

For at kunne bekæmpe pandemien, må det Britiske Imperiums anti-kinesiske heksejagt bekæmpes

Den 20. maj (EIRNS) – De episke problemer, som vi er konfronteret med, i bekæmpelsen af pandemien, påbegyndelsen af en ny verdensøkonomi, og sideløbende minimering af kaos og nød, kræver en yderligere opgave: At kalde den nuværende, intense anti-Kina-kampagne hvad den er – en sort propaganda-operation. Den er antændt af de samme britiske netværk, som anstiftede "Russiagate", afsættelsesforsøget af Præsident Donald Trump, og alle sådanne operationer for at forhindre det potentielle samarbejde, mellem USA, Rusland, Kina og andre nationer, hen imod en ny struktur til verdens fordel. Dette ville markere enden på Londons kontrol baseret på geopolitik og monetarisme; og Trumps tidlige tilbøjelighed i retningen af venskabsdiplomati har været bandlyst af disse kredse.

I sit ugentlige Schiller Institut-webcast i dag, diskuterede Helga Zepp-LaRouche disse britiske netværk, inklusiv deres forsøg på at splitte Kina og USA, samt opbygningen af politiske blokke, ligesom under den kolde krig. Hun advarede at dette vil føre til et sammenbrud af økonomiske funktioner og hyperinflation. Hun anførte, at blandt de mest skingre stemmer, er dem fra Trumps økonomi- og handelsrådgiver, Peter Navarro, Forsvarsminister Mark Esper og Udenrigsminister Mike Pompeo.

Hun sagde: "Det er tydeligt at Præsident Trump sættes under enormt pres, fordi han er oppe imod pandemien; der er enorme økonomiske konsekvenser – USA's centralbank har lige offentliggjort, at sammenbruddet af USA's økonomi i 2. kvartal vil være 30%; arbejdsløsheden stiger; og åbenlyst har det

faktum, at flere personer er blevet testet positive, og faktisk blev syge med coronavirusset i og omkring det Hvide Hus, skabt en atomsfære for Præsident Trump, hvor han virkelig sættes under et enormt pres.

Jeg mener at enhver, som er interesseret i at løse menneskehedens problemer, bør tale om, at denne heksejagt mod kinesere, den McCarthyisme stil med at anholde kinesiske videnskabsfolk, eller sågar amerikanske videnskabsfolk med kinesisk baggrund, det er virkelig ekstremt farligt og er et meget skidt varsel! Det skal stoppes og folk burde ikke falde for denne propaganda, fordi den er komplet ubegrundet."

Hun opfordrede folk til at se på, hvad der præsenteres som fakta mod Kina, eller andre mål, og se, at de i virkeligheden er geopolitiske angreb. De indeholder gentagelsen af "store løgne."

Ved dagens ugentlige briefing fra Udenrigsministeriet, overgik Pompeo sig selv. Han hævdede at Kina skylder verden "så meget som omkring 9 billioner dollars, ifølge vores skøn," for arbejdspladser og tabte liv i USA og globalt. Pompeo sagde, at han havde foreslået Trump forskellige måder, hvorpå Kina kunne tvinges til "at betale" for COVID-19-pandemien. Præsidenten er "begyndt at overveje at svare tilbage... Jeg ønsker ikke at komme ham i forkøbet med hensyn til at diskutere hvordan...".

Pompeo indledte disse bemærkninger med en svada. "Først, grundlæggende fakta. Kina har været regeret af et brutalt, autoritært regime, et kommunistregime siden 1949... Vi undervurderede gevaldigt i hvilken grad Beijing er ideologisk og politisk fjendtlighedsindret overfor frie nationer. Hele verden vågner op til dette faktum."

Som komplet modpol til disse spydigheder understregede Zepp-LaRouche, at idéen om USA's og Kinas samarbejde er "sandsynligvis det mest vigtige strategiske spørgsmål, fordi,

hvis disse to store økonomier, den tidligere stærkeste økonomi og den opkommende økonomi, som trods alt har 1,4 milliarder mennesker, hvis de samarbejder kan man næsten løse et hvilket som helst problem i hele verden; hvis de tørner sammen, kunne det føre til ødelæggelsen af hele menneskeheden.”

Hun gav eksemplet om nødvendigheden for at udvikle fusionskraft – grundlaget for et fuldstændigt nyt produktivitetsdomæne for fremtiden. Kinas arbejder med dette, og Kinas Eksperimentale Avancerede Superledende Tokamak (EAST) skrider fremad, som et afgørende projekt. Beskrivende CGTN’s TV-udsendelse ”Den kunstige Sols Kraft: Fusion,” sagde hun, at ”det de siger er, at fusion er revolutionært, af den simple årsag at når man kan skabe et gennembrud og har kommercielt brug af fusionskraft, vil det levere energi, ikke kun til 1,4 milliarder kinesere, men til hele verden i årtusinder fremover. Og det er grunden til at Kina lige nu forener de bedste hjerner i verden, lige netop for at få sådan et crashprogram.

De siger at fusionskraft er ligeså vigtigt, og ligeså stort som menneskets landing på månen. Folk, som kender dette program, vil indse, at det er præcis dette, som LaRouches ”Fire Love” handler om, nemlig, at vi bliver nødt til at have internationalt samarbejde for et crashprogram for fusionskraft; at vi har brug en ny fusionsøkonomisk platform, og at vi har brug for et internationalt samarbejde i rumforskning. Og det er vejen frem!”

Schiller Institute New Paradigm Webcast, May 20, 2020

With Helga Zepp-LaRouche

America’s Historic Enemies – and the Russiagate Enemies of Donald Trump – Are Behind the Escalation Against China

HARLEY SCHLANGER: Hello, I’m Harley Schlanger from the Schiller Institute. Welcome to our webcast with our founder and President Helga Zepp-LaRouche. Today is May 20, 2020.

Helga, each week as we do these webcasts, it seems as though the danger in the world keeps escalating: We have a series of crises, and there's a definite push coming from especially the City of London and their allies in the United States to add to the destabilization. In the last couple of days there's been another escalation in the anti-China campaign around the World Health Assembly annual meeting. What was going on there, and what's the background to this?

HELGA ZEPP-LAROUCHE: First of all, most people in the United States and in Europe and elsewhere cannot have helped but notice that the anti-China tone has become absolutely shrill. If you listen to what people like Navarro and Esper, and Tucker Carlson, and Pompeo are saying, it's a kind of accusation which is really, if it all would be true, it would be casus belli, but if it's a lie, it's even more casus belli. One has to remember that a lot of the anti-China forces, it originated with British intelligence, MI5, MI6 – these were the same forces which were focussing for the first three years of the Trump Administration on Russiagate, all the accusations that Russia manipulated the 2016 election; and if one looks back now, what was coming out of this, what was the matter of it? Nothing! It was all a big lie. What was the ground for the impeachment? The same thing! And it is exactly that same apparatus which is now focussing on the effort to divide China and the United States, because these forces need the kind of geopolitical manipulation in order to keep control, because if the large powers of the world would work together then the role of the British diminishes into insignificance.

Now, obviously, the pandemic has created a total crisis, it's a health crisis which is very big. The "opening up" of the economy, so-called, which is a terrible word to even use, is creating all kinds of dangers, and obviously, there is an effort to get President Trump to go with this whole anti-China campaign. And unfortunately, he signed a letter – it's not clear if he really wrote all of it, which may not be the case,

because there's a lot of detail in there which I doubt the President would fill out himself – but he basically wrote a letter to the head of the World Health Organization, Dr. Tedros on the occasion of the World Health Assembly annual meeting in Geneva, or virtual, in which he basically repeats all of these accusations, that China covered up, that they didn't transmit the information in time, that they delayed, that they caused all these economic hardships; and he accuses the WHO of having been completely in the pocket of China. And he is demanding that the WHO should prove within 30 days that they are independent of China, or else the U.S. will even leave the WHO altogether let alone cutting off funding.

Now this is very unfortunate, because he has a lot of remarks in there which are simply factually not true. One of them is that he quotes the British medical journal The Lancet, that they would have already reported in the beginning of December about the virus, and so forth. That is too bad, because immediately the editor of The Lancet refuted it, and said that they never had published anything like that, but their first reporting was on Jan. 24th. This is really an Achilles' heel of Trump's, and one can only say that we need to point to the geopolitical nature of these lies. We should remember what Pompeo said that when he headed the CIA, they made it sort of a sport to lie, to cheat, and that is obviously what is going on right now.

I think this very dangerous, because if you accuse another country of such enormous accusations, this is normally the kind of black propaganda which is being put out before wars. And it's being noted in China as a very, very serious thing. And I think we should all try to do our best to undo this.

SCHLANGER:

...and Trump. Is this coming from the same British networks? We see it from Pompeo and others in the U.S., but we've

identified groups like the Henry Jackson Society, they're continuing their escalation against China, aren't they?

ZEPP-LAROUCHE: Yes. And the aim is to really, potentially even decouple. Now, if you decouple the countries which are allied with the United States from those which are allied with China, in other words, you go at the minimum into a bloc building as what existed in the Cold War. I think under the present conditions, this would lead for sure to a collapse of the world financial system and a hyperinflationary blowout of the system, so I think this is absolutely playing with fire.

SCHLANGER: The letter from Trump was addressed to WHO director Tedros Adhanom Ghebreyesus; he spoke at the World Health Assembly annual meeting of the World Health Organization, as did Xi Jinping; the U.S. was there only represented by HHS Secretary Alex Azar, but what did they have to say in addressing the concerns of the entire world about the coronavirus pandemic?

ZEPP-LAROUCHE: What Dr. Tedros said was that the World Health Organization must work so that this pandemic is never being repeated, in other words, that it caught the whole world relatively unprepared, because all the warnings were there. And he said the tools were all there, but they were not used, due to a "temporary amnesia." He called for a remedy of that, and really establish a world health system. And Xi Jinping made a really remarkable speech, and all those people who are being bombarded by the anti-China propaganda, I would really challenge you to just go to your laptop or whatever, print out or look at the speech which was given by Xi Jinping, because it's an extraordinary speech. [http://www.xinhuanet.com/english/2020-05/18/c_139067018.htm] He says, for example, that world is hit with a pandemic; 210 countries and regions are affected, already many lives have been lost and that the most precious thing is human life.

Now I would wish that the former finance minister of Germany,

Wolfgang Schäuble would have such a noble conception of the human being, because he said, recently, that it's not the function of the state to protect life as the highest priority. So in that case, I would say that the leader of a Communist Party has a better standard on the question of human life – and I'm saying this deliberately as a polemic.

Now, Xi Jinping, then proceeds to say that there must be a focus on Africa, that the world community has to help Africa with this pandemic, and in general, has to work together as a community for a shared future of civilization.

So I think the effort to take over this World Health Organization annual meeting, there was a resolution which was anti-China, which did not succeed; and there was a resolution accepted, that, indeed, after the pandemic has been successfully defeated, there should be an investigation, into what was the origin of the virus to better understand how it functioned, in order to avoid and protect against future such problems, but it should be done under the auspices of the World Health Organization.

Those people who are right now falling into the propaganda that it's all Bill Gates, who's trying to become rich – even richer than he is already – by being behind the WHO, well, there are many private firms which help finance the WHO, but does it help if the U.S. is pulling out, if the governments are underpaying the WHO? I think the remedy is that the governments take responsibility and supply the World Health Organization with the necessary means, because from everything I have seen, and we have studied this from the very beginning, because we were extremely attentive to when the first information from Wuhan came, we compared the notes, what was put out when by the Chinese government; who did not respond, like the Health Minister Jens Spahn. He said in January, "oh, the virus will never come to Germany"; in February, he said "oh the German health system is perfectly prepared...." So we have studied this as it happened. So a lot of the facts which

are in the letter of President Trump to Dr. Tedros are simply factually not true.

But, once the pandemic is overcome, there must be an investigation because the world needs to better understand the nature of this virus, and viruses in general and also whether the present world health system can be improved. But it should be done in a cooperative spirit, in the spirit of a shared humanity and not as a part of a confrontation and geopolitical attacks.

SCHLANGER: It seems as though some of the discussion and the proposals that were adopted were along the lines of what you've called for in terms of what you've called for in terms of a global effort to improve health service everywhere. We've also seen other forms of cooperation – President Trump is sending ventilators to Russia that the U.S. is going to pay for. But where do we stand on the other question, of vaccine. There's a discussion of this of "Warp Speed" program: what do you make of that?

ZEPP-LAROUCHE: We have to see. On the one side, it is naturally good to call on all labs to work high speed on vaccines, and it's also obviously important that the President of the United States takes a leading role in that, that all the resources must be mobilized. But I would really warn against rushing it, because there are many new labs which have promised vaccines soon – I think a vaccine, especially one which will be used by the entire world population is something which has to be really tested on the highest standards. And that has to be seen. China already has said they will provide the whole with that vaccine, and I think there must be a cooperative approach. This is such a big threat to all of humanity that the best would be if the United States, the Europeans, Russians, Chinese, and others would all work together, because the more time is lost to find an adequate vaccine, the more people will die, and that should really be taken as a change a paradigm shift to cooperate.

It is obvious that President Trump is being put under enormous pressure, because he is up against the pandemic; there is an incredible economic consequences – the Federal Reserve just said that the collapse of the U.S. economy in the second quarter will be 30%; unemployment is going up; and obviously the fact that there were several people who tested positive and actually became sick with coronavirus in and around the White House, has created an atmosphere for President Trump where he is really put under enormous pressure. I think anybody who is interested in solving humanity's problems should make their voice heard, that this witch-hunt against Chinese, the McCarthyite style of arresting Chinese scientists, or even American scientists with Chinese backgrounds, that is really extremely dangerous and forebodes very bad! It has to be stopped and people should not fall for this propaganda, because it is completely unjustified.

SCHLANGER: It should be noted that this started before the coronavirus: You had people like Marco Rubio, Senator from Florida, whom Trump had called "little Marco," who's now taken over the Senate Intelligence Committee, he's directly collaborating with the Henry Jackson Society in the anti-China campaign. You've had a lot of this ongoing in the background. Where do you think U.S.-China relations will go, and what's the view in China?

ZEPP-LAROUCHE: That's probably the most important strategic question, because if the two largest economies, the previously strongest economy and the rising economy, which after all, has 1.4 billion people, if they work together, you can almost solve any problem of the entire world; if they clash, it could lead to the destruction of all of humanity. And in China, people are extremely aware of what's going on, naturally. There are many articles warning of a new McCarthyism in the United States, and the so-called Two Sessions meeting, which is about to start in China [May 21 and 22], that's the legislative body, called the National People's Congress and

the Chinese People's Political Consultative Conference; these two bodies have put the U.S.-China relationship on their agenda. And we have to see – maybe we'll get some clarity on what China is intending to do in response to this McCarthyism coming from the United States.

But people don't understand China. They have these absolute prejudices, but they don't make the effort to find out what makes this country tick, and I want to give you a little window, which gives you a good insight: And that is the fact that CGTN, which is the official Chinese TV network, have started a series called "Decoding the Future," which will start exactly on the occasion of these two sessions. And the first such broadcast is "The Power of Artificial Sun: Fusion" [<https://www.youtube.com/watch?v=3CKd4Syb0ak>]. They're discussing the EAST program; EAST stands for Experimental Advanced Superconducting Tokamak, and it is the fusion research center in Hefei, where they already succeeded about a year ago, to confine a plasma at a high temperature of over 100 million degrees Celsius; that is six times the heat which exists in the core of the Sun, and they were able to confine that plasma for more than 10 seconds, which represents a world record. So, China, in terms of fusion research is right now a world leader, and they're also participating in the ITER [International Thermonuclear Experimental Reactor] program in Cadarache, France, where 35 countries participate.

In any case, what they say is that fusion is revolutionary, for the very reason that once you can make a breakthrough and have commercial use of fusion power, it will provide energy security not only for 1.4 billion Chinese, but for the whole world for millennia to come. And that is why China right now uniting the best minds of the world to get exactly such a crash program. They say that fusion is as important, and as great as man's landing on the Moon. People who know this program will recognize that is exactly what the fourth point of Lyndon LaRouche's Four Laws is all about, namely that we

have to have international cooperation for a crash program for fusion power, that we need a new platform of the fusion economy, and that we need international cooperation space exploration. And that is the way to go!

I'm absolutely sure that the offers from China for all nations to cooperate in these programs are still on the table, and if we are avoiding a clash which could lead to World War III, it has to be the kind of visionary cooperation for these future decoding the secrets of the future of the universe and our human civilization, how we will get out of this terrible crisis. I think this is a very inspiring.

And people think this is a Communist China doing that – well, maybe, there is something to this approach which is right! People should not just say “Communist China...” If they're going to get a breakthrough in fusion and they put an absolute priority on that, maybe there is something in their policy which is right. I just want to put this out as a question mark.

SCHLANGER: And then you contrast that with the insanity of the Green financial bubble, which seems to be the approach that came out of this Merkel-Macron session to discuss the financial crisis in Europe. This is the BlackRock, the equity firm, the speculation firm, which was handed by the Federal Reserve the right to determine who gets the funds to engage in speculation, and they're behind the Green financial bubble. What happened with Macron and Merkel? And is Europe fully committed to this Green policy?

ZEPP-LAROUCHE: I think this Macron-Merkel – which is this deal whereby they want to buy EU500 billion worth of bonds; this is supposed to be financed by taking this money from the financial markets. But then it's supposed to be paid back through the EU budget – so it's not really a grant, because if the EU budget is supposed to finance it after three years, it will be paid by the taxpayers. So the southern Europeans, who

are all very happy, saying, “this is a grant” – it’s not that. It’s basically another effort to keep the banking system afloat.

It is opposed by Austria, Holland, Denmark, Sweden; also important layers within the CDU [the German Christian Democratic Union] are calling on all CDU Members of Parliament and the European Parliament to prevent it from happening... so I don’t think it’s necessarily agreed that it will go anywhere. But one should always keep in mind, this is happening in the context of the EU Commission having hired who? But BlackRock, the largest asset manager in the world, to write a new legislation to integrate the Green Deal with the general EU program. Now you can hire the Devil to do your job, because you have now the EU Commission being run by BlackRock and the Federal Reserve having hired BlackRock to manage their \$4 trillion program to keep the banking system afloat. So BlackRock is de facto running the financial policies of the United States and Europe. And it just happens to be that that is exactly what was discussed at the Jackson Hole meeting last August, the big meeting of bankers and central bank governors, which takes place every year in Jackson Hole, Wyoming. And that is where the central bankers, especially then Bank of England governor Mark Carney, and Michael Bloomberg, and BlackRock and others had put out this line that there needs to be a “regime change,” that practically the power has to go entirely to the central banks, and they have to run the international financial system.

So what you see here in action, is exactly that. And given the fact that Mark Carney and Bloomberg are identical with this Green Deal agenda, this is not foreboding good at all. So, if they will impose the Green Deal ideas on top of the already extremely weakened economy as a result of the pandemic, you will have a collapse of Europe and the United States as industrial powers. You cannot do that.

I think you have contrast that with the opposite approach

taken by China with the fusion crash program, and I think that we have to do everything to change that, and that is why the Schiller Institute and our associates in the United States are working on crash program for a completely different approach: Namely, to answer the pandemic and the problems which are now really jumping into the eyes of everybody, with the issue of a 1.5 billion new jobs program, a program to create 1.5 billion new, productive jobs, which will be announced shortly on our channels.

SCHLANGER: Let me just remind people who don't remember, that Carney and BlackRock worked out a compact among leading banks by which they said they will not make any credit available to any bank or any corporation which is still engaging in creating a (quote) "carbon-footprint" (unquote). In other words, they're forcing the credit to go into the Green financial bubble.

Now, Helga, this is in contrast, you talked about the program that we're about to put out, the 1.5 billion jobs, the emphasis on science and research and development investment – that's completely contrasted through the Hamiltonian credit system. And this, I think is what we have to emphasize, and our supporters have to take the LaRouche Four Laws and especially this idea of the Hamiltonian credit: that would be the complete opposite of this Green New Deal, and is the only way to get out of this crisis, isn't it?

ZEPP-LAROUCHE: Yes. People should just step back and look at the situation as it is now becoming obvious, as a result of this pandemic. You had the pandemic spreading, there was the lockdown of the economy, the lockdown already affected Europe, some European countries more than others, but also the United States very severely, and it's ongoing. But much, much worse was the effect on the so-called developing countries, which unfortunately are not so developing at all, because it hit what is generally called, in a nefarious way, the "informal economy." But that is just a PR word for the fact that it's a

shadow economy: It's people working from hand to mouth, who have no resources, who have no benefits, no social security, no health system, and when they are locked down, they are in danger of dying of starvation within days! And that is exactly the warning which was put out by the head of the World Food Program David Beasley, who said that the ongoing crisis of agriculture, the collapse of the farm sector in the United States and in Europe, these meat-packing plants, where people living and working in slave-labor conditions, immigrants became infected because the working conditions were so bad; these were shut down. Then the farmers had to "euthanize" – this is a terrible word to even use for animals – they had to kill tens of millions of hogs, chickens, bury them instead of processing them for food. This is leading to a collapse and interruption of the supply chain, while, at the same time as Beasley is warning, we are looking at famine of "biblical dimensions" where the danger is that up to 300,000 people per day could die in the short term of hunger!

Now, that is completely insane, and that in part is the result of the neo-liberal policies which denied development of the developing countries for the last 50 years at least; which is the result of an absolutely profit-oriented system of agriculture under the control of only five cartels – this is why these labor conditions are so absolutely horrendous. And that has to be changed: We need to go back to family farms. We have to have a parity price for agricultural goods, the farmers have to be able to live off their work. We have to double world production – this is a call I already made in 2008, that the 2.5-2.7 billion tons of food production has to be doubled! If you consider that the world population is increasing and you already have almost a billion people – not food secure, now being threatened with starvation – 2 billion people not having clean water, you need to build up agriculture. If you look at the condition of the world, it is now the time to completely reverse that and really industrialize the developing sector. Now, for the United

States, that means we will have to create 50 million productive jobs in the short term, but for the developing countries, we need more than a billion jobs, because you will have a lot of young people, who either will die, or try to migrate to the north, or, we will use this incredible crisis to really turn it around, and do what Franklin D. Roosevelt intended with the Bretton Woods system in the beginning – namely, that the development of Global South, or the developing countries, has to occur. Roosevelt, at the time of the preparation of the Bretton Woods system said, the increase of the living standard of the whole world population will be the basis for stability and peace in the world, and that is exactly the task we have in front of us, and that is the life work of Lyndon LaRouche, who after all, for 50 years worked on development programs for every single part of the world:

*He worked on an Africa development program, which we published in 1976 the first time;

*He worked on an “Oasis Plan,” for the development of the Middle East;

*He worked on a 50-year development program for the Pacific Basin;

*We worked with Indira Gandhi on a 40-year development program for India;

*We worked with José López Portillo on a Latin American-wide economic and infrastructure integration;

*Naturally a reindustrialization of the United States;

*And the Eurasian Land-Bridge, in response to the collapse of the Soviet Union.

So for the last 50 years, LaRouche, my late husband, and the LaRouche movement, we have worked on concrete development programs. We published that in an updated form in 2014 called

the “New Silk Road Becomes the World Land-Bridge,” and now is the time, under conditions of this crisis to upgrade this and create 1.5 billion new productive job, and really start a new chapter in the history of humanity. And that is what I’m calling on you to support and help us to put on the agenda instead of geopolitical confrontation.

SCHLANGER: And you can find the key to that on our website: Lyndon LaRouche’s four economic laws [https://larouchepub.com/lar/2014/4124four_laws.html]. Helga, I don’t have anything else to ask. Is there anything else you want to add?

ZEPP-LAROUCHE: We will put under this program the petition for a world health system, a link to the video about this world health system. [<https://schillerinstitute.com/blog/2020/05/08/coronavirus-petition-for-global-health-infrastructure/>] And I would really ask you to help us to distribute this petition as widely as you can, all your social media, your email lists, your colleagues, your friends, and make it a snowballing demand, because we need a chorus of forces in the world to demand such a change in the strategic policies.

SCHLANGER: Helga, with that, thank you a lot, and I’ll see you again next week.

ZEPP-LAROUCHE: Till next week.
