindes. Men disse folk er der stadig, så vi må virkelig gå hårdt frem imod dem. Lyndon LaRouches tænkning er så overlegen; vi bør ikke i ét eneste øjeblik falde under denne standard. Så lad os få udsigten til at vinde denne kamp, og denne krig.«

Dette, og intet andet, opfylder hele målestokken for strategisk succes.

»Præsident Trumps Asienrejse**

# **og det Nye Paradigme«**

*14. nov., 2017 – At sige, at præsident Trumps Asienrejse var en historisk succes, er en underdrivelse! Selv om højdepunktet var hans besøg i Beijing og møderne med Kinas præsident Xi Jinping, så var hans møder med andre ledere, inklusive hans udvekslinger med præsident Putin, produktive. Ved hver begivenhed gjorde han det udtrykkeligt klart, at de dage, hvor USA agerede som håndhæver af et unipolært imperium, er forbi.*

Bliv ikke deprimeret eller forvirret over det gamle etablissements gæs, der trutter deres løgne og bagvaskelse mod Trump og dem, der mødtes med ham. Det er ikke andet end de hysteriske skræppelyde fra dem, hvis kollapsende verdensorden befinder sig i sin dødkamp. De kan ikke lykkes med at stoppe momentum for den nye dynamik, der er sluppet løs i verden. Lad dem skræppe – vi må udføre vores job for at sikre, at de bliver overvundet, og at det Nye Paradigme vokser helt frem.

Hvad nu? Hvordan går vi videre frem?

Hør med på Helga Zepp-LaRouches webcast i denne uge, hvor hun vil give os en opdatering af den strategiske betydning af Trumps rejse og skitsere for os, hvordan vi går videre frem.

Leder, Schiller Institututtet og LaRouche PAC, 11. nov., 2017 – Følgende er et svar, Helga Zepp-LaRouche gav på et spørgsmål, stillet af formand for Schiller Institututtet i Danmark, Tom Gillesberg, under diskussionen, der fulgte efter Helgas briefing til Schiller Institututts Venners valgarrangement i København, 10. nov.

*Hendes svar udgør hendes lykønskningsbudskab til festlighederne 11. nov. i anledning af Schillers fødselsdag.*

**Tom Gillesberg:** Da vi begyndte mødet, Helga, kommenterede jeg det faktum, at det i dag er Friedrich Schillers fødselsdag [10. nov. 1759 – 9. maj 1805]. Så jeg mener, det er meget passende at tænke over dette. Og jeg vil gerne spørge dig, Helga: Hvis Schiller var her i dag, hvad mener du så, han ville bidrage med, og hvad kan vi bruge Schiller til i dag?

**Helga Zepp-LaRouche:** Jeg mener, at Schiller ville være meget glad, for grunden til, at Schiller Instituttet hedder Schiller Instituttet – jeg kunne have en indsats for at etablere en bedre relation mellem relationer; jeg kunne have fundet en anden tænker: Leibniz, Cusanus, der er mange, der har gjort utrolige ting. Men jeg har altid ment, at Friedrich Schillers menneskebillede var det mest ædle: Ideen om, at alle mennesker kan blive skønne sjæle.

Som jeg for nylig skitserede i en tale, jeg holdt i New York, så er ligheden mellem konfutsiansk æstetisk opdragelse og Friedrich Schillers æstetiske opdragelse, forbløffende stor. Konfutse, der trods alt levede for 2.500 år siden, og Friedrich Schiller, der levede for over 200 år siden, kom imidlertid begge på den samme idé. Nemlig, at ethvert menneske har potentialet til ubegrænset selv-fuldkommengørelse; til at blive et geni. Og Schillers definition af geni var en skøn sjæl. Hermed mente Schiller, at man finder frihed i nødvendighed, og man gør sin pligt med passion. Ikke som én, der følger Kant, og som siger, »jeg må gøre min pligt« og ser rasende ud, og man er moralsk, men man hader det. Men derimod, at man glæder sig over at gøre det gode.

Jeg finder, at Xi Jinping er i besiddelse af denne egenskab. Jeg har studeret ham, studeret hans taler, hans bog med taler, *The Governance of China*, som I bør læse, som er udgivet dér; men man kan også finde alle hans taler på Google. Jeg kom til den konklusion, at han er en filosof; at han er et

konfutsiansk renæssancemenneske. Og jeg mener, at Schiller ville have været utrolig glad over, at et sådant menneske er statsoverhoved, og at han har strømlinet hele det kinesiske samfund i overensstemmelse med disse ideer.

Jeg er meget optimistisk med hensyn til dette. Jeg mener, den vestlige propaganda er selvfølgelig flippet ud som bare pokker. De siger, »Åh! Xi Jinping er en ny Mao Zedong, endda en ny Stalin. Han koncentrerer al denne magt i sine egne hænder.«

Men undersøger man dette, ser man, at det ikke er tilfældet. Vist er det et meget centraliseret system, men det er et meritokrati; det er helliget folkets almene velfærd, og ikke kun det kinesiske folks, men udtrykkeligt også alle de deltagene landes [i Bælte & Vej]. Så jeg mener, Schiller ville genkende denne idé med at have en vision om en bedre verden, for, når man læser hans Æstetiske Breve, siger han: Man må give sine samtidige mennesker det, de har brug for, og ikke det, de begærer.[1] Man må være en tjener for sit århundrede, men ikke dets slave. Og andre, lignende begreber. Jeg mener, man må have en vision for, hvor man ønsker, menneskeheden skal være i fremtiden.

Det er ideen om, at den menneskelige art har muligheden for at blive forædlet, og dette var en udbredt idé hos Konfutse, og det var ligeledes absolut Friedrich Schillers idé.

Jeg mener, at dette er to meget gode udgangspunkter for at starte en debat om, hvad der er galt med den nuværende liberalistiske kultur, hvor »alt er tilladt«. [i modsætning til] ideen om, at kunst må være skøn. For kun, hvis kunst er skøn, kan den bevæge hjertet og forædle mennesket. Jeg mener, vi har et presserende behov for dette, for, ser man på vore samtidige mennesker, så har de et presserende behov for en æstetisk opdragelse. Og jeg mener, at det er, hvad Schiller Instituttet forsøger at gøre, og man kan ikke nægte, at det, vi hørte i begyndelsen, denne arie, der blev sunget [af Lena

Malkki], er skønnere end det, man kan høre af Madonna. Hun er faktisk det modsatte af det, hendes navn siger; men det vil jeg overlade til jeres bedømmelse.

Helga Zepp LaRouche Addresses Copenhagen Campaign Event of 'Friends of the Schiller Institute,' Nov. 10, 2017

- The Legacy of Friedrich Schiller and the Schiller Institute
- 
- In the Confucian Concept of Xi's New Silk Road Today –

*Schiller Institute Chairwoman and founder Helga Zepp-LaRouche was introduced by Schiller Institute in Denmark Chairman Tom Gillesberg, who is running for mayor of Copenhagen on the Friends of the Schiller Institute slate.*

HELGA ZEPP-LAROUCHE: I'm very happy to be here by Hangout video, because there are a lot very important things happening which the Western media are absolutely hiding from the population. As a matter of fact, since you referred to the

founding of the Schiller Institute in 1984, I was just reflecting

that the purpose why I created the Schiller Institute in the first place, was because I saw the world very much in need of a

different idea of relations among nations.

And that was the main reason why this institute was created, because I realized, in 1983, the relationship between Germany and

the United States, Europe and the United States, the so-called "advanced sector" and the developing countries, all of these foreign relations were terrible. For slightly different reasons

in each case, but I basically said, "this is not the way nations

should organized themselves, and that is not how they should relate to each other."

So I came up with the idea to create an institute devoted to the development of a just new world economic order, whereby every

person on the planet would eventually have a decent life, that was explicitly the idea; and that this new world economic order

would only function if it would be combined with the idea of a dialogue of cultures on the highest level, where one country would not refer to the worst tradition of the other, but to the

best, and vice versa. And that all of this would be accompanied

by a lot of Classical culture, a lot of emphasis on science, on

science and technology as the motor for such a development.

Now, I don't want to go through the long history of the Schiller Institute, which has done an enormous amount of work on

five continents since its existence, but I'm very happy to say that if you look at the world today, especially in the last

several days, a lot of what the Schiller Institute was meant to be, is coming into being.

People really have to realize that the summit which just took place between President Xi Jinping and President Trump, was

an absolutely historic breakthrough. Now, if you listen to the

Western media, you would think the opposite; you would think, if

you read the *New York Times* you would say, "Trump sold out to the Chinese, because Xi Jinping is much more powerful than Trump." If you listen to second channel of German TV, their comment yesterday was that, yes, this was all a big show, but Trump is so irrational and changing so quickly that in two weeks

he will not even remember what happened. Or, the *Frankfurter Allgemeine Zeitung* this morning, I had to laugh when I was reading this. On the front page, they said if Deng Xiaoping were

still alive, he would have wept tears of joy when he saw that Xi

Jinping and Trump were meeting, seeing eye-to-eye, treating each other as equals.

So the Western media are just completely beside themselves, they're cynical, they're absolutely geopolitically blinded in such a way that they can't even look at what is going on.

Now, let me tell you what really happened: First of all, on Wednesday [Nov. 8], the Chinese government did something which has never happened, giving an honor to Trump which they have never given to any other foreign head of state. They closed down

for an entire day the Forbidden City; this is the largest complex of palaces in the world. Since the 17th century, it was the seat

of the emperors, and it is just one large complex of palaces, one after the other: it has opera houses, it has living quarters, it's just an unbelievable environment.

They closed this down, and they performed for President Trump and his wife Melania, excerpts from three Beijing operas,

and they showed ancient handicrafts in restoration; and really steeped the Presidential couple in Chinese culture. Which everybody who knows it, knows it's extremely beautiful and extremely impressive. And they called this a "State Visit-Plus."

A commentator from the think tank CASS [Chinese Academy of Social

Sciences] said this has never happened in the history of China,

either; they have never given a head of state such a high-level

visit, so it was a highest honor ever given to a foreign President.

Now, the Western press is not reflecting why this is the case, but President Xi said that this is the beginning of a

new start of relations between the United States and China, and

it will do very important, good things not only for the two people, but for the entire world. And Trump, on his side, said,

what could be more important than the two largest economic countries finding a good cooperation; and he also said that he looks ahead to many years of friendship and collaboration between

the two countries, accomplishing incredible things.

Obviously, not unimportant was the fact that there were trade deal deals signed for, altogether \$253 billion, ranging from energy, agricultural products, airplanes were being bought,

infrastructure. And in a certain sense, this is important, and designed to grow – it's not the end of it. Trump made several speeches where he said – there was an incredible trade gap up to now, but he doesn't blame the Chinese for it, he blames the former U.S. administrations for allowing this to happen. So obviously, there are many positive things in this trade relation, as such, but I think more importantly the spirit which comes from the New Silk Road, which is the policy which has been put on the agenda by Xi Jinping since 2013, and which in the four years since, has grown to be the largest economic infrastructure project ever in history: Already something like 70 countries are collaborating. They are building infrastructure corridors, six major corridors, almost 40 cargo trains and connecting between China and Europe, now, every week. The development is spreading with absolute excitement into Latin America, into Africa, into even European countries. The biggest change, in my view, has happened in Africa, because China has invested in a rail line from Djibouti to Addis Ababa; now from Kenya; another line is being built to Rwanda. Many hydropower dams, projects for hydropower, irrigation, industrial parks. And all of this has led to a completely different attitude of the Africans, who, for the first time, see the perspective of overcoming their underdevelopment. The philosophy behind all of this is the idea that only if you have harmonious development of all nations on this planet, can you have a peaceful development in China. And this is

based on the Confucian idea that only with the maximum development of the individual, who should become a wide person, is spread throughout the entire family and all the families develop harmoniously, can you have peace in the nation, and obviously in the world, among the nations.

This is not understood by the West at all. They are absolutely convinced – and I think some of these political forces are so geopolitically entrenched that they really believe this, that they cannot mention that a country can actually be devoted to the common good of its people. And that China is doing that is without any debate, because, as Tom just mentioned,

I was in China in 1971, during the Cultural Revolution, and I saw the country in distress. And I went back in '96, and I saw the absolutely incredible change for the better in these 25 years. And what has happened in the last 30 years is just the biggest economic miracle of any country on the planet. China has lifted 700 million people out of poverty, and what happened at the just-concluded 19th Party Congress of the CPC, was that Xi Jinping announced that by the year 2020, China will have eradicated *all* poverty. There are only 42 million people left who are poor, in rural areas, and they now are using modern technology to overcome that, by providing the means for e-commerce to the farmers in the rural areas of poor regions, so they can market their products via the internet, and that way they are starting to develop more income and more wealth, so that they will no longer be poor by the year 2020. I have no reason to

believe that they will not succeed in doing that, because, when you see the vector of development of the last 30 to 40 years, they are going to accomplish that.

By the year 2035, China wants to be a modern socialist country, and Xi Jinping has developed a plan up to the year 2050, for China to be a strong, modern, harmonious, democratic, happy people.

Now, in this speech, at this party convention, Xi Jinping mentioned I think it was 15 times or so, that the purpose of the political work of the Communist Party is that people should have a better and happier life. And what China is doing is obviously a model which is much more devoted to the common good, than you find it in the West, where, if you compare it to the poverty level in the European Union, for example, where you have 120 million people who are poor; or you compare it to the economic situation in the United States, where for the first time in an industrial nation, you have a lowering of the life-expectancy! Now, if there's any parameter for the productivity and the well-being of an economy, it is the life expectancy of its people. And if you an industrial country with the collapse of the life span, then you know that there is something absolutely wrong. And this is the result of what happened with the neo-liberal system, especially since the United States with the neo-cons decided to become the leader of a unipolar world, which went along with the neo-liberal system, where the rich became so rich that it is unreasonable, and the poor become poorer.

And you have right now, I think something like 95 million people in the United States who are no longer counted as being in the labor force, because they have given up looking for work, or they are sick, or they are in prison, or they are somehow misplaced in some other form.

So, I think that what is happening right now is that Xi Jinping has put on the agenda a model of economic cooperation which needs to be studied. I think it's a *big* mistake that the

Europeans are just dismissing it. Like, for example, the French

Economic and Finance Minister Bruno Le Maire just went to Berlin

yesterday, and there he addressed a German-French economic forum,

where he said, now Europe must stop being naïve, we must be united to stand up against China, against Russia, against the United States. And then the German Foreign Minister Sigmar Gabriel yesterday on a TV show basically said the same thing – he said, now, Europe must stand united against the aggressive powers of Russia and China, where human rights mean nothing. I mean, this is such an arrogance! You know, talking about “democracy,” why don’t you just look for a second at what happened with Hillary Clinton’s campaign? Now the big scandal in

the United States is that the Democratic Party leadership, one year before the party convention was to supposedly decide on the

candidate for the 2016 Presidential election, has decided it would be Hillary. And then they channeled illegal money, violating FEC rules up and down, right and left, intriguing against Bernie Sanders. And then, concocting “intelligence” against Trump with the help of British intelligence, played back

into the United States. I mean, this is a joke! There is no

democracy, not in this present system.

And I think that to accuse Russia and China of being “aggressive” is just absolutely wrong! The whole question of what was the Ukraine crisis: [Former German Chancellor] Helmut

Schmidt said it very clearly: The reason why the Ukraine crisis

happened, and where it started was in the Maastricht conference

in 1992, because that was when the EU decided to have the Eastward expansion without limit. And that is the same thing as

what the NATO expansion to the East was, breaking all promises made to Gorbachev at the time, that NATO would never expand to the borders of the Soviet Union, or Russia for that matter.

So we are in a real crisis. And rather than being so arrogant and saying there are no human rights in China and Russia, and these countries are “aggressive” – which they are not – we should rather reflect on what should the future be? China happens to be the only country which has presented a strategic model of international relations based on a win-win cooperation of respect for the sovereignty of the other country,

of non-interference, of accepting the other social model of the

other system; and this is a strategy for peace. This is the idea

of overcoming geopolitics. And we should not forget that it was

geopolitics which was not only the cause for many wars in history, but especially two world wars in the 20th century.

And the idea to have an inclusive, win-win cooperation among all countries on the planet, what should be against that? Why can Europe not, why can't Denmark, and Germany, and France, and

Italy, just say: When the relationship between the United States

and China is already now on such a new historical basis, where the strategic partnership between China and Russia is also very,

very strong, and Putin and Xi Jinping have both said that the relationship between these two countries are on the best level ever. And now China and the United States are saying the same thing about their two countries. Now, what could be better, than

to have the United States, China and Russia working together for

a new paradigm of relations among nations? Why can the European

nations not just say, "Well, that is very good, because if the biggest nuclear powers can cooperate in a peaceful way, then the

danger of a thermonuclear war is obviously diminished and could

be eliminated in a short period of time; and we cooperate."

I mean, we have so many tasks which are urgent: The reconstruction of Southwest Asia, of the Middle East, of countries which have been completely destroyed by wars which are

the outgrowth of regime change, of the unipolar world, on wars based on lies, which have cost {millions} of people their lives

in Iraq, Afghanistan, Syria, Yemen. These countries have been absolutely destroyed and they need to be reconstructed.

There is already a discussion that the only way you can do that, is by extending the New Silk Road into the Middle East.

And I have said for a very long time, that the only way how you

can have peace in the Middle East, is if all the major neighbors

– Russia, China, India, Iran, Egypt, hopefully the United States, and hopefully European nations, are all working together,

and then you can eliminate the present tensions and frictions

and

ongoing fights, which have almost been eliminated in Syria and Iraq.

And look at Africa: Don't you think it's time that we join hands with China in the development of Africa? Do you really think that the underdevelopment of Africa is a natural condition?

No! It is the result of hundreds of years of colonialism, of decades of IMF conditionalities, which insisted, that countries

should pay their debt and not pay for infrastructure and not pay

for social expenditures. And the reason why Africa has been in

such a terrible condition is because it was the policy of the West {not} to develop the African continent.

And now China has come, and said, "no," we have the idea to eliminate poverty in every corner of the planet, and they have started the industrialization of Africa, and Xi Jinping has offered to Europe, to the United States, to join hands and have

joint projects in all of these countries.

Don't you think it's time that we become adult as a human species? I think it should be clear to everybody that in the age

of thermonuclear weapons, war cannot be a way of resolving conflicts. And I think also, the idea that the human species should be able to come up with an idea of self-governance of one

human species; that it's not a natural condition that you always

will have one nation against another nation, or a group of nations against another group of nations.

In reflecting about what happened in the recent period, especially with the 19th Party Congress of the CPC, where Xi Jinping developed a perspective between now and 2050, it is very

clear that if you look at the long arc of human civilization, sometime the idea that we would be the one humanity, the “community for a shared future for mankind” – which is the formulation Xi Jinping always uses – had to come! And that it comes from China should not be a reason not to be up on the idea.

It has to do with the 5,000 year history of China, the 2,500 years of Confucian tradition that this idea was made by China, but it is a universal idea, it's not something limited to one culture or one nation.

So I think we are at a very exciting moment of history. I feel very much vindicated that the work, not only of the Schiller

Institute, but the organization associated with the name of my husband, Lyndon LaRouche, is now being implemented. This goes back all to the early '70s, where my husband developed the proposal for an International Development Bank, the IDB. This was

picked up by the Non-Aligned Movement in '76, in their final resolution in Colombo, Sri Lanka; and it was the idea that a new

credit institution should be created, replacing the IMF, which would provide – at that time, the idea was 400 billion deutschmarks, or \$200 billion approximately, per year, for technology transfer to the developing countries.

And that's what China is now doing. That's what they're doing with the AIIB, with the New Development Bank, with the different Chinese banks, focusing on the real economy.

Then, if you look at all the development plans we have been working on: The first development plan for Africa, we published

in 1976. We had a plan for the development of Latin America, working with [then Mexican President] López Portillo. We had a

40-year development plan for India, on which we worked together

with Indira Gandhi. We had a 50-year development plan for the

Pacific Ocean Basin in the early '80s.

Then, in '89, we had the Productive Triangle for the development of East and West Europe. And in '91, when the Soviet Union disintegrated, we proposed a peace plan for the 21st century, starting with Eurasian Land-Bridge, which we already called the New Silk Road, at that time.

So I feel very much that our lives' work has absolutely come into reality. And what we have to do now, is we have to get European nations to understand that the crisis not that China is making these proposals, and the crisis is not that Trump is rejecting the neoliberal model, at least as it was represented by Bush and Obama and Hillary. The real crisis is that people in Europe are still absolutely somehow in chains to their own ideological thinking that they, first of all, are very Euro-centric; they think Europe is the navel of the world; while in reality, the power center is shifting to Asia, since they have better principles than we have right now.

And just to illustrate the point, the Bundeswehr, the German army, put out this study already in February of this year, where they have basically six scenarios by the year 2040. It has all options, where the worst option is Europe will completely collapse, many European countries will leave the EU and join with the Russia bloc; and Europe will just lose all importance. If you look at these six scenarios, what you see there is an absolutely wrong method of thinking: It's the projection of the status quo, of geopolitical thinking, and naturally in a changing world, there is no way how such thinking can survive,

therefore,  
if they keep thinking that way, this is probably what happens  
in  
Europe.

Now, look at what China is doing, instead. They just  
created the largest, highest-level regulatory body, which is  
even

more important and has higher ranking than all the ministries,  
for the case of a new financial crisis. And it has absolutely  
nothing to do with the Chinese debt, because the Chinese debt  
has, as a counterforce, real assets – investments in  
infrastructure, in industries and so forth, so if there would  
be

a blowout, these assets will be there. While the monetarist  
system of the trans-Atlantic sector, people have learned  
absolutely nothing after the crisis of 2008. That is the real  
danger, and obviously China is looking at that, and Xi Jinping  
has said this in many speeches since the G20 summit last year  
in

Hangzhou, that the causes of the 2008 crisis have not been  
eliminated, and therefore the danger of a new crisis is  
absolutely there.

So what we have to do, is we have to absolutely reflect,  
what is wrong with the European thinking. The problem is not  
that other countries are rising and we are stagnating. The  
problem is that Europe has turned away from its highest  
traditions.

We have now a pretty decadent culture. If you look at the  
youth culture, pop music, many of these so-called pop singers  
are

outright Satanic: They are ugly, they promote an image of man  
which is a beast, it's full of violence, it's pornographic,  
and

it's just "everything goes." There is no more limit, there is  
no  
morality, everything is allowed: You don't have two sexes,  
you

have in Germany now officially three sexes, you have 49 genders,

it's just becoming absolutely Sodom and Gomorrah, or very much parallel to the end-phase of the Roman Empire, where you had similar phenomena.

So, I think that the problem is not China rising. The problem is that Europe has moved away. We have a beautiful tradition. We have a Classical period, the Renaissance of Italy,

we have the Andalusian Renaissance, the École Polytechnique in France. We have a German Classical period which has produced some of the most outstanding thinkers, composers, poets, you know, the rich tradition linking the Classical period of Germany

with that of Denmark. I mean, Danish people saved the life of Friedrich Schiller.

So there are enough points where we can say, "Let's just go back to our best traditions, and then we will find out that the

Classical periods of Europe, and the Confucian tradition of China, and the Classical periods of other nations, are indeed creating the basis for a new Renaissance."

I think we are at an incredible moment of history, and we should just remind ourselves of the words of Friedrich Schiller,

who said, "A great moment should not find a little people."

So

let's try to elevate our people, to think big, think beautiful,

become beautiful souls, create the basis that all children have a

chance to become geniuses. And if that is in our willpower to do, and this is why the election campaign of Trump and the other

members of the Schiller Institute are so absolutely important, and that is why we should all be happy that the Schiller organization exists in Denmark and creates an option for all

Danish people to join this incredible historical moment and make  
a better world for all of us. [applause]
