*16. maj, 2017 – Den franske præsidents særlige udsending til Bælt & Vej Forum i Beijing, Jean-Pierre Raffarin, kaldte i sin tale til Plenarforsamlingen på højt plan den Nye Silkevej et »ambitiøst design« med dens specifikke orientering hen imod at skabe større konnektivitet mellem de forskellige stater gennem udvikling af infrastruktur. Frankrig, sagde Raffarin, er enig med Kina i, at »win-win-princippet må være initiativets kerne«, og at det var vigtigt at »formilde de negative effekter, der var forårsaget af globalisering«. Frankrig var forpligtet til »på den geopolitiske scene at hjælpe med ved fremvæksten af Eurasien, som også er forbundet til Eurafrica«, sagde Raffarin, hvor han igen fremstillede Bælt & Vej-initiativet som en måde, »hvorpå den i mange dele af verden herskende uorden kan overvindes, og der kan skabes fred gennem at opbygge samarbejde«.*

*Xinhua rapporterer om et interview, hvor Raffarin sagde: »Bælt & Vej-initiativet, som præsident Xi har foreslået, viser, at han tilskriver samarbejde mellem Europa og Asien stor betydning ... Det vil indsprøjte vitalitet i den globale udvikling og vise hans globale vision. Det er et kreativt initiativ, der viser, at Kina har evnen til at skabe en ny æra for global udvikling.«*

Raffarin sagde i dag til pressen, at han havde medbragt et brev fra den netop indsatte præsident Emmanuel Macron til værten præsident Xi Jinping. Præsident Macron siger, han anerkender betydningen af de fransk-kinesiske relationer og ønsker at handle i fortsættelse af general Charles de Gaulles politik. Budskabet viser Frankrigs store interesse i at udvikle fredelige og tillidsfulde relationer med Kina«, sagde den tidlige premierminister.

## **LaRouche PAC Internationale Webcast,**

### **19. maj, 2017**

Uddrag:

Aftenenes vært: Jason Ross.

I denne weekend fandt der et enormt skift sted i verdenshistorien; noget absolut fænomenalt enormt, med Bælt & Vej Forum, der fandt sted i Beijing, Kina. Det omfattede flere end 1000 deltagere fra over 100 lande, to til tre dusin statsoverhoveder; flere dusin internationale aftaler blev underskrevet under selve begivenheden. Der blev truffet bestemmelser om over \$100 mia. i ekstra finansiering til infrastruktur i hele verden.

Jeg vil gerne gennemgå noget af det, der fandt sted under denne konference, og dernæst sætte det i kontrast til kvaliteten af politisk debat, vi har netop nu i USA.

Her ser vi et af åbningsbillederne fra begivenhederne, med statsoverhoveder og andre delegerede, der deltog i konferencen. En meget stor begivenhed. Hallen med over 1000 mennesker. Her ser vi præsident Putin, der taler for deltagerne – han var æresgæst; viser den virkelige forbindelse mellem Kina og Rusland omkring dette projekt; her bydes han velkommen af Xi Jinping. Blandt de øvrige deltagere ved denne begivenhed var – på en meget bemærkelsesværdig måde – Helga Zepp-LaRouche, »Silkevejsladyen«; præsident og stifter af Schiller Instituttet, og hustru til Lyndon LaRouche. Lyndon og Helga LaRouche har mobiliseret for et Nyt Økonomisk Paradigme i årtier.

Det, der fandt sted på konferencen i Beijing, inklusive Helga Zepp-LaRouches deltagelse som medlem af en tænkertank i et forum for tænkertanke, som fandt sted, hvor hun et par gange fik lejlighed til at tale og føre sine pointer frem, var, at et helt nyt paradigme virkelig er ved at tage form. Kinas Bælt & Vej-initiativ inkluderer foreløbig disse seks landruter, som man ser her på skærmen, sammen med den maritime rute, som man ser gå gennem oceanerne. Det kinesiske initiativ vil medføre investering af billioner af dollars; for \$4-8 billion infrastrukturinvestering i veje, jernbaner, havne, kanaler og den slags ting. Det, som LaRouche-bevægelsen, som Schiller Instituttet, som EIR har foreslået gennem rapporter om dette, er et Verdenslandbro-koncept for konnektivitet, infrastruktur, udvikling og opbygning af en ny platform for at gøre den fremtidige, potentielle økonomiske vækst til virkelighed.

Mængden af programmer og projekter, der er planlagt, overstiger allerede mange gange selv Marshallplanen, der genopbyggede Europa efter Anden Verdenskrig. På denne graf – som I måske dårligt kan se – repræsenterer denne lille, blå søjle her til venstre den inflationstilpassede investering i Marshallplanen, som var USA's finansiering til genopbygningen af det krigshærgede Europa efter Anden Verdenskrig; omkring \$150 mia. Ved siden af er RFC – Reconstruction Finance

Corporation, som var et af hovedinstrumenterne til finansiering af New Deals infrastrukturprogrammer (i USA); RFC byggede de store projekter i USA, der var motor for den daværende økonomiske vækst. Se dernæst på størrelsen investeringerne i Ét Bælt, én Vej; et sted mellem \$4-8 billion er planlagt at blive investeret som en del af dette program. Mange, mange gange større end noget, der tidligere er gjort.

Det er vigtigt, mener jeg, at erkende, at i denne verden, der er ved at tage form, er den ene ting, at det repræsenterer et Nyt Paradigme i verden; og den anden ting er, at det repræsenterer årtiers arbejde, årtiers mobilisering. Kort tid efter forummet, en dag eller to efter, inviterede et af top-tv-programmerne i Kina, »Dialog«, Helga Zepp-LaRouche som gæst på programmet. Lad os se et kort klip:

Interviewer: Hvad synes De om Kinas globale ambition?

Helga Zepp-LaRouche: Jeg mener, at det er et meget vigtigt, strategisk initiativ, for det er den eneste måde, hvorpå man kan løse alle problemer, regionalt samarbejde, underudvikling, fattigdom; det er virkelig en historisk mission. Jeg ser intet andet. Bestemt ikke fra USA, og bestemt ikke fra Europa; så jeg er virkelig optimistisk. Jeg mener, i går var et fantastisk historisk øjeblik.

Ross: Jeg vil gerne læse en sætning ved dette interviews slutning, hvordan Helga afsluttede dette interview. Hun sagde: »Jeg er fuldstændig overbevist om, at, om et halvt år, så vil flertallet af de nationer, der stadig tøver, erkende, at det er i deres bedste interesse at tilslutte sig. Tyskland burde f.eks. have en fundamental interesse i at samarbejde. Tysk industri, Mittelstand, mellemstore virksomheder, er præcis den form for komplementær økonomisk styrke, der ville fungere perfekt med Kina; og jeg tror, det kommer, jeg lover det.«

(Her følger engelsk udskrift af resten af webcastet)

*So, this is reflected as well in the statements from the*

*many foreign leaders who attended the conference. Let's get a sense of what the world thought about this event. This is a quote from Matthew Pottinger; he was sent by President Trump. About a week before the forum, it was announced that Trump was upgrading US involvement; and the National Security Council East*

*Asia head was sent. He said, "You can really see that there is a shared interest in expanding infrastructure connectivity through high quality investment financing. That's why American companies should really be involved in a lot of the projects that we're hearing about."*

*President Putin talked about how it's creating a new type of world order. He said, "We have exhausted many former models and indicators of economic development. Poverty, the lack of financial security, and the massive gap in the level of development between countries and regions; these all fuel international terrorism, extremism, and illegal migration. We will not be able to tackle these challenges unless we overcome this stagnation in global development. None of the old approaches to conflict resolution should be used to solve modern*

*problems. We need fresh and stereotype-free ideas.*

*"By proposing China's One Belt, One Road Initiative, President Xi Jinping has demonstrated an example of a creative approach towards fostering integration in energy, infrastructure,*

*transport, industry, and humanitarian collaboration. We would welcome the involvement of our European colleagues in this partnership." Putin was the guest of honor at the event.*

*President Xi Jinping himself said, "We should build the Belt and Road into a road of prosperity. Development holds the master key to solving all problems. In pursuing the Belt and Road*

*Initiative, we should focus on the fundamental issue of development; release the growth potential of various countries, and achieve economic integration and interconnected development, and deliver benefits to all."*

*Viktor Orban, the prime minister of Hungary, said that "the trend of the Belt and Road Initiative, this trend is the exact opposite of what we're used to, and what we have been taught about the workings of the global economy." More on that in a moment. President Erdogan of Turkey said, "This initiative, particularly against rising terrorism in the world, will be an initiative that will almost eradicate terrorism. I believe this*

*cooperation, which will benefit everyone, will succeed as a model. We, as Turkey, are ready to give all kinds of support for it."*

*Jean-Pierre Raffarin, sent by new French President Macron, said "The Belt and Road Initiative proposed by President Xi shows*

*that he attaches great importance to cooperation between Europe*

*and Asia. It will inject vitality into global development, and*

*shows his global vision." Prime Minister of Greece, Alexis Tsipras: "What is particularly positive for us is that the goals*

*of the Belt and Road Initiative are compatible with our own regional economic goals. And our dynamic, comprehensive, strategic partnership with China sets a solid basis for working*

*in this direction. Greece, after many years of severe crises, is*

*returning to a growth path which opens up remarkable opportunities for investment and trade."*

*And last, the Economics Minister of Slovakia, Peter Ziga,*

said, "It's an historic opportunity. View it as the project of the century. Everything indicates that the Chinese side and other important states such as Russia, have a strong interest in launching a New Silk Road. Even though the details still haven't been released, it's seems that the question actually is only whether the project will take place with us, or without us." And that's exactly right. As President Putin and Prime Minister Orban had said, there is a New Paradigm that is taking place in the world right now. The past decades' attempts to try to control terrorism or extremism without having a real development model simply will not be effective; they cannot be effective.

I'd like to ask Kesha to address what Mr. LaRouche views as one of the most important aspects of US cooperation, in terms of what the US has to offer the world in a World Land-Bridge-type perspective. Kesha, what do you see as the opportunities that the US has to provide leadership on this front? What do we have to offer?

KESHA ROGERS: Well, Jason, Mr. and Mrs. LaRouche stressed both that the next phase of cooperation has to be around the offer of the United States to cooperate on the space program. We have to go beyond what most people have looked at as come to the space program, even going back to President John F Kennedy, as something of a competitive avenue. But that this is to unite in harmony, mankind; to bring cultures together in a vision for, as

Mrs. LaRouche said, what is the natural mission of mankind for the next 10, 100, 1000 years. As she stressed in her remarks at

the recent event, where do we want humanity as a whole to be in

100 or even 1000 years? As she posed in her speech, is it not the natural destiny of mankind as the only creative species known

in this universe so far, that he will build villages on the Moon,

develop a deeper understanding of trillions of dollars [inaud; 11:46] universe, solve the problems of – until now – incurable disease, or solve the problem of energy and raw material security

through the development of thermonuclear fusion power. She goes

on to say that by focussing on the common aims of humanity, we will be able to overcome geopolitics and establish a higher level

of reason for the benefit of all mankind.

As Mrs. LaRouche made clear, and Mr. LaRouche, from their decades-long work as we know, that Mr. and Mrs. LaRouche have dedicated decades of their lives to the formation of what has been brought about with what we're seeing of the Belt and Road Silk Road initiative; what they have called the Eurasian Land-Bridge. But we're not just talking about development and cooperation among nations in infrastructure development here on

Earth with these bridges and dams and roads, but as has been reported coming out of the Belt and Road summit, this was actually developed in the science magazine, China is also looking

at win-win cooperation in what is called space development or science infrastructure or a science Belt and Road. You see already out of this conference, there were over 370+ agreements

which took place; but on science and technology, President Xi

Jinping of China said “Innovation is an important force of powering development.” With that, they developed – to kind of highlight a few things here – a science and technology action plan, calling for 25,000 foreign-born scientists, engineers, and

managers over the next five years. They want to give 10,000 scholarships to students from developing countries to study in China. You have a set-up of about 50 joint laboratories that's

being discussed; 40+ countries to cooperate in space-based Earth

observation; observatories which would be used to identify and manage natural resources and to respond to natural disasters. So, when people think about cooperation in space, before we even talk about going to another planetary body, going to the Moon, we can actually start to set up new technologies of the shared interests for the development of mankind on this planet.

But that takes us into the next phase of mankind's commitment; as

Mrs. LaRouche said, “Our destiny has to be building villages on

the Moon.” This is something that's not new to Lyndon and Helga

LaRouche. Mr. LaRouche developed the concept really as finally

to restore and revive that which was destroyed by the British Empire and those who thought to take out President John F Kennedy. Mr. LaRouche came in and restored that vision of President Kennedy in the 1980s with the Woman on Mars mission. But let me just say, the concept here is vision; vision for the

future. What the United States has to restore itself to, is a commitment to vision in space exploration as we had under President John F Kennedy, and cooperation. A lot of people don't

know and I hear all the time that the purpose of going to the

Moon, the purpose of President John F Kennedy's famous speech to a joint session of Congress May 25, 1961, saying we're going to send a man to the Moon and return him safely to Earth before the end of the decade; people see that as merely competition. What a lot of people don't know and don't recognize is that after Kennedy made that very clear vision directed the nation toward a national mission, it was two years later in September of 1963, only two months before he was assassinated, that President John F Kennedy offered cooperation for a joint mission with the Soviet Union, at a time when tensions had started to fade out, that there was a move toward mutual cooperation and development. Those people in the United States who say that the United States can't work with Russia, or that Russia is the enemy, these are the same people who were denying the vision of President John F Kennedy; who didn't want the cooperation that he had set forth.

We could have had a joint mission on the Moon with the Soviet Union at the time that would have completely changed the concept and the scope of the relationship with the United States and Russia. Also today, it's the same thing, because when we talk about missions for developing the Solar System, developing the Moon as the first step for developing the fusion technology and energy for getting to Mars and developing colonies on Mars, as Mr. LaRouche lays out in his "Woman on Mars" speech, which he made over 30 years ago, that we would get there in 39 years and

have this woman speaking back to us on this great accomplishment  
for the project and benefit of all mankind. That's what we have  
to restore right now, and that is the next phase and mission of  
cooperation as was clearly laid out by Mr. and Mrs. LaRouche, and  
also is already being taken up by nations that have developed and  
have joined the Belt and Road Initiative. The question at hand  
is the creative development of mankind and the best conception to  
do that is through cooperation in space, cooperation in creating  
new sciences, new technologies. We very much understand how to  
do that, and we can move forward with that initiative.

ROSS: Right; and I think in terms of way that this is really being moved on right now, you brought this up in science and in projects that clearly demonstrate common aims and have a universal character in that way. I'd just like to bring up one of the developments that came out of this forum on the strategic or the geopolitical front; which was the cooperation that was announced by President Duterte from the Philippines. President Duterte has been under attack for a variety of reasons. People say he's too tough on the drug dealers in the Philippines, etc. What he announced, in collaboration with Vietnam and China,

was

that they would work out a way to collaboratively use the resources of the South China Sea; essentially eliminating that as

a geopolitical factor, if the parties involved can agree to common development. This is very much like the dÃ©tente and the

agreement reached between Japan and Russia, which have not fully

in a formal way worked out the ownership of some of the contested

islands – the Kurile Islands – between Russia and Japan; but agreed as two countries working together, to exploit the resources together in a common way. So that the hang-ups that allowed conflict to fester are being overcome by looking at ways

of working together in a collaborative way.

While all of this is happening – and this is something that the US most certainly ought to join, because we have a tremendous

need for infrastructure here; we're in desperate need of an economic recovery. President Trump has called for the spending

of \$1 trillion on infrastructure; which is nowhere what's fully

required in the United States, although it's certainly moving in

the right direction. When you would think that patriotic Americans would all be saying, "Look at these opportunities around the world. An opportunity to overcome the Wall Street-type of finance that's characterized our economy and move

towards real physical building of things and cooperating on projects that undoubtedly improve people's lives; like having high-speed rail, like creating jobs and business in this way." Instead, there is a total tempest-in-a-teapot going on in the United States around President Trump and all things related to

Russia.

Diane, I was hoping that you could share with us your views on what this means about our ability to act politically in the United States as a nation in its own interests.

DIANE SARE: Sure. I think first of all, I'll share the views of

Lyndon LaRouche, who was briefed this morning on some comments from the British intelligence operative, Ambrose Evans-Pritchard,

who we remember from his efforts to get President Bill Clinton thrown out of office. He's basically saying that they're not going to be able to impeach President Trump; which is true.

First of all, because Trump has not committed any impeachable offenses. He didn't say that, of course, but he said that with a

Republican Congress and so on. So, let's just harass him; let's

tie his hands, let's prevent him from doing anything that he wants to do. When Mr. LaRouche was presented with this, he said,

"It won't work. The transformation of the world is too large. It's bigger than the British Empire." If you think about the size of the investments that you showed on that chart, think about the size of China – 1.4 billion or so people. There are already 61 or more nations involved in the Belt and Road, who have experienced a massive increase in trade and prosperity as a

result of this collaboration. Even in the United States, while

the media is doing their very best job to prevent Americans from

getting the faintest whiff of the potential in the world, the {Wall Street Journal} two days ago was forced to admit that the

China Investment Corporation was planning to move their offices

from Toronto into Manhattan; and that they wished to change \$50 billion of their holdings in US Treasuries into investment of new infrastructure in the United States. I think you can ask yourself from the Chinese perspective, they're holding \$1.4 trillion of US Treasuries; if the United States is a collapsing giant with water crises, roads and bridges collapsing, heroin overdoses, that's not really a viable investment. If they're holding, or invested, as Mrs. LaRouche pointed out in her speech in Beijing, that President Trump is calling for a return to the American System which would create a pathway using Hamiltonian credit; he's referred to Henry Clay and others – Hamilton, we are referring to; this creates the means for China to actually make this kind of investment in the United States which transforms everything. I think you can ask anybody if they would prefer to be stuck in traffic for five hours, risking losing their entire car in a giant pothole, when they could be riding a train that goes 300mph and getting to their destination in 15 minutes, what they would prefer; I think the choice is obvious.

So, what has occurred is just a spectacular witch-hunt; President Trump is 100% correct when he refers to this as a witch-hunt. He has no intention of giving it up. I'd like to go right now to a video clip of him speaking to the commencement ceremony of the Coast Guard so that people have a sense of that.

And then I have a few more things to say about who is behind this attack and why.

TRUMP

: Now, I want to take this opportunity to give you some advice. Over the course of your life, you will find that things are not always fair. You will find that things happen to you that you do not deserve and that are not always warranted. But you have to put your head down and fight, fight, fight. Never, ever, ever give up. Things will work out just fine. Look at the way I've been treated lately (laughter) especially by the media. No politician in history and I say this with great surety has been treated worse or more unfairly. You can't let them get you down. You can't let the critics and the naysayers get in the way of your dreams. (Applause.) I guess

that's why I thank you. I guess that's why we won. Adversity makes you stronger. Don't give in. Don't back down. And never stop doing what you know is right. Nothing worth doing ever, ever, ever came easy. And the more righteous your fight, the more opposition that you will face.

SARE: So, as I think you can see, this is not a President who is going to turn tail or run, or cower. Happily, he's a New

Yorker who enjoys fighting. I just want to remind people, because those of you who have been following LaRouche and been familiar with LaRouche, there was an earlier witch-hunt in this country, which was the witch-hunt against Lyndon LaRouche; with the result that shortly after he collaborated with President Reagan and the Strategic Defense Initiative came into being, at the time that the Berlin Wall – which Mr. LaRouche had

forecast

would come down – came down, LaRouche was being carted off to prison. This witch-hunt was orchestrated not only by the same apparatus, but in many cases, the exact same individuals that are

targetting President Trump now.

One of the key players in the early, initial trial against Mr. LaRouche in Boston – which fell apart – was none other than

Robert Mueller. He did such a brilliant job of covering up the

evidence of the Saudi royal family role in 9/11, he's now been assigned to investigate President Trump's alleged ties to Russia,

etc. As was pointed out by Veteran Intelligence Professionals for Sanity (VIPS) Bill Binney and Ray McGovern in an article that

appeared a couple of days ago in the {Baltimore Sun}, Comey absolutely was legitimately fired; it was the right thing for President Trump to do. Comey had refused to investigate the actual serious crime which was committed, which was the unmasking

of Michael Flynn; who had a telephone conversation with the Russian ambassador and, according to US law, the American end of

that conversation should never have been recorded. That was illegal. The fact that that not only was recorded, but then was

leaked to the press, is two crimes committed for which people could and should be prosecuted; and it would be relatively easy

to discover who did it. That actual crime was not investigated.

Instead, we are supposed to believe that somehow Russian hacking changed the vote of the American people; which no one has

yet explained even how that would work even if they could

prove

that the Russians hacked into the DNC computers – which they can't even prove. Especially since it's been revealed now that

you can change the IP address; you can make it look like Russians

hacked into a computer, when in fact the hacking was done right

from someplace in Iowa. So, this whole thing is completely a fraud; and Julian Assange has made the point that there was no hacking, as Binney and Ray McGovern said. Assange explicitly it

was a leak; McGovern and Binney also said that this absolutely could have been a leak.

There's another breaking story – which we have not confirmed independently – of interest, of Seth Rich, the 27-year

old DNC staffer who turned up dead. There's now some question as

to whether or not he was sending tens of thousands of emails to

Wikileaks. As I said, that has not been yet confirmed by other

sources, but it just underscores that there was no crime committed in terms of collusion between Trump and Russia. The Russians did not determine the outcome of this election. I think

every sane American knows this; and frankly, most of the Democratic Party knows this, they're just completely gutless in

the face of this McCarthy-ite kind of witch-hunt against the President, to tell the truth about what they know. Which is that

the Democratic Party abandoned its traditional base; the forgotten men and women who voted in large numbers for President

Trump. The people who have skills who are currently

unemployed;  
who should be working for \$50, \$60, \$70 an hour producing things  
for the nation and the world; who are now either working at McDonald's or Walmart or are unemployed. These are the people that Trump's campaign inspired to turn out in large numbers; that was simply not being offered by the Democratic Party.  
I will say that if you think about two times in history which Mr. LaRouche talks about frequently: one is 1945, where the British – through certain military tactics or failures – delayed the end of World War II; they delayed the victory because they were hoping that Franklin Roosevelt would be dead by the time the war ended. Because what FDR envisioned was a world without a colonial empire; where the British, the French, the Dutch, the Portuguese would give up their colonies, and nations would have the right to develop. Very much like what President Xi Jinping is talking about at this time. Mr. LaRouche was a veteran of World War II; he was in the Pacific theatre at that time – I believe in Burma – when Franklin Roosevelt died. He often describes his fellow troops coming to him and saying, "What do you think is the meaning of this?" And he said, "A very great man" – FDR – "has been replaced by a very little man." That is Truman, who was a complete lackey of the British; who presided over the only use of nuclear bombs so far, which was done by the United States on Hiroshima and Nagasaki. This was completely unnecessary, because Japan was already preparing to surrender. He also presided over the new Cold War; the division of the world

between these spheres of influence – geopolitics, which has so much colored the way people think about things.

So LaRouche determined that, in a sense, his life's work would be to bring into existence a higher ordering state of mankind; governments worthy of what it means to be truly human.

That has been his life's mission. And to that end, he collaborated with others to create the conditions for the Reagan

Presidency, where with the Strategic Defense Initiative and LaRouche's forecast that the Soviet Union was going to disintegrate economically, you had the collapse of the Berlin Wall. Now that was 28 years ago. That changed the world; and yet, you have people today – 28 years later – trying to act like Russia is our enemy. The British, who truly are the enemy

of the United States, are allies. This is completely backwards.

Happily, the British Empire is right now operating from the standpoint of complete strategic weakness. The trans-Atlantic financial system is totally bankrupt; they have shut down their

ability to produce. They have tried to squash and stifle every

scientist in the trans-Atlantic world with this Green agenda, this fear of global warming and climate change and all of this baloney; which happily hasn't worked. We still have a lot of creative people in the United States. I think Kesha knows many

of them in the space program in Texas. And what you have is that

China, with this Beijing conference, has consolidated a process

that has been underway and coming together for a very long time.

So, I would like to just urge everybody who is viewing this, to take advantage of the material on the website. I think

Jason  
was involved in producing a short video and a petition  
basically  
saying let's suck it up and tell the Congress to suck it up  
and  
move on; that no one is interested in this witch-hunt against  
President Trump. What people {are} interested in, is  
organizing  
an economic recovery, and we are very much on the brink of  
success. So, I would urge everyone to not be demoralized or  
fearful. We have to take the same approach as Lyndon  
LaRouche,  
as President Trump has said now, to absolutely not give up;  
and  
insure the United States joins this potential which has been  
opened up.

ROSS: Absolutely! Part of the irony of this idea of a  
Russian takeover of United States policy, is that if Russia took  
over US policy, what are the policies that Russia is forcing  
through? Russia is not opposing Glass-Steagall. The reason  
we  
don't have Glass-Steagall right now is because of Wall Street  
and  
because of Presidents who capitulated to it; it's not because  
of  
Russia. Joining the Belt and Road Initiative would make the  
most  
possible sense for the United States right now. Offering what  
we  
have to offer to that; being part of an international  
development  
program of infrastructure, that's clearly in America's best  
interests. Would that be some sort of a Russian plot? The  
whole  
thing just doesn't make any sense. The idea that people are

debating this and arguing whether or not Trump said something inappropriate to Comey, while people are dying of opioids, while

communities are being devastated by unemployment and by a collapsing economy in many parts of the country. The idea of worrying about this stuff, or making it an issue, makes it very

clear that these “facts” aren’t driving an investigation. What it

is, is an attempt to prevent a shift in policy in the United States, and the fear that Trump would, indeed, play a role in making that happen, is what has these people completely unhinged

and making up all sorts of complete nonsense and conspiracy theorizing in order to throw him out.

I think if we look at what is being offered right now with the initiative from the Belt and Road Forum, and you contrast that with some empty platitudes about human rights and rights for

all coming from the West, you can’t protest unemployment; you have to create development. You need policies that are going to

make it happen; you need projects that are going to make it happen. You need a path towards a better future. For us, this

requires overthrowing a concept of economics that we have had for

decades now, and replacing it with LaRouche’s concept of wealth

– not as money, but as the creation of an increased power of the

human species around its surroundings.

So, let me just wrap up by quoting the end of Helga Zepp-LaRouche’s presentation at the Belt and Road Forum. She said: “When we organize our societies around scientific and artistic discovery, we will perfect our knowledge on how we can

continuously advance the process of self-development of mankind; intellectually, morally, and aesthetically. And we will find our

freedom in necessity – doing our duty with passion!"

As Diane had mentioned, we have a petition; I'll put it up on the screen here. The webpage that we'd like you to go to; it's lpac.co/rebuild. It is a petition; it begins with the video

that Diane had referred to, and then a call on the Congress to focus on making this country a better place, revitalizing our manufacturing and infrastructure, exploring space, working on science, and ending the concept of regime change warfare.

That's

something that should be our policy. So, please go to lpac.co/rebuild. Sign and circulate the petition. Our goal is

to get 100,000 signatures on this to force a response from the White House, among other effects. The primary effect, of course,

being Congress to whom the petition is directed.

Go there; do that; and let's get to work!

**Helga Zepp-LaRouche interview  
til tysk Tv:**

**»Dette er det vigtigste  
strategiske initiativ på**

# planeten«

16. maj, 2016 – I et seks minutter langt interview (på tysk) i går til People Television, på sidenlinjen af Bælt & Vej Forum i Beijing, sagde Helga Zepp-LaRouche, Schiller Institutets præsident, at, efter hendes mening, er Bælt & Vej-strategien »det vigtigste strategiske initiativ på planeten«, og at det også ses som sådan af folk i Afrika, Asien og Latinamerika. Kun de europæiske tænketaanke maler et andet billede. Hun sagde, at hun havde erfaring for, at, når som helst, hun briefer folk om Bælt & Vej-initiativet, er de chokerede og vrede over, at de intet har hørt om det i medierne; men de er også fascinerede, når de først hører om det.

Informationen om denne politik til den europæiske befolkning må forbedres således, at de får et objektivt billede af Bælt & Vej-strategien, som hidtil er blevet dem forholdt, sagde Zepp-LaRouche.

Den fordel, som dette initiativ udgør for verden, forklarede hun, er, at, »for første gang i menneskehedens historie er det nu muligt at overvinde geopolitik; gennem reelt samarbejde at overvinde forsøget fra visse sider på at dominere alle de andre. I særdeleshed er den storstiledede plan for Afrikas udvikling nødvendig for at fjerne rødderne til flygtningeproblemet. Dernæst vil det blive muligt at fjerne sygdomme, ekspandere ud i rummet og forsøre planeten fra f.eks. farlige asteroider, sagde hun.

Fordelene for Tyskland ligger i, at den tyske 'Mittelstand' (små og mellemstore virksomheder) besidder al den knowhow, der skal til for at gøre Bælt & Vej-initiativet en succes, og hvis den tyske regering omsider ville opgive sin modstand mod at tilslutte sig, ville joint ventures mellem Kina og Tyskland på alle lokaliteter i verden være mulige. Den tyske regering bør følge den tidligere franske premierminister Raffarin's eksempel. Raffarin talte på topmødet for Frankrig.

»I dag er der skrevet historie«, sagde Zepp LaRouche til slut.  
»Et nyt kapitel for menneskeheden er blevet åbnet.«

# Schiller Instituttets strategiske Bælt & Vej-interventioner i København

København, 18. maj, 2017 – Schiller Instituttet havde to strategiske Bælt & Vej-interventioner i København den 17. og 18. maj.

Første intervention fandt sted under en konference for repræsentanter for 33 Konfucius-institutter i Europa, med titlen »Kina i Europa«, med to kinesiske og to europæiske eksperter, hvor vi uddelte Helga Zepp-LaRouches tale på Bælt & Vej Forum i Beijing, og kontakter blev skabt.

En otte mand stor delegation fra Schiller Instituttet deltog ligeledes i et heldagsseminar med titlen, »Kinas Initiativ for Ét Bælt, én Vej og mulighederne for Norden«, der var sponsoreret i fællesskab af den Kinesiske Ambassade i Danmark og det Danske Institut for Internationale Studier (DIIS), med mange både kinesiske og europæiske eksperter som talere. Dette inkluderede professor Xinning Song fra Renmin Universitet i Beijing, der havde været med under pressekonferencen i Kina, hvor Helga Zepp-LaRouche, sammen med eksperter fra hans universitet, præsenterede den kinesiske oversættelse af *EIR's* rapport, »Den Nye Silkevej bliver til Verdenslandbroen«. Bagefter gav han et kort interview til Schiller Instituttet og

*EIR.*

Helga Zepp-LaRouches evaluering, at Bælt & Vej Forum var et historisk skift til en ny, økonomisk verdensorden, samt uddrag af fremtidsvisionen i Helgas tale, blev rejst under spørgeperioden.

Delegationen fra Schiller Institutet uddelte materiale, inklusive Helgas tale i Beijing samt hendes to, nylige taler i New York City, og kontaktinformation udveksledes med nogle af deltagerne.

En rapport om spørgsmålene og indholdet af møderne vil følge.

# **Den Nye Silkevej spreder sig globalt, inklusive i USA – Hvilet er grunden til, at Trump er under angreb**

*Leder fra LaRouche PAC, 17. maj, 2017 – Verdens ledere, der vender hjem til deres lande fra det historiske Bælt & Vej Forum i Beijing, udtaler vidt og bredt, at et nyt paradigme for verdens anliggender er blevet etableret, både økonomisk og kulturelt. Titlen på EIR's Specialrapport fra 2014, »Den Nye Silkevej bliver til Verdenslandbroen«, er på en meget realistisk måde blevet til virkelighed.*

I Europa er italienerne, med hjælp fra kineserne, i færd med at sammensætte en ny Nordlig Adriaterhavs-Havnesammenslutning, sammen med Slovenien og Kroatien, som vil opgradere havne og bygge jernbaneforbindelser igennem til Øst- og Vesteuropa. Med kinesisk hjælp er grækerne i færd med at planlægge endnu en jernbanelinje fra den nyligt udvidede havn i Piræus (opgraderet af Kina), og som løber op langs vestkysten og ind i Balkanlandene. Tjekkiets præsident Milos Zeman hånede dem, der klager over, at Bælt & Vej splitter Europa og sagde, at Europa allerede er forfærdelig splittet, men kan forenes gennem den fælles Silkevejsmission. Ungarns premierminister Viktor Orbán sagde, at mange lande var lede og kede af at høre på formaninger om menneskerettigheder og foredrag om frie markeder, og at den »gamle model for globalisering er død« med den Nye Silkevej, der skaber et udviklingsbaseret, globalt paradigme.

I Asien diskuterer Japan nu en tilslutning til Asiatisk Infrastruktur-Investeringsbank (AIIB) og gensidige besøg mellem Kinas præsident Xi Jinping og Japans premierminister Shinzo Abe, som den amerikanske præsident Donald Trump har tilskyndet til. Filippinernes præsident Rodrigo Duterte planlægger at genoplive fælles udvikling af de rige resurser i det Sydkinesiske Hav sammen med Kina og Vietnam, nu, hvor Obamas plan for krig i det Sydkinesiske Hav er blevet afvist i hele Asien, og af Trump-administrationen.

I Latinamerika roste generalsekretæren for FN-kontoret for den Økonomiske Kommission for Latinamerika og Caribien (ECLAC), Alicia Bárcena, Bælt & Vej som »en fornyelse af den dybe forpligtelse over for de værdier, som er fundamentale for vores globale, økonomiske og sociale velfærd« og opfordrede alle medlemslandene til at »opsamle det potentielle, som dette Ét bælt, én vej-program har for at omdefinere kapitalisme gennem folks ligeværd og værdighed«.

I Afrika sagde den etiopiske premierminister Hailemariam Desalegn, at Bælt & Vej »åbner døren for udviklingslande og

fremvoksende nationaløkonomier til at bidrage til global, økonomisk vækst«. Kenyas præsident Uhuru Kenyatta sagde, at »Bælt & Vej-initiativet giver vort kontinent muligheden for at gennemføre et paradigmeskift. Post-koloniale Afrika har siddet fast i en trummerum. At blive en del af Ét bælt gør det muligt for kontinentet at gå videre til en ny platform, ved hvilken globalt samarbejde vil muliggøre merværdi, innovation og øget fremgang«.

Lignende entusiastiske responser fylde pressen i nationer i hele udviklingssektoren.

Og i USA etablerede Trump-administrationens repræsentant, Matthew Pottinger, en »Amerikansk Bælt & Vej Arbejdsgruppe« som et partnerskab mellem den Amerikanske Ambassade i Beijing og amerikanske selskaber, for at bringe amerikanske selskaber ind i Silkevejsprocessen. Desuden inviterede han Kina til at deltage i det »Særlige Amerikanske Investeringstopmøde« den 18.-20. juni i området omkring Washington, D.C., med det formål at bringe Kina ind i investeringsmuligheder i USA.

Ikke desto mindre ville en person, der var afhængig af den amerikanske presse eller rapporter fra den amerikanske Kongres, ikke vide noget som helst om alt dette. I stedet består næsten alt i USA's 24-timers nyhedscyklus af hysteriske tirader om præsident Trump. Hvis man troede på noget af det, skulle man tro, præsidenten var en marionet for onde Rusland og onde Kina, at han skulle være skyldig i forræderi for at gøre sit arbejde og gøre det, han lovede i sin valgkampagne – nemlig, at afslutte Bush' og Obamas politik for »krige for regimeskifte« og at genoprette Amerikas industri-infrastruktur, samt de hertil hørende arbejdspladser.

Tro ikke på den løgn, at Trump skulle være tvunget i forsvarsposition; at hans handlinger skulle have undermineret hans troværdighed, som medierne bringer til torvs *ad nauseam*. For kendsgerningen er den, at Trump er i offensiven for at afslutte den britiske imperieåra i historien. Briterne, med

samt deres aktiver i USA – de neokonservative i begge politiske partier og på Wall Street, og de korrupte elementer i efterretningssamfundet, især i FBI – er totalt hysteriske over, at deres geopolitiske opsplitning af verden og deres evne til at få den amerikanske befolkning til passivt at acceptere nedskæringer og krig, er i færd med at blive ødelagt af Trumps tiltag for at bringe USA ind i den Nye Silkevej og for at samarbejde med Rusland om at knuse terroristsvøben. Hans erklærede hensigt om at genindføre Glass-Steagall driver simpelt hen de britiske aktiver yderligere ind i en panikreaktion.

Som Helga Zepp-LaRouche gentog i sine mange taler og interviews i Kina i forgangne weekend, hvor hun optrådte som taler på det Globale Topmøde for Tænkethanke under Bælt & Vej Forum: Hvis Donald Trump lykkes med at bringe USA in i det nye paradigme med den globale Silkevej, vil han huskes som én de store præsidenter i amerikansk historie.

**Bælt & Vej slutkommunike:  
»Skabelsen af et fremgangsrigt og fredeligt fællesskab, med en fælles fremtid for menneskeheden, er vores fælles forhåbning«**

*15. maj, 2017 – Ovenstående citat – der er inkluderet i det sidste punkt af slutkommunikeet med 17 punkter, som blev udstedt af de statsoverhoveder, der den 15. maj deltog i Ledernes Rundbordsdiskussion på Bælt & Vej Forum for Internationalt Samarbejde – indfanger bedst ånden i denne begivenhed og disse deltageres entusiastiske forpligtelse til »at fremme internationalt samarbejde, inklusive Bælt & Vej-initiativet og diverse udviklingsstrategier, gennem opbygning af tættere samarbejdspartnerskaber, som inkluderer fremme af*

nord-syd, syd-syd og trekantssamarbejde. Punkt 17 understreger, at »fremme af fred, samarbejde til gensidig fordel og honorering af formålene og principperne i FN's charter og naturloven, er ansvar, vi deler«.

»Vi indser de udfordringer, som verdensøkonomien står overfor«, erklærer kommunikeet og bemærker, at, til trods for »en beskeden, økonomisk genrejsning«, så er der stadig »risici for ulemper«, især for udviklingslande, der konfronteres med udfordringer om at afskaffe fattigdom og »fremme inkluderende og bæredygtig, økonomisk vækst«. Kommunikeet tilføjer, at Bælt & Vej-initiativet »kan skabe muligheder midt i udfordringer og forandringer. Vi hilser Bælt & Vej-initiativet velkommen og støtter det, for at fremme konnektivitet mellem Asien og Europa, der også er åben over for andre områder såsom Afrika og Sydamerika. Ved at give betydningsfulde muligheder for, at lande kan intensivere samarbejde, har initiativet opnået positive resultater og har et fremtidigt potentiale til at yde flere fordele som et betydningsfuldt, internationalt initiativ«.

Kommunikeet understreger behovet for koordinering og samarbejde mellem Bælt & Vej-initiativet og flere, allerede eksisterende, globale, regionale og nationale udviklingsstrategier, såvel som andre initiativer til »fremme af samarbejde om konnektivitet og bæredygtig udvikling«. Udvidelsen af økonomisk vækst er afgørende, erklærer det og understreger, at »vi hilser promoveringen af industrielt samarbejde, videnskabelig og teknologisk innovation og regionalt, økonomisk samarbejde og integration«, der er rettet mod dette mål, velkommen.

Som ét af dets fundamentale samarbejdsprincipper understreger kommunikeet betydningen af »konsultation på lige fod« og »honorering af formålene og principperne i FN's charter og naturloven, og respekt for landes suverænitet og territoriale integritet«. Ligeledes omfattet af dette afsnit er betydningen af en dialog mellem civilisationer: »Harmoni og inklusion, med

anerkendelse af den natrulige og kulturelle diversitet i verden og en anerkendelse af, at alle kulturer og civilisationer kan bidrage til bæredygtig udvikling». Alt imens kommunikeet anerkender markedets rolle, understreger det, at regering også må »udføre sin retmæssige rolle«.

Blandt de fremgangsmåder til samarbejde, som kommunikeet skitserer, opfordrer det til fremme af »praktisk samarbejde om veje, jernbaner, havne, transport via vandveje, både maritimt og over landområder, flyvning, energi-pipelines, elektricitet, fiberoptik, inklusive trans-oceaniske kabler, telekommunikationer og informations- og kommunikationsteknologi, og hilser udviklingen af indbyrdes forbundne, multimodale korridorer velkommen, såsom en ny Eurasiske Landbro, Nordlig Søfartsroute, Øst-Vest Mellemkorridor, osv. ... «

Ligeledes adresseret er behovet for »at arbejde i fællesskab på et langfristet, stabilt og bæredygtigt finanssystem ... at fremme finansiel infrastruktur-konnektivitet ... og at opmuntre udviklingsorienterede finansinstitutioner til at spille en aktiv rolle og styrke samarbejde med multilaterale udviklingsinstitutioner«.

# **Amerika, Kina og Rusland: Et Nyt Paradigme for fremskridt – eller en Ny Kold Krig?**

*Leder fra LaRouche PAC, 16. maj, 2017* – Med ekstraordinært, globalt, politisk mod, indkaldte til og organiserede Kinas præsident Xi, som i begyndelsen handlede alene, den forgangne weekends topmøde med deltagelse af 29 statsoverhoveder og repræsentanter for 130 nationer: »Bælt & Vej Forum for Internationalt Samarbejde«. Med denne handling har Xi skabt en ny, international, økonomisk og monetær orden – der ikke er dømt til at krakke og blive reddet gennem 'redningspakker' (bailout), men derimod er bestemt til at opbygge og udvikle. Foreløbig er den hovedsagligt baseret på Kinas egen forpligtelse til et beløb af \$1 billion til andre nationer i investeringer i afgørende infrastrukturprojekter; og på den kendsgerning, at Bælt & Vej-initiativet er åbent for alle nationer.

Med Ruslands aktive støtte er dette ligeledes »det vigtigste, strategiske initiativ på denne planet«, som det vurderedes af Helga Zepp-LaRouche, der deltog i topmødet som stifter og præsident for Schiller Instituttet. Et statsoverhoved på topmødet sagde korrekt, »Dette er den form for initiativ, der kan afslutte terrorisme«.

I fald USA nu fuldt ud samarbejder i dette initiativ, er der intet problem, der ikke kan tackles med held, gennem disse tre nationers samarbejde.

Dette spørgsmål, og hvilken politik, præsident Donald Trump vil føre hen imod dette potentielle samarbejde, er vigtigere for amerikaneres fremtid end al den mediesladder, de læser.

Hvis de fleste amerikanere ikke er klar over dette, skyldes det, at britiske og amerikanske efterretningstjenester er fast besluttet på at isolere USA fra Rusland og Kina og gennemtvinge en ny, Kold Krig, med disse nationer som Amerikas fjender. De hjælpes frem af en ny McCarthy-isme i amerikanske og europæiske medier, og en genoplivelse af forrige århundredes »sensationsjournalistik«. De lancerer flere og flere angreb mod præsident Donald Trump i et forsøg på at tvinge ham til at føre en fjendtlig politik over for Rusland og Kina – og, hvis de kan, tvinge ham ud af embedet.

De fleste amerikanere er ganske enkelt ikke bevidste om, at et nyt paradigme er i færd med at skabes, som vil genoplive den kollapsede økonomi, den udforskning af rummet, som USA opgav, og de fremskudte, videnskabelige grænser, som det ophørte med at finansiere. Årsagen er, at medierne og efterretningskræfterne forsøger at tvinge Amerika ind i en Ny Kold Krig i stedet. De fleste Demokratiske ledere er fuldstændig faldet for det.

Vågn op; afvis det. Kræv fornuftigt samarbejde med Kina og Rusland om dette fremvoksende, nye, økonomiske og strategiske initiativ.

LaRouche PAC cirkulerer appeller og kæmper i Kongressen for fire politiske punkter af afgørende betydning:

Lad os genindføre Glass/Steagall-loven og bryde Wall Streets storbanker op.

Lad Amerika investere billioner af dollars i sin egen, ny infrastruktur, med samarbejde med andre verdensmestre i højhastighedsjernbaner, osv., og lade indehavere af amerikanske statsobligationer investere i ny, amerikansk infrastruktur.

Lad os bygge næste generation rumfartsmissioner og gøre opdagelser for fremtiden, såsom fusionskraft.

USA har ligeledes behov for samarbejde inden for bekæmpelse af international terrorisme og den hermed relaterede narkotikasvøbe.

Og, hvilke af disse ting er det, Rusland og Kina forhindrer USA i at gennemføre? Eller, er det tværtimod præcis disse mål, som det internationale Bælt & Vej-topmøde drejede sig om?

## **Virkningen af Bælt & Vej Forum:**

**Lyndon LaRouche:**

**»En vidunderlig ændring i historien«**

*Leder fra LaRouche PAC, 15. maj, 2017 – I dag sluttede »Bælt & Vej Forum for Internationalt Samarbejde« i Beijing, efter to dage med overvejelser og med repræsentation fra 130 nationer, i en proces, som værten, præsident Xi Jinping, beskrev som at arbejde sammen for en »fælles fremtid for menneskeheden«. Et fælles kommunike blev udstedt her til eftermiddag, efter Ledernes Rundbordssamtale ved Bælt & Vej Forum, hvor 29 statsoverhoveder deltog. Præsident Xi, såvel som også præsident Putin, æresgæsten, holdt bagefter en pressekonference. Xi meddelte, at det andet internationale forum bliver i 2019 i Kina.*

*»Dette er en vidunderlig ændring i historien«,*

erklærede Lyndon LaRouche om konferencen. Han sagde, at

»Kina gør et godt stykke arbejde. Kina stiller sig selv i front for dynamikken for verdens udvikling.«

Han sagde, at

»vi er parat til at satse på den totale sejr i USA og andre steder«. Lad være med at »forklare« det. »Acceptér processen og aktualisér potentialet. Få hele verden indkapslet i denne proces. Kampen går ud på at arbejde på dens virkeliggørelse.«

Lyndon LaRouches hustru, Helga Zepp-LaRouche, befinder sig lige midt i handlingens centrum i Beijing. Dette kommer efter årtiers lederskab fra LaRouche-parret, for netop denne form for mobilisering for verdensomspændende udvikling. Siden 1990'erne og Helga Zepp-LaRouches første deltagelse i en international konference i Kina, hvor hun opfordrede til en »Eurasisk Landbro«, er hun i Kina blevet vidt kendt som 'Silkevejsladyen'.

Repræsenterende Schiller Instituttet, som hun stiftede og er præsident for, talte Helga Zepp-LaRouche søndag, den 14. maj, på konferencens første dag, på panelet, »Bælt & Vej for fremme af en stærk, afbalanceret, inkluderende og bæredygtig, global økonomi«. Hun sagde:

»Bælt & Vej-initiativet har det indlysende potentiiale til hurtigt at blive til en Verdenslandbro, der forbinder alle kontinenter gennem infrastruktur, såsom tunneller og broer, og som forstærkes gennem den Maritime Silkevej. Som sådan repræsenterer initiativet en ny form for globalisering, der ikke bestemmes af kriteriet for profitmaksimering for finanssektoren, men derimod af kriteriet for den harmoniske udvikling af alle deltagende lande på basis af win-win-samarbejde.

Det er derfor vigtigt, at man ikke ser på Bælt & Vej-initiativet ud fra en bogholders synspunkt, som fremskriver

*sit statistiske cost-benefit-synspunkt ind i fremtiden, men at vi derimod tænker på det som en vision om et fællesskab for en fælles fremtid. Hvor ønsker vi, menneskeheden som helhed skal være om 10, 100 eller endda 1000 år? Er det ikke menneskehedens naturlige skæbne, som den hidtil eneste kendte, kreative art i universet, at vi i fremtiden vil bygge landbyer på Månen, udvikle en dybere forståelse af de billioner af galakser i vort univers, løse spørgsmålet om sygdomme, der hidtil ikke har kunnet kureres, eller løse spørgsmålet om sikkerhed for forsyning af energi og råmaterialer gennem udvikling af termonuklear fusionskraft? Ved at fokusere på menneskehedens fælles mål, vil vi blive i stand til at overvinde geopolitik og etablere et højere fornuftsgrundlag, til fordel for alle.«*

Helga Zepp-LaRouche adresserede især spørgsmålet om USA's rolle – USA's delegation i Beijing blev ledet af en særlig rådgiver til præsident Trump. Med en fremstilling af det mest positive, 'store billede', forklarede Zepp-LaRouche:

*»Når man ser på et verdenskort, så er USA ikke kun et land, der er omgivet af to oceaner og to naboer, men at det kan blive en central del af en infrastrukturkorridor, der, via Central- og Sydamerika, forbinder Ibero-Amerika med det eurasiske transportsystem, via en tunnel under Beringstrædet ... «*

Som det kunne forudsiges, så er geopolitik-flokken, med centrum i London, ved at få et anfald. Londons *The Economist* kørte i dag en strøm af modvægt, med overskriften, »"The Economist explains, "What Is China's Belt and Road Initiative?" (The Economist forklarer: Hvad er Bælt & Vej-initiativet?) De skriver, at forretningsfolk i Centralasien kalder det for »En vej, en fælde«, fordi B&V-projekter er upålidelige. Og »Bælt & Vej Forum har en uheldig forkortelse, opkast (BARF)«, osv.

Men tilbage i virkeligheden markerer Bælt & Vej Forum ikke

alene udviklingen af et potentielt verdensøkonomisk og videnskabeligt lift-off, men der er også en proces i gang med overvejelser over spørgsmål om nuværende lidelse og mulig generel krig. Præsident Trumps udsending til Beijing, Matthew Pottinger, er nu i Sydkorea til konsultationer om spørgsmål i regionen. Med hensyn til Syrien, hvor fredsforhandlinger, under navnet »Genève 6«, begynder i morgen, er flere møder planlagt til denne uge med mellemøstlige ledere, der mødtes i Beijing med både Xi og Putin. I Washington, D.C., vil den tyrkiske præsident Recep Tayyip Erdogan mødes med præsident Trump den 16. maj. Den 17. maj vil den italienske premierminister Paolo Gentiloni mødes med præsident Putin i Sotji. Den græske premierminister Alexis Tsipras mødtes ligeledes med Xi og Putin i Beijing, og også med den russiske udenrigsminister Sergei Lavrov.

I dag opsummerede Helga Zepp-LaRouche det store potentielle – vores store udfordring – ved at beskrive åbningen af Bælt & Vej Forum den 14. maj:

*»I går var et fantastisk, historisk øjeblik!«*

Hun talte på China Global Television Network's program, **»Dialog med Yang Rui«**, udsendt live, prime time.

Hun udbrød: *»Vi befinder os i et faseskifte for menneskeheden!«*

Her følger hendes indlæg:*

# Bælt & Vej byder Verdenslandbroen velkommen

I de tre et halvt år, der er gået, siden præsident Xi Jinping annoncerede initiativet i 2013, har der været en åndeløs dynamik i den Nye Silkevej. Bælt & Vej-initiativet har det indlysende potentiiale til hurtigt at blive til en Verdenslandbro, der forbinder alle kontinenter gennem infrastruktur, såsom tunneller og broer, og som forstærkes gennem den Maritime Silkevej. Som sådan repræsenterer initiativet en ny form for globalisering, der ikke bestemmes af kriteriet for profitmaksimering for finanssektoren, men derimod af kriteriet for den harmoniske udvikling af alle deltagende lande på basis af win-win-samarbejde.

Det er derfor vigtigt, at man ikke ser på Bælt & Vej-initiativet ud fra en bogholders synspunkt, som fremskriver sit statistiske cost-benefit-synspunkt ind i fremtiden, men at vi derimod tænker på det som en vision om et fællesskab for en fælles fremtid. Hvor ønsker vi, menneskeheden som helhed skal være om 10, 100 eller endda 1000 år? Er det ikke menneskehedens naturlige skæbne, som den hidtil eneste kendte, kreative art i universet, at vi i fremtiden vil bygge landsbyer på Månen, udvikle en dybere forståelse af de billioner af galakser i vort univers, løse spørgsmålet om sygdomme, der hidtil ikke har kunnet kureres, eller løse spørgsmålet om sikkerhed for forsyning af energi og råmaterialer gennem udvikling af termonuklear fusionskraft? Ved at fokusere på menneskehedens fælles mål, vil vi blive i stand til at overvinde geopolitik og etablere et højere fornuftsgrundlag, til fordel for alle.

Det er åbenlyst, at Verdenslandbroen er ideel for at fuldføre udviklingen af vor planets indlandsområder. Koloniseringen af det nære rum bliver den indlysende, næste fase af den infrastrukturelle åbning af menneskets naturlige levested.

Når man ser på et verdenskort, så er USA ikke kun et land, der er omgivet af to oceaner og to naboer, men at det kan blive en central del af en infrastrukturkorridor, der, via Central- og Sydamerika, forbinder Ibero-Amerika med det eurasiske transportsystem, via en tunnel under Beringstrædet. Siden præsident Xi Jinping tilbød præsident Trump, at USA kunne tilslutte sig Bælt & Vej-initiativet, er der nu et praktisk forslag på bordet, hvor USA kan blive en integreret del af Verdenslandbroen. USA's infrastrukturbehov, der er enorme, kunne være en perfekt anledning til at konvertere alle eller en del af de \$1,4 billion, som udgør Kinas beholdning af amerikanske statsobligationer, til sådanne investeringer via en infrastrukturbank. For eksempel har USA virkelig brug for ca. 40.000 mil hurtige jernbaner, hvis de ønsker at være på lige fod med de kinesiske planer om frem til år 2020 at forbinde alle de større byer i Kina via hurtigtog.

Den amerikanske økonomi ville opleve en enorm styrkelse gennem en sådan storstilet infrastrukturinvestering og kunne igen eksportere til det hastigt voksende, kinesiske marked, og når konkurrence først er udskiftet med samarbejde, er mulighederne for joint ventures mellem USA og Kina i tredjelande enorme.

Siden præsident Trump har erklæret, at det er hans plan at genintroducere det Amerikanske Økonomiske System, opfundet og praktiseret af Alexander Hamilton, Henry C. Clay og Abraham Lincoln, og ligeledes genintroducere Franklin D. Rooseveltts Glass/Steagall-lov, er muligheden for en snarlig etablering af en Nationalbank og et statsligt kreditsystem, med det formål at kanaliser kinesiske beholdninger (af amerikanske statsobligationer) over i infrastrukturinvesteringer, nærmere en realitet.

Alt imens flere og flere europæiske nationer, både i og uden for EU, er ved at anerkende BVI's enorme potentiale og giver udtryk for planer om at blive et omdrejningspunkt for eurasisk samarbejde, så har selve EU været reserveret, for at sige det diplomatisk.

Der er imidlertid en enorm udfordring, som gør, at EU-staterne kunne overbevises om at samarbejde med BVI: Det er flygtningekrisen. Den eneste måde, hvorpå dette Europas moralske sår kan heles, er den aktive integration af de europæiske nationer i en storstilet udviklingsplan for hele Afrika, under BVI.

Den nye, positive udsigt til samarbejde mellem USA og Rusland i Syrien om deeskalering og samarbejde mellem de to landes militære styrker, sammen med Astana-processen, stiller nu en stabilisering af hele regionen i sigte. Der eksisterer allerede tilbud fra Kina om at forlænge den Nye Silkevej ind i Sydvestasien.

Den Nye Silkevej må – som oldtidens Silkevej gjorde det – føre til en udveksling af de skønneste udtryk for alle de deltagende landes kultur, hvis den skal lykkes. Den sande betydning af win-win-samarbejde er mere end blot den materielle fordel af infrastruktur- og industriudvikling, men er også den frydefulde opdagelse af andre kulturer og skønheden i deres klassiske musik, poesi og malerkunst og hermed, gennem at lære dem at kende, at styrke vores kærlighed til menneskeheden som helhed.

I opbygningen af Verdenslandbroen vil alle nationer samarbejde om at undersøge, hvordan man anvender lovene for noosfären med det formål at etablere levedygtige former for regeringen af os selv. Udvikling af de skabende, intellektuelle evner hos alle mennesker i alle nationer vil give hele menneskeheden en fornemmelse af enhed og formål, som vil gøre vores art virkelig menneskelig. Når vi organiserer vore samfund omkring videnskabelig og kunstnerisk opdagelse, vil vi fuldende vores viden om, hvordan vi uophørligt kan fremme menneskehedens selvudviklingsproces, intellektuelt, moralsk og æstetisk, og vi vil finde vores frihed i nødvendighed – hvor vi gør vores pligt, med lidenskab!

## **Præsident Vladimir Putin kalder Bælt & Vej-initiativet for et projekt, der omfatter hele civilisationen**

*14. maj, 2017 – Den russiske præsident Vladimir Putins tale i dag ved åbningen af Bælt & Vej Forum for Internationalt Samarbejde i Beijing, begyndte med en henvisning til den historiske Silkevej, der forbundt »store civilisationer i området ... der i århundreder var engageret i handel«, og han sluttede med en opfordring til en ny alliance, der skulle blive til »et projekt, der omfatter hele civilisationen for menneskehedens fremtid«.*

»De historiske erfaringer om samarbejde og gensidig forståelse igennem århundreder« er »lige så vigtig for os her i det 21. århundrede, hvor verden konfronteres med meget alvorlige udfordringer og trusler«, sagde Putin. »Vi har udmattet mange tidlige modeller og indikatorer for økonomisk udvikling. I

mange lande er konceptet med socialstaten, der blev opfundet i det 20. århundrede, nu i krise.« Det er »ikke alene ikke i stand til at sikre den støtte vækst af folks rigdom, men kan knap nok fastholde de nuværende niveauer for vækst«, udtalte Ruslands Putin.

Putin angreb »protektionisme og illegitime restriktioner, inklusive mht. forsyningen og distribueringen af teknologi ... « Han sagde, »Fattigdom, fravær af finansiel tryghed og det massive svælg i udviklingsniveauet mellem lande og regioner bærer alle sammen ved til bålet for terrorisme, ekstremisme og illegal migration. Vi vil ikke kunne tackle disse udfordringer, med mindre vi overvinder denne stagnation i den globale udvikling ... Ingen af de gamle fremgangsmåder til løsning af konflikter bør anvendes til at løse moderne problemer. Vi har brug for nye ideer, der er fri for stereotyper.«

Putin fortsatte: »Ved at foreslå Kinas initiativ for Ét bælt, én Vej har præsident Xi vist et eksempel på en kreativ fremgangsmåde henimod skabelsen af integration inden for energi, infrastruktur, transport, industri og humanitært samarbejde ... Vi ville byde vore europæiske kollegers involvering i dette partnerskab velkommen.« Putin uddybede: »Det er nødvendigt for integration at eliminere infrastrukturbegrænsning – hovedsagligt gennem at skabe et system med moderne transportkorridorer, der er vel forbundne«, og han understregede behovet for, at alle de regionale blokke – EAEU, Bælt & Vej-initiativ (BVI), ASEAN, SCO – arbejder sammen om at bygge disse forbindelser.

»Vi forventer, at de nyligt etablerede finansinstitutioner, som den Nye Udviklingsbank og AIIIB, tilbyder en hjælpende hånd til private investorer, og interaktionen mellem universiteter og erhvervsskoler må styrkes. Min invitation er fortsat åben over for fælles arbejde mellem store videnskabscentre og forskningsprojekter, inklusive udviklingen af store, internationale forskningsfaciliteter og laboratorier til

kollektivt brug.«

»Jeg vil gerne understrege«, sluttede Putin, »at Rusland ikke kun ser fremtiden for det eurasiske partnerskab som en blot og bar etablering af nye bånd mellem stater og nationaløkonomier. Dette partnerskab må ændre kontinentets politiske og økonomiske landskab og bringe fred, stabilitet, fremgang og en ny livskvalitet til Eurasien ... Storeurasien er ikke et abstrakt, geopolitisk arrangement, men, uden at overdrive, et projekt, der virkelig omfatter hele civilisationen, og som mod fremtiden.«

## Kina har lanceret Århundredets Projekt; Hvad er vores ansvar fremover?

*Leder fra LaRouche PAC, 14. maj, 2017 – Den kinesiske præsident Xi Jinpings hovedtale på Bælt & Vej Forum for Internationalt Samarbejde i Beijing, søndag, understregede de næste skridt, der må tages for at sikre, at flere end 100 nationer i maksimal grad får fordel af det, han kaldte »Århundredets Projekt« – Bælt & Vej-initiativet (BVI).*

Det attraktive aspekt af dette storstørrelsede projekt med storstørrelsede infrastrukturprojekter er blevet fastslået gennem fire år, sagde Xi og citerede et mundheld: »Ferskner og pærer taler ikke, men de er så tilstrækkelige, at en sti kommer til syne under træerne«. Men, med mere end \$950 mia. i forpligtende langfristerede investeringer i 900 projekter –

hidtil i overvældende grad fra Kinas udviklingsbanker og nye fonde, som tilføjede \$115 mia. i nye forpligtelser alene på dette Forum – understregede Xi de vanskelige opgaver med koordinering af projektdesign, planlægning af økonomisk udvikling og mobilisering af industri blandt de deltagende lande. Og også, fælles finansiering gennem nationale kreditter.

Det pressereden spørgsmål er, hvad andre nationer, især USA, kan og må *tilføre* BVI, for virkelig at gå med i det – i betragtning af 1 milliard fattige mennesker, truslen om sult og massedød i dele af Afrika og Mellemøsten, samt udbredelsen af en fortvivlelsens kultur i USA's og Europas afindustrialiserede områder.

Den amerikanske systemøkonom Lyndon LaRouche, stifter af *EIR*, og hvis hustru Helga Zepp-LaRouche optræder i kinesisk pressedækning af Forummet, understregede, at tiden nu er inde til, at hans bevægelse i USA og alle dens tilhængere må handle for at føre Trump-administrationen længere end sine første skridt for samarbejde med Kina.

LaRouche påpegede udforskning af rummet og alle de hermed forbundne videnskabelige og teknologiske landvindinger: Dette er et *førende* bidrag, som USA kan og må yde til dette initiativ, hvor USA samarbejder med andre rumprogrammer, der engang efterlignede, men nu overgår Amerikas, med det formål at skabe et overordnet spring i menneskeligt fremskridt.

Der må være en »Silkevej i Rummet«, der overvåger og er drivkraft bag nye infrastruktur-korridorer på Jorden. Præsident Donald Trump er netop lige begyndt at se på en virkelig genoplivelse af NASA's kapacitet på »Apollo«-niveau, og en genoplivelse af optimismen hos det amerikanske folk, der engang kunne gå på Månen.

Ignorér »den offentlige mening« om, hvad der skulle være muligt, sagde LaRouche. Og frem for alt, få Amerika til at

handle på denne basis: Hvad er meningen med livet for et menneske, 50 år frem i tiden? Da Lyndon og Helga LaRouche for mere end 35 år siden fremlagde politikken for den »Eurasiske Landbro« og internationale udviklingsbanker, forudså de i realiteten meningen med denne weekends momentum i Beijing og præsenterede frøet til dette momentums Bælt & Vej-initiativ.

Præsident Xis presserende opfordring kan høres:

»Industrier er nationaløkonomiens fundament. Vi bør intensivere industrisamarbejde således, at forskellige landes industrielle udviklingsplaner vil komplementere og forstærke hinanden. Fokus bør ligge på lanceringen af store projekter. Vi bør styrke internationalt samarbejde om produktionskapacitet og fremstilling af udstyr og gøre nye udviklingsmuligheder, der frembydes af den nye industrirevolution, for at skabe nye foretagender og fastholde dynamisk vækst.

Finansiering er en moderne økonomis livsblod. Kun, når blodet cirkulerer uhindret, kan man vokse. Vi bør etablere et stabilt og bæredygtigt, finansielt garantisystem, der holder risici under kontrol, skabe nye modeller for investeringer og finansiering, opmuntre til større samarbejde mellem regering og privatkapital og bygge et diversificeret finansieringssystem og et flerstrenget kapitalmarked. Vi bør ligeledes udvikle inkluderende finansiering og forbedre netværk for finansielle ydelser.

Infrastruktur-konnektivitet er fundamentet for udvikling gennem samarbejde. Vi bør fremme konnektivitet til lands, til vands, i luften og i cyberspace, koncentrere vores bestræbelser omkring hoved-forbindelsesveje, byer og projekter og forbinde netværk for hovedveje, jernbaner og havne. Vi har sat et mål for byggeri af seks økonomiske hovedkorridorer under Bælt & Vej-initiativet, og vi bør bestræbe os på at opfylde dette mål.«

Denne udfordring blev anerkendt af den tjekkiske præsident Milos Zeman på Bælt & Vej Forum: »I hele historien har der, med undtagelse af Marshallplanen, ikke været et langfristet projekt, der kræver enormt mod. Lad mig udtrykke min taknemlighed over for Folkerepublikken Kina for dets mod, og lad mig især udtrykke anerkendelse over for Kinas præsident for dette så sjældne mod.«

Helga Zepp-LaRouche, der blev interviewet af Kinas *Xinhua* Nyhedsbureau, forudsagde, at andre lande vil blive i stand til at »eftergøre det kinesiske, økonomiske mirakel gennem de seneste 20 år ... Det vil føre til videnskabelige og teknologiske gennembrud, med internationalt samarbejde om termonuklear fusionsteknologi, der vil give os sikkerhed for forsyning af energi og råmaterialer ...

Jeg er sikker på, at det (initiativet) vil fortsætte med at vokse og blive til en virkelig verdenslandbro, med en omskrivning af et gammelt slagord: intet land vil blive ladt tilbage«.

Lad os sørge for, at USA indtager en førende plads og redder sin egen fremtid.

## **China Daily har også en artikel om Helga Zepp- LaRouche i sin dækning af Bælt & Vej**

*14. maj, 2017 – I sin artikel, »Momentum for Bælt & Vej-Initiativ vokser med utrolig kraft«, fremlægger *China Daily's* engelske udgave også Schiller Institutets stifter og leder, Helga Zepp-LaRouches vurderinger af Bælt & Vej Forum (BVF).*

Helga Zepp-LaRouche kaldte Bælt & Vej-initiativet (BVI) »en ny dynamik med et nu voksende momentum. De personer, der sagde, at Bælt & Vej-initiativet ville bryde sammen, har nu beviseligt taget fejl, for statistikkerne viser nu, at det er blevet verdensøkonomiens motor for vækst – ja faktisk, den eneste motor for vækst.«

I den mest dristige udtalelse karakteriserede Zepp-LaRouche initiativets art: »Kina har haft en utrolig økonomisk udvikling i løbet af de seneste 30 år, og det, som Bælt & Vej-

initiativet på en vis måde gør, er, at det gør det muligt for Kina at eksportere dette mirakel.« Og, sagde hun, »initiativet har allerede ændret dynamikken omkring mange af brændpunkterne i verdens kriseområder.«

Tyrkiets præsident Tayyip Erdogan gav i sin hovedtale udtryk for, at han var enig i denne indsigt, da han udtalte, at »Dette [BVI] vil blive et initiativ, der vil gøre en ende på terrorisme«.

Helga Zepp-LaRouche understregede over for *China Daily*, at Kina havde vist, det var førende på verdensplan mht. højhastigheds-jernbanesystemer, som landet frem til år 2025 vil have 40.000 km af, og som det begyndte at opbygge i 2006. Hun bemærkede den elendige tilstand, som USA's transportinfrastruktur befinder sig i, og at kinesisk ekspertise kunne hjælpe USA med at efterligne et sådant højhastigheds-jernbanenet. Hun bemærkede, at der var »positive tegn« under Trump-Xi-topmødet på Mar-a-Lago, Florida, »og, alt imens hr. Trump ikke selv er til stede ved Forummet, så er der planlagt et snarligt besøg til Kina«, sagde hun.

## **Schiller Institutets stifter Helga Zepp-LaRouche deltager**

# i Bælt & Vej Forum

14. maj, 2017 – Helga Zepp-LaRouche deltog i Bælt & Vej Forum i Beijing i dag, som leder af Schiller Instituttet. Schiller Instituttet, der er én af de afgørende tænketanke, der er involveret i Bælt & Vej-initiativet, var blevet inviteret til at deltage i konferencens diskussioner.

Det kinesiske pressebureau *Xinhua* interviewede Zepp-LaRouche, som i Kina velkendt som »Silkevejsladyen« for igennem nu 35 år at være fortaler for idégrundlaget for det, der nu er Bælt & Vej-initiativet. Interviewet er dateret Berlin, 14. maj. En uge tidligere, den 5. maj, interviewede *China Daily* Zepp-LaRouche om hendes organisations mobilisering for USA's deltagelse i topmødet 14.-15. maj, og gav interviewet overskriften, »**Trump opfordres til at deltage i Bælt & Vej Forum**«.

Nu, sent søndag aften ved *EIR Alert's* sengetid i USA, har *Xinhua* på sin »I dybden«-side, interviewet med Zepp-LaRouche.

Ordlyden i *Xinhuas* interview er som følger: »**Interview: Bælt & Vej-initiativ bliver 'En virkelig Verdenslandbro'**«.

»Berlin, 14. maj (*Xinhua*) – Kinas Bælt & Vej-initiativ vil fortsætte med at vokse og blive til en virkelig verdenslandbro, siger Helga Zepp-LaRouche, præsident for tænketanken Schiller Instituttet, til *Xinhua*.

»'Bælt & Vej-initiativet er det vigtigste, strategiske initiativ på planeten', sagde hun. 'Det bringer ikke alene økonomisk fremgang til alle deltagerlandene, men udgør også et virkligt fundament for en fredsorden for det 21. århundrede.'

»'I begyndelsen troede visse lande, at initiativet kun ville bringe fordele for Kina, men indså dernæst, at det drejede sig om win-win-samarbejde mellem alle deltagerlandene', sagde hun.

'For Afrika og andre udviklingslande er det første gang, de har fået adgang til avancerede teknologier inden for initiativets rammer for bekæmpelse af fattigdom og styrkelse af udvikling', sagde eksperten.

Initiativet gør det også muligt for andre lande at 'gentage de seneste tyve års kinesiske, økonomiske mirakel', tilføjede hun.

Hun udtrykte også sin overbevisning om, at Bælt & Vej-initiativet spiller en vigtig rolle i fremme af den menneskelige civilisation.

'Det vil føre til videnskabelige og teknologiske gennembrud, med internationalt samarbejde inden for termonuklear fusionsteknologi, der vil give os sikkerhed for forsyning af energi og råmaterialer.'

Gennem initiativet vil alle deltagerlande også få en chance for at lære om hinandens kulturer og traditioner, sagde hun.

'Jeg er sikker på, at det (initiativet) vil fortsætte med at vokse og blive til en virkelig verdenslandbro, med en omskrivning af et gammelt slagord: intet land vil blive ladt tilbage', sagde Zepp-LaRouche.«

## **Imponterende liste over store Bælt & Vej-projekter**

12. maj, 2017 – I modsætning til europæiske publikationer, der konstant himler op mod Kina med en geopolitisk polemik for

regimeskifte uden at sige ret meget om de økonomiske projekter, så udgiver avisen *Times Live* i Sydafrika en imponerende liste over store projekter under Bælt & Vej-initiativet – inklusive flere i Europa.

\* I Afrika vil initiativet inkludere den 471 km lange jernbane mellem Nairobi og Mombasa ved det Indiske Oceans kyst. Passagertog vil fare af sted med 120 km/t, og godstog vil køre med 80 km/t og medtage 25 million tons gods om året.

\* Kina-Europa Jernbaneekspressen – der for nylig gennemførte en meget omtalt prøvekørsel mellem Beijing og London – omfatter i alt 51 jernbaneforbindelser, der forbinder 27 kinesiske og 28 europæiske byer, med godstog, der tilbyder kortere transporttid end ruterne over havet.

\* En planlagt, 418 km lang jernbaneline mellem Kina og Laos forsøger at blive den første, udenlandske rute, der er tilkoblet det udstrakte jernbanesystem i Kina. Når den først er færdig, vil den blive den længste og hurtigste i det sydasiatiske land.

\* Endnu et 873 km langt højhastigheds-jernbaneprojekt vil forbinde den kinesisk-thailandske grænse med Thailands havne. Det vil transformere den sydvestlige Yunnan-provins til et handelsnav, der eksporterer Kinas varer til de sydasiatiske markeder.

\* Tre statsejede kinesiske selskaber købte Tyrkiets tredjestørste havn, Kumport, som anses for at være et vigtigt knudepunkt mellem »Bæltet« og »Vejen«.

\* I Pakistan åbnede en handelsrute i november, der forbinder den sydvestlige Gwadar-havn ved det Arabiske Hav med Kashgar i Kinas nordvestlige Xinjiang-provins. Gwadar vil give Kina en mere sikker og direkte adgang til det olierige Mellemøsten end søfarts-handelsruten, som Kina i øjeblikket anvender gennem Malaccastrædet. En ny, international lufthavn vil også blive bygget i Gwadar. Afgørende for projektet i Pakistan er

renoveringen af en 487 km lang vej, der er en del af Kinas eneste rute over land til Mellemøsten.

\* Kina og Malaysia er i gang med at bygge en industripark i Kuantan, Malaysia, for stål og aluminium forarbejdning og forarbejdning af palmeolie.

\* I det østlige Europa tog man det første spadestik til en Kina-Belarus industripark for højteknologiske foretagender i Minsk i juli 2014, den største industripark bygget af det asiatiske land i udlandet. Belarus er desuden medlem af den Eurasiske Økonomiske Union.

## **Seneste mediedækning i USA af Bælt & Vej Forum. Uddrag af LPAC webcast, 12. maj.**

**Vært Matthew Ogden:** Som vore seere vil vide, er der nu mindre end 24 timer til det verdenshistoriske Bælt & Vej Forum, der afholdes i Beijing, Kina, med start søndag morgen. Som det vil være vore seere bekendt, har LaRouche PAC og den internationale LaRouche-bevægelse krævet, at medlemmer af Trump-administrationen deltager personligt i dette topmøde. Seneste nyt er, at det i går aftes blev meddelt, at der faktisk vil blive en delegation, der deltager Bælt & Vej Forum. Trump-administrationen har besluttet at sende en officiel delegation til denne verdenshistoriske begivenhed.

Jeg vil gerne vise en artikel på skærmen fra Xinhua News, der bærer overskriften, »USA sender delegerede til at deltage i Bælt & Vej Forum«. Den lyder:

»USA vil sende delegerede til at deltage i Bælt & Vej Forum for Internationalt Samarbejde i Beijing den 14.-15. maj, sagde den amerikanske regering torsdag aften. USA 'anerkender betydningen af det af Kina foreslæde Bælt & Vej-initiativ og vil sende delegerede til at deltage i Forummet', iflg. en udtaelse fra USA's Handelsministerium.«

Ved det forestående forum vil alle parter fastlægge store samarbejdsprojekter, etablere arbejdsgrupper og etablere et center for investeringssamarbejde. De vil også underskrive finansieringsaftaler til støtte for deres samarbejdsprojekter.

Under et møde på Mar-a-Lago-ejendommen i Florida i sidste måned sagde den kinesiske præsident til sin amerikanske modpart, Donald Trump, at Kina byder USA's deltagelse i Bælt & Vej-initiativet velkommen. I løbet af den månedstid, der fulgte efter dette møde mellem de to ledere, har USA og Kina opnået tilsagn til indledende forpligtende engagementer inden for områder som handel med landbrugsvarer, finansielle ydelser og energi for at styrke det økonomiske samarbejde under en 100 dages plan, iflg. Handelsministeriet.«

Dette er selvsagt en betydningsfuld udvikling på vejen, hvor USA tager imod tilbuddet fra Xi Jinping til officielt at tilslutte sig dette verdenshistoriske initiativ. Delegationen vil blive ledet af hr. Matt pottinger, der er særlig assistent til Donald Trump og seniordirektør for Østasien i det Nationale Sikkerhedsråd. Han vil, sammen med den amerikanske delegation, slutte sig til de p.t. 29 statsoverhoveder, der vil deltage i dette topmøde; disse omfatter bl.a. Ruslands præsident Putin og en minister fra Nordkorea – og netop meddelt – den nyvalgte præsident fra Sydkorea. Så meget står på spil på dette topmøde. Hr. LaRouche indskærpede, at dette må lykkes for den menneskelige civilisations fremtids skyld.

Den første, større dækning af dette Bælt & Vej-topmøde, der er fremkommet i USA, er netop kommet her til morgen fra, af alle medier, NBC News. Dette er meget signifikant, og jeg tror, I vil finde det meget interessant og ikke tilfældigt, at denne dækning af det forestående Bælt & Vej-topmøde omfatter ekstensive citater fra hr. Chas Freeman; som vore seere vil huske, var en fremtrædende hovedtaler under en Schiller Institut-konference sidste år i Tyskland, med Silkevejen og Bælt & Vej-initiativet som emne, og hvor hr. Freeman sad på et panel sammen med fr. Helga Zepp-LaRouche. Jeg vil gerne vise lidt af denne dækning fra NBC News. Som I ser, er titlen, »Bælt & Vej-initiativet: Kina planlægger 'Ny Silkevej til \$1 billion'«, med et vidunderligt kort over de forskellige Silkevejsruter. Det lyder:

»Kina tilsigter at genskabe Marco Polos gamle »Silkevej«, der forbandt Europa med Asien. Men, i stedet for de kameler og karavaner, der transporterede krydderier og silke for hundreder af år siden, vil et for \$1 billion moderne netværk af handelsruter blive bygget.

Søndag vil den kinesiske præsident Xi Jinping være vært for 28 statsoverhoveder ved åbningen af et todages topmøde med fokus på det såkaldte 'Bælt & Vej-initiativ'.

Analytikere fremfører, at projektet kunne ændre centrum for den globale økonomi og udfordre den amerikanskledede verdensorden ...

Xis kolossale program er 11 gange større end USA's Marshallplan, der genopbyggede Europa efter Anden Verdenskrig. Det omfatter nye veje, højhastighedsjernbaner, kraftværker, pipelines, havne og lufthavne og telekommunikationsforbindelser, der ville styrke handel mellem Kina og 60 lande i Asien, Europa, Mellemøsten og Nordafrika ...

- Tidligere amerikansk viceforsvarsminister Chas Freeman beskrev Bælt & Vej-projektet som 'den potentielst mest

transformerende ingeniørindsats i menneskets historie'. Han pointerede, at de involverede lande udgør omkring 55 % af det globale, økonomiske resultat, 70 % af verdens befolkning og skønsmæssigt 75 % a kendte energireserver.

'Amerikanere tænker i øjeblikket på magt i næsten udelukkende militær sammenhæng, hvilket er ironisk, for vi hævder at tro på markedernes magt til at danne begivenheder, og Bælt & Vej-initiativet beror på markeder', sagde Freeman til NBC News.

'Amerikansk fjernhed' er ikke et svar på den strategiske udfordring, som initiativet udgør, fremførte han. 'Hvis vi ikke griber eksportmulighederne dér, hvor de findes, vil beskæftigelsen gå til andre, ikke amerikanere', tilføjede Freeman. Bælt & Vej er stadig en vision, men, hvis en virkeliggøres på signifikant vis, vil alle veje i Eurasien 'føre til Beijing' ... Kina vil blive det økonomiske tyngdecenter i takt med, at landet bliver verdens største nationaløkonomi', tilføjede han. »Bælt & Vej«-programmet indeholder intet militært element, men det har tydeligvis potentialet til fuldstændig at ændre verdens geopolitik, så vel som verdens økonomi'. ...

Med 12.500 miles kan Kina allerede prale med verdens længste højhastigheds-jernbanenet – med planer om en nær-fordobling frem til 2025. Under Bælt & Vej er i alt 50.000 miles projekteret. Det er planen at gøre det muligt at rejse fra London til Beijing 'på blot to dage', iflg. Freeman.«

Som I ser, så er dette en meget betydningsfuld artikel, med disse lange citater af Chas Freeman. Som jeg sagde, så var Chas Freeman (indsat foto) en af hovedtalerne på en konference i Tyskland for nylig, som var sponsoreret af Schiller Instituttet. Dette er altså den første betydningsfulde, amerikanske mediedækning af dette ekstraordinært signifikante projekt og ditto topmøde i kommende weekend.

(Afsnittet med den kinesiske video med Xi Jinping findes

særskilt oversat til dansk, her:  
<http://schillerinstitut.dk/si/?p=19502>

(Her følger engelsk udskrift af resten af webcastet.)

So, as you can see, this is a very major article, with these extensive quotes from Chas Freeman. As I said, Chas Freeman was

one of the keynote speakers at a recent conference sponsored by

the Schiller Institute in Germany. So, this happens to be the first major U.S. media coverage of this extraordinarily significant project and extraordinarily significant summit this

weekend.

Now, I also just want to give you a selection of a number of different quotes from other world leaders around the world, who

are recognizing the extraordinary significance of the Belt and Road Initiative. While Americans are distracted by domestic politics here at home and the narratives of the mainstream U.S.

media, the rest of the world has become very attuned to the fact

that China, with this Belt and Road Initiative summit this weekend, is inaugurating a new era in global politics and in world history. So, let me give you a taste of some of these quotes.

You're going to see quotations from the chief of the United Nations; this is Secretary-General António Guterres, and he was

interviewed by Xinhua. Look at what he says: "China plays a very

central role" in uniting the world and tackling development challenges. He said, "When we look at the Belt and Road Initiative, we see a very important contribution to this solidarity in addressing global problems with international

cooperation, where China plays a very central role. So," he said, "I am very happy that I have the chance to participate in

the Belt and Road summit." He will be attending in person.

"[The initiative] is exactly doing the projects that are uniting

countries, benefitting countries; namely infrastructure that links different regions in the world. We are creating exactly that kind of shared prosperity that your President [Xi Jinping]

was offering," he said. He went on to say, "This reveals a very

important strategic breakthrough, and I think the Belt and Road

Initiative is demonstrating that new vision that China has brought to global development. We are in the beginning of its implementation, but I think that there is now an enormous amount

of enthusiasm, and I must say that I have high expectations."

The next article is an interview with the Consul-General to Düsseldorf, Germany from China, whose name is Feng Haiyang.

He

says, "Chinese Jobs-Motor for Rhineland"; you can see in the German-language coverage there in {Rheinische Post}

[<http://www.rp-online.de/nrw/staedte/duisburg/chinesischer-job-motor-fuer-das-rheinland-aid-1.6811298>].

He said, "We should take the idea of a new Silk Road as a win-win

situation for all countries that participate in it. We are experiencing an era of crises: terrorism, wars, and refugee streams, plus a shrinking world economy. Hardly a country in the

world still has the will, nor the courage, to think for the future and act accordingly. The Chinese idea of a new Silk Road

can, therefore, also be seen as a hope-promoting answer for this

new era. That is exactly why this initiative is welcomed by more and more countries in the world."

Then the next quote I want to read to you is from the delegate from France who will be attending, Jean-Pierre Raffarin.

He said, "I expect, with this great summit, the entire world will

learn about this project, which involves not only Central Asia,

but also West and East Asia as well as Europe and even Africa.

What I would like is a world mobilization."

Then he went on to say, "The world is very dangerous.... In that dangerous world, China has projects and strategies, it seeks

multilateralism, defends the UN and UNESCO and thereby contributes to peace in a dangerous world....

"Thus, we have the vision of a world which in the process of erecting a new framework and a new organization. The Belt and Road Initiative is the framework of a new world; a world that is

a grand alliance between Europe and Asia, with a grand opening towards Africa...." China is contributing to the connectivity of

most of the world, and is "creating links, creating relations, and creating development.

"France and China have the same peaceful vision of the world. We are countries that want peace in the world in order to have development."

Then he made an important historical point: "Since General de Gaulle, we have always insured that the Franco-China relation

should prevail above political parties, and the ongoing Presidential election would not play any role in the deterioration of those relations. We want a good relationship;

there is consensus on that question."

This is very significant in the aftermath of the French Presidential elections, that it's Jean-Pierre Raffarin who will be attending this summit, representing France. And the extraordinarily positive statements that he had in terms of the importance of the Belt and Road framework. As he called it, "the framework for a new world"; very much along the lines of what Helga Zepp-LaRouche has been saying about how this is inaugurating a New Paradigm for mankind. Speaking on behalf of France, but also speaking on behalf of the better impulses inside Europe, his point about how Europe should have a very close relationship with China in bridging Eurasia and in inaugurating this new era of global development as the means towards peace and stability in a very dangerous and unstable world, is exactly the point. It's those kinds of statements that we would hope that President Trump takes a page from.

What you have coming out of China, as you could see from the statement by the Consulate General to Düsseldorf, and we had also seen from the Consulate General to New York City at the recent Schiller Institute conference in Manhattan about a month ago, are repeated statements that it's in the best interests of all countries to join in this "win-win" cooperation with China. That this really is the future; and as the Consulate General to Düsseldorf made the point, there are very few countries on the planet right now which have the courage to think in terms of a future vision. Most countries are now stuck in crisis-

management mode, just trying to resolve crises as they occur; wars, terrorism, economic collapse, famine, starvation. When you have a nation like China, which is able to actually think 50 years into the future, and to inaugurate this kind of future vision, and to invite other countries to become a part of that; that's something that countries should take up the opportunity to be participants in.

There's a very inspiring press conference that was just held on May 8 by the head of the Chinese Rolling Stock Rail Corporation [CRRC], and they've announced some exciting initiatives in terms of new trains and new rail capabilities that are coming out of China. I have a little animation about that.

This is the clip from the Chinese Rolling Stock Company press conference May 8, and the chairman, Liu Hualong, had some exciting announcements. He said that the CRRC is developing new high-speed trains, capable of speeds reaching 400 kilometers per hour [kph]. They will have the ability to change track width to utilize different gauges found along the Belt and Road; and it's these different track gauges that remain the greatest bottleneck in rapid transit along the routes of the Silk Road. And, they have announced that CRRC is working on a maglev capable of achieving speeds of 600 kph; which would make the 1100-km trip between Shanghai and Beijing something that you can achieve in less than two hours. So, this is a very exciting new initiative from China; and it's this kind of thing that the Silk Road and the World Land-Bridge would bring to the entire world. If you think about what China has been able to accomplish in just the

last ten years in terms of high-speed rail connectivity inside China – which has lifted 500 million people out of poverty, as Secretary Rex Tillerson very aptly made the point during his speech to the State Department just last week that we covered extensively on our webcast here last Friday.

This is the opportunity that the United States has to participate in. When Donald Trump talks about \$1 trillion for infrastructure, we should compare the state of infrastructure in

the United States to the state of infrastructure in China.

It's

these kinds of high-speed rail projects and so forth, that we would be very well advised to initiate in the United States with

direct collaboration in investment and know-how from China.

A colleague of mine found a very inspiring and entertaining video that was just issued by China, with quotes from President

Xi Jinping where he discusses why he initiated the New Silk Road,

or the Belt and Road Initiative in the first place. It goes through some wonderful examples of how different areas of the world are being lifted up by these great projects that are spin-offs and initiatives from the New Silk Road. So, I just want to play this five-minute video for you right now, and allow

you to be inspired by it.

[BEGIN VIDEO, subtitles are transcribed]

President Xi Jinping: Why I proposed the Belt and Road

The world is watching China as it gets ready to host the Belt and Road Forum for International Cooperation in mid-May 2017.

PRESIDENT XI JINPING: While visiting Kazakhstan and Indonesia in 2013, I proposed jointly building the Silk Road Economic Belt and 21st Century Maritime Silk road,

respectively.

Shaanxi, my home province, is situated at the starting point of

the ancient Silk Road. Standing here and looking back on history, I feel I can hear the sound of camel bells ringing in the mountains and see plumes of smoke rising over the desert. This all feels so familiar. Since ancient times, peaceful development has been a shared goal of mankind.

[Captions:]

War

Famine

Wealth Gap

Economic Recession

XI: Today's world is filled with uncertainties. People have hopes for the future, but at the same time, feel perplexed.

[Caption:] Some lands once prosperous and bustling are now synonymous with difficulty, conflict and crisis.

XI: What has become of the world? What should we do? The whole world is pondering over these questions and I am thinking of them all the time.

[Captions:]

Policy Connectivity

Trade Connectivity

Infrastructure Connectivity

XI: I proposed the Belt and Road Initiative in the hope that with a focus on connectivity, the free and convenient flow of all

elements of production will be encouraged, multidimensional cooperation platforms developed, and mutual gains and shared development achieved.

The Belt and Road Initiative draws inspirations from the ancient Silk Road, and aims to help realize the shared dream

of

people worldwide for peace and development.

Shining with the wisdom from the East, it is a plan that China offers the world for seeking common prosperity and development.

The Belt and Road Initiative is based on the principles of extensive consultation, joint contribution and shared benefits.

[Caption:]

Uzbekistan: Qamchiq Tunnel, Part of the Angren-Pap Railway Line

XI: It is not exclusive, but open and inclusive. The initiative will not be a solo for China, but a chorus of all countries along the routes.

[Captions:]

Belarus: China-Belarus Great Stone Industrial Park

China-Russia Cooperation Projects

Maldives: China-Maldives Friendship Bridge

Malaysia: Sea Freight

Greece: Piraeus Port

Sri Lanka: Puttalam Coal Power Plant

Britain: China-Europe Freight Trains

Ethiopia-Djibouti: Addis Ababa-Djibouti Railway

Kazakhstan: Light Railway Transportation System in Astana

XI: For more than three years, over 100 countries and international organizations have responded positively and offered support for the initiative.

The “friend circle” of the initiative has kept widening.

[Captions:]

Fiji: Nabouwalu-Dreketi Highway

Pakistan: Karakoram Highway

XI: A great cause should be pursued for common good. Let us

more closely join hands in forging new partnerships characterized by win-win cooperation and build a community of shared future for mankind.

History is made by the brave. Let us show confidence, take action and forge ahead, hand in hand.

[END VIDEO]

OGDEN: ...Now obviously, this is a wonderful and inspiring vision of a new era for mankind, and that era means the end of the British Empire world, the era of divide-and-conquer, of colonialism, of enforced poverty, backwardness, lack of development. It's an entirely new concept of what the world can

share in terms of progress, prosperity, development and peace. And, as we know, and as we reported extensively, there is an unrelenting assault against not only those countries that have initiated this vision of a new world, China, others who are participating in this, but there is an unrelenting assault against President Donald Trump in the United States, for even his

willingness to consider, that this would be something that the United States could participate in, and to usher in a new relationship between the United States and China, and especially

the United States and Russia. That would be his willingness to

overturn this geopolitical world that has reigned since the conclusion of World War II, with the United States-U.K. “special

relationship” in a war against these developed and developing countries.

Now, a very significant development has occurred just in the last two days along those lines, and it has definitely

occurred  
among a tumultuous political situation in Washington, D.C.  
But  
perhaps the most significant development, aside from all of  
the  
media hysteria around the firing of James Comey, and Trump's  
decision to remove the Acting Director of the FBI, was the  
fact  
that on that very day, Foreign Minister of Russia Sergey  
Lavrov  
made a visit to the White House, where initially he was  
scheduled  
to only meet with Secretary of State Rex Tillerson on his way  
to  
the Arctic Council ministerial in Alaska, but at the very last  
minute, it was announced that President Trump would be in on  
that  
meeting with Sergey Lavrov.  
And we don't have the direct transcript yet, but we do have  
some paraphrases of the reports of that discussion, and I'm  
going  
to read you a few of the very significant statements that were  
made by Sergey Lavrov. And you can see, that despite the  
concerted efforts to drive a wedge between the United States  
and  
Russia, and to try to disrupt this thawing of relations and  
the  
potential for a collaborative relationship, this is moving  
forward steadily.  
What Sergey Lavrov said is that the United States and Russia  
can and should contribute to a settlement in Syria and that  
this  
is moving along well. He said: All government and opposition  
parties will be constructive in the next Geneva meeting. Now,  
he  
was questioned as to why U.S. and Russia relations had sunk to  
such a low level, and this is a quote from Sergey Lavrov [as

interpreted]: “The previous Administration bent over backwards to undermine the solid foundation of our relations. Now we have to start from a very low level between Russia and America.” He went on: It is clear “the Obama Administration in its last days in power resorted to petty actions against both our property and our diplomats. ... The President of the Russian Federation Vladimir Putin [is] ... not going to follow those who are trying to destroy our relations. I hope we will be able to resolve the situation without our relations deteriorating.” And he went on to say: “The dialogue between Russia and the U.S. is now free from the ideology that characterized it under the Barack Obama Administration. ... U.S. President Donald Trump, his Administration, and Secretary of State Rex Tillerson are the kind of people who want to maintain a dialogue not as a means of demonstrating what they can achieve in the area of ideological preferences, but rather as a means of solving particular issues....” [<https://www.rusemb.org.uk/fnapr/6082>] And then he said, that “The presidents reaffirmed during their recent telephone conversation that they would meet on the sidelines of the G20 meeting in Germany in the first 10 days of July” and that meanwhile discussions will be continuing at a very high level with Secretary Rex Tillerson. And as I reported, just today now, following that meeting, Secretary Tillerson and Minister Lavrov are meeting on the sidelines of the Arctic Council Ministerial in Alaska, and they’re discussing what has been characterized as the “Arctic Silk Road.” So this is yet one more aspect of the connectivity of the world, as we’ve repeatedly made the point, and that

should absolutely include the extension of the Eurasian Land-Bridge across the Bering Strait to become the World Silk Road, with rail connectivity between the Americas and Eurasia.

But look, this kind of very high-level and very friendly dialogue that occurred at the White House on Wednesday, during the whole hoopla around Comey and so forth, is exactly what this British coup attempt has been trying to derail, against Trump, to try to derail this potential for a warm and collaborative relationship between the United States and Russia. And it really is an all-out battle for the future of the U.S. Presidency, and for the future of what will come of these great potentials, in terms of this cooperative relationship between the United States and these other countries around the world, and an abandonment of this Obama-era regime change ideology.

So, finally, what we have for you tonight is two clips from a very timely and I think important interview between {EIR} Contributing Editor Will Wertz and Virginia State Senator Dick Black. And Senator Black, as you'll see from these two short clips had had a very unique, ground-floor view of this fight, particularly some of the leading parties involved and in particular Andrew McCabe who is now Acting Director of the FBI, who succeeded James Comey after he was fired by President Donald Trump.

[<https://larouchepac.com/20170511/fbi-s-mccabe-attacks-antiisis-senator>]

So I'm just going to play two very short clips from that interview, back to back. And then we'll come back and I'll

let

you know what you can expect from LaRouche PAC in the coming days.

[BEGIN VIDEO]

WILLIAM WERTZ: So, if you look at this, you opposed Obama's policy of regime change, which was also backed by the British, the French, the former colonial powers in Syria, let alone, Libya, Egypt, and so forth. So the point here is, what we're talking about here is your letter to Assad was posted on his website – this was back on May 28, 2014. Soon after that you get visitations from the FBI, in a very fishy operation, and at

least two of those agents are coming from the Washington, D.C. field office which is run by Andrew McCabe. This is ten months

before his wife is recruited, in a meeting that he attends, with

[then Virginia Gov. Terry] McAuliffe, to run against you.

So the point here that I would like to raise is, whereas some has looked at this from the standpoint merely of, there was

sort of an agreement here that she was backed to run involving a

conflict of interest in which then Andrew McCabe ends up involved

in various cases involving Hillary Clinton, the Democratic Party

and eventually against Donald Trump; but the point that I would

make is, that you had identified yourself as an opponent to the

policy which was being carried out by the Obama administration and by the FBI, the CIA and the State Department in terms of regime change and the promotion of terrorists.

SEN. RICHARD BLACK: Well and worldwide, I was the first one

to break the wall of silence. Since then, we have Rep. Tulsi Gabbard, we have Sen. Rand Paul, we have several who have come out and who have taken a stand; our own Virginia Rep. Tom Garrett. But up until this time there was total censorship.

It

was wartime censorship, it was censorship that was the equivalent

of what we saw in the Second World War, when we were at war. We're not at war, and yet, we have this same type of censorship

going on. And I think there was a feeling that this individual,

this Senator from Virginia has to be just beaten into dust as an

example to the world that if you dare to stand up and to tell the

truth about what we're doing in Syria, and in other countries, then you're going to be crushed, your life is going to be destroyed. ...

WERTZ: Now in that same time period when you endorsed, now President Trump, there were two interventions into the U.S. political scene, by British intelligence. The first was a dossier that was compiled by an MI6 British intelligence officer,

Christopher Steele. And the indications are that he actually worked on this dossier, after being paid by the Clinton campaign,

Hillary Clinton's campaign, to present this dossier. One of the

issues that Senator Grassley has raised is – this was reported in the {Washington Post} – the FBI was prepared to pay Christopher Steele to continue his research to try to prove that

Trump was somehow working with the Russians.

SENATOR BLACK: Amazing that the FBI was involved in paying

for opposition research. Now, I've done a little opposition research: You know, we paid companies and of course it's been done on us, endlessly. But, I've read a little bit about the dossier and if I paid someone and he gave me that, I would be so

furious, because it is so transparently fallacious. It's just ridiculous! You know, unbelievable the things that he says. It

has no air of credibility in my view, from my experience, and I've seen a lot of this stuff before. I think it was a total creation....

[END VIDEO]

OGDEN: So as you can see that is a very explosive story and it's one that will continue to develop, especially now that McCabe is right in the spotlight. He was, in fact, one of the testifying witnesses at a Senate committee hearing just yesterday, which originally Jim Comey was supposed to be involved

in.

So you can watch for more developments on that, and I think that's a unique view from on the ground of what, really, this grouping has been willing to engage in in terms of activities, to

try to enforce the fact that there can be no breaking, there can

be nobody calling this for what it is.

So to conclude, I would just like to announce that we will have a new petition, available for you to sign on LaRouche PAC.

The title is "We Agree with Senator Grassley: Suck It Up, Move On, Let's Rebuild the Country!" And this goes through the fact that Donald Trump was elected, not because of Russian interference but because in fact, the American people have been

beaten down and have become desperate in terms of the economic collapse that they've been subjected to, over not just the

last eight years, but over the last fifteen years and even more; that he spoke to that; and that they were also against the insane regime change agenda, to try to drive a wedge between these great powers that should be collaborating for the mutual benefit and stability of world peace, not at each other's throats in terms of thermonuclear war, and potential for setting off World War III.

That this was rejected, and in fact, the logical consequence of that overturning the geopolitical applecart would be for the United States to reciprocate President Xi Jinping's offer and use the opportunity for this Belt and Road Forum this May 14-15, which we can announce the happy news, there will be an official U.S. delegation attending that Forum in person, to use the opportunity of that to inaugurate an entirely new era, a new framework for international relations, a new paradigm of peace, economic development, stability and mutually beneficial relations among nations.

So please stay tuned to larouchepac.com over the coming 24, 48, 72 hours: A lot is going to change between now and the beginning of next week. And we, I think as we've demonstrated, uniquely, are your unique source for the real news about what's happening around the world and in fact, you can participate in helping us change the course of world history.

Please sign up for <http://www.larouchepac.com>. If you have not, already, go to the LaRouche PAC Action Center; also sign up

for the daily email updates. You will receive this updates in your in-box, and please subscribe to our YouTube channel. Thank you very much for tuning in today, and we look forward to seeing you again, soon. Good night.

# **USA annoncerer delegation til Verdenshistorisk topmøde i Beijing.**

## **LaRouche PAC Internationale Webcast, 12. maj, 2017.**

### **(dansk uddrag følger senere)**

Med lidt over 24 timer tilbage til åbningen af Bælt & Vej Forum i Beijing, har USA officielt annonceret, at en delegation vil deltage som repræsentant for USA og Trump-administrationen. Aftenens webcast fremlægger flere spændende og hurtige udviklinger, med vores verden, der er i færd med at blive transformeret af en vision om win-win-samarbejde og fred gennem udvikling, som de britiske imperialister så desperat har forsøgt at køre af sporet, inklusive med et igangværende politisk kupforsøg imod Trump-administrationen.

# **USA annoncerer og begrunder delegation til Beijing Bælt & Vej Forum – Kina hilser USA's deltagelse velkommen**

*12. maj, 2017 – Kinas Udenrigsministerium erklærede i dag, at det hilser udnævnelsen af en delegation fra USA til Bælt & Vej Internationale Forum velkommen og kalder det »en indikation af USA's anerkendelse af Kinas Bælt & Vej-initiativ«.*

Leder af den amerikanske delegation bliver Matthew Pottinger, der er det Nationale Sikkerhedsråds seniordirektør for Østasien; Pottinger er desuden udnævnt til særlig assistent til præsident Donald Trump »under sit besøg for at observere topmødet«.

Pottinger tjente under general Michael Flynn som marineofficer i Afghanistan, og han blev udnævnt til det Nationale Sikkerhedsråd af general Flynn. Han taler flydende mandarinkinesisk. Han var aktiv under organiseringen af Mar-a-Lago-topmødet mellem præsident Trump og Kinas præsident Xi.

Pressesekretær for Det Hvide Hus, Sean Spicer, responderede i dag til et spørgsmål om, hvorfor delegationen blev sendt af sted, mere detaljeret, end hans svar på så mange andre

spørgsmål. »Det er et betydningsfuldt handelsinitiativ«, sagde Spicer. »De har mange havneprojekter og andre infrastrukturprojekter i kikkerten. Og gennem de diskussioner, som [handelsminister Wilbur] Ross og [finansminister Steven] Mnuchin, samt andre, havde i Mar-a-Lago – det er noget, de [Kina] har gjort. Vi vil fortsætte med at arbejde sammen med dem. Handel er selvsagt et betydningsfuldt spørgsmål for os. Og det, de planlægger at gøre, er meget vigtigt for vores økonomi og nationale sikkerhed, og de har indbudt os til at sende folk af sted. Og vi har også indbudt dem til ting, som vi gør. Og jeg tror, præsidenten har vist, at, mht. den relation, han har opbygget med præsident Xi og deres delegation, at disse relationer nu giver udbytte, både på den nationale sikkerhedsfront og på den økonomiske front.«

## **Der står for meget på spil – Det må lykkes!**

*Leder fra LaRouche PAC, 11. maj, 2017 – Alle mænd og kvinder – og Lyndon LaRouche i særdeleshed – der begriber deres eget, personlige ansvar for menneskehedens fremtid, har i øjeblikket skærpet opmærksomhed på at sikre, at det forestående Bælt & Vej Forum, der finder sted i Beijing kommende 14.-15. maj, bliver en succes.*

På dette topmøde er en ny og spændende virkelighed, der repræsenterer menneskehedens højeste forhåbninger, i færd med at virkeligøres. Det største infrastrukturprojekt, der nogensinde er gennemført i menneskehedens historie, er under

opbygning; det bringer udvikling til hele sektioner af verden, løfter millioner ud af fattigdom og bringer produktive jobs til millioner af mennesker. Kina har bedt præsident Trump om at deltage i dette storståede projekt, og det bør USA omgående takke ja til. Det kunne give stødet til, at USA's økonomi kommer op på en ny platform for moderne vareproduktion og moderne infrastruktur.

I sin første telefonsamtale med Kinas præsident Xi Jinping i dag, sagde Sydkoreas nyvalgte præsident, Moon Jae-in, at hans land i høj grad påskønner Bælt & Vej-initiativet og har forventninger om, at det vil bringe fremgang til nationerne langs dets ruter, inklusive Sydkorea.

Jean-Pierre Raffarin, tidligere fransk premierminister og nuværende leder af det franske senats Udenrigskomite, og som viseligt blev valgt af præsident Macron til at lede den franske delegation, har længe været tilhænger af Bælt & Vej-initiativet, og han forstår i lige grad både dets løfterigdom, men også den fare, verden vil befinde sig i, hvis det får lov at mislykkes. Til kinesiske journalister sagde han den 5. maj, at han ser den Nye Silkevej som et globalt initiativ for fred og samarbejde. Mod en baggrund af en kompliceret og konstant skiftende verdenssituation, bringer Kina fred til verden med sine planer og strategier, der fremmer multi-lateralisme og støtter FN. Raffarin sagde, han håber, Bælt & Vej Forum lykkes med at bringe toppolitikere fra andre vestlige lande nærmere til Bælt & Vej-initiativet.

Ruslands ambassadør til Beijing sagde, at »dette samarbejde må blive basis for dannelse af en ny, international aftegning, nemlig, det eurasiske, altomfattende partnerskab, med deltagelse af et udstrakt antal lande, der er medlemmer af den Eurasiske Økonomiske Union, Shanghai Samarbejdsorganisationen og også med fremtidig udsigt til Sammenslutningen af Sydøstasiatiske Nationer (ASEAN)«. Han tilføjede, at, ikke alene ville præsident Putin deltage, men også premierminister Medvedev – og sammen med disse to, yderligere tilstrækkeligt

mange ministre i den russiske regering til at gøre det muligt for Rusland på regeringsministerplan at deltage i hvert eneste konferencepanel.

Med hensyn til Indien, har Kinas udenrigsminister Wang Yi sagt, at Indien vil være repræsenteret på Forummet, men den indiske regering har tilsyneladende endnu ikke meddelt, hvem, der deltager. Mange indere advokerer for, at premierminister Narendra Modi bør tage af sted. En af disse advokater, tidligere FN-direktør Mukul Sanwal, stillede i går i avisen *The Hindu* dette spørgsmål: »Vil premierminister Narendra Modi overraske alle og deltage i Kinas 'Bælt & Vej Forum for Internationalt Samarbejde', der starter den 14. maj? Dette ville være samme form for dristigt initiativ, han tog, da han inviterede ledere fra vore nabolandene til sin indsættelse i 2014, men langt mere signifikant.«

På samme måde er det af afgørende betydning, at præsident Trump, en anden leder, der er berømt for dristige initiativer, »overrasker alle og deltager«. Ingen større garanti for verdensfred kunne eksistere, end netop den uventede optræden af både premierminister Modi og præsident Trump i Beijing, den 14. maj.

Da Lyndon Larouche vurderede mange af disse udviklinger her til morgen, svarede han, at, »Jo, men det nye paradigme må fungere. Det må ikke mislykkes; i modsat fald vil der ikke være nogen fremtid for menneskeheden. Der er mange onde ting derude. Dette må lykkes. Det må ikke blive undermineret.«

# **Danmark opgraderer sin delegation til Kinas Bælt & Vej Forum, med statsministerens særlige repræsentant, minister Karen Ellemann**

*11. maj, 2017 – København:* Efter Lars Løkke Rasmussens nylige officielle besøg i Kina, hvor han drøftede Bælt & Vej-initiativet med præsident Xi Jinping, er Danmarks delegation til Bælt & Vej Forum i Beijing den 14.-15. maj blevet opgraderet. Minister for ligestilling og nordisk samarbejde, Karen Ellemann, rejser i morgen til Kina som statsministerens særlige repræsentant, for at deltage i Forummet. Det var oprindeligt departementschefen for Transportministeriet, der skulle have ledet delegationen.

Inden Lars Løkke Rasmussens rejse til Kina, skrev det kinesiske nyhedsbureau *Xinhua* den 30. april:

»Rasmussen sagde, at Kinas Bælt & Vej-initiativ er en meget interessant, diplomatisk strategi. At yderligere forbinde Europa med Asien gennem handel og bilateralt samarbejde kan forhåbentlig være en fremtidig dynamo for vækst og fremgang for begge kontinenter«, sagde statsministeren ...

I interviewet sagde Rasmussen, at initiativet forhåbentlig kan give økonomisk stabilitet og udvikling for Central- og Sydasien – indgangsporte mellem Østasien og Europa.

»Dette vil være af afgørende betydning for handel mellem de to største koncentrationer af økonomisk magt«, sagde han og tilføjede, at Danmark, som en af verdens fremmeste

søfartsnationer, allerede i flere århundreder har været engageret i at forbinde kontinenterne.

»Danmark er blevet inviteret til at deltage i Bælt & Vej Forum for Internationalt Samarbejde, der afholdes i Beijing den 14.-15. maj. Vi vil deltage og med glæde bidrage positivt, både på politisk og erhvervsniveau under konferencen«, sagde Rasmussen.

Under statsministerens besøg i Kina blev der indgået mange aftaler, der vil intensivere det strategiske partnerskab mellem Danmark og Kina, som blev indgået i 2008. Danmark er fortsat det eneste af de nordiske lande, der har et strategisk partnerskab med Kina.

## **Latinamerikas fremtid ligger på den Nye Silkevej. Af Helga Zepp-LaRouche**

*Zepp-LaRouches videopræsentation til en konference, »Latinamerikas fremtid ligger på Silkevejen«, 4. maj, 2017. Fr. Zepp-LaRouche udvikler her en dramatisk vision om økonomisk »win-win-samarbejde«, der kan løfte hvert eneste menneske ud af fattigdom; og om den Ny Silkevejspolitiks potentiale for at udløse menneskelig kreativitet på hele planeten, der kan skabe en ny, kulturel renæssance.*

*Helgas tale blev vist ved møder, der var samlet i Mexico City,*

*Hermosillo og Querétaro (i Mexico); i Lima og Pucallpa (i Peru); og i Guatemala City, og blev ligeledes udsendt live over Internettet.*

*Engelsk udskrift:*

Dear Friends of the Schiller Institute,

I will speak to you about the “Future of Ibero-America Lies in the New Silk Road,” and I want to send you my most heartfelt greetings, watching the video in Peru, Guatemala, Mexico, Argentina, Chile, Colombia, the Dominican Republic, the United States, and maybe elsewhere.

We are only eight days away from an event which will make clear to the whole world that the world *is* changing, that we are already in the process of developing a completely new paradigm, that of the New Silk Road, otherwise called the Belt and Road Initiative. In Beijing, between the 14th and 15th of May a summit will take place. Already 28 heads of state, or 28 nations have agreed to attend, and those heads of state include those of Argentina and Chile, but also there will be high-level representatives and delegates from 110 nations, altogether 1,200 delegates; there will be 60 international organizations represented. And they will sign in the context of this summit, 20 cooperation agreements between China and 20 countries into a document which then will define the goals and principles, and specify cooperation; it will develop an international new platform on science, technology, exchanges and training of talent among the participating countries.

This Belt and Road Forum will be an historic event. It will be the consolidation of a process which started three years and eight months ago, when President Xi Jinping in Kazakhstan announced the New Silk Road. And in this period, the true conception of “win-win cooperation” among altogether almost 70 nations, has become a reality, where it is clear that no longer is this a zero-sum game where one has advantage and the

other one suffers, but this is a true “win-win cooperation,” where each country is having equal benefits from such cooperations.

Now the significance in this conception of the Belt and Road Initiative which is open to all nations of the world, including the United States and the European nations, even though they are still not so clearly in favor of it, or at least it's a mixed situation, the significance of this concept lies in the fact that for the first time in human history, it overcomes geopolitics – geopolitics which was the cause of two world wars in the 20th century – because it establishes a higher level of reason, and since it's open to every country, it can reach into the farthest corner of the world.

Since this program has been put on the agenda by Xi Jinping it has led to an unbelievable explosion of development, absolutely unprecedented in history. China has signed more than 130 bilateral and regional transport agreements. It opened 356 international road routes, for both passengers and freight; there are now 4,200 direct flights connecting China with 43 Belt and Road countries; there are presently already 39 China-Europe freight train routes; currently, there is daily leaving such a cargo train from Chongqing to a European destination.

There are in the meantime, six major industrial development corridors, and the 21st Century Maritime Silk Road. These corridors not only are, one, a corridor from China to Central and Western Asia which is intended to be extended through Iraq, Syria, Turkey, into Europe and into Africa; there is a second corridor from China to Western Europe which goes from such cities as Chengdu, Chongqing, Yiwu, Lianyungang, going to Duisburg, Hamburg, Rotterdam, Lyon, and Madrid. There is thirdly the Mongolia- China-Russia corridor which involves 32 large projects. There is fourthly, the China-Pakistan Economic Corridor (CPEC), where China has invested \$46 billion and this project is creating 700,000 new jobs in Pakistan. There is the

Bangladesh-China-India-Myanmar (BCIM) corridor, which bridging the whole region of Southeast Asia. Then you have the China-Indochina Peninsular corridor, and you have in the meantime the development of an entire railway network in Eastern and Central Africa.

This is unprecedented in human history, because after literally centuries of suffering colonialism and poverty and underdevelopment, for the very first time, through this Chinese initiative is the perspective for the developing countries to overcome poverty, hunger, underdevelopment and realize the true potential of all these countries.

Well, it is most astounding, but then, not so astounding if you think about it, that about this greatest infrastructure project in all of history, there is almost nothing being reported in the mainstream media, at least in the United States and in Western Europe. The mainstream media, with very few exceptions such as for example *Forbes* magazine, they had a six-part series about the potential of the New Silk Road, all the other mainstream media pretend it doesn't exist. So the populations of Europe and the United States know very little about it, and once they realize it, mainly through our efforts, the efforts of the Schiller Institute, they realize that this is a tremendous potential also for their future. And mostly people get extremely angry that they have been deprived of this knowledge.

Now, it is very clear that the old forces of the old paradigm, the paradigm of geopolitics, a system based on so-called globalization which emerged after the collapse of the Soviet Union, and which was and is based on the "special relationship" between the British and the United States, this system which was based on profit for the rich, making the gap between the rich and poor ever wider, a system which is now specifically now aiming to overcome poverty in the whole world and have a "win-win" relationship among equal nations with equal rights, equal respect for their sovereignty, these old

geopoliticians regard this new system as a complete threat to their existence. So they try to maintain the illusion that it does not exist.

Just today appeared a very interesting article by Robert Parry, who is an investigative journalist in the United States, who became rather famous because of his coverage of the Iran/Contra affair; he wrote an article with the title, "The Existential Question of Whom To Trust." And he says, "The looming threat of World War III, a potential extermination event for the human species, is made more likely because the world's public can't count on supposedly objective experts to ascertain and evaluate facts. Instead, careerism is the order of the day among journalists, intelligence analysts and international monitors – meaning that almost no one who might normally be relied on to tell the truth can be trusted." He says, and I fully agree with that, what replaces objective reporting is "groupthink," where experts "have sold themselves to ... powerful interests in order to keep high-paying jobs and ... don't even seem to recognize how far they've drifted from principled professionalism."

Well, that will not help them, because the positive alternative of the Belt and Road Initiative does exist and it is also the remedy to the two existential crises facing human civilization at this point: First, the danger of a global nuclear war, which is now most obvious in the crisis around the two Koreas, and naturally, still to a certain extent the situation in Syria; and secondly, the danger of an uncontrolled crash possibly to occur this year, which if it would occur would lead to uncontrollable chaos out of which the danger of a nuclear war would arise as well.

Let's briefly look at the second danger. On July 25th, 2007, my husband, Lyndon LaRouche made truly history forecast: He said, this present global financial system is hopelessly finished and all which you will see now is that the different elements will come to the surface. And it will not be resolved

until you have complete, total reorganization of this bankrupt system through a number of measures, Glass-Steagall, a return to a credit system and the American System of economy.

Exactly one week later, the secondary mortgage crisis in the United States erupted, which then, since it was not dealt with by the measures which LaRouche proposed, escalated into the big financial crash of Lehman Brothers and AIG in September 2008.

At that point, for a very short period of time, actually some days and weeks, the leaders of trans-Atlantic world were absolutely convinced this was a systemic crisis, and some of them, like Sarkozy of France, even called for a New Bretton Woods, because they were so scared that this whole system may disintegrate. Unfortunately, this shock lasted not very long, and already at the next G20 meeting in Washington on Nov. 15, of the same year, they basically decided to paper it over, go for quantitative easing and use other so-called "tools" of the instruments of the central banks in the United States rather than going for the Glass-Steagall separation law of Franklin D. Roosevelt, which my husband has prescribed, they went into Dodd-Frank, which basically was just a cover-story to keep the high-risk speculation of the big banks going.

In the meantime, the central banks of Europe, the ECB, of Great Britain, Japan, and the Federal Reserve decided to go into quantitative easing, and they created \$15 trillion in lending facilities to the too-big-to-fail banks, and that added a de facto zero-interest rate since about 10 years. They spent part of this money for so-called bail-out packages, which supposedly went to countries like Greece, but in reality 97% of these bail-out packages went back to the big European banks and the American banks.

In the United States this liquidity pumping increased for example, so that corporate debt rose from 2008 to today, from \$8 to \$14 trillion; that is, an increase of 75%, of which

almost \$9 are in commercial mortgage backed securities (CMBS). Since 2013, 80% of the corporate borrowing has been used for, not productive investment, but so-called “financial engineering.” Now, that is, corporate firms buy up their own stocks to drive up the price, or they’re buying other firms in so-called mergers & acquisitions (M&As) for the same effect. They are using \$500 billion per year into driving up those stock indexes, while at the same time, betting on the derivatives of these manipulations.

Despite all of this, the total non-financial corporation profits have not increased since 2011 and started to fall since 2013. Morgan Stanley just put out a report in April that the ratio of non-financial corporate debt to cash from operations is at an all-time high, at a ratio of 3.2 to 1.

Now, with this situation, where the debt is going through the roof relative to the operating cash, and profits are declining, normally, what firms used to do, is to go to the banks and borrow more, but this is now no longer happening, because the banks stopped giving credit because they know this whole system is coming to an end and it’s not maintainable.

Just at the recent meeting of the IMF in Washington, they put out a 2017 Global Financial Stability Report, where they basically wrote that the U.S. debt service to income ratio of the non-financial corporations has gone up 37% in 2014, to 41% in 2016; and those corporations have \$7 trillion more debt than in 2008, but \$3 trillion less equity invested in them. As a result, a wave of defaults has already started. The default rate for the non-financial corporations jumped from 3% at the beginning of 2016, to 5% at the end, and it is expected to be 5.6% in June. The IMF warns that if the interest rates go up, as they did in the period from November to January, then 20% of all U.S. corporations could default. Now, that is higher than the highest mortgage default rate in the crash of 2008.

Now, this gigantic bubble of corporate debt is made more

unpayable because of the complete lack of growth in the real economy. The miserable 0.7% growth which was published about the GDP in the United States – and remember that the GDP statistics are always manipulated, and every knowledgeable person in Europe, for example, makes jokes about it – it went up only 0.7% in the first quarter of this year, and that does not pay for this huge bubble.

But the problem is not only in the United States, it's also in Europe. Just recently, the Italian Banking Association put out the figures of the Level3 derivatives in the European countries, where the highest ratio is in Germany, it was 25.5%; British banks, 25.4%; French banks, 20.5%. And Italy, which is always scolded for having the biggest commercial losses, has only 15%. Now, Level3 derivatives are derivatives which don't have a market price because nobody wants to buy them, because people know they are completely toxic. So they are assets collateralized with debt and therefore pretty worthless, but the ECB has allowed the banks to price them according to their own bank model and count them as assets. In the recent stress tests of the European central banks, they left out Level3 assets, so this is a complete illusion which is being maintained because an admission would basically reveal the complete bankruptcy of the system.

Now, there is only one way to prevent a chaotic blowout, and that is the implementation of the Glass-Steagall law which Franklin D. Roosevelt implemented in 1933. And the good thing is that there are presently two legislations in both Houses of the U.S. Congress, and also the head of the National Economic Council Gary Cohn, recently told a group of senators that the Trump administration is absolutely committed to realize Glass-Steagall soon, and that President Trump will fulfill his election promise to go for Glass-Steagall. As a result, there is presently a flood of articles in the last three weeks attacking Glass-Steagall, saying it would not have solved the problem of 2008 – which is a complete lie – and obviously,

this expresses the complete nervousness of Wall Street and the City of London because it would bankrupt them and curb their power down to size.

Now, contrary to the asset-based economy of the United States, and partially of Europe, where you have a huge diversity between the different EU members and therefore the whole Eurozone does not function, where basically the situation is completely unsustainable as well, China on the other side, in the first quarter of 2017 had a surprisingly high GDP of 6.9%. All the agencies, like Bloomberg, PricewaterhouseCoopers and others all agree that the primary driver of this Chinese economic growth is the extraordinary investment in infrastructure, both in China domestically, as well as in the Belt and Road countries. For example, Chinese factory output in the same period has been 7.6% in the first quarter also. Household disposable income went up by 7.5%; retail spending up 10.4%. There was a study of PricewaterhouseCoopers in February which said that the great projects of infrastructure grew in the last year already by 50% in value, and there is a new study by the U.S. National Bureau of Economic Research that, based on physical economic factors such as the illumination seen by night from space, that the Chinese economy is actually growing faster than even the Chinese government reports.

Xinhua reported that the goods trade between China and the Belt and Road countries went up by 26.2% in the first quarter. Chinese exports to Belt and Road countries went up by 15.8% in the first three months. Imports to China went up by 42.9% from the 60 countries of the Belt and Road. There are 781 new companies with investments in the Belt and Road countries that have sprung up. Chinese enterprises signed 952 contracts in 61 countries along the Belt and Road.

So the Chinese economy and the Belt and Road Initiative has long become the real engine of the world economy.

So for the United States to come out its present financial danger, there is only one way out, and that is to implement the Four Laws of Lyndon LaRouche: First, Glass-Steagall. Separate the commercial and the investment banks, write off the unpayable debt and toxic paper of the investment banks, put the commercial banks under protection. Then, go to a credit system in the tradition of Alexander Hamilton, implement a National Bank; and increase the productivity of the economy by having a massive investment in fusion technology and space cooperation, and other vanguard technologies to increase the productivity of the labor force.

Now, this could be massively helped by the Chinese cooperating with America on the Belt and Road Initiative which has been offered by President Xi Jinping, at the recent Florida summit with President Trump.

Now Trump has said he wants to invest \$1 trillion into infrastructure in the United States. The American Society of Civil Engineers estimated that the real need of infrastructure is \$4.5 trillion, but Chinese experts estimated that what the United States really would need is \$8 trillion worth of infrastructure. And China could easily help America to rebuild its infrastructure because they have an extraordinary expertise from having done the Belt and Road project for the last three and a half years. China also has offered, already, to invest its \$1.4 trillion they're holding in U.S. Treasuries. If this would be channeled, let's say, through either an infrastructure bank in the United States or a National Bank in the tradition of Hamilton, this could help to revive the American economy.

Now, the same goes for European nations: They urgently need Chinese investment, because the EU has not been providing it, and that is why right now, you have the complete turning around of European nations – they want to be part of the New Silk Road. For example: Greece, Serbia, Hungary, the Czech Republic, Belarus, but also Italy, Portugal – they have

already all stated they want to become “hubs” of the New Silk Road. So there is a complete change of the wind, representing the potential to really realize this fantastic new perspective.

However, the second existential crisis, the danger of nuclear war, now, it is obviously centered right now very massively around the North Korea crisis. Again, there, the solution will be the integration of the two Koreas into the New Silk Road. But it is extremely dangerous. Pope Francis just put out a statement saying “the situation has become too hot,” that the world is at the brink of war, and he said, “We are talking about the future of humanity. Today, a widespread war would destroy – I would not say half of humanity – but a good part of humanity, and of culture, everything, everything. It would be terrible. I don’t think that humanity today would be able to withstand it.”

Now, if you study the logic of thermonuclear war, the danger is not half of humanity, the danger is that it could lead to the extermination of all life, of all human life on this planet.

This danger is the result of the old geopolitical manipulation, because the situation in Korea is not unsolvable at all. Already in the '90s and again in 2002, we were very close to establishing a permanent peace on the Korean Peninsula. North Korea, at that time, in the '90s, had signed the Nuclear Nonproliferation Treaty (NPT); they agreed not to build a nuclear weapons plant, and in return they were allowed to build a peaceful nuclear energy facility. Then, at a certain point the U.S. Defense Secretary William Perry in the Clinton Administration was convinced that Pyongyang was diverting plutonium and he was actively considering the option to take out the [North Korean] Yongbyon plant in a surgical strike. At that point, the former President Jimmy Carter went to Pyongyang and met with North Korean leader Kim Il-sung and they reached an agreement which was supported by the Clinton

administration, South Korea, North Korea, with the support of China, Japan and Russia, and they called this the Agreed Framework, which included the idea that North Korea would take down its Yongbyon plant in exchange for which the U.S. helping North Korea build a full-scale 1000 MW nuclear plant; and they also began to provide North Korea with oil until this plant was ready. Inspectors from the International Atomic Energy Agency (IAEA) went there and started to monitor, and there were pledges that they would move very quickly towards a peace agreement surpassing the armistice which still existed – and still exists.

But then unfortunately the Clinton administration came to its end, and was replaced by the Bush and Cheney administration, which immediately started this talk which we know only too well from the present days, that they couldn't work with a "brutal dictator," and not cooperate. So basically, this already put a cloud over this whole project. But still, in 2002, South Korean President Kim Dae-jung adopted the "Iron Silk Road" which had initially been proposed by Lyndon LaRouche, who had always maintained that the way to solve the Korea crisis is with the New Silk Road: That you have to build the railroads from Busan at the southern tip of south Korea, through North Korea, all the way to Rotterdam. And once you have South Korean and North Korean engineers working together building railways, that the real basis for peace could be established.

Now the two railroads started to be built, but also one of them going from Seoul via Kaesong to the old Silk Road, the Chinese railway; and one was supposed to go up the east coast to North Korea and then link up in Vladivostok with the Trans-Siberian Railroad. Also in 2002, in the village of Kaesong, they started to build an industrial park, where South Korean companies deployed very high-skilled North Korean labor to build up industries, set up factories and things actually went along very well. Also, there were Six-Party Talks supporting

this Sunshine Policy of the South Korean President.

At that time, Bush and Cheney reluctantly went along with it, but all the time kept nagging North Korea as cheating, "don't believe them," and so forth. At a certain point, the Six Party Talks ended, and when Obama came in, and started his "Asia pivot" policy, which was not aimed at North Korea, but really aimed to isolate China, and in encircle it, they started to build up military forces aimed against China.

So under the pressure from President Obama very recently, South Korean President Park Heun-hye cancelled the Kaesong industrial park and agreed to the deployment of THAAD missiles, and these Terminal High Altitude Area Deployment missiles, again, are not deployed against North Korea, but aimed at China and Russia: Because North Korea is only 30 miles away from Seoul, and they don't need to send ICBMs into space to then hit Seoul 30 miles away because North Korea has sufficient artillery to accomplish the same aim; but these THAAD missiles have X-band radar which can see deeply into the territory of China and Russia, which is why both countries have named these THAAD missiles as an existential threat to their national security.

This is a very dangerous situation, because if North Korea would strike Seoul, all of North Korea would be wiped out in return, the entire North Korean leadership would be killed as has been stated by many forces around the United States, and the population of Seoul would be wiped out very clearly also. If this war would escalate, it would clearly have the potential to escalate to Japan, to the United States and also lead to a global nuclear war.

Now, that danger is presently absolutely real. The only sign of hope, is that since the summit between President Trump and President Xi Jinping in Mar-a-Lago, Florida, where a very positive working relationship and almost friendship has been developed between these two Presidents, this summit has been

called by the Chinese a “complete success”; Secretary of State Tillerson has said this has absolutely enhanced mutual trust and both have stated that their common aim is the de-nuclearization of Korea; that they want to resolve the situation through a peaceful dialogue.

Now that requires, also, that the recent Chinese proposal to have a so-called “double suspension,” meaning a suspension of the missiles and nuclear tests on the side of north Korea; and a suspension of the joint military drills on the side of South Korea and the United States on the other side. Russia has completely supported this Chinese policy of double suspension. That would be the first step.

What is needed then, is a comprehensive approach of the New Paradigm, of “double suspension,” to include North Korea in the Belt and Road Initiative, integrate the Sunshine Policy with the New Silk Road and the key to it is the collaboration between Xi Jinping and Trump. It can absolutely work, because there are elections on May 9th in South Korea, where the likely winner already came out against the THAAD deployment, so the hurried deployment now makes absolutely no sense; also, in the recent month, the relationship between Prime Minister Shinzo Abe of Japan with Putin of Russia has absolutely increased and positively developed, where you have joint Russian-Japanese investments in the Far East of Russia, and therefore, the elements of a solution are absolutely there.

What has to be put on the agenda, therefore, is the “Greater Tumen Region Development project, which we also represented in the World Land-Bridge report. This is a regional development project involving the Greater Tumen Initiative, a development project which would build up the entire border region between China, Russia, Mongolia, North Korea, and South Korea, and develop the entire region around it, around the Tumen River which is the border between China and North Korea; and North Korea was a part of this project, until 1993, at least in its initial forms.

So, what has all of this today with the future of Latin America, and the my speech has, that “The Future of Latin America Lies in the New Silk Road”?

Now, I personally believe for a very long time, that the great German mind, and philosopher, and statesman, and natural scientist, Nikolaus of Cusa was absolutely right, when he, already in the 15th century, said that the solution to fundamental problems cannot be in partial remedies, but that you have to find a level of the solution which establishes a higher level of reason which he called the “coincidence of opposites,” or the *coincidentia oppositorum*. You have to establish a level of reason where the One has a higher reality than the Many, and that is exactly the “win-win cooperation” of the Belt and Road Initiative today.

Now, in the age of nuclear weapons, of the internet, of air travel which can bring you in a few hours to every part of the globe, the world has become a very small place. And unlike in previous periods, where you had one culture going under and some other culture at some other part of the world didn’t even know about it, because it would take years to travel from one region to the next, this time, we are sitting in one boat, and therefore, people have to start to think strategically and not think that the financial crisis of the trans-Atlantic sector, or the North Korea crisis is something alien to them, but that we have to solve all of these problems simultaneously, or else there will be no solution for anybody.

Now the only way for Latin American countries to solve the problem of the drug epidemic which is haunting some countries in an existential way; or of poverty, or of underdevelopment, is to revive the development plan of Lyndon LaRouche, which he called in 1982 *Operation Juárez*, when he worked with President José López Portillo to integrate all of Latin America in one large infrastructure-integrated network. This is possible to be realized today, and it is possible, because of the Chinese Belt and Road Initiative.

What we have to do, is we have to build a fast train system connecting the southern tip of Latin America in Chile and Argentina, going all the way up north, through Central America, North America, to the tip of Alaska, connecting through the Bering Strait Tunnel with Siberia, and in that way linking the trans-American transport corridor with the trans-European-Eurasian infrastructure network.

The infrastructure offered by China is already going in this direction. China has offered financing and help in the construction of the Bi-Oceanic Railroad, which you will hear about in the next presentation, which will be a railroad between Brazil and Peru, and another route through Bolivia; China is presently already building a science city in Ecuador, where at the recent state visit of President Xi Jinping in Lima, and Ecuador, and Chile last fall, attended a joint meeting with the former President of Ecuador President Correa in which both stated the intention that very soon China and Ecuador will be on the top of science and technology, representing the state-of-the-art in these areas. Now, this is a very ambitious and very hopeful intention.

Also, the fact that Chilean President Michelle Bachelet will go to the Belt and Road Forum and then add a state visit in China to that, represents the potential of bringing all of these projects a big step forward. The former Ambassador to China from Chile Fernando Reyes Matta said the world leaders who are attending the Belt and Road Forum are betting on the future. He said: Should we think from Latin America about linking with the One Belt and Road if it will have the same effect as the Marshall Plan on Europe? Well, the answer is obviously, yes, because the Belt and Road Initiative is already now twelve times larger than the Marshall Plan was in its time, and it is open-ended and it can be extended without a limit.

Now this fantastic economic development perspective also has, and must have a cultural dimension to it. At the recent

Ancient Civilizations Forum in Greece, where the foreign ministers of ten countries that have long, old cultures attended, among them, were the foreign minister of Bolivia, of Mexico, and Peru, all countries which had a very proud, ancient tradition, they were intending to revive this old culture, in order to connect it to the ambition of the future. Because it is necessary for this whole project to succeed, that we revive the best traditions of each nation on this planet, of each culture, and then have a dialogue, so that each nation knows about and finds out about the treasures what actually universal history has accomplished to this present point.

If we have an economic “win-win cooperation,” it will uplift every human being out of poverty, it will unleash the tremendous potential of human creativity, and it will lead, I am absolutely certain, to a new cultural Renaissance. Where people in Latin America must absolutely know about, that we as a human species as a whole are on the verge of a completely decisive branching point in human history: That the New Silk Road allows for a completely New Paradigm, where for example, the old idea that earning virtual money, money figures which could disappear from your bank account instantly, once you have a financial crash, and what you never owned because it was always virtual, you can also never lose, that this wrong idea will be replaced by the concept of a meaningful life where each person can unfold the totality of his or her creative potential; and something which was only possible for a very few individuals in history, such geniuses as Dante, Kepler, Einstein, Schiller, Vernadsky, Beethoven, but very few people could reach that level of personal creativity, because people up to now were so burdened by having to earn their livelihood, by the constraints of managing their daily lives, that they could not fulfill this potential. Now this will be possible to change and we will have a society, increasingly, on our planet, where more and more people, and eventually all people can be truly human by developing all potentials they

have embedded in them.

So provided we can solve the two existential crises I mentioned, we are really looking at a very bright future. If Latin America would link up with the Belt and Road Initiative this potential can be realized for all of us in a very short period of time.

## **Bælt & Vej-konference i Milano, Italien, forpremiere til Beijing-topmøde**

*10. maj, 2016* – En konference om Bælt & Vej-initiativet fandt i dag sted i Milano forud for topmødet i Beijing. Den blev arrangeret af det udenrigspolitiske etablissement – ISPI, SACE (eksportkreditter), Italy-China Foundation og Assolombardo (industrisammenslutningen i Lombardiet). Repræsentanter for Italien og Kina var blandt talerne på de tre paneler – 'Italienske perspektiver langs Silkevejene'; 'Nye aktører og nye strategier'; og 'Nye erhvervsmuligheder'. Joachim von Amsberg, vicepræsident for Asiatisk Infrastruktur-Investeringsbank (AIIB), afsluttede panelerne via videokonference.

Dette møde blev annonceret i en artikel i erhvervsavisen *Il Sole 24 Ore* under overskriften, 'En ny æra for Silkevejen', som sætter arrangementet i perspektiv i forhold til topmødet i Beijing, 14.-15. maj.

»Premierminister Paolo Gentiloni, der ofte besøgte Kina som udenrigsminister, vil få en æresplads. Dag to af Bælt & Vej Forum vil finde sted ved Yanqi-søen, halvanden times kørsel

uden for Beijing; stedet blev indviet i november 2014 til APEC-mødet. I denne sammenhæng er der planlagt politiske møder på multi- og bilateralt niveau. Den italienske premierminister vil mødes med den kinesiske premierminister Li Keqiang og præsident Xi Jinping den 16. maj«, skrev *Il Sole*.

Italien vil diskutere og fremlægge aktuelle muligheder for BVI. Én af disse muligheder er den såkaldte »Havnevej«; fem havne ved Adriaterhavet. ISPI-chef Giampiero Massolo citeres for at sige, at, »Uden en rolle for systemet med havne og inter-havne, og landruter i Italien, er hele Bælt & Vej-projektet i fare for at være ukomplet ved sin terminal (i Europa) og mht. ét af sine hovedmål, dvs., at forbinde Kina og Europa på en langt mere effektiv måde end i dag.«

(Den adriatiske rute bliver stærkt kritiseret af dem, der promoverer udviklingen af Syditalien og dybvandshavnene i Calabrien og Sicilien, samt moderniseringen af landruter. Disse kritikere, som omfatter nogle af vore kontakter, siger, at Italiens Mezzogiorno (Syditalien inkl. Sicilien og Sardinien) bliver afskåret fra udviklingen.)

*Il Sole* skriver imidlertid, at dette ikke er den eneste mulighed. En anden mulighed er at deltage i investeringer i Asien. Der er AIIB, men også Silkevejsfonden med \$40 mia. Silkevejsfonden er allerede aktieindehaver i Pirelli og i det italienske Autostrade holding.

# **Trump renser ud i nogle kupmagere og fremmer samarbejde for fred og udvikling med Rusland og Kina**

*Leder fra LaRouche PAC, 10. maj, 2017* – Donald Trump har i de seneste 24 timer taget de indledende skridt og har smidt det affald i efterretningssamfundet ud, der har været en del af det igangværende forsøg på en 'farvet revolution' mod den amerikanske regering. Comey og tidligere chef for NSA, Clapper, og tidligere chef for CIA, Brennan, samt andre, har åbenlyst deltaget i et kupforsøg mod præsident Trump, hvor de har brugt vilde løgne og taktikker, der ikke er set siden McCarthy-åraen, for at terrorisere den amerikanske befolkning med den angivelige fare for russisk aggression, og endda russisk kontrol over den amerikanske regering.

Efter et særdeles produktivt møde i dag med præsident Trump og udenrigsminister Tillerson i Det Hvide Hus, latterliggjorde den russiske udenrigsminister Sergei Lavrov, meget praktisk, denne kampagne. I besvarelse af gentagne spørgsmål fra den amerikanske hore-presse, og som havde til formål at forklare de falske nyheder om russisk indblanding i 2016-valget, sagde Lavrov: »Jeg mener, dette er ydmygende for det amerikanske folk at høre på, at USA's interne anliggender skulle være styret af Rusland. Hvordan går det til, at denne store nation tænker på denne måde?«

*EIR* udgav den 27. februar, 2017, et omfattende dossier med titlen: »Obama og Soros – Nazister i Ukraine 2014, i USA

**2017?«.** Dossieret dokumenterede, at de samme personer og institutioner, der kørte det neonazistiske kup imod Ukraine i 2014, forsøgte at gennemføre en lignende Farvet Revolution imod Trump – og af nøjagtig de samme grunde. Som den russiske viceambassadør til FN's sikkerhedsråd, Vladimir Safronkov, sagde til den britiske ambassadør Rycroft den 13. april: »Jeres drøm gled ud af jeres hænder, fordi vi arbejder sammen med USA. Det er I bange for. I gør alt, hvad I kan, for at sabotere dette teamwork.« Russerne forstår, at Det britiske Imperium er ved at fjerne alle stopklodserne og endda løber risikoen for en atomkrig, for at forhindre Trump i at lede USA ind i et partnerskab med Amerikas historiske og naturlige venner i Rusland og Kina. Dette venskab ville betyde enden på Det britiske Imperium, én gang for alle, og afslutningen af opsplitningen i Øst og Vest, og ville i stedet virkeligøre et nyt paradigme, baseret på udvikling og alle nationers gensidige interesser.

Dette er, naturligvis, den Nye Silkevej – Ét Bælt, én Vej-initiativet, lanceret af Kinas Xi Jinping, der vil afholde den første, internationale konference i Beijing kommende weekend, med deltagelse af repræsentanter fra flere end 100 lande og 28 statsoverhoveder, der vil planlægge en produktiv fremtid for menneskeheden og en afslutning på imperie-æraens princip om 'evindelig krigsførelse'.

Helga Zepp-LaRouche, der i Kina er kendt som »Silkevejs-ladyen«, reflekterede i dag over den kendsgerning, at, med den italienske premierminister Gentiloni, der vil lede sin nations delegation til Bælt & Vej Forum, alt imens tidligere premierminister Jean-Pierre Raffarin vil repræsentere Frankrig, og med de fleste andre nationer i Europa, der sender betydningsfulde delegationer – med disse begivenheder, har det historiske momentum i Europa taget en ny retning for en lysende fremtid med den Nye Silkevej. Kun Tyskland synes at sakke bagud og sidder fast i det gamle paradigme, hvor de fabler om udledning af CO<sup>2</sup> snarere end opbygning af nationen.

Foreløbig har præsident Trump ikke indikeret, om han eller nogen anden, amerikansk delegation vil deltage, til trods for, at den kinesiske ambassadør til USA har gentaget Kinas invitation.

Men, Trump har uden for enhver tvivl truffet beslutning om at ændre briternes spilleregler og droppe de korrupte efterretningsnetværk, der har faldbudt den anti-russiske krigspropaganda på vegne af britisk efterretning, der har spillet USA som den »dumme kæmpe«, der udkæmper imperiets kolonikrige samtidig med, at dette imperium forbereder atomkrig imod Kina og Rusland.

I Asien aflagde den nyvalgte præsident i Sydkorea, Moon Jae-in, her til morgen sin ed og annoncerede omgående sit forpligtende engagement til genopretning af »Solskins-politikken« over for Nordkorea, og for samarbejde med Trump omkring en varig løsning for Koreahalvøen. En sådan løsning må være baseret på genseidig udvikling og garantier for Nordkoreas suverænitet, til gengæld for en løsning på spørgsmålet om atomvåben. Pyongyang har gentagent erklæret, at, hvis truslerne mod deres nation endegyldigt ophørte, kunne en løsning findes. Der eksisterer nu en mulighed for, at den splittede, koreanske nation, i samarbejde med Xi, Putin og Trump, og muligvis også Japans Shinzo Abe (der står både Putin og Trump nær), kan indlede den freds- og udviklingsproces, som sluttelig kunne føre til en genforening.

Tiden er inde til, at præsident Trump indtager den hamburger med Kim Jon-un.
