

# **Videokonferencen onsdag den 21. oktobert kl. 16: Kina og vesten ansigt til ansigt: rivalisering eller samarbejde**

På engslek:

The direction of relations between China and the West may well be the decisive issue that determines the future of all mankind – from economics to politics to culture. And yet those relations today are characterized by rising tensions.

Cátedra China and the Schiller Institute are hosting an international videoconference dialogue on this subject, because we firmly believe that the current slide into rivalry and disagreement must be stopped before it is too late. China and the West are part of a “community with a shared future for mankind,” and it is essential to learn about, share, and promote the best in each of our respective cultures. The joint efforts that will come from such a dialogue, and its adoption by leading political figures and governments in the West, are the key to working together to solve the existential crises facing all mankind, including the current COVID-19 pandemic and the related economic crisis.

We invite you to participate in an in-depth dialogue with leading international experts in the field. There will be participants from Spain, France, Italy, Germany, the United States, and various countries in Latin America. The event will also be broadcast live over YouTube.

**Moderator:** Rosa Cervera, President of Cátedra China, architect, professor at the Universidad de Alcalá de Henares
