Will the Omicron COVID variant be the warning bell we heed? Eight months ago, in March 2021, epidemiologists, virologists and infectious disease specialists from twenty-eight nations warned of the dangers to come without a full international vaccination roll-out. Most believed that we had a year or less before truly dangerous mutations proliferated widely. Gregg Gonsalves, Associate Professor of Epidemiology at Yale University eight months ago put it this way: "With millions of people around the world infected with this virus, new mutations arise every day. Sometimes they find a niche that makes them more fit than their predecessors. These lucky variants could transmit more efficiently and potentially evade immune responses to previous strains. Unless we vaccinate the world, we leave the playing field open to more and more mutations, which could churn out variants that could evade our current vaccines ...The virus doesn't respect borders and new variants somewhere on the planet mean none of us are safe."

But vaccinations alone will not stop COVID. Only full modern health systems everywhere, which require the simultaneous rapid build-out of electricity production and delivery, the provision of clean water—new water systems, and all other required infrastructure, to support the hospitals, the clinics and the ongoing health concerns of people can do the job.

Only if we develop a full international, in-depth response to the escalation warnings from epidemiologists, virologists and infection disease specialists as advocated by the Schiller Institute beginning in March 2020, and repeated by former U.S. Surgeon General, Dr. Joycelyn Elders just a few days ago, can we stop the growing death, economic despair and that has wrecked so many human lives.

Join us in this conference, and recruit others to join the

mission.

Baggrund:

Omicron: Urgent Need for a Modern Health System in Every Nation

Nov. 30: Helga Zepp-LaRouche has now urged the movement associated with her, in every nation where it is active and has outreach, to focus on the necessity to catalyze the construction of a modern system of hospital, healthcare, and research facilities *in every nation*, as a defense of the human race and the planet against pandemics. Taking the worldwide spread and capabilities of pandemic viruses seriously, has been postponed and played with for long enough in the COVID case—possibly too long.

Truly worldwide vaccination, which is urgent, is only one step back from the brink.

Already 21 months ago, on March 13, 2020, Helga LaRouche wrote an editorial statement for the Schiller Institute in *EIR*, “COVID-19 Pandemic Forces Re-Thinking: International Cooperation Indispensable!,” with an accompanying fact sheet “Urgent Physical-Economic Requirements To Fight the Pandemic.” She wrote then: “If we want to prevent the coronavirus pandemic from spreading in waves and migrating from the Northern to the Southern Hemisphere and back—thus potentially creating the breeding grounds for additional similar and worse viruses—we must initiate radical changes.

“Hospitals with isolation wards must be built throughout the world, following the example of the city of Wuhan and Hubei Province, which built a total of 14 temporary hospitals, including the necessary intensive care beds.

World Health Organization standards must be observed in doing so. China, for example, built facilities with 16,000 new hospital beds in just one month.

“International scientific research centers must be established for research on the COVID-19 virus and other viral and bacterial pathogens. Vaccines must be developed and tested. The results of research in biophysics, nuclear biology and space medicine must be made available immediately to all nations. The point of reference for this is the conception of a Strategic Defense of Earth (SDE) developed by Lyndon LaRouche, in which the protection of human life from pandemics is one focal point.”

A great mobilization was needed then, and now: 10 million new hospital beds worldwide in 30,000 new hospitals and clinical centers; new laboratory facilities; 200 new gigawatts of reliable baseload electric power which is essential to such capacities; a tremendous years-long recruitment, including among youth, of 9-10 million physicians and assistants, nurses, engineers, laboratory technicians.

“These worldwide measures,” Zepp-LaRouche wrote, “require investments that cannot be made under the conditions of the present, collapsing financial system. The current actions of the central banks in injecting liquidity into this financial system by the trillions of dollars, and even the allocation of budget funds by governments, is due to a hyperinflationary monetary explosion, and is unsustainable.”

Therefore, she concluded, the “four economic laws” proposed by her husband Lyndon LaRouche were needed for this international construction, beginning with Glass-Steagall bank reorganization and introduction of Hamiltonian national banking.

Read Helga’s statement [here](#).

Now former U.S. Surgeon General Joycelyn Elders, in an open letter Nov. 23, days before the Omicron variant of the COVID virus was identified, “called upon virologists and medical experts throughout the globe to undertake an international, coordinated and integrated educational campaign to establish a sane approach to deal with this and potentially future pandemics.” Dr. Elders was in 2020 the co-founder with Helga LaRouche of the Committee on the Coincidence of Opposites, which has cooperative contacts with physicians and nurses organizations and with medical educators. She asks for a mobilization of ideas, as Helga LaRouche did in March 2020, on these questions (på dansk):

- Hvad er en pandemi?
- Hvordan bekæmpes en pandemi?
- Hvad er offentlig sundhed og hvordan bør vi arbejde sammen for at gennemføre anvendte og allerede testede, fundationale sundhedstiltag, herunder hygiejne, rent drikkevand og næringsrig mad, og en forsyning af forebyggende og lindrende medicin, inklusive vacciner, som er afgørende for at overvinde pandemien?
- Hvad er den sammenlignede virkningsgrad af de forskellige vacciner og andre tiltag, som nu bruges i forskellige nationer og regioner, for at forhindre alvorlig sygdom og død?
- Hvordan sikrer vi tilstrækkelige antal af sygehuse, sundhedsklinikker og sundhedspersonale i hver nation, herunder den systematiske rekruttering af unge, lokale sundhedsmedarbejdere for at hjælpe nu, med at bringe pandemien under kontrol?

NYHEDSORIENTERING MAJ 2021: Vores moralske sammenbrud råber på et nyt paradigme

**Schiller Instituttets
konference Panel 2 resumé:
Metoden bag Modsætningernes
Sammenfald: Kun en samlet
verdensomspændende
sundhedsindsats,
uden sanktioner, kan vende
en global pandemi**

Ingen tilbagevenden til normaltilstand:

Kun et paradigmeskifte kan afhjælpe den eksistentielle

krise

af Janet G. West

8. maj (EIR årgang 48, nr. 20) – Det andet panel, "Metoden med 'mødsætningernes sammenfald': Alene en samlet verdensomspændende sundhedsindsats uden sanktioner, vil kunne vende en global pandemi", under Schiller Institutets konference den 8. maj, samlede ledere fra USA, Europa og Sydamerika for at tackle den trefoldige krise med krig, hungersnød og pandemi.

Ordstyrer Dennis Speed brugte to videoklip til at perspektivere diskussionen i forhold til den overskyggende fare for krig, og til at behandle hvordan krige opstår. Først var et klip fra Lyndon LaRouches tv-udsendelse fra 1999, 'Storm Over Asia', hvor han understregede, at Rusland vil kæmpe tilbage, hvis det presses op i et hjørne – "det er deri faren ligger". For mange mennesker agerer under den vildfarelse, at de kan gøre som de vil i udlandet, "uden at det giver bagslag". Hvis London og Wall Streets kontrol over den amerikanske politik fortsætter, vil sandsynligheden øges for at Rusland vil kæmpe tilbage til grænsen af atomkrig.

Derefter et klip fra et nyligt interview med tidligere admiral Marc Pelaez (USN, fhv.), som har været kommandør for en atomubåd under Den kolde Krig, om karakteren af beslutningen om at påbegynde atomkrig. Pelaez sagde, at hvis han havde modtaget en ordre om at skride til handling, ville han have gjort det. "Afskrækkelser skal være troværdig," sagde han, "Min ubåds kapacitet kunne udslette alle større byer i USA øst for Mississippi. Og det er bare én ubåd!" Hvis man gjorde det, "vidste man imidlertid, at der ikke var noget at vende hjem til".

At løse det uløselige

Helga Zepp-LaRouche, grundlægger af Schiller Institutet, kom med indledende bemærkninger, hvor hun henviste til

civilisationskrisen i 1453 med Konstantinopels fald, da Det osmanniske Rige erobrede det byzantinske imperiums hovedstad og effektivt knuste det. Befolkningen blev brutaliseret af angriberne, og mange døde. Nicolaus Cusanus stod over for udfordringen med at forholde sig til denne krise, og hvordan det enorme had fra den ene side til den anden kunne forliges på en sådan måde, at man kom frem til en løsning på et højere niveau. Resultatet af denne inspiration var hans dialog: ''Freden i Troen'' (De Pace Fidei), hvor repræsentanter fra mange nationer og trosretninger kom i samtale med Gud i en dialog om, hvordan de kunne leve i fred.

Efter en række spørgsmål om tilsyneladende modstridende ideer og Guds svar, var konklusionen, at der kun er én sandhed – at universet er lovmæssigt, og at hele menneskeheden bærer den guddommelige gnist inden i sig; at alt menneskeliv er helligt. Så derfor, fortsatte hun, kan de tilsyneladende forskelligartede perspektiver og problemer kun løses ud fra et højere princip, og dette var 'Modsatningerne Sammenfald'; at hinandens udvikling bliver af primær interesse for én selv. Det er ud fra dette synspunkt, at hun gentog sit krav om oprettelsen af et globalt sundhedssystem, at starte opbygningen af den nødvendige infrastruktur i alle nationer, og at alle sanktioner skal elimineres. Og for at gøre det må vi tackle det moralske sammenbrud, især inden for USA.

Standarden: 'moralsk excellence'

Dr. Joycelyn Elders, tidligere cheflæge for militærets sundhedskorps i USA, talte om ideen med at genoplive "standarden for moralsk excellence" – at gøre mere end hvad vi mener, vi er i stand til; ikke at give op, før målet er nået. Denne standard for moralsk excellence er ikke bare et godt ideal – det er en nødvendighed. Hun gennemgik statistikken: over 2 milliarder mennesker har ikke adgang til rent drikkevand; over 2,5 milliarder oplever

fødevareusikkerhed, og 270 millioner mennesker står over for potentiel hungersnød. Omkring 1,2 milliarder mennesker har ikke adgang til elektricitet, og uden elektricitet kan sygdomme ikke overvindes... og [samtidig] hævde, at pandemien er et resultat af moralsk, og ikke lægelige svigt.

Eftersom uafhængighedserklæringen taler om umistelige rettigheder, herunder: "Liv, frihed og higen efter lykke," sagde dr. Elder, at vi nu skal inkludere adgangen til midlerne [for] livets opretholdelse – rent vand, rigelig mad og billig elektricitet skal være tilgængeligt for alle nationer, for uden disse ting er der ingen måde at have et sundhedssystem på eller [at opretholde] livet. Hun kaldte den nuværende politik for "ligegeyldighedens selvmordsøkonomi" og afsluttede med at opfordre alle til at blive involveret, genvinde "standarden for moralsk excellence" og understregede, at apati er den værste pandemi af alle.

Dr. Khadijah Lang (USA), formand for 'National Medical Association (NMA) Council on International Affairs' og præsident for 'Golden State Medical Association'; samt Marcia Merry Baker, en ekspert inden for fysisk økonomi og medlem af EIR's-redaktionskomité, præsenterede de succeser og udfordringer, som udbuddet af medicinsk behandling, mad, vand og sanitet internationalt står overfor. Dr. Lang diskuterede NMA's tidligere arbejde med at indsætte hold og medicinske forsyninger til Mozambique i samarbejde med lokale myndigheder for at yde sundhedspleje og bidrage til uddannelsen af kirurger. Hun beskrev de barske forhold i Østafrika med den nylige græshoppeplage, der ødelagde afgrøder efterfulgt af successive kriser, som alle ramte Mozambique hårdt. Da COVID-19 ramte, var det ødelæggende, for så kunne folk ikke engang gå ud for at skaffe mad...

Mere senere fra dette afsnit.

Vi må overvinde COVID-krisen overalt:

Pastor Robert Smith, bestyrelsesformand for den Nationale baptistorganisations udenlandske Mission talte til konferencen fra Michigan under titlen: "'Læge, helbred dig selv': Red en nation i krise gennem kærlighed". Han beskrev prøvelserne med at håndtere de mange COVID-dødsfald i sit eget samfund og den styrke det krævede for at opfriske os med kærlighedens kilder, kilder der er en gudgivne kerne i vores menneskehed.

Luis Vasquez talte fra Peru og præsenterede: "Glem ikke: Den globale koncentrationslejrs ovn er nu nuklear". Som mangeårigt medlem af Schiller Instituttet, begyndte han med at fortælle, at han og hans kone for nylig var syge med en ny variant af COVID-19, og havde det ikke været for hjælp fra deres familie, var det usandsynligt, at de ville have overlevet. Under ødelæggelsen fra en nyliberal økonomi har deres nation nu ingen offentlige tjenester, ingen skoler, ingen transport, og at få COVID-19 svarer til en dødsdom. I hele Lima er der ingen ledige intensiv-senge med respiratorer; enhver intentiv-seng har en venteliste på op til 300 personer. En iltcylinder koster \$1.000; en genopfyldning koster \$200. "Hvis du ikke kan betale, dør du. Dette er en holocaust ... ekstremerne er nået ... vi er i en global koncentrationslejr".

Vi kan betragte de forkerte økonomiske beslutninger, der er taget siden 1974, som anstifter af denne nuværende tragedie; verdensøkonomien er et kasino på kanten af konkurs. Vi må mobilisere vores forsknings- og udviklingskapacitet i alle lande; vi ved, at vi kan udrette disse ting, fordi mennesket er kreativt. Vi er alle forbundne nu, og omtanke for andre er ikke kun moralsk, men videnskabeligt sandt.

Dr. Walter Faggett (USA), tidligere cheflæge i Washington, D.C.'s sundhedsafdeling, og i øjeblikket medformand for D.C. område 8 Sundhedsråd, berettede om de succeser, de har haft med at koordinere samarbejde mellem

samfundsorganisationer, kirker, universiteter og sundhedspersonel for at øge graden af COVID-19-vaccination i Washington. Han fik følgeskab af Genita Finley (USA), 2. års medicinstuderende og designer af Mississippi Deltas medicinske skoleprogram, der diskuterede, hvordan hendes program lykkedes med at bringe flere studerende ind på sundhedsstudier og hjælper dem med at overvinde problemer med deres identitetsfølelse af ikke at være "kloge nok" til at blive sundhedsarbejdere. Mississippi Delta har en af de største koncentrationer af fattigdom i landdistrikterne i nationen.

Mere kommer senere.

Texas er et forvarsel om
hvad der vil ske,
hvis der kommer en Grøn New
Deal.**

Schiller Institutets ugentlige webcast med Helga Zepp-LaRouche, den 17. februar 2021

c

I sin ugentlige dialog advarede Helga Zepp-LaRouche om, at de totalt unødvendige dødsfald og lidelser i Texas og andre amerikanske delstater på grund af en polarkoldfront giver et tegn på hvad der vil ske, hvis den "store nulstilling" og dens grønne New Deal ikke stoppes. Disse dødsfald er ikke resultatet af en "naturkatastrofe", men en advarsel om hvad for en fremtid vi står overfor, hvis nedlæggelsen af CO_2 -kul- og atomkraftbaseret elektricitetsproduktion ikke tilbagerulles. Den nye EIR-rapport, "The Great Leap Backwards" ("Det store spring bagud"), giver både en analyse af de tydelige farer ved at vedtage en grøn dagsorden, og et alternativ baseret på hendes afdøde mands, Lyndon LaRouches, videnskabelige idéer.

Helga Zepp-LaRouche diskuterede også, hvordan kampagnen for konfrontation med Rusland og Kina udsætter menneskeheden for truslen om atomkrig på et tidspunkt, hvor samarbejde ikke kun er bydende nødvendigt, men også opnåeligt. Hvis NATO insisterer på sanktioner mod Rusland over den meget opblæste Navalny-affære, burde nationer som Tyskland, Frankrig og Italien forlade NATO. Tilsvarende viser EU's manglende evne til at beskytte sine borgere mod COVID-pandemien ved igen at forkludre leveringen af CO_2 -vacciner, at denne form for overnational institution ikke er i stand til at sørge for borgernes behov – en fiasko, der også ses

i de sandsynlige ødelæggende virkninger af dets kampagne for en europæisk Grøn New Deal, hvilket kunne føre til en nedbrydning af det europæiske energinet.

Hun stillede de økonomiske og strategiske tragedier, der udvikler sig i de transatlantiske nationer, i modsætning til det optimistiske potentiale i de tre samtidige rummissioner til Mars. Det faktum, at De forenede arabiske Emirater startede sit rumprogram for kun seks år siden, giver håb om at, med internationalt videnskabeligt samarbejde, kan nationer bevæge sig hen imod en fredelig udforskning af vores univers, med enorme fordele for alle.

Deaths from Power Outages in Texas Give a Foretaste of Things To Come with the Green New Deal

The LaRouche Organization Webcast with Helga Zepp-LaRouche

Wednesday, February 17, 2021

HARLEY SCHLANGER: Hello, I'm Harley Schlanger with our weekly dialogue with Helga Zepp-LaRouche, the founder and chairwoman of the Schiller Institute. It's February 17, 2021, and Helga, we have an extremely dramatic development, which seems ironically to coincide with the release of our Special Report, and that is the cold front that has hit Texas, leaving between 3 and 4 million people freezing in the dark. This is really quite dramatic, isn't it?

HELGA ZEPP-LAROUCHÉ: Yes, it is actually very horrible, because already 26 people died. Now, this is incredible, and you have the state of Texas, where the wind turbines froze up, the solar panels were covered with snow, so the energy production went down from an average of 25,000 MW to only 12,000 MW, and naturally you have blackouts, not only in Texas, but now there are rolling blackouts in 14 other

states in the United States.

Now, this is absolutely unnecessary, and it's not a natural catastrophe. People should not look at it this way, because if you had normal coal-generated energy and nuclear energy, you would not have this situation, so people should not say this is a "natural" catastrophe. Because I would rather say, if we want to have a good note about it, we should take it was a warning from St. Peter, a warning sign what could happen with the weather if you don't have the energy required to deal with it.

Since we have this new report out, "The Great Leap Backward—LaRouche Exposes the Green New Deal," and the Great Reset, there we have warnings in it, that this will lead to blackouts and the blackouts could be even more dramatic. We have the case of the EU, where studies were made by the scientific advisory service to the German Parliament, already nine years ago, that you could have a collapse of the entire European energy grid, and that would have much more devastating consequences than even this. But this is bad enough. I think 4 million people in Texas, in the U.S., and 5 million people in the north of Mexico are without electricity. Now, that means people can die in the cold, they can die of the effects of it in various ways, and I think it's quite important that the former governor of Texas, Rick Perry, who was also the Energy Secretary in the Trump administration, blasted this in a very powerful way, saying that if you cut out coal, if you cut out nuclear energy, then you are completely dependent on an ideologically based energy policy, and people are dying! And that is what would happen if you have an energy policy defined by such people as AOC [Rep. Alexandria Ocasio-Cortez] and the like.

So, this is a very serious warning, and I can only advise people to get the Special Report *EIR* has put out, because the consequences of what the Great Reset would do, the

Texas developments give you a meager foretaste of the kind of economic collapse which would result as a consequence of the implementation of this policy. And this could lead to very dramatic developments, social chaos; it would have a devastating effect on the strategic situation, because some parts of the world are not so stupid—Japan, for example, when they had a snowstorm, I think it was last December, the Energy Minister immediately said that Japan must turn back on all of its nuclear plants; and obviously, Russia, China, India, they are all massively investing in the production of fission energy, of the third generation fission energy, and naturally, very much emphasis on fusion power [research]. But the idea that the world can live without coal plants, modern coal plants which are absolutely environmentally friendly, I think this is really an illusion and must be corrected immediately.

SCHLANGER: One of the things I found most interesting, is that Rick Perry, in his discussion also mentioned the advances of nuclear fusion, so that's a very good sign that there are at least some people thinking.

But Helga we have another problem that this comes up against, which is the absolute dysfunction of the political parties in the United States, with a feud going on in the Republican Party which broke out this week; with the Democrats somewhat chaotic and stuck with nothing but the Green New Deal. How does this look to you?

ZEPP-LAROCHE: It looks very worrisome, because also the fact that Kamala Harris is now conducting foreign policy with President Biden resting in Camp David. This has caused the raising of quite some eyebrows, because normally a Vice President participates maybe, in overseas phone calls, but here, Kamala Harris is conducting foreign policy all by herself. So the question is, in what condition is President Biden? Naturally, the situation in the Republican Party is one of utmost chaos.

And I think the only way how this can be addressed, is that we have to organize with The LaRouche Organization and the Schiller Institute to really promote, absolutely, the solutions of my late husband Lyndon LaRouche, and hopefully large segments of the population will understand that a change of the paradigm is absolutely necessary. At this point, the only voice of reason is really coming from The LaRouche Organization and the policies promoted by my late husband. But it needs a broad mobilization of the population to change the course of these developments.

SCHLANGER: One of the things that The LaRouche Organization is doing is conducting a series of dialogues, such as the one from last Saturday on U.S. Russia policy. [[https://larouchorganization.nationbuilder.com/forum_worsening_u_s_russian_relations_reverse_them_with_new_paradigm_o
r_face_nuclear_war](https://larouchorganization.nationbuilder.com/forum_worsening_u_s_russian_relations_reverse_them_with_new_paradigm_or_face_nuclear_war)] It is clear that the war machine that was never removed under President Trump is now back on all gears, targetting Russia and China. Where do you see this headed?

ZEPP-LAROUCHE: It is extremely dangerous. We had the Atlantic Council Paper, "The Longer Telegram," so-called, basically referring to the "long telegram" paper by George Kennan from 1946, now referring to the need to have regime change against China, especially targetting Xi Jinping to be toppled. Now, if you put yourself in the shoes of such a government as China, and you hear that coming from the largest nuclear power, and probably still the largest economy in the world, it has consequences. It leads to a hardening of positions. And in a certain sense, this is going on against Russia, with the Navalny campaign. So I think it's quite interesting that Prof. Lyle Goldstein, who is from the Naval War College, he made a couple of warnings, both in the radio and also in the *Washington Times*, basically saying that this is leading to a situation where there is practically a warlike situation between the

United States and Russia, and that the people who are pushing the Navalny campaign should be aware of the fact, is it really in the interest of the West to have a very sizable nuclear power like Russia to have chaos, or is it not in the interest of the Western countries, that the nuclear weapons of Russia should be under the control of a stable, unified force—I mean, just imagine, you have a civil war in Russia and then these nuclear weapons would get into the hands of some strange, terrorist kind of forces!

I think that there is actually the need to really be aware of that, and come to the conclusion that this whole policy of sanctions against Russia is not functioning; this was, for example, just made as a statement by the head of the Kiel Institute for the World Economy [<https://www.ifw-kiel.de/>], Mr. Gabriel Felbermayr, who said that the whole idea of sanctions against Russia does not function, because you don't get countries like China, or India, or other partners of Russia to cooperate, so therefore, the only forces which are hurt by the sanctions, is, in this case, emphatically Germany. So, this whole policy of geopolitical confrontation can only lead to a complete catastrophe, if it is pursued.

SCHLANGER: There's also a very sharp warning coming from Sergey Lavrov, the Russian Foreign Minister, about the policies of the EU, which are definitely part of this anti-Russian grouping.

ZEPP-LAROUCHE: Yes. He said that if this is stopped, if these sanctions are not stopped, that Russia is prepared to break off all relations to the EU. Now, there was a rather stupid article in the *Frankfurter Allgemeine Zeitung*, basically pooh-poohing it, saying this is just meant to cause people to now say, "Oh, we should do something now that this doesn't happen." But these liberals, and the FAZ is full of them, they don't understand the

connection between cause and effect, but these policies, as I said, they lead to dramatic changes.

I mean, if you put yourself in the shoes of Russia and China, what is the natural consequence of these policies coming from the U.S., from the EU, from Great Britain? Already in October 2020, at the annual Valdai conference, Putin raised the possibility—this is not the first time it was raised, but he raised it publicly at this Valdai conference—the possibility of a Russian-Chinese military alliance. And this was brought up again on Feb. 4, this year, in a meeting between Wang Yi, the Chinese Foreign Minister, and Sergey Lavrov, discussing this option. Now, Putin in some context, also said it's not necessary, but obviously, it would be a major change in the strategic situation. What it would do is, it would protect China, if China would sort of come under the nuclear umbrella of the Russian nuclear forces, which are sizable, they're extremely modernized; Putin had introduced these new weapons systems, the hypersonic missiles, the nuclear-powered submarines—all weapons systems which sort of make the previous plans for a global missile defense system by the U.S. and by NATO obsolete; obviously, all these countries are working high-speed in their own hypersonic missiles, so it's a dangerous arms race.

But, it would mean, if China would come under the nuclear umbrella of Russia, it would completely change the situation for good; it would basically make a limited nuclear attack on China impossible, unless you want to have World War III all the way. It would basically allow China a greater flexibility in dealing with the problems in the South China Sea, in respect to Taiwan. It would definitely have an incredible signal effect on all the countries participating in the Belt and Road Initiative. It would basically give them assurance that there can be a peaceful win-win cooperation.

Now, obviously, the efforts by the U.S. is to counter that, and that was going on already with the Trump administration, Pompeo and Esper, to build the Quad, that is, the Indo-Pacific alliance, trying to pull India into an alliance with the United States against Russia and China. But that is the kind of geopolitical games which really is what led to World War I and World War II, and I think it is really something we have to overcome: Because if this kind of geopolitical maneuvering is going on, the Damocles Sword of nuclear extinction hangs over the world. And people should really wake up.

The only consequence for European nations is to stop the sanctions campaign against Russia, to stop supporting Navalny, who is—it's a typical Western intelligence-promoted operation for regime change in Russia. I think his support in Russia is very little. He has maybe a few hundreds of supporters—that looks big when they go on the street—but in reality it's a very tiny fraction of the Russian population, and as we discussed previously, Ahurkov, one of the campaign managers of Navalny had begged the British second in command in the Moscow Embassy for money so they could do these operations. This is really something which should not happen! Regime change policy is a complete interference into the sovereignty of a country, and it is what Obama and Tony Blair were doing, the so-called “humanitarian interventions,” “spreading democracy”; democracy has gotten a very bad name as a result. And what should happen instead, is that the European nations, like Germany, France, Italy and others should leave NATO and rethink what is their security interest. I think we need to discuss a new security architecture, and that must represent the security interests of every single country on the planet, if we want to overcome the danger of nuclear war.

So, I think the consequence of this is to really leave the

kind of NATO alliance, which has become obsolete in any case, after the dissolution of the Warsaw Pact, and right now, the idea to expand NATO as a global force, is really—it will lead to World War III if it's not stopped.

SCHLANGER: You mentioned China possibly going into an alliance with Russia: The Chinese made a threat that they may withhold rare earth materials that are necessary for aircraft construction and other kinds of defense contracting. How serious is that threat?

ZEPP-LAROUCHE: Well, I think it's being seriously looked at. I think the Chinese government has started an investigation, exactly of what the effect would be, as you say, on the military sector, on the production of fighter jets, and if this escalation increases, one could actually see that happening. That would be a sort of nuclear bomb, but it would be one of these signs of a prewar situation if it happens.

SCHLANGER: And speaking of pre-war, we're seeing a number of developments in Southwest Asia around Yemen, also around Syria with the Israeli strikes on Syria, threats to Iran. How does this situation look from your standpoint?

ZEPP-LAROUCHE: The situation in Yemen is a complete tragedy, and also I can only say the world community which allows this to happen—I mean, the Yemen population is the worst humanitarian catastrophe in years; it's escalating; everybody knows it, nobody does anything decisive about it. Right now you have 2 million Yemeni children under the age of 5 who are in acute malnutrition; 400,000 of those are in acute severe malnutrition, which is acute danger of starvation. Now how easy would it be to tell the Saudis, "you open the ports, you allow the entrance of food aid," and if the EU and the United States and some other countries would really put their foot down, it could be remedied, practically in a week! The fact that this is not

happening, I really think that the EU policies on the question of refugees, what they have done with Frontex [EU's border guard] backing and participating in the pushback operations against refugees, all of these policies are completely inhuman, and I think any nation in Europe that wants to have a decent policy should leave the EU! The EU and NATO, right now, are really alliances which are completely against the interests of the member states, and there is no need to have a bureaucracy in Brussels.

Look what they did in terms of getting vaccines: Ursula von der Leyen is a complete failure; this woman was a problem when she German Defense Minister. Now her record as the so-called President of EU Commission is a disaster. Why does she not resign? She should resign! And I think the European nations should leave the EU and form an alliance as republics of "fatherlands" as de Gaulle was calling for it, and you can have a multinational cooperation for the development of Africa, for the reconstruction of Southwest Asia, and you don't need a supranational bureaucracy.

These things have to be remedied, and these policies are clearly not in the interests of the European nations. And in the case of Yemen, I really appeal to all of your viewers—that is, you—to help to change the policy in respect to this genocide which is going on before our very eyes.

SCHLANGER: Now, speaking of the EU, we have the man from the British royal yacht *Britannia*, who is now moving into power in Italy, Mario Draghi, former head of the European Central Bank: This is just another disaster, and he's committing himself to the entire policy of so-called "monetary integration." Is this going to go over in Italy?

ZEPP-LAROCHE: We have to see. Right now, you have the Lega being in the government, and they have one minister post; I think one big test case will be what happens to the Messina

Bridge and also the Taranto steel plant, which Draghi basically wants to shut down, and the EU wants to shut down: This steel plant is the production facility which could actually produce the amount of steel needed for the Messina Bridge [to Sicily], which obviously would completely change the dynamic in terms of the Mezzogiorno, bringing real development to Southern Italy and Sicily. And the Lega basically wants to convince Draghi to go ahead with this bridge. Let's see how this plays out: Draghi made his first speech in the Senate which was unfortunately, everything one could expect. He made the absurd statement saying that the more there is European integration, the more Italian, the Italians become. He also called for Schumpeter-like "creative destruction," saying that some industries are not worth saving. So this is exactly what one could expect from somebody who has been in the ECB for many years, and demanding all kinds of "reforms" which created the problems in which Italy right now finds itself. So this does not look good.

SCHLANGER: To conclude, we want to go back to this question of Lyndon LaRouche's solutions, and you've been speaking very enthusiastically about the development of the space program in the United Arab Emirates. We now have a Chinese mission on Mars, and as of tomorrow, there will be U.S. rover landing on Mars. How significant is this? This really does represent—when you talk about the Texas situation being the foretaste of the bad things that could come from the Great Reset, doesn't this project around Mars give us a foretaste of the good things that could come out of international scientific cooperation?

ZEPP-LAROUCHE: Obviously. Look, for the Mars missions—I'm still most impressed by this U.A.E. operation, because this was a Mars mission which was only started, I think six years ago; so, in an incredible speed, they caught up, at least with Japanese help, but nevertheless, and they have

now an spacecraft in Mars orbit. This shows you that any developing nation—after all the Gulf States only discovered oil less than 30 years ago—and turned from total desert states into, in some cases, states which are really doing quite remarkable things, in terms of for example, the Emirates have an island which they irrigated and turned into beautiful gardens and forests. And when my husband and I were in Abu Dhabi in 2002, he made a speech there on the future of oil; this was organized by the Zayed Center. And he basically said, look, forget oil as a fossil fuel, it's too precious and should be used for chemical production, for pharmaceutical production, and use the revenue to invest in the production of water, that will green the deserts.

[https://larouchepub.com/eiw/public/2002/eirv29n23-20020614/eirv29n23-20020614_006-the_middle_east_as_a_strategic_center.pdf]

And he advised basically to go for innovation and leapfrog—and this is exactly what the Emirates have done, and other Gulf States are going in a similar direction. They are cooperating with China on the Belt and Road Initiative, and now you have this Mars mission.

Now, if you think what incredible technologies are opened up with space research and space travel, we have seen it many years ago with the Apollo Project, where it's often cited that every cent investment brought back fourteen cents in terms of value as computers, as all kinds of spinoff products. But we are now on the verge of getting fusion power as a propulsion, which is the only way how human beings could safely get to Mars. There is discussion about studying the weather patterns, the underground water, the traces of life. And obviously, not only manned Mars missions are what is being looked at, but also a village on the Moon, a city on Mars, creating the conditions for longer term existence of man on these planets, as a

stepping stone for future interstellar travel. Now, that means that the character of humanity will completely be transformed, because it's very clear that once you undertake such endeavors, you cannot have a geopolitical war on Mars, or else you will not live, and you will not exist.

And the kind of international cooperation among astronauts which we have seen on the International Space Station (ISS), that is the model for the future cooperation among nations, like the United States, Russia, China, India, Europe—the best policy of Europe is their work on ESA, the European Space Agency, where its head, Mr. Jan Wörner, is enthusiastically speaking about the village on the Moon all the time; and ESA has just put out a request for young people to be trained as astronauts. That program should be enlarged. Europe should have a much, much larger space program, and if a small country like the Emirates can have a Mars mission, why cannot Germany have a Mars mission on its own? You know, Germany right now is in place 27, in terms of the number of people being vaccinated; the Emirates are in place 6 or 7.

So there's something right which the Emirates are doing, and something fundamentally wrong what Germany is doing and the EU is doing. However, this is the future, and if mankind is supposed to live as an immortal species—and that was a notion which was coined by my late husband—because we are different from other species, because we have creative reason. We can solve any problem through scientific and technological breakthroughs, by discovering new laws of the universe. And since our mind *is* the most advanced part of that universe, there is all the reason for optimism that once we attune our own existence and our own practice with the laws of the universe, our chances to become the immortal species is absolutely there. But it does require space travel as a precondition, and I think this idea of

nations working together to discover the beautiful secrets of the universe, that gives you a taste of what the future of man can look like, when we decide to become adults.

SCHLANGER: Well, Helga, it's always good to end with a healthy dose of optimism, as you just did. For our viewers, let me remind you: You can get the new report "A Great Leap Backward—LaRouche Exposes the Green New Deal" on why we have to defeat the Great Reset and the Green New Deal, go to <https://schillerinstitute.com> and get an invoice for it. And Helga, I guess that's what we have now, so we'll see you next week.

Schiller Instituttet tager på det kraftigste afstand fra Men in Black

Schiller Instituttet pressemeldelse den 25. januar 2021

25. januar 2021 – Schiller Instituttet i Danmark tager på det kraftigste afstand fra de holdninger, demonstrationer og aktiviteter, der er foregået under betegnelsen "Men in Black".

Schiller Instituttet har været meget aktive for at sikre en effektiv bekæmpelse af COVID-19-pandemien (se udtalelsen Operation virus ud af skindpelsen fra den 30. marts 2020, og for at sikre, at vi både i Danmark og internationalt kan få oprustet sundhedssystemerne – både med henblik på at få nedkämpet COVID-19-pandemien og forhindre andre pandemier som måtte true menneskeheden i

fremtiden.

Schiller Instituttet har støttet den internationale indsats for at få udviklet vacciner imod COVID-19 og ønsker dem udbredt hurtigst muligt i Danmark og i resten af verden.

Vi beklager, at et tidligere medlem i Schiller Instituttet og kandidat for Schiller Institutrets Venner, Christian B. Olesen, har valgt at være aktiv i Men in Black, som det blandt andet kunne læses i dagbladet Politiken den 24. januar 2021. Christian var medlem i Schiller Instituttet indtil november 2020, men har aldrig diskuteret Men in Black med Schiller Instituttet. Så længe han fortsat er aktiv i og deler holdninger med Men in Black er han ikke velkommen igen i Schiller Instituttet.

Hvordan valget kan vindes: Vær sikker på at 'hvis' sker

5. august (EIRNS) – Tilbage i februar, 2017, næppe to uger efter at Præsident Donald Trump var taget i ed som præsident, udtalte Schiller Instituttets grundlægger, Helga Zepp-LaRouche, at Trump kunne blive den største præsident i USA's historie, hvis han fulgte op på sit løfte om at skabe samarbejdsorienteret forhold med Rusland og Kina, og at arbejdede med disse og andre nationer om det Nye Silkevejsprojekt, for at fremkalde et Nyt Paradigme af økonomisk udvikling for hele menneskeheden, på linje med det beskrevne af Lyndon LaRouche i hans dokument af 08.06.2014, "Fire nye love for at redde USA nu! Ikke en mulighed, men en nødvendighed".

Den Britiske Imperium genkendte dette samme potentiiale i Præsident Trump og tog en offentlig ed om, at de aldrig ville tillade noget som helst i den retning at ske – at en anden periode for Trump måtte forhindres for enhver pris, som det blev udtrykt af det engelske overhus i december, 2018. Briterne, med deres Obama-administration, samt andre aktiver, skabte den infame "Russiagate" løgn ud af den tynde luft, for at prøve at sænke Trumps præsidentskab. Den store "Rusland-Rusland-Rusland"-løgn – at Rusland havde hacket den Demokratiske Nationale Komités computere, for at give valgsejren til en "medsammensvoren" Trump – er nu blevet miskrediteret vidt og bredt, og med den stadige

aktivitet fra LaRouchePAC, Bill Binney, Roger Stone og andre, kunne den bryde sammen hvert eneste øjeblik. Men de samme britiske imperie netværker har nu opdigtet den store "Kina-Kina-Kina"-løgn – at Kina er årsagen til COVID-19-pandemien, som de eksporterede og er ansvarlige for millioner af dødsfald – for at sikre at verdens to største økonomier ikke samarbejder for at sætte en stopper for den globale pandemi og fortsætte derfra til reorganisering af hele det globale, bankerotte finanssystem.

Udenrigsminister Mike Pompeo har haft den førende rolle i at udbrede Kina-Kina-Kina-løgningen – samt de destruktive handlinger baseret derpå – og Præsident Trump selv har delvist adopteret dette, i det mindste i offentligheden. Som en konsekvens er de amerikansk-kinesiske relationer ved at løbe ud af kontrol, som hver side eskalerer tonen i meningsudvekslingen. På samme tid er pandemien og den økonomiske krise også ved at løbe ud af kontrol, og skaber præcis den slags omstændigheder, som briterne søger for at sikre at Trump taber valget i november.

I denne tynde strategiske atmosfære offentliggjorde det halvofficielle kinesiske dagblad, *Global Times*, d. 31. juli, en leder, som var et tydeligt signal af en ny slags, som, hvis han ønsker at vinde valget i november, tilskynder Præsident Trump til, ikke at skyde skylden for forværringen af COVID-19 og den økonomiske krise i USA på Kina og andre, men burde i stedet konfrontere disse kriser direkte gennem et samarbejde med Kina. "Lav justeringer tidligere," skrev de, og "slutte sig sammen med Kina".

Helga Zepp-LaRouche tog tilbuddet op i går.

Hun kommenterede at "lederen i *Global Times* er perfekt. Amerikansk-kinesisk-samarbejde angående pandemien er måden hvorpå den strategiske diskussion opløftes til en fælles tilgang. Dette må gøres for at skabe det miljø, således at et hastetopmøde mellem de fem permanente medlemmer af FN's

sikkerhedsråds (P5) kan afholdes senest i september, for at diskutere nødvendigheden af en ny økonomisk og sikkerhedsarkitektur for planeten". Helga Zepp-LaRouche fortsatte ved at advare at "hvis tonen i den nuværende meningsudveksling forværres, vil vi ikke være i stand til at have et topmøde overhovedet eller, hvis vi gør, vil det ikke være en succes. Den strategiske situation løber hurtigt ud af kontrol, ikke kun hvad amerikansk-kinesiske relationer angår, men ligeså i andre relationer. Præsident Trump har ingen intention om at føre krig, men i det nuværende miljø med før-krigs-retorik, og det Britiske Imperiums hensigt om at fremprovokere konflikten, kunne enhver fejl beregning føre til krig.

Denne stilling er langt værre end de fleste mennesker er klar til emotionelt at acceptere. Vi må rette op på dette og få regeringer og befolkninger til at vågne op til den eksistentielle trussel frembragt af pandemien og chokbølgerne som kommer fra den".

Zepp-LaRouche understregede at "dette er den eneste måde hvorpå Trumps valgsejr kan sikres. Grupper for og imod Trump må i samme grad indse, at krisen må konfronteres og overvindes før valget. Vi har brug for et internationalt kor af nationer, der kræver et sådant samarbejde, særligt mellem USA og Kina. Vi har brug for et stigende antal af stemmer for et P5-hastetopmøde. Som jeg ofte har sagt kan Trump blive en af de største amerikanske præsidenter, hvis han tager de nødvendige skridt. Det er vores ansvar at sørge for at dette 'hvis' rent faktisk sker".

Larmende tavshed fra de 'større medier', men sandheden giver genlyd: Der var intet 'russisk hack' – overvågningsstaten afsløret

4. august (EIRNS) – De stærke afsløringer om, at der ikke var noget "russisk hack" i 2016, samt relaterede afsløringer, der er kommet frem i de sidste to ugers presse-begivenheder og webinarer, som er blevet afholdt af LaRouchePAC og Schiller Instituttet i USA, bliver stadig mødt med tordnende tavshed fra de etablerede medier (med få undtagelser inkl. Newsweek og the Washington Times), på trods af de overbevisende cv'er for Roger Stone, den mangeårige politiske konsulent for præsident Donald Trump, der ændrede straffen for Stones uretmæssige retssag i sidste måned, samt William Binney, den tidligere tekniske direktør for USA's Nationale Sikkerhedsagenturs afdeling for analyse og rapportering om globale geopolitiske og militære det amerikanskeanliggender. Ikke overraskende, selvfølgelig; men mørklægningen indtil videre viser kun den skyhøje risiko, der er forbundet med at lade nogen af disse oplysninger blive bredt anerkendt som sandfærdige.

De faktiske kendsgerninger der viser, at hele Russiagate-operationen blev brygget sammen imod det amerikanske præsidentskab og præsident Trump af Obama-relaterede

etterretningskredse, der er forbundet med briterne, vil sprænge valg i 2020 vidt åbent, og forpurre det britiske imperiums globale geopolitik. Det vil også gøre det klart hvordan, hvorfor og af hvem operationen med falske anklager mod Lyndon LaRouche blev udført, og hvorfor LaRouches navn må renses.

Betydningen af at få udbredt dette billede vidt og bredt – og så hurtigt som muligt – blev påpeget i dag ved Consortium News' offentliggørelse af et nyt memorandum, der blev udgivet den 3. august af Veteran Intelligence Professionals for Sanity (VIPS) – (en organisation af tidlige efterretningsofficerer -red.). Dokumentet med titlen: "VIPS-memo til Nancy Pelosi – Hackede Rusland DNC's e-mails?" er en grundig tilbagevisning af løgnene om masseødelæggelsesvåben i Irak, som blev fortalt for at retfærdiggøre krigen mod Irak og andre efter år 2001, samt løgnene om den formodede russiske hacking af DNC og John Podestas computere i 2016. Årsagen til at VIPS rettede deres dokumentation til 'Madam Speaker', formand for Repræsentanternes Hus, er at Pelosi den 31. juli udtrykte frustration over, at der i dag ikke kommer nogle detaljer ud om, hvorledes russerne påvirker valget i USA i 2020! VIPS, som inkluderer Bill Binney og andre specialister, forklarede høfligt, at de løgnere, der var involveret i 2016 (og tidlige), såsom James Clapper, James Comey, m.fl., er bekymrede for at blive sat i fængsel. De er blevet sparket ud og har grund til at frygte at skulle tilbringe tid bag tremmer. Derfor, 'Madam Speaker', "kan fraværet af de ønskede detaljer simpelthen skyldes mangelen på troværdige informationer om betydelig russisk indblænding, og fraværet af Clappers embedsmænd til at trylle dem frem. Med andre ord vil nutidens efterretningsadministratorer – i modsætning til deres forgængere – sikkert ikke kunne finde fældende beviser mod Rusland, som 'ikke rigtig var der'".

Baggrunden for disse salver af sandheder er de kombinerede kriser af pandemien, hungersnød, økonomisk sammenbrud og konflikter. På verdensplan rapporteres der officielt over 18 millioner tilfælde af COVID-19, rent faktisk yderligere mange millioner, hvilket skaber nødsituationer fra Australien til Europa. I USA skaber mønstre af ‘spredning i lokalsamfund’ problemer og lidelser på tværs af alle sektorer, fra skolegang til forarbejdning af fødevarer. National Governors Association har anmodet om en forlængelse af den føderale støtte til Nationalgarden, der nu tæller 25.000 i alle stater. I Det hvide Hus er der nu obligatorisk stikprøve-test af alt personale, efter at en fødevare-arbejder blev fundet SARS-CoV-2 positiv i sidste uge; og den nationale sikkerhedsrådgiver, Robert O’Brien, har været i karantæne med virussen indtil i dag.

Situationen for fødevareforsyning forværres drastisk for millioner af mennesker. I slutningen af juli rejste direktør for Verdens Fødevareprogram, David Beasley, til Ecuador og besøgte deres forsyningsmæssige knudepunktet i Panama, hvorfra ikke kun mad, men også anti-pandemisk materiale sendes over hele Amerika. Den 28. juli udsendte han en advarsel om, at 16 millioner mennesker i Syd- og Mellemamerika og Caribien nu er absolut afhængige af den daglige fødevarehjælp, hvilket er en stigning i år fra 4,3 millioner. Han appellerede for nødhjælp på 328 millioner \$.

Endelig, i stedet for at fremme internationale samarbejdsrelationer vedrørende disse og indenlandske økonomiske kriser, er den britisk orienterede krigsfraktion i USA i fuld galop fremad imod konflikt. Blandt de seneste skridt mod Kina blev der annonceret endnu flere sanktioner fra udenrigs- og finansministeriet den 3. august, denne gang rettet mod virksomheder og enkeltpersoner i Xinjiang, hvor de anklages for krænkelser af uighurernes menneskerettigheder. En gruppering i Kongressen udsendte også denne uge en frist til de store amerikanske

universiteter, Harvard, Penn, Yale og mange andre, om at de har en frist indtil mandag 10. august til at fremlægge dokumentation for, om de får finansiering fra ”fjendtligt indstillede” udenlandske nationer. Hvad disse træk indebærer, er krig, hvad enten de involverede er bevidste om det eller ej. Denne risiko blev beskrevet i en erklæring fra det russiske udenrigsministerium i dag, på den første årsdag for USA’s tilbagetrækning fra INF-traktaten om mellemdistance-atomraketter. Erklæringen advarede om, at den amerikanske udvidelse af landbaserede missiler mod Rusland og andre krigsførende handlinger tvinger Rusland til modforanstaltninger. Erklæringen gentog imidlertid, at politiske og diplomatiske forbindelser stadig er et alternativ.

Dette alternativ er nedfældet i forslaget fra den russiske præsident Vladimir Putin om et P5-topmøde meget snart (med de fem permanente medlemslande i FN’s sikkerhedsråd). Præsident Trump og Putin har talt om en dagsorden for mødet. En sådan samling af statsoverhoveder er presserende – det ville være vigtigt allerede inden september. For at fremme dette perspektiv, og for at stoppe kupplanerne mod Trump og det amerikanske præsidentskab, udsendte LaRouchePAC i dag et nyt dokument. Ligesom med topmødet er der ingen tid at spilde. Ingen grund til at vente til valget i november! Spred budskabet: ”LaRouchePAC’s 2020 Terms of Battle: Secure the American Revolution, Crush the British Empire”

NYHEDSORIENTERING JUNI-JULI 2020: Et 4-magts-topmøde for global genopbygning nu!

Download (PDF, Unknown)

Frontlinjerne er nu

tydeligt optegnede – bliv en del af kampen, deltag i Schiller Instituttets konference på lørdag

24. juni (EIRNS) – Hele verden er i stigende grad konfronteret med den virkelighed, at den gamle verdensorden er brutt sammen og aldrig igen vil genopstå.

- Det transatlantiske finanssystem, centreret i City of London og Wall Street, er klinisk set bankerot, eftersom den amerikanske centralbank (Federal Reserve) og den europæiske centralbank allerede har optaget 7 billioner \$, i dollars og euro, i deres bankbøger, det meste blot i de sidste par måneder, i et afsindigt forsøg på at lappe den næsten 2 billiarder \$ store derivatbølle, samt de hurtigt kollapsende markeder for virksomhedsobligationer og realkreditlån.
- Coronavirussset toppe i USA, mens Brasilien, Chile og Indiens trues med et kollaps af deres offentlige sundhedssystemer. Andre lande, specielt i Afrika, står over for et holocaust, fra kombinationen af virusset, de sammenbrudte fødevarekæder og en græshoppeplage.
- Udenrigsminister Pompeo omtaler dagligt Kina som et ondskabsfuldt imperium, der forsøger at overtage verden, og anklager Beijing med den fuldt ud gendrevne løgn, at de med overlæg udsendte fly fulde af smittede personer ud i hele verden, for at forårsage massedød og økonomisk kollaps. Hvis dette havde noget på sig, ville det i sandhed have været en krigshandling, så man må konkludere, at Pompeo og

krigsfraktionen, både republikanere og demokrater, er villige til, eller sågar ivrige efter, en militærkonfrontation mod Kina.

- Det interne, anarkistiske kaos i USA, en jakobinsk mobilisering (efter den jakobinske terror under Den franske Revolution –red.) finansieret af Soros, Ford-Stiftelsen og andre Wall Street-enheder, har åbent erklæret, at dets formål er at fjerne præsidenten fra sit embede før valget i november – dvs. at dette er tredje fase af kupforsøget mod Præsident Donald Trump, som EIR har dokumenteret fra begyndelsen.

Dagens offentliggørelse af notater, taget af et ledende offer for det såkaldte "Trump-sindsforvirringssymptom", Peter Strzok, beviser, at den tidlige præsident Barack Obama og tidlige vicepræsident Joe Biden direkte beordrede den ulovlige brug af justitsministeriet til at fabrikere snavs om den nyvalgte præsident, Donald Trumps, toprådgivere – specielt hans nationale sikkerhedsrådgiver, general Michael Flynn. En appeldomstol beordrede også, at sagen mod Flynn øjeblikket bliver trukket tilbage.

På trods af de anti-kinesiske krigsråb, som kommer fra Pompeo, sendte Præsident Trump ham sidste uge af sted for at mødes med Kinas vigtigste embedsmand for udenrigspolitik, Yang Jiechi; et møde som varede over syv timer, og blev beskrevet som "konstruktivt" af kineserne. På lignende vis sendte Trump i mandags den nye amerikanske forhandler for våbenkontrol, Marshall Billingslea, til at mødes med Ruslands stedfortrædende forsvarsminister, Sergei Ryabkov; et møde som varede 10 timer, og ledte til planer for amerikansk-russiske arbejdsgrupper for at påbegynde regelmæssige konsultationer om våbenkontrol, rumfart og andre strategiske områder, indenfor den næste måned.

Budskabet er klart: på trods af den krigslignende retorik fra sit kabinet, siger Trump til Rusland og Kina, at han

ønsker forhandlinger.

Aldrig har dette været mere presserende end i dag. Præsident Vladimir Putins offentliggørelse sidste uge af sit længe ventede studie om årsagerne til og konsekvenserne af 2. Verdenskrig, tager, med begreber der ligger tæt op af Lyndon LaRouches analyse over de sidste 50 år, fat på hvordan briterne påtvang Tyskland dødelige krigsskadeserstatninger efter 1. Verdenskrig, hvilket skabte betingelserne for at fanatikere som Hitler kunne mobilisere den forarmede og rasende befolkning til at blive nazistiske mordere. Derefter afviste briterne Stalins forsøg på at skabe en anti-nazistisk pagt med briterne og franskmændene, og valgte i stedet at give efter for Hitlers overtagelse af Tjekkoslovakiet, hvilket tilskyndede nazisterne til at "vende deres opmærksomhed mod Øst, således at Tyskland og Sovjetunionen uundgåeligt ville støde sammen og bløde hinanden i stykker". Nu, advarer Putin, kunne læren fra den krig – den "største tragedie i menneskehedens historie" – blive spildt af det igangværende sammenbrud af den kollektive sikkerhed.

I dag fejrede russerne de Allieredes sejr over nazisterne for 75 år siden med en militärparade på den Røde Plads. Soldater fra Kina og Indien deltog i paraden, mens udenrigsministre fra de tre store nationer i går mødtes (på trods af den farlige forværring af de indisk-kinesiske relationer efter den blodige grænsekonflikt i denne måned) for at vise deres fælles støtte til den nødvendige, kollektive sikkerhed, påkrævet for at forhindre en ny krig – en krig som ville være endnu mere tragisk og dødelig i denne atomvåbnenes tidsalder.

Schiller Institutts internet-konference nu på lørdag, 27. juni, kl. 16:00 (dansk tid) under overskriften: "Vil menneskeheden gå fremad eller fortabes? Fremtiden kræver et 'firemagts-tomøde' nu", er måden for alle, der, med Friedrich Schiller, tror på at vi alle må være "patrioter

Den 'store løgn' kan forårsage atomkrig

Den 26. maj (EIRNS) – Amerikanerne (og verden) husker godt G.W. Bush-administrationens 'store løgn', da Bush og hans kontrollør, Tony Blair, bryggede den store løgn om masseødelæggelsesvåben i Irak, og slap en række folkemorderiske regimeskifte-krige løs, der ødelagde Mellemøsten og drev millioner af flygtninge til Europa og andre steder. Præsident Donald Trump identificerede korrekt denne løgn som årsagen til Amerikas værste fejltagelse i moderne historie, måske i hele dens historie. EIR afslørede denne særlige løgn på det tidspunkt det skete, og behøvede ikke de empiriske beviser, der fremkom efter invasionen. Se "The 'Ignoble Liars' Behind Bush's Deadly Iraq War," April 18, 2003 ('De uværdige løgnere bag Bush' dødelige Irakkrieg')

Den næste 'store løgn', også udspringende fra britisk efterretningstjeneste, er nu også blevet afsløret – den med 'Rusland-Trumps aftalte spil' og 'det russiske hack af Demokraternes computere'. Frigivelsen af kongreshøringerne vedrørende 'Russiagate' har bevist hvad EIR demonstrerede fra begyndelsen – der var intet aftalt spil, og der var intet russisk hack. Mange af de ansvarlige står nu næsten helt sikkert over for kriminelle anklager for deres forræderiske samarbejde med MI6 og GCHQ i et kupforsøg mod USA. Atter engang, ved hjælp af kompetent efterretningsanalyse vidste læsere af EIR dette længe før 'den rygende pistol' viste sig. Se "Robert Mueller Is an Amoral Legal Assassin: He Will Do His Job If You Let Him," Sept. 27, 2017 (Robert Mueller er en amoralsk juridisk snigmorder: Han vil udføre sit job, hvis I tillader det).

Så nu har vi så 'den store løgn' nummer tre – fra

nøjagtigt den samme bande løgnere og forrædere – med en smule variation: ”Kina forårsagede pandemien, Kina sendte smittede mennesker rundt i verden for at ødelægge økonomier og dræbe mennesker, Kina vil tage verden fra os”! De samme britiske kilder, pligtskyldigst bakket op af den amerikanske presse, den amerikanske kongres og krigshøgene inden for Trump-administrationen, kræver, at præsidenten falder til patten eller står over for en ”vred befolkning”, der vil stemme ham ud af embedet – hvilket i sig selv er endnu en løgn. Igen advarede EIR nationen: Se ”End the McCarthyite Witch Hunt against China and President Trump,” November 2019 (’Stop den McCarthy-agtige heksejagt på Kina og præsident Trump’)

Niveauet for informationskrigsførelse i Chinagate er feberagtig. Det er blot nødvendigt for befolkningen at tage fat på den kendsgerning, at en krig med Kina, eller endog bare en ”afkobling” fra Kina, ikke vil løse noget. LaRouchePAC har nu offentliggjort en rapport ”The LaRouche Plan To Reopen the U.S. Economy: The World Needs 1.5 Billion New, Productive Jobs,” (’LaRouche-planen for genåbning af den amerikanske økonomi: Verden har brug for 1.5 milliard nye produktive arbejdspladser’), som giver en reel løsning, én der begrebsmæssigt blev præsenteret af Lyndon LaRouche gentagne gange i løbet af de sidste 50 år, men som ikke længere kan udsættes. Vilkår som under en mørk tidsalder er allerede ved at feje hen over Sydamerika, Afrika og endda dele af USA og Europa. En kamp med et usynligt virus og det lige så dødbringende spekulative virus, der spredes sig fra de fåbelige bestræbelser på at dække over det fallerede vestlige finanssystem, kræver den samme form for samarbejde, som blev organiseret af Franklin Roosevelt for 80 år siden for at besejre fascismen. Samarbejde mellem Rusland, Kina og USA var afgørende for at vinde den krig, lige som det er for at vinde slaget med COVID-19 og det økonomiske sammenbrud.

Hvad LaRouchePAC-rapporten gør klart er, at der ikke vil komme nogen økonomisk genopretning i USA, med mindre verden bringes ud af britisk imperialistisk dominans – dvs. der må skabes 1,5 milliarder arbejdspladser over hele verden for endelig at opbygge de tidligere koloniale lande til moderne industriland.

Ikke flere løgne. Udbred LaRouchePAC-rapporten overalt og afslør og bekæmp krigspartiet, så præsidenten kan vende tilbage til sin oprindelige hensigt om at være venner med Rusland og Kina og fuldende et nyt paradigme for menneskeheden.

Kinas budskab til USA: 'Det er aldrig for sent at tage hinanden i hånden i kampen mod den virkelige fjende'

19. april 2020 (EIRNS) – Det er overskriften på hjemmesiden for det semi-officielle China Daily, 19. april, som svar på den nylige bølge af fabrikationer og angreb på Kina, for alt fra angiveligt at lyve om antallet af landets COVID-19-dødsfald til at undlade at informere verden om udbruddet af coronavirus på rettidig vis, til endog at have dyrket coronavirussen i et laboratorium i Wuhan, og sidenhen at have anvendt det som et biologisk våben mod Vesten. Det sidste eksempel på sådant farligt vanvid kommer fra den tidligere borgmester i New York City, Rudy Giuliani, der i går fortalte radioværtten John Catsimatidis, at Kina "sendte over en million mennesker ud i verden – 1,5 millioner – næsten som 'ambassadører' der bar sygdommen. Hvad er der i vejen med dem, John? De har ingen samvittighed."

Som EIRNS udførligt har dokumenteret, stammer disse angreb på Kina – ligesom 'Russiagate' før dem – fra britisk efterretningsvirksomhed, og er blevet hvidvasket i USA af korrupte elementer i amerikanske efterretningstjenester,

moralsk afstumpede neokonservative og massemedierne. Som førhen, med det nu diskrediterede "Rusland-Rusland-Rusland"-mantra, har den nuværende "Kina-Kina-Kina"-kampagne præsident Donald Trump i sigtekornet, i et forsøg på at få ham til at købe løgnen helt eller delvist, og derved forhindre ham i at udvikle et samarbejde med præsidenterne Xi Jinping fra Kina og Vladimir Putin fra Rusland, en alliance der kunne begynde at tackle den række af hidtil usete globale problemer, som planeten står overfor, startende med coronavirus-pandemien.

Som Schiller Institutets grundlægger, Helga Zepp-LaRouche, understregede i sit internationale ugentlige webcast den 15. april: "De [Kina] har tilbudt samarbejde på grundlag af et win-win-samarbejde. De har tilbudt USA et specielt stormagtforhold. Og det er en absolut absurd idé, at man kan forhindre et land på 1,4 milliarder mennesker, som har bestemt sig for gå videre på grundlag af videnskabelige og teknologiske fremskridt – og har bevist, at denne metode fungerer ved at løfte 850 millioner mennesker ud af fattigdom, og derefter er begyndt på at tilbyde fordelen ved en sådan tilgang til andre lande gennem Bælte- og Vejinitiativet – at man kan stoppe det, bortset fra ved en atomkrig! Og det er åbenbart, desværre, hvad nogle mennesker er parate til at eksperimentere med."

"Denne kampagne styres helt klart af britisk efterretningstjeneste", understregede Zepp-LaRouche. "Jeg synes det er meget farligt, og det er meget dumt. Og jeg synes det burde stoppe, og folk skal virkelig ikke lade sig tage ved næsen af disse løgnagtige massemedier, der intet har med journalistik at gøre. De er i virkeligheden bare fortroppen i efterretningssamfundet og forsøger at fodre os med propaganda for at fremme deres mål."

Hvad lederen i China Daily udtrykker, er sandt: Det er ikke for sent at gå sammen i kampen mod den virkelige fjende. Faktisk afhænger selve menneskehedens eksistens nu af en

sådan alliance, for at feje det destruktive gamle paradigme af banen, og etablere et nyt paradigme, der er centreret om menneskehedens kreativitet som sådan – hvilket er det centrale emne på Schiller Institutets konference i næste weekend – den 25. til 26. april.

Britisk efterretningsvæsen vil have dig i krig mod Kina, og imod Trump

17. april 2020 (EIRNS) – For at vide hvad der skal gøres i denne krise, er det afgørende at lytte til Helga Zepp-LaRouches hovedtale på Schiller Institutets kommende konference, 25.-26. april. Hendes udtalelse, 15. april, sporedede de "farlige og dumme" forsøg på at give Kina skylden for coronaviruset tilbage til deres oprindelse: britisk efterretningsvæsen. Kinas ambassade i Tyskland samlede op på Helga Zepp-LaRouches udtalelse i dag, hvor de afslørede Londons Henry Jackson-Selskab for angrebene på Kina, publiceret i den tyske frokostavis Bild-Zeitung.

Det neokonservative Henry Jackson-Selskab, som forsøger at få USA og Europa til at sagsøge Kina for 3,7 milliarder \$ og til at gå i krigsberedskab mod dem, blev påbegyndt under den daværende chef for den Britiske hemmelige Efterretningstjeneste, også kaldet MI6, Sir Richard Dearlove. Dearlove er den selvsamme agent, som gav den daværende britiske premierminister, Tony Blair, "dossieret om irakiske ødelæggelsesvåben" for krig, og som gav den fyrede CIA-leder John Brennan og den fyrede FBI-chef James Comey det forfalskede "Steele-dossier" til den såkaldte

"Russiagate." Dearloves efterfølger i MI6, Sir John Sawers, angreb i denne uge gentagne gange Kina for angivelig tilbageholdelse af information angående coronaviruset.

Hvorfor gør London dette? Det ser sig nødsaget til at måtte adskille præsidenterne Donald Trump, Xi Jinping og Vladimir Putin, der i en række konference- og telefonopkald for tre uger siden var begyndt at diskutere et samarbejde til at støtte hinanden og andre nationer, i første omgang imod COVID-19-pandemien.

Hvis man falder for det britiske, geopolitiske "kneb", da vil man sikkert også falde for de større amerikanske mediers rænkespind med at bebrejde Trump for virusdødsfaldene; man saboterer hans forsøg på at mobilisere USA til handling mod COVID-19 i USA og globalt.

Denne præsidentielle mission, som er afgørende, er en enorm opgave: Det indebærer at vende 50 års nedskæring af den reelle levestandard for at tilgodese finansmarkedernes fordringer på Wall Street og i City of London. I 1971 forudsagde Lyndon LaRouche en økonomisk depression, nedskæringer og i sidste ende pandemier, fordi briterne havde succes med at tvinge Præsident Richard Nixon væk fra guldrreserve-systemet og med at ødelægge Franklin Roosevelt's Bretton Woods-system. LaRouche gav en kommentar for 20 år siden, der i dag til fulde er blevet bekræftet: "Liberalismen må dø nu, således at menneskeheden og vores civilisation kan leve." Han mente britisk liberalisme, frihandel og finanskasinoet.

Se på omkostningerne for Amerika, netop nu, af ikke at have en nationalbank, der kan udstede national valuta. Med USA's industrielle produktion pludselig nede med måske 30-40% og reel arbejdsløshed hurtigt oppe på 25%, som i 1930ernes store depression, betragt de tiltag, som tages for amerikaneres økonomiske genoprettelse, og for Wall Streets finansielle opsving.

For Wall Street: Centralbanken sænkede d. 15. marts dens kapitalrente til nul og påbegyndte "kvantitative lempelser" i en størrelsesorden af 700 milliarder \$ til opkøb af obligationer. Den bekendtgjorde i ugen forinden en række lånefaciliteter til banker og "skyggebanker", begyndende reelt den 7. marts. Alle disse faciliteter trådte øjeblikkeligt i kraft.

For nationen: Præsident Trumps anstrengelser for at mobilisere produktion og erhvervelse af medicinsk udstyr og infrastruktur i den offentlige sundhedssektor begyndte d. 14 marts, og blev til dette formål understøttet af 200 milliarder \$ i en lovgivning fra Kongressen, som han underskrev d. 18. marts. Men det var alt. Ingen hjælp til husholdninger, små og mellemstore firmaer, industrier eller landbruget blev vedtaget og underskrevet før d. 27. marts; yderligere begyndte størstedelen af hjælpen og lån til erhvervslivet, som de lovgav for, først at komme omkring d. 10. april – mere end en måned efter at USA's centralbank begyndte at redde finansmarkederne. Pr. 16. april – seks uger efter at centralbanken gik i aktion for finansmarkederne – kan de fleste små firmaer stadig ikke få lån til dækning af lønninger, og meget af hjælpen til husstande er stadig ikke blevet modtaget.

Således stiger kommercielle skrotobligationer og børsmarkedet nu, mens produktionen styrtedykker, og millioner af husstande, små firmaer og landmænd stadig venter på understøttelse eller markedshjælp; der er omfattende misligholdelse af realkreditlån og realkreditudlånere går fallit, huspriser falder.

For verden: Effekten er graverende. Det monetære dollarbaserede pengesystem med flydende valutakurser fungerer således, at disse redningspakker til finansmarkederne og sammenbruddet af produktion og efterspørgsel får dollaren til at stige – et par procent i forhold til industrielandes valutaer, men 15-30% i ft. de

flestes udviklingslandes valutaer. Kombineret med kapitalflugt til dollaren, uden sikring gennem valutaeller kapitalkontrol i dette system, medfører dette et gevældigt slag til disse udviklingslandes økonomier, efterhånden som COVID-19-pandemien rammer dem.

Og den amerikanske centralbanks dominans og fokus på omgående handling på Wall Street vegne, efterlader den amerikanske økonomi uden kredit til at iværksætte absolut nødvendig produktion – af offentlige sundhedsmæssig infrastruktur og medicinske forsyninger til disse nationer. Det er den slags initiativer, som præsidenterne Trump, Xi og Putin begyndte at diskutere sent i marts måned, da den britiske "liberale" elite – ondskabsfuldt – gik i gang med at spille deres nationer ud mod hinanden.

Vi må mobilisere for at overvinde en ny mørk tidsalder.

Schiller Institutets ugentlige webcast med Helga Zepp-LaRouche den 15. april 2020

Det er kun idiotiske og selvbedragne folk der ikke indser, at vi står overfor en mørk tidsalder, medmindre vi mobiliserer for at etablere et nyt globalt sundhedssystem,

indledte Helga Zepp LaRouche med at sige i denne uges webcast for Schiller Instituttet. Coronavirus-pandemien, som rammer nu, mens kasinoøkonomien er ved at falde sammen, kræver en total ændret tankegang.

Dette repræsenterer en moralsk test for menneskeheden, da der er mange som tror, at vi kan vende ryggen til fattige lande, eller værre, de indædte malthusianere der vil have befolkningsreduktion, og fortsætter med at insistere på at profit må prioriteres højere end menneskeliv. Hun opfordrede seere til at deltage i Schiller Instituttets mobilisering for et Nyt Paradigme, baseret på en kamp for menneskehedens fælles interesser.

“Symptomerne på en mørk tidsalder er over alt”, sagde hun, idet hun pegede på eksempler som dem på plejehjem eller fænglser som er smittede og døende. Hun sagde, at hun forstår den smerte forårsaget af nedlukningen, enlige mødre hjemme uden nogen indkomst, små virksomheder som går nedenom, men at prøve på at komme tilbage til en ”normal” tilstand øger risikoen for en endnu værre katastrofe, end den vi står overfor nu.

Lær ad hvad Kina og andre asiatiske lande gjorde for at håndtere pandemien. Bestræbelserne på at give Kina skylden for den globale pandemi er idiotisk, amoralisk og uærlig, tilføjede hun, idet hun understregede de sædvanlige mistænkte fra City of London og britisk efterretningsvæsen, som værende dem der fører an. Hun præsenterede den virkelige kronologi over den kinesiske mobilisering for at opdage hvad dette nye virus er og formidle dette videre til andre.

Det var Vestens arrogance, ikke et kinesisk røgslør, som har skylden. Den reelle antikinesiske kampagne har intet med coronavirus at gøre, men at Kinas fremkomst truer de neoliberale og geopolitikernes unipolære verdensorden.

Hun tilskyndede seerne til at støtte vores opfordring til

en "Apollo-projekt"-mobilisering og for at organisere for Schiller Instituttets konference den 25.-26. april.

"We Must Mobilize To Defeat A Dark Age"

HARLEY SCHLANGER: Hello, I'm Harley Schlanger, with the Schiller Institute and welcome to our weekly webcast with our founder and President Helga Zepp-LaRouche. It's April 15, 2020.

We're clearly in the middle of a situation in which decisions are being made about what to do with the coronavirus, what to do with the economy. There are new reports coming out that the virus pandemic is spreading into different areas, including Africa and India. So Helga, how do you want to address this problem? Why don't you go ahead and give us a picture of what you have?

HELGA ZEPP-LAROUCHE: The situation really starts to look like a Dark Age, and I really wonder how long it takes some of these people who believe that this whole thing is just like a "flu," or just a plot to impose world dictatorship, when they will realize this is a pandemic. And that because of the combination of the economic policies and the financial system failing, there is a real danger of a Dark Age. And those people who have not yet thought about it, should look at Decameron by Boccaccio, how he describes the Black Death in the 14th century: Because we are clearly, even in the so-called advanced sector, reaching, very quickly, such images. For example, in New Jersey, the authorities basically say that if people get sick in nursing homes, they should not be brought to the hospitals, because there is no space for them. Then you have an increasing number, for example, there is one nursing home

in Richmond, Virginia, where out of 160 or so inhabitants, more than 120 are sick; 40 of them have died already. And a similar picture is developing in many nursing homes. Even in France, you have such situations, and in Italy, where people die at home, and they're not being found. And then later they are being discovered. But especially, if the staff in nursing homes become infected, this is taking such a terrible development. Also, centers of juvenile delinquents in the United States, there is a very high ratio. The prison population and the staff in the jails and prisons are very much in danger and there is a high infection rate.

So then, you also have a situation where there is a collapse of the food supply. There was a food distribution in Nairobi, Kenya, where there was not enough food for the many people who were in need, and a riot broke out, and the riot police intervened with tear gas, causing these people to flee. A similar situation exists in many places, even in San Antonio, Texas, there was a food distribution through cars, and a line of 2,000 cars stretched out and in the end there was not enough food.

Similar situations are clearly threatening all over the place, and while the governments in the developing sector, in many instances have reacted more quickly than the so-called "Western" governments, because they had had Ebola, and other epidemics and disease outbreaks, so they did have early lockdown, but this is not sustainable. If you are sitting in a shack in Africa, with 10 people crowded in the same room, there is no point if you are being told to stay home, and you also cannot self-isolate. The Prime Minister of Ethiopia Abiy Ahmed, who is otherwise doing an excellent job, he basically said, it's not sustainable; we cannot keep these measures up. The same goes, naturally, for India, where Prime Minister Narendra Modi just announced another extension by three weeks of the lockdown; but we

had seen already these absolutely incredible scenes where service workers who only make income a day at a time, because everything is shut down in the service economy, they are trying to get back to the countryside, getting into overfilled buses, being stopped by police. The same is the situation in the favelas in Brazil.

I think the symptoms of a Dark Age are everywhere, and whoever does not want to see that is just morally unfit, because the only way how we can react to this situation is by doing exactly what the international Schiller Institute is doing: Namely, we are making a huge campaign to change the system, to build up a health system in every country, not just reconstructing health systems in the United States, Germany, France and other countries that used to have good health systems before the privatization over the last 30 years: But we need such a health system, on the top level in every single country, and that is the moral test for humanity to come out of this crisis.

SCHLANGER: Helga, one of the things that has happened in the last few days, is there has been aid being transferred from China, from elsewhere: There are these "Solidarity Flights" now going into Africa. This is small, but it does indicate the right direction, at least in terms of the immediate emergency, doesn't it?

ZEPP-LAROUCHE: Yes. This was very good. This was organized between the Ethiopian Prime Minister Abiy, whom I just mentioned earlier; then also the Jack Ma Foundation from China, the African Union, the World Health Organization, World Food Program, and it was a full plane load of all medical supplies, and very urgently needed and most welcomed. And from Addis Ababa, it was then distributed to all other African nations. And there is the intention to build up similar hubs all over the world.

But if you look at the amount of money involved, it was in

the low three-digit hundred millions, and what would be needed, is naturally several orders of magnitude more; and that is obviously the big challenge, right now. So, that is why I want you to join our campaign, because we need to have a completely new system: Because, with the present casino economy, and just private donations, this will not be sufficient. You have to create a new credit system; you have to have a national bank in every country to issue credit for the construction, not only of a health system, but also of a corresponding infrastructure, and the beginning of real development, industrialization and the development of agriculture. And that can only be done with a New Bretton Woods system. And you know, there are many calls right now, emerging: In Latin America, for example, the President of Argentina Alberto Fernández said the old system clearly failed, we need a new system. There are calls for a Glass-Steagall banking separation. There are even calls for a New Bretton Woods system, coming from one of the former collaborators and employees of the Banque de France, the French central bank.

But we need this to be on the agenda immediately: Because this pandemic will not go away. As it looks now, it will be with us for at least – at least a year, until vaccines come online, and it may be longer.

SCHLANGER: Helga, one of the things that is most striking is the pressure that's being put on governments in the Western countries to reopen the economy. Clearly, there's a lot of suffering going on, but this was an economic crisis that preexisted before the pandemic. What are your thoughts about this pressure coming, in many cases from bankers, but also from small businesses to reopen the economy quickly. I think the French have announced they'll be sending children back to school in the beginning of May – what are your thoughts about this?

ZEPP-LAROCHE: Well, I understand the pain for many people,

who are cramped in small apartments, single mothers with yelling children, small businessmen who are losing their business, people losing their jobs – it's a terrible crisis. But, at this point, if you loosen the economy too early, if you open up too quickly, it's almost guaranteed that it will come back and be much more costly, than if you had followed what the Chinese did in Wuhan. And I can only repeat: If you open up now the economy now, without having a real testing of the population – and by testing, I don't mean just the people who have symptoms. You have to do trial and error testing in supposedly unaffected areas, just to get a broad overview of what the condition of infection is, because if you're not testing, you have no idea how widespread the infection is. Then, you have to have absolute protection of the population, you have to have a full supply of medical staff, medical facilities, protective clothes for the population whenever they go to a public function, like to work or shopping. All of these measures have to be in place beforehand. And I don't think we have reached that condition yet. And there are many warnings that if you open up too early, you may pay a much higher price.

And naturally – and I'm not saying this goes for everybody – but it's also very clear, some people could not care less about the developing sector and the population, and they couldn't care less about the elderly; and there is this very Nazi-like, Malthusian axiom, where people just think there are too many people anyway, and it's a good thing that this is happening! I know that this is the case for some people, because they been speaking out quite openly, like Jeremy Warner, I think is his name, from the Daily Telegraph on March 3, wrote it quite openly like that.

So I think that we really have to fight for the adoption of what was learned in Asia in general – it was not just China, but China did the most efficient job, but it was in

Singapore and South Korea, and I think that the Asian reaction was much, much more serious, than the Europeans or the Americans in their reaction. So, we have to really study what the Chinese did right, and just replicate it, because they have clearly have proven that they could defeat this virus in Wuhan. And naturally, such absolutely horrible ideas – fascist ideas – like “herd immunity”: “herd immunity,” if you have an infection rate of only 1%, well, that’s a lot of people dying! And some people take that into account, and just, you know, write it off. But I think the right way, is to try to completely wipe out the virus, and that requires harsh measures and not to loosen up too early.

SCHLANGER: And speaking of wiping out the virus, we have the other virus, which is that of the bailouts under way to keep the casino economy in business. It's not going to work, is it, if you go ahead with the idea that we're going to “go back to the old system,” because the old system was collapsing. It collapsed in 2008, and it was collapsing again back in September. That's why there's a real demand from you and the Schiller Institute, that we have a global health system, which includes economic policies. There's an idiocy of the idea that we have to make a payday tomorrow, without thinking about the fact that the system itself is collapsed.

ZEPP-LAROUCHE: It's almost like vultures eating off corpses: If you see right now that the very firm which is supposed to manage the trillion bail-out package of the Federal Reserve, BlackRock, they are basically gloating and bragging that they're running this whole thing now. And I think that the idea that you can pump money, and the Federal Reserve and the other central banks are now buying everything! They're buying junk bonds! There is a junk bond revival, and all kinds of financial charlatans are advising their customers, “now is the time to buy junk bonds, you

will make a fortune!" Well, you know, this is really the last straw before the collapse of the whole system in a hyperinflationary collapse. And it's really nasty! Because, the rating agencies are downgrading the developing countries, Argentina and such countries, and it's really a brutal fight where these vultures are trying to make the last round of profit, to make the rich richer, and this is reaching a point where you cannot do this, because you will cause riots, you will cause social upheaval, and as this pandemic gets worse, real social chaos is threatening.

So, the only way how this can be answered, is by implementing Glass-Steagall, now, before, for example the oil shale sector in the United States is completely at the verge of collapse, the oil price did not go up, even after Trump and Putin and the Saudis tried to have some arrangements; the oil price as of today, I think, somewhere at \$20/barrel, and this is absolutely a timebomb. And therefore, we have to have, now, a Glass-Steagall reorganization, and the whole package that was proposed by my late husband in 2014: National Bank, New Bretton Woods, and reorganize the whole system. Make a new credit system, and then we can finance this, and we can restart the economy, after the pandemic is under control. And there has to be such a change! Because we cannot continue with this insane casino economy, which is causing havoc all over the world. It was that casino economy, which destroyed the health system, by privatizing it; it was that system which kept the developing countries down and prevented their development; and that is what gave rise to these pandemics.

So if people do not recognize that we have to change our ways, now, I think that this is the moral test, if the human species is capable to survive or not.

SCHLANGER: Another area to look at, you had mentioned to study what the Chinese did to deal with the pandemic. They're also beginning to reopen the economy, but they're

doing it on the basis of continuing the Belt and Road Initiative, the infrastructure development. And yet, what we're seeing from key networks in the West is the most vicious anti-China campaign, and this is something that you've been calling out. Where does this come from?

ZEPP-LAROUCHE: I think it comes from a deep-seated geopolitical view that the rise of China necessarily means the downfall of the United States or the West in general. And I think that that view is a wrong view. China has, at no point threatened to replace the United States as the hegemonic power. They have offered cooperation on the basis of a win-win cooperation. They have offered to the United States a special great power relationship. And it is an absolutely absurd idea that one can prevent a country of 1.4 billion people, which has determined that it wants to go the road of scientific and technological progress, and has proven that that method functions, by lifting 850 million people out of poverty, and then, is starting to offer the advantage of such an approach, that you can stop that, other than by nuclear war! And that is, obviously, what some people are willing to play with.

China is not an aggressive force. But naturally, it does threaten the idea of a unipolar world order, which some neo-cons and British elements in the period after the collapse of the Soviet Union had tried to impose, and doing so by interventionist wars: The Bush Administration and then Obama, they did all of these interventionist wars, with the idea of regime change, color revolution, and that has gotten us to the crisis we have now in Southwest Asia and the refugee crisis.

But, you know, the idea that you have to stop the rise of China is very dangerous. And we see it right now that this campaign is absolutely led by British intelligence – as a matter of fact, the former head of MI6 came out yesterday, and after President Trump, unfortunately, very terrible,

cancelled the funding of the WHO, by blaming them that they would have been responsible for many deaths, that they did misinform the United States – I don't even want to comment on that, because it's just factually not correct – this former British MI6 person said, that Trump should not have focussed on the WHO, but on China. And the Henry Jackson Society [in the U.K.], which is a totally neo-con, one of the worst reactionary institutions you can imagine, they came out and made a bill where they said that they want to sue China, so that China would have to pay for all the costs which have resulted as a result of the pandemic!

Now, the fact that the German tabloid Bildzeitung is publishing this today on page 2, the full story, quoting the Henry Jackson Society, having a long list of bills, you know, what was the cost for the taxi drivers, for the hotel owners, just 20 categories, that China should pay that – after yesterday, Pompeo on page 3 listed the whole arguments against China – that is the final proof that this Bild tabloid is part of the Integrity Initiative – formally or not, I don't care – but de facto they're spreading the propaganda of the British Empire. I mean, they just proved that in the last days, if it was necessary to still have a proof.

But they're trying to hype up the population against China, and it is factually absolutely not true! I'll just give you the figures, because, when they say that China was "hiding" information about the virus, it is factually not true. The first cases of some new, unknown disease became known in Wuhan on the Dec. 23 [2019]. Then, on Dec. 30th, they reported a suspicious number of people having pneumonia. Then on Jan. 3, the Chinese national health commission gave out guidelines how to treat these cases. And on Jan. 4, already, those medical people in Wuhan contacted their U.S. counterparts and the WHO and informed them about that. Then, three days later, on Jan. 7, the medical scientific

personnel in Wuhan were able, for the first time, to isolate the coronavirus strain, and this was praised then by the whole international medical community, for the extraordinary speed in which they succeeded to isolate this new strain.

So, I think that that is the record. And I remember, because we paid attention to it when it happened.

And at that point, already, given the fact that there was SARS and MERS before, the Western governments could have absolutely mobilized their production of masks, of ventilators, hospital beds and so forth – but they didn't do it! Instead, they kept repeating for weeks and weeks, "no, masks are absolutely of no use." German Health Minister Jens Spahn said, "oh, the virus will never come to Germany." He kept repeating that into February, saying, the German health system is perfectly prepared for any eventualities, but they really did not take it seriously, until March, when the whole thing erupted with a speed which left everybody breathless. And then, they kept say, you don't need masks. And they did not say, you do need masks, you do need mass testing, let's produce everything which is necessary, but they kept adjusting to the line about what was medically necessary to what their meager resources were. And that is a fact. You can say that for all European countries, and it's still going on, to a certain extent, now.

So, I think that the attack on China is the most foolish, most immoral, and lying operation, because if there is one country which did succeed, at least for now – because it's a pandemic, you never know what will happen down the road – but they were able to contain and stamp out the virus in the hotbeds of Hubei Province and the city of Wuhan. And rather than thinking, maybe it was the centralized government system which China has, which was the reason why they were able to react so quickly, gear up the production

of the entire country; and maybe it was the extreme liberalism of the West which was the reason why it was not possible, maybe one should think that the liberal/neoliberal system has some inherent flaws, and rather than discussing that, they go into this deflection and attack China.

I think it's very dangerous, and it's very stupid. And I think it should stop, and people should really not be led by the nose by these lying mass media, which have nothing to do with journalism: They're really the forefront of the intelligence community, trying to feed propaganda in order to further their aims. But it has nothing to do with honest journalism, at all.

SCHLANGER: And it's very dangerous that this propaganda is being backed up by military maneuvers. The so-called "elephant walk" which just took place in Guam. Maybe you can say something about that.

ZEPP-LAROCHE: Yeah! I think this is not the time to show military potency, in a macho kind of behavior. Because, I agree fully in this point, with UN General Secretary Antonio Guterres, who called for a ceasefire of all military action, to concentrate everything on fighting the pandemic. I fully agree that there should be a complete end to all sanctions against all the countries which are targetted by sanctions right now, because it does prevent these countries from fighting against the pandemic effectively. But I think, especially such military operations, like this "elephant walk" in Guam, which is essentially an exercise, rehearsing a mass takeoff of fighter jets, of bombers, of drones, helicopters, just the whole arsenal, in a show of force. Obviously, Guam, what is the obvious target? It's China. Also, the continuous bellicose talk of NATO, that NATO has to be prepared for everything, even in the middle of this pandemic, it's just stupid! It should stop.

I think the military should be used for a positive purpose right now: Whatever capacity they have in terms of Corps of Engineers, they should be employed – in part, they're doing it already, in the United States, where it's very useful, where they help the supply of medical goods, they help the disinfecting of apartments where people have died – these are useful jobs and they should be encouraged. The U.S. Army did that in Northern Italy, when there were too many corpses for the medical authorities in Italy to take care of it. So there is a useful role for the army in this situation.

But this is an absolute sign that if we don't change the attitude right now, stop geopolitics and start to think about the common aims of mankind: This is the level we have to have. And there must be a retooling of a lot of this production: Why should we waste, and even President Trump talked about it a little while ago, where he said, he wants to enter discussions with Putin and Xi Jinping, because there is this incredible waste of huge military budgets. And in a world of such needs, why can we not retool all of this military production, and produce the kinds of things which are necessary? And the people who have made such an enormous amount of money off the military-industrial complex, up to this point – don't they have enough? I mean, they have already multi-billions! So, I mean, there is a limit to all of this, and we are at a point where the common good of people, of many people in the world, of billions of people has to come first place.

And this is what will be the subject of our upcoming conference of the Schiller Institute, and I ask all of you to register for this conference [https://action.larouchepac.com/20200425_national_conference], and help to spread the news that it's taking place, because the change of the paradigm will be the main subject of this conference. And it will be an extremely important

intervention into this present crisis, with the aim to change the parameters, and establish a completely different paradigm.

SCHLANGER: And this will be an online conference, April 25-26. You need to pre-register, but you can find a registration form on the Schiller Institute website [https://schillerinstitute.nationbuilder.com/20200425_national_conference].

And Helga, finally, in terms of our mobilization, you've also been behind the drafting of a global health, almost a bill of materials call, which is also available on the website

[<https://schillerinstitute.com/blog/2020/04/11/larouches-apollo-mission-to-defeat-the-global-pandemic-build-a-world-health-system-now/>]. What should people do with that?

ZEPP-LAROCHE: Yeah, as a matter of fact, we should put the link underneath this webcast, and I would ask people to read it, and if you agree – it's basically a call, what needs to be done in terms of this health system in every country, what kinds of materials must be produced, how to go about it. If you agree with that approach, then I would ask you to distribute this “‘Apollo Program’ for a New World Health System,” as widely as you can, in social media, among your friends and colleagues, and help us in this mobilization. Because I think, as this Dark Age aspect that I mentioned in the beginning will become clearer – and unfortunately, I’m 100% certain that we will see much more horrible pictures in the next weeks and months – and the need to change the system, the entire system, will become clearer and clearer. So the more people are fighting for this world health system, the better the hope is that we can get it accomplished in time, and that we save many, many millions of people from dying. So, join this mobilization, distribute this call, join the Schiller Institute conference, and become active with us, because

this is an existential question for all of humanity. And we need to reach a completely different paradigm of thinking, where war and geopolitics have to be put in the garbage heap of history, and we have to go for a new Renaissance of humanist thinking, of dialogue of civilizations, of cooperation instead of confrontation, and this is a worthwhile fight I'm asking you to join.

SCHLANGER: Well, Helga, I think you've made it very clear, and people should study what you've said on this, look at the material we're putting out, and join us.

So, until next week, we'll see you then.

ZEPP-LAROCHE: Till next week. And stay healthy!

At vende nedbrydningen af selve samfundets struktur

Den 16. april (EIRNS) – I løbet af de sidste 15 dage, siden 1. april, er det samlede antal mennesker der er smittet med coronavirus fordoblet, steget fra 1 million den 1. april til over 2 millioner i dag. I disse to uger seksdoblede de amerikanske dødsfald som følge af COVID-19, fra 5.100 den 1. april til over 30.000 i dag, den 16. april.

I de sidste dage af marts meddelte den amerikanske finansminister, Steven Mnuchin, at centralbanken ville kanalisere mindst 4 billioner dollars til at redde det bankerotte transatlantiske finanssystem på skatteydernes regning. Denne redningspakke er allerede en størrelsesorden større end den katastrofale redningspakke til det finansielle system i 2008 – og en størrelsesorden farligere og skørere. I 2008 blev den amerikanske Kongres afpresset

til at revidere deres oprindelige afvisning af TARP-hjælpepakken, da Wall Street og City of London fortalte dem, at hvis de ikke godkendte det, ville det efterfølgende kaos kræve en undtagelsestilstand.

Hvilken pistol-mod-panden-taktik bruger det britiske imperium denne gang for at få deres vilje? Hvordan har de for eksempel "oversvømmet zonen" omkring præsident Donald Trump? – som den tidligere britiske ambassadør i Washington tidligere så malerisk har udtrykt det.

I løbet af de samme to første uger i april har briterne og deres amerikanske kriminelle kumpaner kraftigt optrappet deres fremstød for at udløse krig mellem USA og Kina – netop de to nationer hvis nære samarbejde er nødvendigt for at tackle COVID-19-pandemien og til hurtigt opbygge et verdenssundhedssystem, som Helga Zepp-LaRouche har opfordret til.

Tidligere væmmelig retorik og tilskyndelse til handelskrig er eskaleret til åbne anklager – der som sædvanlig har deres oprindelse i britiske efterretningstjenester og derefter siver ned til deres amerikanske kolleger og godtroende neokonservative i Trumps følge – at Kina ikke alene skabte det dødbringende coronavirus i et laboratorium i Wuhan, men at de måske endda har inficeret deres egen befolkning for derefter bevidst at slippe det løs som biologisk krigsførelse mod USA og Vesten.

I løbet af disse to uger er der også opstået et nyt træk ved den dødbringende dobbeltkrise med COVID-19-pandemien og sammenbruddet af det transatlantiske finanssystem: institutionelt sammenbrud og kaos kan ses overalt i hele verden. Fødevare- og andre optøjer er begyndt i Sydafrika, Indien og andre steder; folk i Europa og USA fortivler over ikke at kunne finde nogen rationel løsning på krisen og skælder i stedet ud over de vedtagne nedluknings-foranstaltninger; og regeringer og multinationale

institutioner viser sig ikke at være den opgave voksen, som planeten står overfor.

Vi er vidne til nedbrydningen af selve samfundets struktur – et sammenbrud, der kun kan vendes på samme måde, som den gyldne renæssance løftede menneskeheden ud af truslen om udryddelse under ‘Den Sorte Død’.

LaRouche-bevægelsen og dens venner og allierede mobiliserer internationalt til Schiller Instituttets kommende konference den 25.-26. april, der er indkaldt for at tage fat på og løse denne eksistentielle krise foran os. Det gør vi motiveret af den vedvarende ide om menneskets værdighed, der er nedfældet i de følgende linjer skrevet af Lyndon LaRouche i juni 1976, fra slutningen af hans essay, “Latter, Musik og Kreativitet”:

”Der er en syg verden, der skal genopbygges. I denne verden – der er karakteriseret ved de modbydelige lingvistiske sprogfolk – plages vi af flokke af humørløse, ukreative, nævenyttige lømler, der bedst kan beskrives kort og godt som en undertrykkende grå farve, der tenderer imod en ildevarslende gul. Ellers er den generelle befolkning psykologisk duknakket med en byrde af voksende frygt – frygt, hvis nøjagtige karakter og former disse personer foretrækker ikke at kende – hver især trasker miserabelt fra det ene velkendte, grå sted til det næste, ‘og på bedste beskub forsøger at tage sig af sit eget personlige forehavende’. I mellemtiden vokser stormene... Der er storme af udbrudte og truende regionale krige, og overordnet truslen om generel kombineret atom-, biologisk og kemisk krigsførelse på verdensplan. I mellemtiden breder syge rotter sig, og de dødbringende nye bølger af ødelæggende epidemier spreder sig mod mennesker, dyr og plantevækst.

Vi må ryste dette af os, og opbygge verden, da det står så umiddelbart og forunderligt i vor magt at gøre det. Vi må i mellemtiden vække videnskaben, feje affaldet væk, og ellers

blive en generation som fremtiden vil se tilbage på med varm stolthed over forfædrene. Mens vi gør dette, må vi le en hjertelig latter, latter hovedsagelig på grund af spændingen, som vi med rette får ud af vores bedrifter. Lad der være musik til.”
