## **En mobilisering for LaRouches**

### **Fire Love**

#### **som emnet for Trumps 'State of the Union'!**

## **LaRouche PAC Internationale Webcast, 15. dec., 2017.**

**Vært Matthew Ogden:** I mandags indledte vi vores nedtælling på 50 dage (se mandags-opdatering [her](#)); 50 dage til præsident Trump holder sin State of the Union tale (Tale om nationens tilstand), der er planlagt til den 30. januar, 2018. Vi er nu fem dage inde i denne nedtælling, så vi har 45 dage tilbage til State of the Union-talen. Lyndon LaRouches og LaRouche PAC's erklærede hensigt er at sikre, at kernebudskabet i denne State of the Union-tale handler om det økonomiske program, der er nødvendigt for at genoplive den amerikanske økonomi for at bringe USA ind i det nye paradigme, som det er blevet initieret af Kina. Indholdet af dette program er selvfølgelig indeholdt i de fire økonomiske love i Hamiltons tradition, som Lyndon LaRouche har forfattet, og som er blevet cirkuleret vidt omkring af medlemmer af LaRouche Political Action Committee og aktivister her i USA. Dette vil vi gennemgå i detaljer.

Et hurtigt overblik; dette omfatter: en genindførelse af Glass-Steagall; en tilbagevenden til et nationalbanksystem i Hamiltons tradition; anvendelsen af den føderale regerings kreditskabende mekanisme til omgående at øge den amerikanske

arbejdsstyrkes produktive evne og til at genopbygge infrastrukturen og det nødvendige, næste stadium af den amerikanske økonomis platform; og den indeholdte faktor i alt dette – et nationalt, forceret program for rumforskning og fusionskraft. Det er den videnskabsmotor, som er det lim, der holder hele programmet sammen.

Vi vil senere annoncere og vi har nogle billeder, men en ny brochure, der indeholder dette program, vil blive cirkuleret i begyndelsen af næste uge. Dette bliver det kernemateriale, I har brug for, for at hjælpe os med at mobilisere de tilbageværende dage af nedtællingen på 50 dage. Jeg sætter dette på skærmen.

Dette er et smugkig af forsiden af den kommende brochure, som bliver udgivet i begyndelsen af næste uge. Her ser man, at titlen er »Lyndon LaRouches Fire Love – De fysisk-økonomiske principper for USA's genrejsning; Amerikas fremtid på den Nye Silkevej«. Og på bagsiden ser man et fint billede af Verdenslandbroen. Dette er det udviklingsprogram, som vil blive forlængelsen af den Nye Silkevej; og dernæst opregnes LaRouches Fire Love. Dette bliver selvfølgelig et meget afgørende materiale for os at cirkulere i den kommende periode.

Det andet, som selvfølgelig meget hurtigt er ved at udvikle sig i løbet af denne 50-dages nedtælling, er en komplet kovending af dette kupforsøg mod det amerikanske præsidentskab, som er blevet kørt med baggrund i det såkaldte »Russiagate«-hysteri. Dette svindelnummer er blevet brugt som en kølle i et forsøg på at bringe dette præsidentskab til fald og forsøge at drive en kile ind mellem ethvert nyttigt og potentielt produktivt samarbejde mellem USA og Rusland. Vi ser nu også, at dette udvides til at forsøge at drive en kile ind mellem USA og Kina. Her er tingene vendt rundt og har givet bagslag mod dem, der har kørt dette kupforsøg, ved at komme frem i dagens lys og er meget dramatisk. Vi har set afsløringen af hele spindet af korruption hos det personel,

der var involveret i denne såkaldte efterforskning, og det er blevet klart, at, endnu før Donald Trump var blevet indsat, eller blot valgt, var der en kernegruppe af disse folk, der havde gjort det til deres egen, personlige mission at gøre alt, de kunne – inklusive at arbejde internt fra den amerikanske regerings institutioner – for at forsøge at bringe dette præsidentskab til fald. Dette er blevet afsløret på forskellig vis. Som I får at høre Helga Zepp-LaRouche sige i et kort uddrag fra Schiller Institut-webcastet fra i går, sagde hun, med sine egne ord, at »anklagerne er blevet de anklagede«. Dette åbner op for en helt ny, strategisk dimension.

Jeg vil nu afspille et kort uddrag af Helga Zepp-LaRouches bemærkninger i går i hendes internationale webcast:

(Hele Helgas webcast på dansk [her](#))

*Her følger resten af fredags-webcastet i engelsk udskrift:*

HELGA ZEPP-LAROUCHE: This is very fascinating because exactly the opposite of what was the intention is now happening; namely that those people who tried to prove collusion between Trump and the Russian government are now the target of a potential investigation themselves, with quite incredible implications. There are already calls out that all of these people – from Mueller, McCabe, Bruce Ohr, Peter Strzok, and various other individuals – that they should all be led away in handcuffs. This is the demand of a former judge and state attorney, Jeanine Pirro, on Fox TV, and what she referred to is the fact that now it is becoming very clear in the hearings in the House of Representatives and in the Senate that there was collusion of people who were absolutely a taskforce against Trump

even before he was elected, who wanted to have sort of a life insurance against the possibility that Trump may be elected. They worked together with the “former” MI-6 agent Christopher Steele on this dirty dossier. Now it turns out that the degree

of corruption is even much more deep. For example, the wife of

the recently laid-off Associate Deputy Attorney General, Bruce Ohr, worked for the very firm which was dealing with Christopher

Steele on behalf of the Obama administration and the Clinton election team; namely, Fusion GPS.

So, there is very clearly a conflict of interest to say the least, and what happened in the hearing was basically, the situation became so hot that McCabe at the last moment discovered

a so-called conflict of his agenda, and he didn’t appear.

Congressman Nunes immediately said he does not believe that for a

second, because obviously it was incredible. The cover-up is not

functioning anymore, because the questions were asked to these individuals that they should have brought this information on their own; if there was an investigation against the President,

they should have prepared the material as evidence and not covered it up.

So, I think this is turning the whole situation around.

“Russia-gate” is crumbling, and this has incredible strategic implications, because this whole thing, if we recall how this developed, was all intended from the very beginning by the Obama

administration and the leftovers from the previous Bush administration to prevent President Trump from developing a positive relationship with Russia.

OGDEN: This is excerpt from Helga Zepp-LaRouche’s remarks

yesterday on her international Schiller Institute webcast. As you just heard her conclude there, this whole thing is turning on

its head. The accusers have become the accused; and she said that this whole "Russia-gate" hoax is crumbling. This has enormous strategic implications. Obviously, as she was just in

the middle of saying, the purpose of this was to drive a wedge between any potentially useful collaboration between the United

States and Russia; and then also by extension, the United States

and China. But this entire thing really now has crumbled in just

the last 48 hours; and it's moving very quickly as a result of the probes from various Congressional committees move ahead.

The

most telling are the text messages that were published between Peter Strzok, who was a agent on the Mueller investigation, and

his would-be mistress, Lisa Page; who were texting back and forth

during the entirety of the campaign and then even after the election, leading up into the inauguration. I would just like to

read some of the content of these text messages that have been released to the public. It will show you that this is just symptomatic of, as Helga Zepp-LaRouche called it, a taskforce which really was put together inside the institutions of the FBI

and the Justice Department; that were planning and plotting how

to bring down President Trump after he was inaugurated. So, here's some of the contents of the text messages. You'll see that not only did they have it out for Donald Trump, they had it

out for Bernie Sanders, Martin O'Malley, and John Kasich.

These were Clinton partisans; and I think this really goes to the point that there is a stay-behind apparatus inside these institutions that really were doing everything they could from {inside} of the institutions to get Clinton elected. Talk about a rigged system! And then once she lost the election, they've been trying to do everything they can to bring down President Trump. So, here are some quotes.

Lisa Page said in a text message, "I just saw my first Bernie Sanders bumper sticker. Made me want to key the car."

—

this is from August of 2015. What was Strzok's reply? "He's an idiot like Trump. Figure they cancel each other out." Later, Lisa Page said about Donald Trump, "What an utter idiot!" She went on to say in another text message, "God! Trump is a loathsome human! OMG! He's an idiot!" Strzok replied, "He's awful." Strzok wrote to Lisa Page in March of 2016, "God! Hillary should win 100 million to zero!" He identified himself as a conservative Democrat, apparently. Then here are two of maybe the most telling text messages, that really get at the heart of what the personnel in this so-called "investigation" have really been up to. Lisa Page wrote to Peter Strzok, "Maybe you're meant to stay where you are, because you're meant to protect the country from that menace," she said, referring to Donald Trump. And Peter Strzok replied, "I can protect our country at many levels." Then later, here's another text, and this is perhaps the most intriguing. Peter Strzok wrote to Lisa Page, "I want to believe the path you threw out for

consideration  
in Andy's office" – referring to Andrew McCabe, the Deputy Director. He said, "There's no way he", referring to Trump, "gets elected. But I'm afraid we can't take that risk." So, what were they plotting in Andrew McCabe's office? And then later on, shortly after the election, Lisa Page wrote to Peter Strzok, "Just bought {All the President's Men}. Figure I needed to brush up on Watergate." Of course, {All the President's Men} is the famous book about how Richard Nixon was brought down through the Watergate scandals. So, this shows that shortly after the election, these two Federal employees were discussing how Trump might be brought down by this sort of scandal. So, there you have it – "Russia-gate".

As Helga Zepp-LaRouche said, this entire thing is falling apart. That's just one small sliver of the story. There are entire other aspects of these conflicts of interest and the fact that Mueller did stack his team with people who were known partisans, and who had very clear conflicts of interest. This entire thing is now turning on its head. As Helga Zepp-LaRouche said, this has enormous strategic implications.

Indeed, we see the potential again for a relationship between the United States and Russia moving forward just today.

As we heard news reports, yesterday President Trump initiated a call to President Putin, where they discussed several things, as President Trump said while he was on the south lawn of the White House this morning, getting on the helicopter to go down to

Quantico. He said, President Putin talked about some of the positive things that have been accomplished here in the United States during the past year of President Trump's Presidency. They also talked about some of the conflicts that the US and Russia have abroad. But most of all, the subject matter of that

phone call last night was discussing how to resolve the Korea crisis; North Korea specifically. As we know, President Trump has worked very closely with President Xi Jinping of China to try

to address this hotspot. But he has repeatedly said, if we could

get along with Russia, that would be a good thing, not a bad thing; because that would enable us to resolve some of these hotspots around the world, including North Korea. So, hopefully

we'll see some progress as we move forward with that. We obviously know that that's a major aspect of the discussion at the United Nations Security Council today with Secretary Tillerson.

President Trump also said, during this interaction with reporters this morning when he was getting on the helicopter, he

said this Russia scandal has been a fraud from day one, and everybody knows it. He said there is no collusion. He said, even my worst enemies come out of these committee hearings and declare "Yes, that's true. There's no evidence of collusion yet,

but we'll just keep going and we're sure to dig up something." But President Trump said, the point is, {there is no collusion}.

Let's now get back to the business of running this country and dealing with the problems that we have before us here in the United States.

So, I think that gets directly back to the point. We have a 45-day countdown now between now and President Trump's State of

the Union. Our mission, as LaRouche PAC and the LaRouche movement, is to ensure that the central core theme of that State

of the Union is "How are we going to revive the economy of the United States, and how are we going to join this New Paradigm of

'win-win' development that's been initiated by China?" That is

by no means a long shot, especially if you – as we did on Monday

– take a survey back on some of the positions that this President has taken on some of the core themes of that Four Laws

economic program. Glass-Steagall – he espoused it during the campaign. It's been twisted and undermined by Steve Mnuchin and

others, but this is still a stated part of President Trump's agenda. \$1 trillion for infrastructure; we know that that was the core theme of his joint address to the Congress last February, and he's come back to it several times. In what form

it's not clear; but that immediately must be mobilized. The way

that it can be mobilized is through a Hamiltonian national bank

or a national infrastructure bank similar to the way that Franklin Roosevelt did it during the New Deal. He also talked about restoring the skills and the employment of the forgotten man; especially in the formerly industrial Midwest and heartland

of the United States. Absolutely! This is an entire layer of the population that needs immediate relief, but also needs immediate productive jobs on the cutting edge kinds of technologies that can be mobilized through a crash program for space and for ultimately the achievement of fusion power. We took a large step forward, so to speak, a giant leap in the direction of bringing mankind back to the Moon this last

Monday afternoon, with President Trump's signing of the Space Policy Directive #1. The speech that he made upon that signing,

was a very inspiring speech. He said we intend to bring Americans back to the Moon, not just to put our footsteps on the

surface of the Moon and plant a flag; but to set up more permanent research and settlement capabilities there, and then ultimately to use that a launching pad to send men to Mars and ultimately beyond. So obviously, that was the 45th anniversary

of the Apollo 17 landing on the lunar surface; which was the last

manned Moon landing that we've had in 45 years.

We had the opportunity last night to hear from Kesha Rogers on the Fireside Chat. And many of you maybe got to participate

in this, but Kesha Rogers is a declared candidate – and I can put her image up here [Fig. 3]. An independent candidate for Congress, for the US House of Representatives in the 9th Congressional District of Texas for the upcoming 2018 Congressional elections. And as Kesha Rogers pointed out in her

talk last night, in her entire lifetime – she's 41 years old – we have not had a man or a woman land on the surface of the Moon.

Our entire lifetimes, and now we're talking about the entire lifetimes of another generation who are now reaching adulthood;

those students in college and those who are graduating high school, their entire lifetimes have passed up to this point without human beings returning to the surface of the Moon.

This

is a tragedy and this is an utter travesty when we look at the legacy of what John F Kennedy and those original Apollo astronauts intended when they were laying the groundwork for what

was going to be permanent settlements on the Moon and manned missions beyond. That was derailed with John F Kennedy's assassination, and we as a nation have fallen far behind where we

were even then with the failure to follow through on those amazing breakthroughs.

So, this is one of things that has obviously inspired Kesha Rogers in her declaration for candidacy in the Texas 9th District

US House of Representatives campaign. But she also, in this talk, called on others to join her; to take this kind of leadership that her campaign will be the flagship for the leadership required. But that others must join with her to take

the leadership to make this vision a reality. She in no uncertain terms, made it very clear that in order to make this vision into an actuality, we needed to make a breakthrough in the

next 45 days on securing Lyndon LaRouche's Four Economic Laws as

the core law of the land when we're talking about the agenda for this Presidency.

So, what I'd like to do for you is actually just play a few short excerpts from Kesha Rogers' opening remarks during that Fireside Chat call last night, just so you can hear this kind of

authoritative voice of leadership in her own voice.

KESHA ROGERS: I will just start by making clear for many people who have already heard and those who may be new on the line who haven't heard or may not be familiar with my campaign. I have just recently, as Dennis stated, filed a statement of intent here in Texas to run as an independent for the US House of Representatives in Congressional District 9 in

Texas. That is the seat that current Congress member Al Green holds. Now I'm going to be petitioning for a position on the November 2018 ballot as an independent following the March primary elections here in Texas.

I wanted to start just with that, from the standpoint of first of all, to give you a little bit of background about my qualifications, my work with Mr. LaRouche over the past now nearly 15 years. I have run Congressional campaigns going back

to 2010, when I ran my first campaign and secured the Democratic

Party nomination and also again in 2012 securing the Democratic

Party nomination. Leading the charge and calling out front to end and destructive policies against our nation by President Obama. Calling for Obama's impeachment during those periods; particularly for his continued criminal actions against

our country, including his commitment to war policy, regime-change, his Tuesday kill list, and most emphatically – which we'll get into more – the destruction of our national space program with the brutal cuts to the Constellation program

and the destruction of our Moon return program that was set into

motion by the Constellation.

But what we saw during the Obama administration was an outright commitment to defending the interests of Wall Street. This is what my campaign and many of my colleagues on the national slate that I ran with as LaRouche candidates on a national slate, acted immediately to reject this policy of Wall

Street looting of our national economy and to call for the shutting down of Wall Street and a restoring of Glass-Steagall banking reorganization. So, it's important to understand that history right now, because this is what actually garnered a great

success with my campaigns here in Texas, despite the fact that there was a real backlash from the national and local Democrat Party. As I said, the victory came about when people in not only

in the district, in the state, supported my campaign calling for

a return to a national mission. A visionary perspective as outlined by President John F Kennedy and also President Franklin

Roosevelt, which has been the commitment of Lyndon LaRouche and

his economic policies for many decades now. Many people responded to that call of leadership and recognized that our campaign actually offered solutions.

This is what is absolutely required today. What I'm hoping to see is that more people take it upon yourselves to actually launch into this fight, to run political campaigns yourself.

What we need right now is we need a form of leadership emerging

throughout the country of people all over the nation. This is not a matter of party politics; this is a matter of who will commit to a restoring of a national mission for the country.

I

think it's very important right now to recognize that we're not

talking about what's going to be needed for almost a year from now in a November election. But what is required immediately, and what must be implemented at this present time to save our nation, to save the US economy, to turn around the decades-long

physical economic collapse that we've seen in the country.

We're

at a very unique opportunity to be able to do that. It's going

to require the educational process of the American people; it's

going to require a number of you and others stepping up to the

plate to provide the leadership that's needed. I think it really is going to require a new commitment and understanding of what the idea of a national mission really should constitute. Mr. LaRouche the model, the mobilization of my campaigns has been the direct influence of the work that Lyndon LaRouche has been involved in for many years now. The national mission orientation and a science driver crash program for restoring the productivity of our nation. So, I think that is the fight at hand right now. As we look at the rapid shift toward development in the world at the present time, you see what's happening in terms of a commitment by nations that are joining with China in the Belt and Road Initiative. The direction for a national mission for our country isn't just for the benefit of the United States itself, but the world is looking right now towards a unified global paradigm. Which is a paradigm shaped around the idea that an international commitment to collaboration, to ending poverty, to ending the threat of war, to ending hunger, to ending in the United States and elsewhere the rapid increase of drug abuse, and the collapse of physical infrastructure. This has to be our commitment; not just to our own nation, but to that in collaborations around the world. The best way to define, to actually secure the victory of accomplishing those goals, is through a commitment to a national driver which is our commitment to reviving our national space

program.

So, that's what has been my number one priority, is continuing to campaign even in off-campaign seasons and continue

to be very present in the space community and the scientific community. This is what we have a very important obligation to

see through. So, I think we are in a very unique position to respond to this demand of leadership. I take on that challenge

willingly, and I am looking for people to join me and take on that challenge as I do, and to make sure that we can move the country in the needed direction in the next 50 days now. Get the

President to immediately adopt these policies of an economic recovery program that's been defined by Lyndon LaRouche in his Four Economic Laws.

OGDEN: So there you heard. These were the opening remarks from Kesha Rogers during the Fireside Chat last night. You can

listen to the entire dialogue on the LaRouche PAC website if you

missed it, but her remarks there right at the conclusion; she said we have this 50-day countdown – now 45 days – to secure Lyndon LaRouche's Four Economic Laws as the policy of the Presidency of the United States. So, you can see here on the screen [Fig. 4], this is again the sneak peek to the cover of the

LaRouche PAC pamphlet which will be coming out at the beginning

of next week. "America's Future on the New Silk Road. LaRouche's Four Laws – The Physical Economic Principles for the

Recovery of the United States." And it says on the back there,

these are LaRouche's Four Laws; and then we have a beautiful

map

of the World Land-Bridge as it was conceived originally by the LaRouche movement over 20 years ago. Now, this is actually coming into fruition. The core contents of this pamphlet are the

text of the keynote speech that Helga Zepp-LaRouche made at the

Bad Soden conference in Frankfurt, Germany about two weeks ago.

Where she goes through the entire vision of what was originally

conceived of by Gottfried Leibniz as the Eurasian collaboration

between European civilization and Chinese Confucian civilization,

reaching across, bridging between those two great civilizations

to bring development to the entirety of the Eurasian continent.

That was Leibniz's idea originally for what is now this New Silk

Road that the Chinese have initiated. Now our mission is to extend that to include the entire world.

Also, we have Lyndon LaRouche's original document – "The Four Economic Laws" – reprinted in full in that pamphlet.

Then

we have four sections that break down those four economic laws and elaborate them a little bit more extensively. This is exactly what Kesha Rogers said; we need to have an educational process for the American people over the coming 45 days in order

to really bring this idea of a recovery program to life.

So, I thought it was very useful to listen to the remarks from Kesha Rogers, and to hear that in her own voice. As she said, we're in a very unique to respond to the demand of leadership that's needed today. She said, I think that if we take this kind of national sense of mission, we can really

inspire people across party lines. This is not a question of party politics, she said. She called for a swarm of leadership

from across the nation; she said, "We need a swarm of leadership

of people who will commit to restoring this sense of national mission for our country"; bring us into this New Paradigm of development which is now sweeping the globe. She said what's required is for you and for others to step up to the plate and to

provide the kind of leadership required. She said, "I take on that challenge willingly, and I'm looking for others who will do

the same."

So I think on that note, we have our sense of mission for the next 45 days. Things will continue to develop very rapidly,

I'm sure; around both the crumbling of this entire so-called "Russia-gate" investigation, as things become more and more revealed and brought out into the light of day. And also as we

continue to make breakthroughs on this campaign to make Lyndon LaRouche's Four Economic Laws the law of the land here in the United States.

So, continue to tune in, please, over the coming days as we continue our now 45-day countdown. We will guarantee that we will continue our mobilization and do everything required to make

sure that we secure a victory in this campaign to restore the Hamiltonian principles as the law of the land in the United States. So, you can follow more about what Kesha Rogers is doing

as we cover her campaign here on larouchepac.com. And you can look forward to next week, the publication of this new pamphlet,

"America's Future on the New Silk Road. LaRouche's Four Laws

The Physical Economic Principles for the Recovery of the United States.” And also, we have the 10,000-print run of the Mueller special dossier that has already penetrated the highest levels of policymaking here in Washington, DC and across the country, and will continue to have – I’m sure – a very groundbreaking effect.

So, thank you for tuning today. Please stay tuned to larouchepac.com and good night.

*Jeg mener, der også er en aftale mellem USA og Rusland om sammen at bygge en rumstation på Månen. Og Trumps beslutning – jeg mener, man kan virkelig se, hvem, der er hvem, når man ser, hvordan folk reagerer til dette. ESA, det Europæiske*

Rumagentur, var fuldstændig entusiastisk og hilste dette velkommen; den kinesiske regering udtrykte glæde over denne beslutning. Alt imens de europæiske medier dækkede dette, som om Trump var fuldstændig sindssyg for at ville tage tilbage til Månen – dette er virkelig utroligt! Alle mennesker, der har været i rummet, astronauterne, de kommer altid tilbage og siger, dette er en utrolig oplevelse, for i rummet betyder det ingen ting, hvilken nationalitet, man har, for man må stole på hinanden, ellers kan man ikke gennemføre en så ekstremt udfordrende mission. ## Hold jer sejren for øje!

Leder fra LaRouche PAC, USA, 11. dec., 2017 – Dette er et enestående øjeblik. Det gamle, geopolitiske paradigme smuldrer, selv om det stadig sparker og er farligt, som det er tilfældet i det aktuelle kaos omkring Jerusalem. Men det nye paradigmes gensidige fordelagtighed vinder hastigt grund; og den potentielle alliance mellem Kina, Rusland og USA betyder et muligt, episk fremskridt for menneskeheden. Vi bør holde os sejren for øje.

I USA hører vi nu hyleri fra imperieslængten i Washington og London om, at deres Mueller/Russiagate-komplot ikke har held til at bringe Trump og det amerikanske præsidentskab til fald. *Washington Post* og Londonavisen *Guardian* stønner, at Robert Mueller og hans team ikke længere er »respekteret« og ikke ses som værende en »legitim myndighed«.

Det, der sker med Robert Mueller, viser »Ibykus-princippet« i kraft, med henvisning til Friedrich Schillers berømte digt, *Ibykus' traner*. I dag påpegede Schiller Instituttets præsident, Helga Zepp-LaRouche, denne kendsgerning. Mueller slap længe godt fra sine forbrydelser – fængslingen af Lyndon LaRouche og hans medarbejdere, medskyldighed og mørklægning af Saudi-Arabiens involvering i 11. september. Men nu kredser Ibykus' traner om ham. Mueller står for fald.

I Sydvestasien er der positive udviklinger, der giver håb for fremtiden, på trods af de af USA- og U.K.-støttede, saudiske grusomheder med angreb på Yemen. I dag var den russiske præsident Vladimir Putin på en russisk flybase i Syrien, hvor han takkede russiske soldater for deres indsats i Syrien og annoncerede, at kontingenter og udstyr nu er beordret hjem. »Vi vil aldrig glemme de dødsfald og tab, vi har lidt i anti-terrorkampen, både her i Syrien og i Rusland ... mindet herom vil give os yderligere styrke til at udrydde denne absolutte ondskab – international terrorisme ...« Den syriske præsident Bashar al-Assad takkede personligt Putin for at hjælpe Syrien. Dernæst mødtes Putin i Kairo med den egyptiske præsident Abdel Fattah el-Sisi, hvor økonomiske aftaler blev underskrevet, inklusive aftaler om, at Rusland kunne gå videre med byggeri af kernekraftværket med fire reaktorer på kysten, og om at samarbejde om Suezkanalens industrizone.

Samtidig er regionen i oprør over meddelelsen fra 6. dec. om, at USA vil flytte sin ambassade i Tel Aviv til Jerusalem. Trumps erklæring om dette – som senere blev modereret af udenrigsminister Rex Tillerson, kommer midt i en måned lang hyperaktivitet på vegne af fjernsynsprædikanter, såkaldte kristne, fundamentalistiske netværk, der kræver, at vi »står side om side med Israel«. Disse netværk er gamle kapaciteter for beskidte, britiske operationer, som går årtier tilbage i tiden. Vicepræsident Mike Pence, der er dybt involveret i disse kredse, og USA's FN-ambassadør Nikki Haley, gik ind for, at Trump skulle tage dette provokerende initiativ før Pences

planlagte rejse til Israel (17.-18. dec.) og Egypten (19.-20. dec.). Denne rejse – der tidligere var programmeret som en måde til at fremme Trumps ønske om en fredsproces, ligger nu i ruiner, endnu før den er begyndt. Den palæstinensiske præsident Mahmoud Abbas har aflyst et planlagt møde med Pence, og det samme har den egyptiske, koptiske patriark, pave Tawadros II og Egyptens øverste, muslimske klerikale repræsentant, Ahmed Al-Tayeb.

Denne form for handlinger for at skabe konflikt – hvor man sætter Israel op imod Palæstina, jøder op imod muslimer, sunnier op imod shi'iter samt andre geopolitiske spil, er det gamle paradigme i arbejde. Der er ingen mulighed for sikkerhed for nogen – inklusive Israel – i dette system af orkestrerede stridigheder. Den eneste løsning er gennem en ny æra for win-win-relationer mellem nationer, i den »Nye Silkevejsånd«. Dette forklares på smukkeste vis i Schiller Institutets nye rapport, **»Udvid den Nye Silkevej til Sydvestasien og Afrika: En vision om en økonomisk renæssance** (vil snart kunne bestilles i USA).

LaRouche-medarbejdere i USA går nu frem mod målet om at opnå et skifte i politikken frem til 30. januar, 2018, Trumps Tale om nationens tilstand. Som det blev sagt i dag i **LaRouche PAC's mandags-opdatering**: »50 dage til at forme de næste 50 år«.

Præsident Trumps underskrivelse af »Direktiv 1 for Rumpolitik« under en ceremoni i Det Hvide Hus er et skridt hen imod netop denne fornødne ændring. Vi vil »løfte vort blik mod himlene« og »turde drømme store ting«, erklærede præsidenten.

Schiller Institut Nyt  
Paradigme Webcast,  
7. dec., 2017, med Helga  
Zepp-LaRouche**

*I Europa ser det endnu mere dystert ud, for de europæiske nationer befinder sig i en totalt kaotisk tilstand. Der er de øst- og sydeuropæiske nationer, der ønsker at gå sammen med Kina i Bælte & Vej Initiativet; der er et totalt hysteri fra EU's side og også i vid udstrækning fra den tyske regerings side – hvad der så er tilbage af den – og som siger, »Kina opsplitter Europa«. Hvilket ikke er sandt! Kinesernes svar på denne anklage var, at Kina ikke behøver opsplitte Europa, det har det allerede selv gjort. Men der finder ingen diskussion sted i Europa om bankopdeling. Faktisk traf EU for blot et par uger siden beslutning om nye retningslinjer, der forbyder bankopdeling. De europæiske nationers overlevelse og disse EU-politikker er således uforenelige.*

*Vi må have en offentlig diskussion i Tyskland om f.eks., at vi må vende tilbage til den form for kreditpolitik, vi havde i perioden efter krigen med Kreditanstalt für Wiederaufbau (Kreditanstalt for genopbygning); men, vi må have finansiering af realøkonomien, og hele denne kasinoøkonomi må lukkes ned.*

*Jeg mener, at den største fare lige nu består i et ukontrolleret kollaps. Disse advarsler fra Bundesbank og BIS*

*er virkelig en advarsel om, at folk må se at vågne op og ændre politik, før det er for sent: Så gå sammen med os i kampen for at få Glass-Steagall på dagsordenen, også i de europæiske lande.*

# **Tiden er kommet til at begrave Muellers kupforsøg, så USA kan komme med om bord i den Nye Silkevej**

*Leder fra LaRouche PAC, USA, 5. dec., 2017 – Kupforsøget mod Trumps præsidentskab, som orkestreres af den særlige anklager Robert Mueller efter et manuskript fra britisk efterretning, tager vand ind til højre og venstre og er nu i alvorlig fare for helt at synke. I takt med, at der kommer flere og flere beviser frem for dagens lys om den centrale rolle, som spilles af FBI-topagent, og makker til Mueller, Peter Strzok, og om relateret aktivitet fra 'Få ram på Trump'-specialstyrken, der klart har overskredet grænsen fra det blot beskidte og tvetydige til decidedede forbrydelser mod forfatningen, går det op for Mueller et al., at, hvis det ikke lykkes for dem, vil de snart selv ende i fængsel.*

Krav om en afslutning af anti-Trump-heksejagten vokser i medierne, inklusive i et indlæg i dag i *Wall Street Journal*, underskrevet af redaktionen, og som insisterer, at

»Offentligheden har ret til at vide, om [britisk efterretnings] Steele-dossier var anledningen til Comeys kulegravning, og om det førte til nærgående aflytning af regeringen«. WSJ's redaktører skriver, at de betvivler »hr. Muellers evne til at gennemføre en fair og troværdig kulegravning af FBI's anselige andel i Rusland-Trump-dramaet«.

Men, det er ikke nok blot at udskyde Muellers bestræbelser, eller endda alvorligt skade dem. De skal begraves. Til dette formål har EIR annonceret, at andet oplag af dets specialrapport, »**Robert Mueller er en umoralsk, juridisk morder: Han vil gøre sit job, hvis I giver ham lov**«, snarest bliver udgivet.

Den bydende nødvendige grund til dette er at skabe de betingelser, under hvilke USA kan gå sammen med Kina, Rusland og andre nationer i opbygningen af den Nye Silkevej, til fordel og gavn for hele menneskeheden. Som Helga Zepp-LaRouche i samtale med sine medarbejdere i dag sagde:

»*Lande, der ikke samarbejder med Bælte & Vej Initiativet, vil blive kørt ud på sidelinjen, til skade for deres egne befolkninger.*«

Zepp-LaRouche forklarede, at der er tektoniske skift i gang på globalt plan, med det gamle, transatlantiske finanssystems, med dets spekulation, undergang, og den hastige fremvækst af det nye system, Bælte & Vej Initiativet.

»*Der finder en utrolig dynamik sted*«, rapporterede Zepp-LaRouche.

»*Der finder konferencer sted hver dag, hvor flere lande, flere kræfter, flere foretagender og industrier tilslutter sig dette Nye Paradigme. Den japanske premierminister Abes erklæring om, at Japan vil samarbejde med Bælte & Vej, er virkelig vigtig. Lande, der ikke samarbejder, vil blive kørt ud på sidelinjen, til skade for deres egne befolkninger.*

*Denne kinesiske politik er ikke imod nogen nation, og den udgør heller ikke på en eller anden måde en konflikt mellem USA og andre lande. Dette her drejer sig om at gå med i fremtiden; om at gå med i et absolut fantastisk perspektiv. Den tidlige rumænske astronaut, Dumitru-Dorin Prunariu, har netop udtalt, at, 'efter Bælte & Vej Initiativet tror jeg, at Kina har et galaktisk initiativ i tankerne'. Dette er absolut tidens ånd.*

*Vores kampagne fokuserer på Lyndon LaRouches Fire Love, på LaRouches økonomiske metode, på USA's tilslutning til den Nye Silkevej og på USA's samarbejde med andre lande om rumforskning. Og jeg mener, dette er et perfekt tidspunkt til at forvandle hele USA til en optimistisk kampagne. Dette kan blive til den absolut afgørende kraft for hele USA. Tiden er kommet til at forsvare præsidenten, besejre kuppet, besejre Det britiske Imperium og til at gå ind i en fuldstændig ny og fremgangsrig, skøn fremtid. Jeg mener, dette er et vidunderligt perspektiv.«*

Lyndon LaRouche, på sin side, opsummerede den strategiske situation og de opgaver, der ligger foran os, på følgende vis:

»Der kan gøres mere. Vi har midlerne til at gøre det. De er i vore hænder. Tag dem, og skab det, der må gøres. Handl på det!«

**25. -26. nov., 2017,  
Frankfurt, Tyskland:  
»At opfylde menneskehedens  
drøm«**

*»Jeg mener, at den Nye Silkevej er et typisk eksempel på en idé, hvis tid er kommet; og når en idé på denne måde først er ved at blive en materialistisk virkelighed, bliver den til en fysisk kraft i universet. Jeg har personligt haft mulighed for at se udviklingen af denne idé, der på mange måder reelt set begyndte med dette store menneske – min ægtemand, Lyndon LaRouche; der, for mange årtier siden – for næsten et halvt århundrede siden – fik ideen om en ny, retfærdig, økonomisk verdensorden. Dette blev dernæst mere manifest i 1970'erne, '80erne og især i 1991, da Sovjetunionen opløstes, og hvor denne idé om at skabe en ny, retfærdig, økonomisk verdensorden blev meget fremtrædende.«*

# **'Nu begynder det alt sammen at give mening'**

*Leder fra LaRouche PAC, USA, 3. dec., 2017* – En udenlandsk fjende af USA – Det britiske Imperiums efterretningstjenester og deres allierede i FBI og på Wall Street – har *de facto* invaderet USA med den erklærede hensigt at iscenesætte et statskup imod den valgte præsident og forfatningen, for at omstøde hans politikker for at opbygge fredeligt samarbejde med Rusland og Kina og marchere verden tilbage, væk fra randen af krig. Briterne kan ikke klare nogen som helst afvigelse fra deres Bush- og Obamaadministrationers krigskurs, fordi overlevelsen af hele deres system med global geopolitik og finansiel udplyndring afhænger af det. Efter præsident Trump blev valgt af det amerikanske folk for at omstøde Obamas politikker og gøre præcis dette, har briterne et al. forsøgt at afsætte ham ved en rigsret og fængsle ham, og giv pokker i sandheden.

Den fremgangsmåde, de anvender, og selv den involverede rollebesætning, er næsten identisk til den »Få ram på LaRouche«-specialstyrke, de deployede for henved 30 år siden, for uretmæssigt at fængsle Lyndon LaRouche og flere af hans medarbejdere, i et mislykket forsøg på at gøre ham tav.

Disse enkle kendsgerninger, der i månedsvis har været kendt af LaRouche-bevægelsen og dens tilhængere, og som er blevet cirkuleret vidt og bredt med vores Mueller-dossier (nu i andet oplag), er nu kommet helt frem i offentligheden i løbet af de seneste 72 timer. Som præsident Trump selv tweetede i dag: »Nu begynder det alt sammen at give mening.«

Det er denne internationale kamp, der står på spil, og ikke

noget, der har med »indenrigsspørgsmål«, eller andre følelsesladede emner, hverken til højre eller venstre, at gøre.

Den største trussel mod Det britiske Imperiums greb er det uophørlige fremstød fra Kinas Bælte & Vej Initiativ, der trækker den ene nation efter den anden ind i sit kredsløb, såvel som også den enestående rolle, som LaRouche-bevægelsen spiller i denne proces – som det endnu engang reflekteredes i Helga Zepp-LaRouches deltagelse som hovedtaler på konferencen den 29. nov. i Zhuhai, Guangdong, Kina, *Forum for det 21. Århundredes Maritime Silkevej*.

Et typisk eksempel på den hastigt skiftende, globale dynamik er de kommentarer, som formanden for Bank of China, Chen Siqing, kom med i en tale, han holdt den 2. dec. på et forum i Rom, »Den Tredje Middelhavsdialog«:

»Bælte & Vej Initiativet har skabt en ny platform for internationalt samarbejde ... Middelhavsområdet har en unik beliggenhed af stor strategisk betydning, på korsvejen for Silkevejen over land og den maritime Silkevej ... I fremtiden bør vi accelerere samarbejdet omkring industriel kapacitet med lande, der ligger langs Bælte & Vej, og fremme regional udvikling og fredelig sameksistens mellem folkeslagene.«

Denne fremtid er nu, og den inkluderer USA. Den inkluderer ikke Det britiske Imperium.

# **Vi er vidne til indvielsen af en helt ny æra på planeten.**

## **LaRouchePAC Internationale Webcast, 1. dec., 2017**

**Vært Matthew Ogden:** Godaften; det er 1. dec., og dette er vores strategiske fredags-webcast fra larouchepac.com.

Vi har meget stof at gennemgå i aften, for vi bliver i øjeblikket vidne til indvielsen af en helt ny æra på denne planet. Det, vi bliver vidne til, især i løbet af den seneste uge, siden afslutningen af den ekstraordinært historiske Schiller Institut-konference, der fandt sted nær Frankfurt, Tyskland, i sidste weekend, er den kendsgerning, at den Nye Silkevejsdynamik – denne dynamik med store projekter og »win-win«-samarbejde, der er blevet initieret af Kina – denne Nye Silkevejsdynamik er nu den dominerende og virkelig uimodståelige dynamik på denne planet. Dette er noget, der fuldstændig er i færd med at omforme alle nationers politik på denne planet. Og tyngdecentret er skiftet væk fra det gamle paradigme, som vi har set i det transatlantiske system, og til dette Nye Paradigme, der nu har fået overtaget pga. de initiativer, som frem for alt Kina har taget.

Jeg vil gerne lægge ud med at afspille et kort uddrag af Helga Zepp-LaRouches ekstraordinære hovedtale, som hun holdt på denne konference, der var sponsoreret af Schiller Institutet nær Frankfurt, Tyskland, i sidste weekend. Konferencens titel var »At opfylde menneskehedens drøm«, og titlen på Helga Zepp-LaRouches hovedtale var »Den Nye Silkevej; Den nye model for internationale relationer«. Her er et kort uddrag af Helgas tale:

HELGA ZEPP-LAROUCHE

: So, let me start with an idea  
of Gottfried Wilhelm Leibniz. He said that we are actually  
living in the best of all possible worlds. This is a very  
fundamental ontological conception. It's the idea that we are  
living in a developing universe; that what makes the universe  
the  
best of all possible ones is its tremendous potential for  
development. It is in such a way created, that every great  
evil  
challenges an even greater good to come into being. I think  
when  
we are talking about the New Silk Road and the tremendous  
changes  
which have occurred in the world, especially in the last four  
years, it is actually exactly that principle working. Because  
it  
was the absolute manifest lack of development of the old world  
order which caused the impulse of China and the spirit of the  
New  
Silk Road having caught on that now many nations of the world  
are  
absolutely determined to have a development giving a better  
life  
to all of their people.  
Now, I think that the New Silk Road is a typical example of  
an idea whose time had come; and once an idea is in that way  
becoming a material reality, it becomes a physical force in  
the  
universe.  
Now the Chinese Ambassador to Washington, Cui Tiankai,  
recently made the point, that there were 16 times in world  
history,

when a rising country would surpass the dominant country up to that point. In twelve cases it led to a war, and in four cases

the rising country just peacefully took over. He said that China

wants neither, but we want to have a completely different system

of a "win-win" relationship of equality and respect for each other.

Obviously, the most important question strategically, if you think about it, is that we can avoid the so-called Thucydides trap. That was the rivalry between Athens and Sparta in the 5th

Century BC, which led to the Peloponnesian War and the demise of

ancient Greece. If this were to occur today between the United

States and China in the age of thermonuclear weapons, I think nobody in their right mind could wish that; and therefore, we should all be extremely happy that Trump and Xi Jinping have developed this very important relationship. I stuck my neck out

in the United States in February of this year by saying, if President Trump manages to get a good relationship between the United States and China, and between the United States and Russia, he

will go down in history as one of the greatest Presidents of the

United States. Naturally, everybody was completely freaked out

because that is not the picture people are supposed to have about

Trump. But I think if you look at what is happening, you will see that Trump is on a very good way to accomplish exactly that.

So, he came back from this Asia trip with \$253 billion worth of deals with China. I watched the press conference of the

Governor of West Virginia, Jim Justice, where he said that now, because of China, there is hope in West Virginia. West Virginia is a totally depressed state; they have unemployment and a drug epidemic. But he said now we can have value-added production, we will have a bright future. So, the spirit of the New Silk Road has even caught on in West Virginia. Obviously the United States has an enormous demand for infrastructure, especially now after the destruction of all these hurricanes; which just to restore what has been destroyed requires \$200 billion, not even talking about disaster prevention. So, this is all on a good way that China will invest in the infrastructure in the United States, and vice versa; US firms will cooperate in projects of the Belt and Road Initiative.

So, just think about it, because almost everything I'm saying goes against everything you hear in the Western media. But think: From whom comes the motion for peace and development? Is it coming from those who attack Putin, Xi, and Trump? And those who side with Obama? It's obviously time for people to rethink how the Western viewpoint is on all of these matters. Or change the glasses which they have to look at the world.

OGDEN: So, as you heard from Helga Zepp-LaRouche, that was just a short excerpt from her speech, but she said we have to change the glasses through which we look at the world. That's what she did really with the entirety of her keynote address;

which was an hour long. It is available on the newparadigm.schillerinstitute.org website right now; but she really did change the glasses, through which people should see the

world; both by reviewing what the strategic breakthroughs have been in terms of the New Silk Road dynamic which has been sweeping the planet and supplanting this outmoded and failed geopolitical world order which has brought the world really to the edge of what she said; this Thucydides trap and the danger of

thermonuclear war. But she also did some very extraordinary; she

took the audience back through the history of the relationship between the Confucianism of China and the Leibnizian philosophy

of Europe. This was the best of European culture, and really the

consolidation of the Renaissance culture of Europe. What Gottfried Leibniz was able to do in his time, recognizing the failures of European culture due to the kinds of rivalries between these warring empires and what had really turned into a

corruption and a rot at the core of the European system at that

time; he said the future can be secured if we recognize the best

of European culture – the Christianity and the heritage of the Greek philosophy which built European culture; but put this together with the aspects of Chinese Confucianism which are in fact harmonious with the best of the ideas of European philosophy. He pointed out, that the idea of an understanding of

the pre-established harmony between man's creative mind and the

created universe is something, which indeed is recognized in Leibnizian European philosophy; but is also at the core of

Confucian philosophy.

Helga Zepp-LaRouche said that in a very real way, Xi Jinping has reflected a profound understanding of this kind of harmonious relationship between man and the created world, and also between the nations of this planet, and has given it a substance; actualized this idea through the form of the New Silk Road. She

also reviewed the history of her husband's – Lyndon LaRouche's – role in creating the basis of the ideas that are now taking their form in this New Paradigm of development coming out of China and the Belt and Road Initiative. She traced it all the way back to a paper that Lyndon LaRouche had written in the 1970s

about the development of Africa, and the fact that his ideas – which were at the core of that vision – are now what are actually taking place in Africa and other nations that are being

touched by the Belt and Road Initiative. Again, this is an extraordinary keynote address, and we would encourage you to watch the speech in its entirety.

But after Helga LaRouche's keynote, the conference – which was a two-day conference – unfolded; and it was a series of extraordinary panel after extraordinary panel. The first panel

was titled "The Earth's Next Fifty Years"; obviously taking that

from the title of a wonderful book that was published by Lyndon

LaRouche over a decade ago. But this panel began with a keynote

by Professor He Wenping, who's the Director of African Studies at

the Chinese Academy of Social Sciences in Beijing. The speech was "President Xi's Perspective for the Year 2050 and the Perspective of African Development". That was followed by the

former Transport Minister of Egypt, who gave a speech called “Integration of Egypt’s Transportation Plans 2030 with the New Silk Road Project”. Then, there was a statement from George Lombardi, who is the former social media consultant to President

Donald Trump; and his speech was titled “The Trump Administration: Impending Economic Policies and Media Discord”.

Then that panel concluded with a speech by Marco Zanni, who is a

member of the European Parliament from Italy. His speech was titled “A Future for Europe after the Euro”.

Panel I was followed by Panel II, which was the second panel of the first day, which was titled “The Need for Europe To Cooperate with China in the Industrialization of Africa and the

Middle East; Transqua as the Rosetta Stone of the Continent’s Transformation”. This began with an extensive speech by Hussein

Askary, who is the Southwest Asia coordinator for the Schiller Institute. This was on “Extending the Silk Road into Southwest

Asia and Africa; A Vision of an Economic Renaissance”. The bulk

of this is also actually included in a new Special Report that is

just been published by the Schiller Institute, that was jointly

written by Hussein Askary and Jason Ross. He was followed by the

Foreign Director of the Bonifaca S.p.A., Italy, company, which is

actually involved with China in building this Transqua project.

It’s called the Italy-China Alliance for Transqua. Then, the General Consul to Frankfurt from Ethiopia spoke – Mehreteab Mulugeta Haile. The title of his speech was “The Need for

Europe

to Cooperate with China in the Industrialization of Africa". Then that panel concluded with a speech by the Executive Manager

of Pyramids International called "Egypt's 2030 Mega Projects: Investment Opportunities for Intermodal and Multimodal Connectivity".

The third panel took place on the second day of the conference, and that panel was titled "Europe As the Continent of

Poets, Thinkers, and Inventors: An Optimistic Vision for the Future of Europe". It was keynoted by Jacques Cheminade, who's

the former Presidential candidate in France. His speech was titled "What Europe Should Contribute to the New World Paradigm".

Then, Dr. Natalia Vitrenko, who's the chairwoman of the Progressive Socialist Party of Ukraine, gave a speech – "China's

Initiative from the Doom of Self-Destruction, to Prosperity and

Progress; A View from Ukraine". Then, a speech from a representative from Serbia; an author and journalist named Dr. Jasmina Simic. Her speech was titled "One Belt, One Road – An

Opportunity for Development in the Western Balkans". Then that

panel concluded with a speech from Bulgarian Academy of Sciences

Professor Mariana Tian – "Bulgaria's Contribution to the Belt and Road Initiative".

There were also two other speeches; the chair of the Anglo-Hellenic and Cypriot Law Association, and the founding Director of the China Africa Advisory.

Then, the concluding panel of the entire conference, Panel IV; "The System We Live in Is Not Earthbound – Future Technologies and Scientific Breakthroughs". This was keynoted

by

Jason Ross, scientific advisor to the Schiller Institute. His speech was titled "The Scientific Method of LaRouche". He was followed by Prof. Dr. Helmut Alt, from the University of Applied

Sciences in Aachen; who gave a speech – "Energy Transition; From

Bad to Worse". Then that concluded with Dr. Wentao Guo, from Switzerland – "Current Situation of High Temperature Gas-Cooled

Reactors in China".

Then there was an extensive Q&A period after that, in which there was very important input from the audience. The attendees

at this event – which you could see just from the speaker's list

alone – represented countries from Western Eurasia, from Central

Europe, from Africa, from the United States, from Western Europe,

from Scandinavia, from really literally all over the world.

This

was an extraordinary conference.

There was a resolution that was adopted at the concluding of the conference that I'd like to put on the screen here [Fig. 1].

The resolution is taking a note from what China has committed itself to – eliminating poverty by the year 2020 in China. So,

this is the resolution adopted by the Schiller Institute conference in Bad Soden, Germany:

"At this conference, with the title 'Fulfilling the Dream of Mankind,' we discussed the incredible transformation of the world

catalyzed by the Chinese initiative of the New Silk Road. The Belt and Road Initiative, which is creating optimism in Asia,

Africa, Latin America, more and more states in Europe, and after

the state visit of President Trump in China, in several states within the United States.

"The Belt and Road Initiative has the concrete perspective on how poverty and underdevelopment can be overcome through investment in infrastructure, industry and agriculture, based on

scientific and technological progress. The Chinese government which uplifted 700 million out of poverty in the last 30 years,

has now proclaimed the goal to lift the remaining 42 million people living in poverty out of their condition, and create a decent living standard for the entire Chinese population by the year 2020.

"Within the European Union, there are living approximately 120 million people below the poverty line, according to our own

criteria characterizing the costs of life. Given the fact that Europe is still an economic powerhouse, there is no plausible reason why Europe cannot uplift these 120 million people out of

poverty by the year 2020, as well. The best way to accomplish this is for the EU, all European nations, to accept the offer by

China to cooperate with China in the Belt and Road Initiative on

a 'win-win' basis.

"We, the participants of the Schiller Institute conference, call on all elected officials to join this appeal to the European

governments. Should we in Europe not be proud enough to say, if

the Chinese can do this, we can do it, too?"

As you can see here, [newparadigm.schillerinstitute.com](http://newparadigm.schillerinstitute.com), that

is the location of the proceedings of this conference which will be published as they're prepared; but also, that resolution that I just read to you, is available on that website –newparadigm.schillerinstitute.com – and it's collecting signatures. It's something that you can add your name to and you can circulate that. Obviously, it applies not only to Europe, but applies to the United States as well; this goal of eliminating poverty by building infrastructure and high technology projects to increase the living standards and the productivity of our populations; as China is doing through the Belt and Road Initiative. This is what can be accomplished in the United States. We'll review a little bit of that.

I do want to note that Helga Zepp-LaRouche made a special notice of the statement by West Virginia Governor Jim Justice after he secured \$87 billion in joint investment into the state of West Virginia; which is greater than the entire GDP of that state. This accomplishment is really the spirit of the New Silk Road, which is now sweeping through the world and has even taken hold in our very own state of West Virginia here in the United States.

Now, let's look at the extraordinary rate of developments that have occurred since this conference happened in Frankfurt, Germany last weekend. This is part of putting on those new glasses that Helga LaRouche talked about in order to see the world as it really is; not to see the world through the kind of spin and propaganda that you're inundated with on a daily basis by the media. If you were following the media, you would think,

that the only issue on the table, are the series of sex scandals that are coming out from celebrities and news anchors and so forth and so on. And you would miss the fact that we are literally living in the absolute epicenter right now in history of a total paradigm shift in the history of mankind. So, let's look at this extraordinary rate of developments. This conference, obviously, in Europe – the Schiller Institute conference – took place right on the heels of President Trump's extraordinarily successful trip to Asia; where he had his state visit-plus visit with President Xi Jinping in China. And the \$250 billion worth of deals that were signed there for joint investments, the fact that President Xi Jinping put directly on the table the idea of the United States and US businesses collaborating with the Belt and Road Initiative, and the fact that President Xi Jinping and President Trump solidified a very close personal relationship and really ushered in a new era of US-China collaboration. After that, just during the course of the last five days, you've seen what was just mentioned there in the resolution from the Frankfurt conference; that nations of Europe are now beginning to reach out and reciprocate the hand of friendship that's coming from China to participate in the Belt and Road Initiative. This is taking place most significantly in the more impoverished countries of Eastern and Central Europe. We have the just-concluded 16+1 talks, which occurred in Budapest, Hungary. This is the meeting of the so-called CEEC, or the Central and Eastern European Countries – those are the 16; and then the +1 is China. So, this is the 16+1, the Central and Eastern European Countries plus China. What was discussed at

this conference was the further coordination between these countries of Eastern Europe and the Chinese, especially on the idea of the Belt and Road Initiative; the New Eurasian Land-Bridge as it was termed by Helga and Lyndon LaRouche back in

the 1980s. The core feature of that proposal back in the end of

the 1980s, which gave birth to this idea of the Eurasian Land-Bridge, was the idea of taking these Eastern European countries – what had been formerly part of the Soviet Union or the Soviet space – and taking what was an under-developed area of Europe and developing it through bridging Western Europe with

Russia and then beyond through these kinds of transportation corridors and high technology development grids. That's exactly

what China was discussing with these countries in Eastern Europe

during the 16+1 conference. These are mainly countries such as

Hungary, Serbia, Poland, which really this is their conception of

themselves; they serve as Europe's front door onto the New Silk

Road. As the New Silk Road comes westward across Eurasia, the front door to Europe are these Eastern European countries.

They

have gone from being on the margins of Europe with under-development and poverty and prolonged unemployment and these other crises, they've gone from being on the margins to being at the very center of this new dynamic which is sweeping from the East.

This is referred to in Hungary as their "eastward opening"; that Hungary's future is to orient towards this new era of development which is coming from Eurasia, rather than orienting

towards the collapsing system of Western Europe and the failed

EU. Zhang Ming, who's China's ambassador to the European Union, published an article that was published immediately prior to the 16+1 meeting on November 27th, in which he emphasized the central role of the Belt and Road Initiative in China's policy towards Europe. He said, "As China and Europe work together to synergize the Belt and Road Initiative, the 16 CEEC countries will play a more prominent role as a hub which connects Asia and Europe. Faster development in CEEC countries contributes to a more balanced development across Europe and European integration." So, in other words, the faster development of these impoverished countries in Central and Eastern Europe will be a "win-win" for everybody involved. He used these words, that these countries will serve a "prominent role as a hub which connects Asia and Europe."

Then as Hungarian Prime Minister Viktor Orban stated a few weeks ago – and he was the host of this meeting in Budapest, Hungary obviously – but this was a statement that he made back in October. This is absolutely to the point of what we're discussing on this webcast today; this idea that the Belt and Road Initiative is now the irresistible and dominant dynamic on this planet. This is a quote from Prime Minister Orban: "The world's center of gravity is shifting from West to East. While there is still some denial of this in the Western world, that denial does not seem to be reasonable. We see the world economy's center of gravity shifting from the Atlantic region to the Pacific region. This is not my opinion, this is a fact." Now incidentally, that quote, that statement by Prime

Minister Orban, is exactly the point that Lyndon LaRouche made in this book; this very prescient book that he published over a decade ago called {Earth's Next Fifty Years; The Coming Eurasian World}. In that book, Mr. LaRouche said the dominant dynamic of the world is going to be the rising countries of Asia; these are where the most concentrations of population are, this is the fastest rates of growth. And this is where the world's center of gravity is shifting economically; the coming Eurasian world, or the Pacific-centered world. So, this is a direct echo of exactly what Lyndon LaRouche said way back when before any of this economic miracle took place. But Mr. LaRouche was very prescient on that fact.

Now, while a number of leading European press outlets have been doing exactly what Viktor Orban said – denying this fact; trying to deny this inevitable fact that the center of gravity has shifted from West to East. You had, for example, the {Financial Times} ran an extensive article headlined “Brussels Rattled As China Reaches Out to Eastern Europe”; obviously just hysterical that these Eastern European countries are now oriented towards the Belt and Road Initiative. Despite that fact, there are some leading circles in Europe who are, indeed, recognizing that Europe's future lies in joining this New Paradigm. Obviously, that could be seen from this extensive speaker's list at the Schiller Institute conference in Frankfurt; but there

was another very significant conference that occurred just a few days later this week in Paris. This was the first annual Paris Forum on the Belt and Road Initiative; so it's going to take place every year. This is the first annual event. It was co-organized by the Chinese embassy and the French Institute for International and Strategic Affairs – IRIS is their acronym. This is the third largest think tank in Paris. The founding director is Pascal Boniface, who is very positive in terms of his attitude towards this idea of France and Europe as a whole joining with the Belt and Road Initiative. There were some 400 people in participation at this very important event. There were think tanks, there were civil servants, people from the French government, there were heads of different French companies – CEOs – retired military, there were cultural figures, and there were media who attended. Among them, the forum was addressed by the Chinese Ambassador to France, Zhai Jun. He put directly on the table, France, Europe should join this new emerging paradigm, this Belt and Road Initiative. This goes directly along with the attendance by Raffarin, the former Prime Minister of France to the Belt and Road Forum that occurred this past Spring in Beijing. There have been other prominent figures inside France who have done exactly what these people have done at this very significant event, and said "Look, this is the future of the world economy. The center of gravity has shifted, and we better get on board." This was also the subject, by the way, of Jacques

Cheminade's speech at the Schiller Institute conference; and this is something that he's been in extensive conversation with, with numerous leading figures inside France as part of his Presidential campaign. He even met with the former President of France, Francois Hollande, while he was President at the Elysée Palace and discussed exactly this idea. So, as you can see, the movers and shakers behind this, the ideas which are driving history, are really the leaders and the collaborators of the LaRouche Movement worldwide.

Let me shift focus now. We're continuing to catalog the extraordinary rate of developments that have occurred just over the last five days since this extraordinary conference in Frankfurt. Let's shift focus now to Latin America. We had the 11th China-Latin America-Caribbean Business Summit, which happened in Uruguay; actually it's still happening. It started yesterday, and it's going through this Sunday, so it's a four-day conference. This was to discuss the idea of how Western Hemisphere countries, especially countries in South and Central America, can participate in China's One Belt, One Road Initiative. Whereas this is the 11th annual conference between the Central and South American countries and China, this was by far the largest of these conferences to have taken place. There were over 2500 people in attendance, which included high-level businessmen, government officials, and policymakers from all

over Latin America. One of the plenary sessions which took place at this conference was titled, "A New Vision of Collaboration Among China, Latin America, and the Caribbean in the Framework of the One Belt, One Road Strategy". So, that's explicit; this is the idea of Latin American joining the New Silk Road. Just because we're discussing Latin America, there was a wonderful sentiment which was voiced by Chilean President Michelle Bachelet. This was a speech that she gave on November 23rd at the celebration of the 10th anniversary of the founding of the Confucius Institute in Chile. She said, "The world is orienting more than ever towards China and the Pacific Basin. Therefore, we know very well that our relationship with China and the Asia-Pacific in particular, is crucial for us to fulfill our destiny." She said, "Chile's relationship with China goes well beyond trade ties. It is one of our primary political partners on the path to opening integration and cooperation for progress."

Then Michelle Bachelet said after she retires as the President of Chile, she intends to study the Chinese language in depth. So, that's a commitment that perhaps all heads of state should make, as we recognize that the center of gravity of the world's strategic and economic reality is shifting towards China. We did

see that from President Trump's granddaughter, Arabella Kushner

– that's Ivanka's daughter – where she recorded the song in Mandarin Chinese. A video of her singing a song in Mandarin Chinese, and sent that as a goodwill offering to President Xi Jinping in China.

And one more item I should just note. This is a yet-unconfirmed report, but it's very credible, that Japan – now

we've shifted from Europe to Central and South America, and now

we're in the Asia Pacific. Japan is actively considering joint

projects with Chinese companies on building the One Belt, One Road. This is hugely significant, judging by the historic conflicts between Japan and China, which have been played on by

these Western geopoliticians for decades; to try to keep these two extraordinarily significant countries from collaborating.

If

Japan and China collaborate on the Belt and Road Initiative, this

is a dynamic which is absolutely unstoppable. There was an article in a Japanese paper titled "Government To Help Japan, China Firms in Belt and Road". It reports that the Abe government is considering supporting companies to carry out joint

projects with Chinese companies along the Belt and Road. I think

underscoring this fact, as I stated in the beginning of today's

broadcast, that the Belt and Road is an absolutely unstoppable and irresistible dynamic; which has now become dominant and is something which cannot be ignored. Underscoring that fact that,

indeed, this New Silk Road is the dominant irresistible dynamic

on this planet, here's a statement from the {Global Times} which is absolutely to the point. It says "Generally speaking, Japan's economy has been always greatly dependent on overseas markets. So, for the sustainable development of its economy, Japan needs access to the business opportunities offered by the vast infrastructure projects along the Belt and Road route." So, this is the sentiment that's being expressed by everybody. We go from the hosts of this first annual conference on the Belt and Road Initiative in Paris. Look at what Viktor Orban said at the 16+1 conference in Budapest, Hungary. Look at what Michelle Bachelet said in Chile at the Confucius Institute. Look at the statements that were made at this Central and South American-China Business Forum. Look at what's now being said in Japan. Look at the statements that were made at the Schiller Institute conference in Frankfurt. And look at what was done by President Trump during his trip to China, and the summit that he had with President Xi Jinping. Everything is being shaped by this initiative, by the New Silk Road; by this initiative which is coming out of China for "win-win" mutually beneficial cooperation on great project development for the entire planet. This is the dominant of the future. As Helga Zepp-LaRouche said, you need to put on the new set of glasses to be able to see reality as it really is; not through the skewed mirrors and the propaganda which is coming out of

the Western media. I think that perhaps the best statement, and the most candid statement of all – of all of these statements about the reality of this future dynamic – and why the United States and Europe and South America and Asia need to jump on board with the New Silk Road, need to join with this new dynamic and catch this spirit of the New Silk Road; probably the best and most candid of those statements came out of Governor Jim Justice from West Virginia during his press conference that he gave there at the state capital, announcing this extraordinary \$87 billion deal between China and the state of West Virginia. Here's what Governor Jim Justice had to say:

#### GOVERNOR JIM JUSTICE

: And I would say to all of you all that may be doubters that this could become a reality, "Don't get on the wrong side of it." Because, really and truly, it's a comin'. It's a comin'."

OGDEN: "It's a comin'." I would say to all the doubters, "this could become a reality, 'Don't get on the wrong side of it.' Because it's a comin'," he said. "It's a comin'." So, that was actually from the conclusion of a really wonderful and important video that was just put on the LaRouche PAC website this week, all about West Virginia. West Virginia, which as Helga LaRouche said, is known across the country right now as

the epicenter of poverty, unemployment, drug epidemic overdoses, and just general backward economic conditions. West Virginia could now become the cutting edge and the economic driver of the entire Appalachian region here in the United States because of this “win-win” investment that came from China. So, I would encourage you to watch that video in full on the LaRouche PAC website. But let me just say, this is an extraordinary rate of development of events that have occurred over the past five days.

I think that anybody who is looking at the reality soberly and with clarity will see that, indeed, the efforts of the LaRouche Movement over the past several years to put this question on the table; to put this idea of a New Paradigm of economic cooperation and “win-win” development, this New Silk Road – this Eurasian Land-Bridge, this World Land-Bridge idea. Put that on the table and to shape all of the discussions that are occurring at the highest levels of policymaking worldwide around that idea. I think that truly is becoming the dominant dynamic, and it’s a testament to the fact that a small handful of people with very powerful ideas, can indeed be very successful in shaping the course of world history.

Now, I would say that what Helga LaRouche began, those remarks that I played at the beginning of the show; this idea of the greatest, the best of all possible worlds – what Gottfried Leibniz had to say. This is an understanding of how the universe corresponds to the creative will of mankind. That there is a

principle of good that is behind the creation, the creation of the universe; and that principle of good corresponds with the creative nature of mankind. And when mankind acts on that creative quality, and acts for the benefit of the greatest number

of possible people, the greatest possible General Welfare; acts

on the basis of this principle of good, that the universe corresponds and, indeed, responds. Because of this harmony, this

pre-established harmony which Leibniz discussed. That was at the

core of his understanding of the best of all possible worlds.

So, with that axiomatic understanding of the philosophical nature of what this effort is all about – to bring about a New Paradigm of human relations on this planet – let's conclude with

the concluding quote from Helga Zepp-LaRouche during her keynote

at that Schiller Institute conference in Germany. Helga Zepp-LaRouche said the following: "If we revive the Classical culture of all nations, and enter a beautiful dialogue among them, mankind will experience a new renaissance and unleash an enormous creativity of the human species like never before.

"So, it is very good to live at this moment in history and contribute to make the world a better place. And it can be done,

because the New Paradigm corresponds to the lawfulness of the physical universe in science, Classical art, and these principles. What will be asserted is the identity of the human

species as {the} creative species in the universe."

So, as Helga Zepp-LaRouche said, it is very good to live at this moment, and to contribute to this New Paradigm which is now

emerging on this planet, and to contribute to the good of mankind.

So, thank you very much for joining us here today. We strongly encourage you to not only watch Helga Zepp-LaRouche's keynote address in its entirety, but to stay tuned to that Schiller Institute channel as all of these panels, all of these videos, all of these presentations are produced and put up on the website for you to watch in their entirety. So, thank you for joining in, and let's continue to spread the spirit of the New Silk Road. Thank you and good night.

## Lad jer ikke aflede; Lad jer ikke afskrække!

*Leder fra LaRouche PAC, USA, 30. nov., 2017 – Alt imens verden har nået et punkt, hvor den virkelig vender et nyt blad til et kvalitativt nyt stadium i verdenshistorien, så bliver den amerikanske befolkning fuldstændig, og potentieligt fatalt, afledt ind i et kalejdoskop af falske spørgsmål, der er i sladderens interesse eller i anden interesse. (Hvorfor nu?) Men, hvor kommer DU ind i billedet – dig, personligt? Hvad er din rolle? Hvis du render efter lygtemænd, hvor efterlader det så vores land? – på et tidspunkt, hvor den fremtidige historie kræver visse, afgørende skridt i USA, som det fastlægges af Lyndon LaRouche i hans Fire Love.*

Den forgangne weekends successive begivenheder, der ikke har fortilfælde, viser, at Bælte & Vej Initiativet, lanceret af Kina tilbage i 2013, og som Lyndon og Helga LaRouche utrætteligt har kämpet for i årtier, nu er blevet en masseangrebsbølge, der fejer hen over verden. Tænk på, at Schiller Instituttets historiske konference i Frankfurt i

forgangne weekend, »At opfylde menneskehedens drøm«, blev umiddelbart efterfulgt af »16+1«-mødet mellem Kina og øst- og centraleuropæiske lande i Budapest, som lancerede byggeriet af Beograd – Budapest højhastighedsjernbanen, blandt andre resultater. I samme uge fandt et Bælte & Vej Forum sted i Tbilisi, Georgien, med 34 officielle delegationer, der deltog, og op mod 2.000 delegerede fra flere end 60 lande. Efter afslutningen af 16+1-mødet i Budapest og yderligere møder med ungarske regeringsfolk, fløj den kinesiske premierminister Li Keqiang til Moskva for at mødes med præsident Putin, og derfra videre til Sotji, Rusland – scenen for andre historiske møder i løbet af de seneste dage – for at deltage i mødet mellem regeringschefer i Shanghai Samarbejdsorganisationen, 30. nov.-1. dec.

Det første Bælte & Vej Forum nogensinde blev onsdag holdt i Paris. Torsdag var første dag af Kina-Latinamerika-Caribien Erhvervstopmødet i Uruguay, som omfattede 2.500 erhvervsfolk, af hvilke 700 er kinesere.

En endnu ubekræftet rapport i *Yomiuri Shimbun* fra 28. nov. fremlægger, hvordan Japan planlægger at gå ind i et samarbejde med Bælte & Vej Initiativet (BRI), gennem japanske selskabers støtte i fællesprojekter med kinesiske selskaber langs dets ruter.

Dette er rammen for vores voksende bestræbelser på at besejre den britiske kupplan i USA, gennemføre LaRouches Fire Love og sikre fuld amerikansk deltagelse i BRI.

Spørg ikke, hvad der optager dig som personlig interesse. Spørg hellere, hvad den fremtidige menneskeheds vitale interesse består i, mht. nutidens begivenheder. De 'falske nyheder' – 'fake news' – fremviser et kalejdoskop af afledningsmanøvrer – I må ikke blive afledt. Spørgsmålene er præcis det, som Lyndon og Helga LaRouche har sagt, de er.

# **Schiller Instituttets konference i Tyskland: Realiser menneskehedens drøm med Den Nye Silkevej. Politisk Orientering, 30. nov. 2017**

Tom Gillesberg: »Velkommen til vores første offentlige møde – i Danmark, vel at mærke – efter valget fandt sted. Vi kan jo begynde med at nyde synet af vore plakater her bagved, for de er desværre nu alle blevet taget ned; de hænger ikke længere i lygtepælene; København og de andre byer, hvor vi stillede op, er blevet lidt mere kedelige igen. Men vi kan begynde med at sige tak til alle dem, der stemte på os. Og jeg tror, jeg kan garantere, og de kan føle sig lidt som nogle små profeter, for de var i stand til at se det, som de fleste tilsyneladende ikke var i stand til at se; nemlig, at der er en ny, ustoppelig forandring i gang i verden, der også kommer til at svømme hen over Danmark, bare vent og se.

Nogle af os var privilegerede og fik en ekstra smag på det, i form af den konference, Schiller Instituttet netop har afholdt i Frankfurt, Tyskland, hvor vi havde en lang række talere – det vil jeg komme tilbage til – som faktisk befandt sig mere

eller mindre inde i denne proces med at udbrede Bælte & Vej Initiativet til Asien, til Afrika; gøre det her til det Nye Paradigme, der regerer her på kloden...«

Dette blev dernæst mere manifest i 1970'erne, '80erne og især i 1991, da Sovjetunionen opløstes, og hvor denne idé om at skabe en ny, retfærdig, økonomisk verdensorden blev meget fremtrædende.*

# **En kriminalisering af politikker, der går imod Det britiske Imperium**

*Leder fra LaRouche PAC, 29. nov., 2017 – Processen med på bedragerisk vis at kriminalisere politikker, der underminerer Det britiske Imperiums og dets amerikanske aktivers »del og hersk«-planer, har taget endnu et skridt fremad. Vi har nu set, hvordan den særlige anklager, Robert Mueller, baseret på det miskrediterede »penge for skidt«-dokument, som blev udarbejdet af tidligere MI6-medarbejder Christopher Steele (og promoveret af Obamas efterretningsteam), er i gang med at køre et kupforsøg imod USA's præsident med det formål at forhindre hans politik for etablering af venskabelige og samarbejdende relationer med Rusland og Kina. Ethvert samarbejde med Rusland er kriminel i briternes øjne. Obamas direktør for national efterretning James Clapper, sagde den 12. nov. til CNN, at Trumps bestræbelser på at arbejde konstruktivt sammen med*

Rusland er »en fare for dette land« og en »national sikkerhedstrussel».

Hvad er dette andet end politisk kriminalisering, baseret på den britiske, geopolitiske opdeling af verden i krigsførende grupperinger, adelsmærket for Imperium?

I dag lancerede *Wall Street Journal* og *Washington Post* en kampagne, som erklærede, at generalløjtnant Michael Flynn, Trumps første nationale sikkerhedsrådgiver, havde overtrådt loven ved at promovere en »Marshallplan« for Mellemøsten og byggeriet af kernekraftværker for at fremme de arabiske nationers økonomier. »Det var et forretningsforslag i form af et politisk dokument«, har en »unavngiven kilde« fortalt *WP* med hensyn til det forslag, Flynn var fortaler for, mens han var i Det Hvide Hus. Den angivelige »forbrydelse« defineres som korruption, simpelt hen, fordi Flynn, før han kom med i regeringen, havde promoveret planen som konsulent for selskaber, der potentielt kunne få fordel af det. *WP* siger også, at spørgsmålet er blevet refereret til Muellers heksejagt-team.

Dette demonstrerer tydeligt, at selve begrebet udvikling ses som en forbrydelse af denne bande økonomiske lejemordere. EU-kommisionens præsident Jean-Claude Juncker har tidligere sagt, at EU fuldt ud har til hensigt at blokere for kinesiske investeringer i Europa under alle mulige påskud, alt imens den vestlige presse er fuld af advarsler om, at Kinas Bælte & Vej Initiativ er et forsøg på at overtage verden fra USA.

Og dog viser kendsgerningerne, at disse bøller ikke er andet end en moderne version af Kejseren, der paraderer uden tøj på. I hele verden omfavner næsten alle nationer det Nye Paradigme for fred gennem udvikling. Alene i denne uge finder der Nye Silkevejskonferencer sted i Ungarn (mellem Kina og 16 central- og østeuropæiske lande), i Uruguay (China-Latin American-Caribbean Business Forum), såvel som også flere bilaterale møder mellem Kina og andre nationer. Den idé, som statsmanden

Lyndon LaRouche har udviklet i løbet af det seneste halve århundrede – at kun en total reorganisering af den finansielle og økonomiske verdensorden, baseret på reel udvikling, kunne forhindre en nedgang i depression og krig – er nu ved at blive manifest gennem Bælte & Vej Initiativet.

Trump er blevet en trussel mod Det britiske Imperium ved at opstille som forudsætning, at Amerika kun kan blive stort igen, hvis det dropper den anti-industrielle, anti-videnskabelige, 'grønne' ideologi, knuser den (britiske) opiumskrig mod USA og verden og går sammen med Rusland, Kina og andre nationer om fredelige udviklingsprogrammer.

Den fare, som verden undgik, da Hillary Clinton blev afvist af de amerikanske vælgere i 2016, var åbent udstillet tirsdag i en videopræsentation af Hillary til *Caijing*-erhvervsmagasinets årlige konference i Beijing. Få dage efter præsidenterne Trump og Xi Jinping havde helliget sig og deres nationer til samarbejde om at løse konflikter i hele verden, himlede mrs. Clinton op om, at Xi Jinping havde gjort sig skyldig i en »hidtil uset magtkonsolidering« og advarede imod Kinas »hemmelige militære oprustning på omstridte øer« og »tyrannisering af mindre naboyer«.

Det stik modsatte er tilfældet, idet Kinas »mindre naboyer« og andre i hele verden med glæde hilser Kinas Bælte & Vej velkommen som vejen til befrielse fra den koloniale og neokoloniale tilbageståenhed, der i århundreder har været dem påtvunget af de europæiske imperiemagter og »gældsslaveriet« under IMF's diktatur.

Med hensyn til responsen i USA, så brug fem minutter på at se LaRouchePAC's video »West Virginia Joins China's Win-Win Cooperation«, for at se, hvordan Kinas Nye Silkevej allerede bidrager til at gøre Amerika stort igen. # **Verdens tyngdepunkt skifter fra Atlanterhavsområdet til Stillehavsområdet**

*Leder fra LaRouche PAC, USA, 28. nov., 2017 – Dette koncept om det fremvoksende, eurasiske, Nye Paradigme for hele menneskeheden, blev først præsenteret på den globale, strategiske scene tilbage i 1996 – for over to årtier siden – af den amerikanske statsmand og økonom Lyndon LaRouche, hvor der stort set ikke var noget synligt »bevis«, der pegede i denne retning. Og dog havde LaRouche ret. I sidste måned blev denne idé gentaget i næsten identiske vendinger af Ungarns premierminister, Viktor Orban, der netop har været vært for »16+1«-mødet for statsoverhovederne i CEE (Central- og Østeuropa) og Kina.*

»Verdens økonomiske tyngdecenter er i færd med at skifte fra vest til øst«, erklærede Orban. »Alt imens der stadig er en del fornægtelse af denne kendsgerning i den vestlige verden, så synes denne fornægtelse ikke at være fornuftig. Vi ser verdens økonomiske tyngdecenter skifte fra det atlantiske område til Stillehavsområdet.«

Der er i dag rigeligt, der beviser, at Orban har ret. Der er faktisk en transformation i gang i de globale, økonomiske og politiske anliggender, som umiddelbart er et resultat af det faktum, at Kina og Rusland optrapper deres koordinerede bestræbelser og hævder det som en fysisk kendsgerning i hele

Eurasien. På meget den samme måde, som hele situationen i hele Mellemøsten (og hinsides) er blevet transformeret af den fysiske kendsgerning med den russiskledede sejr over ISIS i Syrien, skaber det kinesiske Bælte & Vej Initiativ økonomiske *faits accomplis*, fuldbyrdede handlinger, som er i færd med at omslutte hele det eurasiske område.

Det britiske Imperium og deres Wall Street-makkere er blevet taget på sengen, og de bliver mere og mere hysteriske over både udviklingerne samt den kendsgerning, at de bliver udmanøvreret. Og de har ikke rigtig regnet ud, hvad de kan gøre ved det – bortset fra at forsøge at lancere krige og iscenesætte et kupforsøg mod præsident Trump.

Det skyldes, at de globale, strategiske skift, som Kina og Rusland har initieret, ikke vil kunne standses, hvis præsident Trump bringer USA fuldt og helt om bord. Trumps gode arbejdsrelationer med sine præsidentkolleger, Kinas Xi Jinping og Ruslands Vladimir Putin, og som begge blev konsolideret under hans Asienrejse tidligere på måneden, er City of Londons og Wall Streets værste mareridt.

Ind på scenen kommer atter Barack Obama, den vanærende ekspræsident for USA, som netop har annonceret, at han snart vil foretage en rejse til Asien, der vil følge i præsident Trumps fodspor og forsøge at ødelægge alt det, han har opnået, på vegne af sine britiske herrer. Obama vil mødes med den indiske premierminister Narendra Modi den 1. december og dernæst rejse til Kina for at mødes med Xi Jinping, før han rejser videre til Frankrig.

Men sådanne klodsede deployeringer, som tidligere måske virkede, vil mislykkes under nutidens omstændigheder. Verdens tyngdecenter er reelt skiftet fra Atlanten til Stillehavet, og denne kendsgerning hævder sig på en sådan måde, at den ene nation efter den anden kommer med på vognen.

I sin hovedtale på Schiller Instituttets konference i

Frankfurt, Tyskland, 25.-26. nov., udtrykte Helga Zepp-LaRouche denne idé på en meget eftertænksom måde:

»Det var den gamle verdensordens absolut manifeste mangel på udvikling, der var årsag til Kinas impuls, og den Nye Silkevejsånd har nu grebet om sig i en grad, hvor mange nationer i verden er absolut fast besluttet på at få udvikling, der giver hele deres befolkning et bedre liv.

Jeg mener, at den Nye Silkevej er et typisk eksempel på en idé, hvis tid er kommet; og når en idé på denne måde først er ved at blive en materialistisk virkelighed, bliver den til en fysisk kraft i universet. Jeg har personligt haft muligheden for at se udviklingen af denne idé, der på mange måder reelt set begyndte med denne store mand – min ægteemand, Lyndon LaRouche; der, for mange årtier siden – for næsten et halvt århundrede siden – fik ideen om en ny, retfærdig, økonomisk verdensorden. Dette blev dernæst mere manifest i 1970'erne, '80erne og især i 1991, da Sovjetunionen opløstes, og hvor denne idé om at skabe en ny, retfærdig, økonomisk verdensorden blev meget fremtrædende. Jeg havde personligt muligheden for at se, hvordan dette spredtes efter Xi Jinping i 2013, i Kasakhstan, annoncerede den Nye Silkevej... Dette har skabt et fuldstændig optimistisk perspektiv.«

## Den Nye Silkevej er nu det

# **centrale fokus for menneskeligt fremskridt**

*Leder fra LaRouche PAC, USA, 27. nov., 2017 – Det er ikke muligt at se på udviklingen af menneskelige samfund i dag, nogetsteds i verden, uden at anerkende den centrale rolle, som Kinas Bælte & Vej Initiativ spiller. Det Britiske Imperiums dinosaurer kæmper desperat for at bevare deres plyndringsrettigheder i udviklingslandene i Asien, Afrika og Latinamerika, og endda i deres egne lande, men det bliver i stigende grad klart, at Bælte & Vej har givet nationer modet til at rejse sig og erklære, at de ikke længere behøver acceptere kravene om nedskæringspolitikker og »tilpasset teknologi« fra imperieherrerne i London og på Wall Street. Som Konfutse sagde, »Da jeg var tredive, rejste jeg mig op«. Den såkaldte »tredje verden« er klar til at afskaffe denne nedgørende titel og blive en del af et samfund af moderne industrinationer, som Kina har gjort, med den Nye Silkevej som drivkraften.*

Dette gælder i særlig grad for Afrika. Schiller Institutet udgav en 250 sider lang rapport om udviklingen af Afrika på en Schiller Institut konference, »At opfylde menneskehedens drøm«, som blev afholdt i Tyskland i forgangne weekend. Talere fra Afrika, Europa, USA og Kina beskrev den brede vifte af Kinas hundreder af projekter for infrastruktur, industri og landbrug i hele Afrika i løbet af det seneste årti, og i forhøjet tempo i 2017. Rapporten fremlægger den skønne fremtid og det håb, som denne udvikling har givet Afrikas befolkning.

I dag, i Østeuropa, finder »16+1«-forummet sted i Ungarn, mellem Kina og 16 østeuropæiske nationer, med 11 af disse, der er medlem af EU. Premierminister Li Keqiang holdt åbningstalen og sagde, at det Nye Silkevejsinitiativ kan være med til at bringe udvikling til de tidligere medlemmer af sovjetblokken og vil være et »nyttigt supplement« til Kinas relationer med

Europa. »Vores mål«, sagde han, »er at se et fremgangsrigt Europa«.

Den ungarske premierminister Viktor Orban talte også til åbningssessionen og bemærkede, at »hvis Europa lukker sig inde, mister det muligheden for vækst ... europæiske resurser alene er ikke tilstrækkelige. Af denne grund byder vi den kendsgerning velkommen, at Kina, som en del af den nye, økonomiske verdensorden, ser dette område som ét område, i hvis fremskridt og udvikling det ønsker at være til stede«.

Men, hvad er EU's respons til dette potentielle for gensidigt fremskridt og gensidig udvikling? De forsøgte at forhindre Ungarn i at kontrahere med Kina om byggeri af en jernbanebindung mellem Budapest og Beograd i Serbien og brugte Ungarns medlemskab af EU til at hævde, at de måtte have åben licitation på projektet – som om nogen regering eller noget privat selskab i Europa pludselig ville beslutte at gøre noget, de aldrig har gjort, alt imens de gennemfører nedskæringspolitik over for deres egne EU-medlemmer.

Typisk for denne EU-reaktion til det nye paradigme var en artikel i dag fra Mercator Institute for China Studies i Berlin, og som rapporterede om 16+1-konferencen. Titlen lød: »Kinas charmeoffensiv i Østeuropa udfordrer EU-samhørighed« og erklærer: »Europæisk integration synes i høj grad at stå på spil, når østeuropæiske regeringer bruger deres relationer med Kina til at vinde indflydelse over Bruxelles.« Tænk engang – udvikling er en trussel mod Europa!

Helga Zepp-LaRouche henviste til den grimme ironi, der er indeholdt i denne geopolitiske tankegang, i form af en resolution, hun foreslog for Schiller-konferencen. I betragtning af, at Kina har løftet 700 millioner mennesker ud af fattigdom i løbet af de forgangne 30 år, erklærer resolutionen, og med Xi Jinping, der er forpligtet over for at løfte de tilbageværende 42 millioner fattige kinesere ud af fattigdom frem til år 2020, beslutter vi, at Europa også bør

hellige sig til at løfte sine egne, 120 millioner-plus forarmede mennesker op til en anstændig levestandard frem til 2020. Resolutionen blev enstemmigt vedtaget.

Er der andre i Europa, der så meget som tænker i disse baner for et så ædelt mål i takt med, at EU-diktater for nedskæringspolitik er i færd med at skabe nye, forarmede mennesker, i et forfærdende tempo, hver eneste dag?

Men, de britiske imperiekrafter er endnu mere rædselsslagne over, at de er ved at miste deres primære »håndhæver« – USA. Donald Trump har nægtet at følge Bush/Obama-krigs partiets kurs, der i løbet af de seneste 16 år har tjent Imperiet med evindelig krigsførelse og militær inddæmning af Rusland og Kina, som er i færd med at drive verden til randen af atomkrig. Imperiet et forfærdet over Trumps historiske besøg til Kina i denne måned, hvor han og Xi Jinping dedikerede deres to nationer til at løse verdens problemer sammen gennem samarbejde og diplomati og økonomisk udvikling. De er ligeledes forfærdede over Trumps lange diskussioner med Vladimir Putin, både i personlige samtaler i Vietnam og via telefon efter Trumps tilbagevenden til Washington, for at samarbejde om at afslutte terrorisme i Syrien, og hinsides Syrien. Sammenlagt truer præsidentens samarbejde med Rusland og Kina med at gøre en ende på Imperiet, én gang for alle. Forsøget på, gennem »Russiagate fake-news«, at fjerne Trump fra embedet, er hastigt i færd med at kollapse, i meget vid udstrækning takket være *EIR*'s arbejde og her, især afsløringen af Robert Muellers mange forbrydelser og forræderiske plan.

Krisen er langt fra ovre, og finansbøblen i hele det vestlige banksystem kunne eksplodere, hvad øjeblik, det skal være. Men vejen til en løsning går nu tydeligvis fremad, med den Nye Silkevej, der berører hver eneste del af verden, inklusive USA. Denne vej er tilgængelig under forudsætning af, at verdens borgere responderer til dette historiske øjeblik ved at handle, som Abraham Lincoln sagde, i overensstemmelse med »de bedre engle i vor natur«.

# **Et stort skridt fremad for den Nye Silkevej i Europa; Nu, i USA**

*Leder fra LaRouche PAC, 26. nov., 2017 – Det nye, økonomiske paradigme, der anføres af Kinas Bælte & Vej, er en åben invitation til nationer til at samarbejde om økonomisk udvikling og genopbygning, om at bygge nye, store infrastrukturprojekter og om at øge menneskelig produktivitet gennem investeringer i ny videnskab for energi og rumforskning. Putins Rusland samarbejder fuldt og helt om det, og det har afgjort engageret USA's præsident Donald Trump og således trukket ild fra talsmænd for de gamle, geopolitiske krige og den »eneste supermagt«.*

Dette nye paradigme tog et stærkt skridt fremad i denne weekend i Tyskland, i Bad Soden am Taunus i nærheden af Frankfurt, hvor Lyndon og Helga LaRouches Schiller Institut, mht. indvirkning, arrangerede sin hidtil mest betydningsfulde konference for fuldt og helt at bringe Bælte & Vej ind i Europa, og for at genopbygge Mellemøsten og Afrika. Flere end 200 deltagere hørte ledende talere fra Øst- og Vesteuropa, Kina, USA, Afrika og Mellemøsten beskrive det nye paradigmets økonomiske og kulturelle potentialer, og at de indgår et forpligtende engagement til at fremme det. Helga Zepp-LaRouche leverede Friedrich Schillers kriterium, nemlig begrebet om, at patrioter elsker deres nationer, men elsker menneskeheden mere. Det er især sandt med så mange kriser med krig og mulig

krig, der stadig koger fra æraen med britisk geopolitisk, som nu er i færd med at kollapse.

Konferencen fik en fuld og detaljeret, ny rapport fra Hussein Askary (Schiller Institutet, Sverige) og Jason Ross (LaRouchePAC, USA) om den forestående genopbygning af krigszoner i Mellemøsten og byggeriet af en ny region i Egypten og Sahel. Talere, der repræsenterede Syrien og Egypten, støttede dette. Ledende talsmand fra Syrien, dr. Bouthaina Shaaban, blev i sidste øjeblik omdirigeret til at rejse til Beijing, hvor hun drøftede et kinesisk engagement for netop denne genopbygning efter borgerkrigen i Syrien.

Det italienske medlem af EU-parlamentet, Marco Zanni, beskrev i modsætning hertil den fejlfungerende, såkaldte Eurozone, hvor afstivningen af storbanker har ødelagt nationer. Det har tvunget dem til at vende sig mod Kina for økonomisk genoplivning, som Grækenland og Balkan er et typisk eksempel på.

Helga Zepp-LaRouche fremlagde dernæst en resolution, der blev vedtaget af helheden, om, at Europa må løfte sine 120 millioner officielt forarmede borgere ud af fattigdom gennem at samarbejde med Kinas Bælte & Vej Initiativ, der i løbet af én generation har løftet 700 millioner kinesere ud af fattigdom!

En resolution imod den saudiske »koalitions« gruopvækende krig mod Yemen, og som ligeledes blev enstemmigt tvedtaget, krævede en omgående våbenstilstand, en ophævelse af saudiernes morderiske blokade af Yemen og forhandlinger om forsoning uden udefrakommende indblanding.

Men, som Helga Zepp-LaRouche understregede, så er det USA, der må tilslutte sig det nye paradigme for at bringe verden sikkert ind i det og ud af truslen om sågar en atomkrig. Præsident Trumps synspunkt blev repræsenteret i Bad Soden af talere, der kender ham, Roger Stone og George Lombardi. Trump

er klart engageret med præsidenterne Xi og Putin og har til hensigt at forsætte hermed på en produktiv måde, uanset, at der hyles op om rigsretssag eller anklageskrifter. Ironisk nok har Trump, uden endnu at have tilsluttet sig det, bragt Bælte & Vej Initiativet direkte ind i én stat, det depressionsramte Vest Virginia, hvis økonomi kan blive fuldstændig transformeret af det og vise Amerika et eksempel.

Men, ligesom i Tyskland i denne weekend, er initiativet op til LaRouches politiske bevægelse, der har en politik for økonomisk transformation i form af Lyndon LaRouches »Fire Love til Nationens Redning«. I begyndelsen af 2018 vil bevægelsen udgive en ny, opdateret specialrapport, »USA tilslutter sig den Nye Silkevej«, der fremlægger disse handlinger, fra genindførelsen af Glass/Steagall-bankopdelingsloven og til et forceret program for fusionskraft og plasmateknologier.

Præsidenten er helt bestemt kampberedt til at bevæge sig i denne retning, og det republikanske lederskab i Kongressen er værre end håbløst. Men, den juridiske morder Robert Mueller har været i gang med at forsøge at fjerne LaRouche og hans bevægelse i mere end 30 år, uden held; og LaRouche er fast besluttet på, at det også vil mislykkes Robert Mueller at bringe Trump til fald. Et sejrrigt udfald for det nye paradigme afhænger af det.

**Mindst én stat vil blive**

# **transformeret af det nye paradigme, men det bliver fortsat udelukket i amerikanske medier**

*Leder fra LaRouche PAC, USA, 22. nov., 2017 – USA's præsident vil måske 'benåde en kalkun' til Thanksgiving (23. nov.), men ingen kan benåde de amerikanske mediers 'kalkuner', der nægter amerikanere ethvert kendskab til det, deres præsident mødte og opnåede på sine topmøder i Asien, samt med Ruslands præsident Putin.*

Kina spredt et nyt, økonomisk paradigme i verden, og, med de handels- og investeringsaftaler, præsident Trump indgik dér, vil mindst én stat – Vest Virginia – blive transformeret til det bedre, og med et langsigtet perspektiv. De forærer ikke skattelettelser og ejerskab af aktiver bort, som stater så ofte gør, når de er så desperate efter økonomisk fremgang, som Vest Virginia er; og staten får investeringer i kraftværker, energi og teknologier til kemisk produktion, specialiseret beskæftigelse – måske mere end \$80 mia. hen over 20 år.

En fagforeningsmand fra Vest Virginia sagde, »Vi har faktisk ingen indflydelse eller magt her, så jeg finder det interessant, at han [Trump] alligevel holdt sit løfte til os, noget, som jeg tror, han sandsynligvis vil få meget lidt kredit for i de nationale nyheder.«

Faktisk har præsident Trump ikke alene fået nogen dækning; men denne investering – og den, der sandsynligvis vil redde GE, og de andre investeringer i andre, amerikanske stater – nævnes knap nok i medierne. En investering i Vest

Virginia, der er tre gange størrelsen af USA's Energiministeriums budget, bliver slet ikke, eller kun sparsomt, rapporteret – for det meste selv i medier i Vest Virginia.

Præsidentens Asientur involverede ham i de vidstrakte, økonomiske infrastrukturinitiativer, der kommer fra Kina, sekunderet af Rusland og i stigende grad endda i konkurrence/samarbejde med Japan. Han har fulgt op på dette ved at erklære sin plan om fortsat at være fuldt og helt engageret med den russiske præsident Putin om Syrien, Nordkorea og kampen mod terrorisme i Mellemøsten som helhed.

Præsident Trump gør det klart, at han har til hensigt at forfølge fornuftigt diplomati mellem stormagterne, uanset, hvad »Russiagatorerne« siger eller gør. Amerika vinder stort i dette, og det samme gør udsigten til fred efter en æra med »evindelige krige«. For at citere Helga Zepp-LaRouche om denne beslutning om bedre relationer mellem USA og Rusland i særdeleshed, »Dette er lovende, men endnu ikke opnået«.

USA ville vinde endnu mere, hvis præsidenten går med i Kinas Bælte & Vej Initiativ for store infrastrukturprojekter.

Og Amerika ville vinde mere endnu, hvis det vedtager den økonomiske transformation *som helhed*, som loves gennem Lyndon LaRouches »**Fire Love til nationens redning**« – et forceret program, langt om længe, for fusionskraft og en tilbagevenden til rumforskningens store foretagender, såvel som ikke mindst, en tilbagevenden til Glass/Steagall-loven.

Denne udelukkelse i medierne må omgående brydes: Amerikanerne bør vide, hvad det nye paradigme er, som præsident Trump mødte i Asien – og hvad han foreløbig gør ved det.

# Vil vi stadig være barbarer om 10.000 år, eller vil vi være mennesker?

*Leder fra LaRouche PAC, USA, 21. nov., 2017* – Mens City of London og Wall Street er travlt beskæftiget med et sidste, desperat forsøg på at genanvende deres finanssystem, der ikke kan genanvendes, ved hjælp af en ECB-plan for bail-in, der er udarbejdet for at gibe alle finansielle aktiver for sig selv – deres tidlige »Cybern-model« i stort format – så orkestrerer Rusland, Kina og allierede nationer i stedet en overordnet handleplan for Mellemøsten og for global stabilisering og fred, som det indikeres i det, man kunne kalde en »Syrien-model«.

Vi refererer til drøftelserne den 21. november i Sotji, Rusland, mellem den besøgende syriske præsident Bashar al-Assad og den russiske præsident Vladimir Putin, samt Ruslands militære topkommando, og hvor de diskuterede deres succesfulde samarbejde for at bringe Syrien tilbage fra afgrunden. Helga Zepp-LaRouche beskrev i dag dette bevægende møde med sine kommentarer:

*»Dette er en utrolig idé, for på to år er en fuldstændig håbløs situation blevet vendt omkring. Det syriske folk har gennemlevet utrolige, menneskelige lidelser og har været utsat for enorme prøvelser, men er kommet sejrrigt ud af det.«*

Hvis dette kan opnås i Syrien, et mikrokosmos af de værste rædsler, som er blevet skabt af en døende verdensorden for geopolitik og udplyndring, er der intet til hinder for, at en tilsvarende total vending ikke skulle kunne opnås på globalt

plan, hvor vi opbygger et nyt paradigme omkring Kinas Bælte & Vej Initiativ som hovedhjørnesten. Helga Zepp-LaRouche opsummerede den strategiske situation som følger:

»Hoveddynamikken for forandring må komme fra USA. En opfølgning af Trumps besøg i Kina er det, der vil afgøre situationen. Dette er et enestående øjeblik i menneskehedens, og ikke blot USA's, historie. Det er denne opfattelse, vi skal have igennem til befolkningen.

Der er et enormt potentiale. Man ser det i den dynamik, der demonstreredes mellem Xi Jinping og Donald Trump, som var et historisk møde. Man ser det i det faktum, at Panama nu tilslutter sig Kina med Bælte & Vej Initiativet og med Panamas præsident, der udtaler, at dette er den vej, hele Latinamerika vil gå. Det findes i tilnærmelsen mellem Japan og Kina; i Astana-Putin-processen for konsolidering af situationen i Syrien og videre endnu; og i de dybtgående forandringer, der er i gang i Afrika gennem Kinas investeringer dér.

Alle disse elementer bevæger sig i en meget positiv retning. Men, Damoklessværdet, i form af et muligt finanskak, hænger stadig over verden. Instrumenterne for at bevæge USA i retning af Lyndon LaRouches *Fire Love* eksisterer, men de er endnu slet ikke tilstrækkelige. Potentialet er helt klart til stede og har aldrig været større end nu. Men det ville også være en stor fejltagelse at tro, at vi allerede har vundet, blot fordi vi har været med til at skabe dette potentiale. Og før, vi har opnået en total sejr for det Nye Paradigme, bør vi ikke have et roligt øjeblik«,

erklærede Zepp-LaRouche.

Hun konkluderede:

»Vi bør heller ikke give efter for ideen om, at vi har brug for et eller andet 'nationalt udtryk' for sund interesse. Vi må virkelig kæmpe med folk for, at det, vi har brug for, er et Nyt Paradigme; en fuldstændig ny ramme for relationer, hvor

*geopolitik slet og ret smides ud af vinduet. For, vi bør definere menneskeheden ud fra fremtiden, fra 10.000 år fra i dag, med et tilbageblik på nutiden: Hvordan ønsker vi at leve om 10.000 år fra i dag? Vil vi da stadig være barbarer, eller vil vi være mennesker?«*

## **Store muligheder midt i stor ustabilitet; Vi er endnu ikke i smult vande**

*Leder fra LaRouche PAC, USA, 20. nov., 2017 – De aktuelle begivenheder udviser store muligheder – der er knyttet til det nye paradigme med den nye, globale Silkevej, men udviser samtidig stor ustabilitet og store farer, knyttet til den vedvarende monetarisme, geopolitik og det vedvarende forsøg på at opretholde imperiedominans.*

I dag fortsatte præsident Donald Trump med at understrege betydningen af sin Asientur i åbningsbemærkninger til et møde

i sin regering. Han talte om handel.

»Vi er netop vendt hjem fra en historisk, 12 dage lang rejse til Asien. Overalt, hvor vi kom, blev den amerikanske delegation modtaget med enorm gæstfrihed og respekt ... Med os tilbage bragte vi for \$300 mia. i aftaler, der meget vel kunne nå op på \$1 billion i den allernærmeste fremtid. Det betyder jobs for USA på et meget højt niveau ... «

Derefter mødtes Trump med udenrigsminister Rex Tillerson og USA's FN-ambassadør Nikki Haley, midt i flere situationer, der udgør stor fare, og som ikke kan løses, med mindre USA og det transatlantiske område tilslutter sig det fremstød for fred og udvikling, som Bælte & Vej Initiativet tilbyder.

Saudi-Arabien, sammen med Det forenede Kongerige (U.K.), slår på krigstrommer for handling mod Iran og Hezbollah. I søndags blev der, efter anmodning fra saudierne, afholdt et møde i Kairo for udenrigsministre fra den Arabiske Liga. Efter at mange talere fordømte Iran, meddeltes det, at man ville briefe FN's Sikkerhedsråd om anklager imod Iran og måske kræve fremtidig handling. I mellemtiden fortsætter grusomhederne, der begås af Saudi-Arabien med assistance fra USA, i Yemen.

Denne forfærdelige situation bør ses i kontrast til den modsatrettede dynamik i Asien. Rusland, Tyrkiet og Iran samarbejder i den syriske krise om at besejre ISIL i alle dets former. Den 22. nov. vil den russiske præsident Putin, den tyrkiske præsident Erdogan og den iranske præsident Rouhani mødes i Sotji, Rusland, for at drøfte, hvordan man skal bringe yderligere stabilitet til Syrien og bevæge sig hen imod det russiske forslag for en Kongres for National Dialog. I søndags faldt en af de sidste ISIL-enklaver, byen Abu Kamal, til den syriske regering.

I Sydasien er der nye initiativer i gang for at finde en løsning på den desperate situation, hvor 600.000 rohingya-flygtninge nu er i Bangladesh, hvortil de er flygtet fra

fortsatte stridigheder i Myanmar. I weekendens løb mødtes den kinesiske udenrigsminister Wang Yi med ledere fra Myanmar og meddelte, at man ville fordoble indsatsen for Bælte & Vej Initiativets Kina-Myanmar Økonomiske Korridor, og man drøftede en trepunkts-handleplan, som Kina har foreslået, for at tackle nødssituationen med flygtningene: 1) en våbenstilstand; 2) betingelser, der fastsættes af Bangladesh og Myanmar, for, at flygtningene kan vende hjem; og 3) afhjælpning af fattigdom i Myanmar.

Disse to eksempler – Syrien og Myanmar – viser, hvordan betydningsfulde magter konfronterer kriser og konfererer med det specifikke forsæt at udarbejde løsninger. De markerer en fremgangsmåde over for virkeligheden, der enten er fraværende eller også i øjeblikket bliver forsætligt modgået af de fleste af eliterne i Europa og USA, der har forskanset sig i det gamle, døde, geopolitiske paradigme.

I dag påpegede Helga Zepp-LaRouche den igangværende regeringskrise i Tyskland. I går aftes brød forhandlingerne om at danne en koalitionsregering sammen, da de Frie Demokrater trak sig ud. Den tyske præsident Frank-Walter Steinmeier opfordrede efter et møde med den midlertidige kansler Angela Merkel alle sider til at genoverveje og sagde, »Vi står over for en situation, der ikke har eksisteret i Forbundsrepublikkens historie ... i næsten 70 år.« Zepp-LaRouche kaldte situationen »forfærdelig, men ikke overraskende« og påpegede det underliggende problem: lederne og partilederne i Tyskland og i hele Europa har ingen vision for fremtiden. Hvordan skal de genoverveje? De er »totalt idéforladte«. De lever i et domæne, der udgør en parallelvirkelighed, så de har ingen impuls til at genoverveje og ændre deres aksiomer og få en diskussion om handlinger.

Dette lægger vejen vidt åben for det, vi gør, for at støtte en ny æra til menneskehedens fordel, men, formaner Zepp-LaRouche, »Vi er endnu ikke i smult vande«.

# **Helga Zepp-LaRouche om præsident Trumps Asientur og det nye paradigme Schiller Institut Nyt Paradigme Webcast, 16. nov., 2017; dansk udskrift**

*Dette webcast har til formål at gøre folk aktive; gå med i Schiller Instituttet; hjælp os med at udbrede den idé, at en ny relation mellem nationer absolut er mulig og allerede er ved at blive til virkelighed. Så sid ikke på sidelinjen. Bliv aktiv sammen med os, for dette er en af de perioder, der har et enormt potentiale. I sidste uge talte vi om Murens fald og den store, historiske chance, dette repræsenterede; men jeg mener, at, hvis man ser på den mulighed, at menneskeheden kan bevæge sig ind i en total ny æra, hvor der er velstand for alle; fred mellem nationer definerer en ny civilisationsæra. Det er min absolutte overbevisning, at, under forudsætning af, at der ikke kommer en stor tragedie som et finanskrak, for hvilken der ikke gennemføres nogen løsning i tide, eller en anden krise, der sparkes i gang omkring en eller anden hændelse, en 'fake' historie; jeg mener, at det nye verdenssyn, denne idé om, hvad Vestens populærkultur er blevet*

*til, eller hele kulturen, hvor alt er tilladt, ingen kriterier, ingen standard, ingen moralshed; det er noget, der ikke kan holde. Det er en falsk tro, det er en ideologi; det er en afsporing af menneskets sande natur, og jeg tror, det vil forsvinde på samme måde, som skolastikken forsvandt, fordi det var en utilstrækkelig idé, der var knyttet til en bestemt periode i Europas historie i middelalderen. Det forsvandt; i dag har vi ingen skolastikkere, i hvert fald ikke i denne gamle form. Jeg er overbevist om, at vi har en chance for at få en ny renæssance, at få en opløftelse af folk, hvor alle kulturer, alle planetens nationers bedste traditioner bliver genoplivet; og ud af dette kan vi skabe en ny renæssance. Jeg mener, dette er en absolut realistisk mulighed. Så være glad og gå sammen med os!*

## Målestokken for strategisk succes

*Leder fra LaRouche PAC, USA, 14. nov., 2017 – I bemærkninger på Air Force One på vej hjem fra Filippinerne til USA efter sin 12 dage lange, historieskabende rejse til Asien, karakteriserede præsident Donald Trump rejsen som »enormt succesfuld«, og at de indgåede aftaler til en værdi af \$300 mia. snart ville blive tredoblet.*

Men, det er mere end dette.

I et par dusin amerikanske stater – fra Alaska til Vest Virginia og Montana – der har direkte fordel af mange af disse aftaler, er en følelse af lettelse og endda optimisme ved at vende tilbage i takt med, at udsigten til at komme ud af landets lange, økonomiske mareridt begynder at tage form i folks sind.

Men det er også mere end dette.

En kronik i dag i Kinas *Global Times* går endnu videre og proklamerer i sin overskrift, at »USA's deltagelse i Bælte & Vej er uundgåelig« – et initiativ for en politik, der er markant knyttet til Lyndon og Helga LaRouche. Artiklens forfatter, Wang Yiwei, direktør for Institut for Internationale Anliggender ved Renmin Universitet, skriver, at handelsaftalerne fra præsident Trumps rejse til Kina »vil gøre det muligt for USA bedre at lære om mulighederne og udsigterne for økonomisk samarbejde. På denne baggrund er tiden inde for USA til at genoverveje en tilslutning til Bælte & Vej Initiativet, der tilbyder større rum for samarbejde«. Forfatteren Wang anbefaler endda, at de to lande kunne arbejde sammen om infrastruktur, måske først i udviklede lande, som i USA's Midtvesten, og at USA og Kina kunne oprette en »global infrastruktur-investeringsbank«.

Men, målestokken for strategisk succes er mere end selv dette.

Vi står, udtalte Helga Zepp-LaRouche i dag, over for en situation med endnu større muligheder end situationen i 1989, hvor Berlinmurens fald åbnede for muligheden for, at menneskeheden kunne erstatte den bankerotte, transatlantiske, gamle orden med en politik for et Nyt Paradigme, som Lyndon LaRouche og hans bevægelse på det tidspunkt specificerede. Denne chance blev på tragisk vis forspildt, har fr. Zepp-LaRouche gentagne gange udtalt.

»Dengang havde vi kun vore ideer«, forklarede hun i dag, »men man havde ingen kræfter, de ville gennemføre dem. Men nu har

vi verdens største land, der går i retning af at gennemføre det, allieret med 70 andre lande. Vi har hele udviklingen i Asien, der er totalt domineret af dette nye paradigme. Og denne kendsgerning er nu også ved at slå igennem i USA og Europa.«

Det, vi er oppe imod i denne kamp i dag, er Det britiske Imperiums liberale *establishment* og deres hjernevask af befolkningen gennem organisationer såsom Kongressen for Kulturel Frihed (CCF). »Vi angreb CCF i hele denne periode«, erklærede Zepp-LaRouche. »De formede hele efterkrigstidens kulturelle paradigme. Hele den venstre-liberale elite og dens aksiomer kom fra den kulturelle hjernevask, som udførtes af CCF, der blev finansieret af CIA og Udenrigsministeriet. Og hertil kom, at vi også havde Frankfurterskolen; dernæst havde vi 68'erne; og dernæst blev det 'Grønne' paradigme gennemført. Så hvis man ser på blandingen af hele denne hjernevask, så har man eliten af neo-liberalt etablissement, som nu er ved at gå under, og som flipper ud over Trump og selvfølgelig over Kina og Rusland osv.

»Dette er et forkert livssyn, et forkert syn på verden«, fortsatte Zepp-LaRouche. »De er anti-videnskab, de er anti-klassisk kultur. Ud fra et historisk synspunkt vil de gå under, lige som Middelalderens skolastikkere, fordi de troede på noget, der ikke var i overensstemmelse med universets love.

Det er vigtigt at tænke over dette, for de er vores modstandere; det er, hvad der ligger bag tankegangen à la [USA's særlige anklager Robert] Mueller, bortset fra et par andre ubehagelige, neo-konservative elementer, og så fremdeles. Grunden til, at de hader os, er på grund af det, Lyndon LaRouche har skrevet. De hader passioneret hans måde at tænke på.«

Zepp-LaRouche konkluderede: »Kampen i USA er helt uafgjort; den kan vindes. Men disse folk er der stadig, så vi må virkelig gå hårdt frem imod dem. Lyndon LaRouches tænkning er

så overlegen; vi bør ikke i ét eneste øjeblik falde under denne standard. Så lad os få udsigten til at vinde denne kamp, og denne krig.«

Dette, og intet andet, opfylder hele målestokken for strategisk succes.

## **En ny æra er begyndt – hvis den kan opretholdes**

*Leder fra LaRouche PAC, USA, 12. nov., 2017 – Husk på Benjamin Franklins historiske svar, efter Forfatningskonventet i 1787, på et spørgsmål fra en Philadelphia-dame, der spurgte, »Nå, doktor, hvad har vi, et monarki eller en republik?« Hans svar: »En republik, frue, hvis I kan holde den.«*

Det kan virkelig siges, at et lignende spørgsmål nu kan stilles efter præsident Donald Trumps historiske rejse til Asien: »Hvad har vi, geopolitik eller menneskehedens fælles mål?«

Der er et lignende svar. Præsidenterne Trump, Xi Jinping og Vladimir Putin har i løbet af den forgangne uge erklæret, at de i fællesskab er forpligtende engageret over for en ny æra for samarbejde – at »Tiden er inde til at komme tilbage til at hele en verden, der er knust og ituslået«, som præsident Trump i dag udtrykte det under sin pressekonference med den vietnamesiske præsident Tran Dai Quang i Hanoi. »Det er meget vigtigt at komme godt ud af det med Rusland, med Kina, med Vietnam, med mange lande«, tilføjede Trump, »for vi har mange ting, vi skal løse«.

Trump tog også handskerne af over for de korrupte ledere af

Obamas efterretningssamfund, der har orkestreret den britiske efterretningsoperation for at bringe USA's præsident til fald og for at genindføre den britiske indsats under Obama for at fremprovokere en krig mellem USA og Rusland. Da Trump talte med pressen under sin flyvning fra Da Nang til Hanoi, gjorde han det klart, at han respekterer det faktum, at præsident Putin hævder, at Rusland intet havde at gøre med at »blanding sig« i det amerikanske valg, og sagde: »Se engang på alt det, de har gjort med dette falske dossier ... Jeg mener, hør lige engang, de er den indspiste, politiske elite. Jeg mener, der er (Obamas CIA-chef John) Brennan, der er (Obamas direktør for National Efterretning James) Clapper, der er (Obamas FBI-chef James) Comey. Det er nu bevist, at Comey er en løgner, og at han har lækket.«

Dette uforbeholdne angreb mod kupplanlæggerne i USA kommer efter Trumps ekstraordinære statsbesøg til Kina – faktisk, et »Statsbesøg-Plus«, som Xi Jinping kaldte det, den eneste modtagelse af sin art af en udenlandsk statsleder i Kinas moderne historie. Både Xi og Trump understregede i deres diverse taler og kommentarer, at de nye relationer mellem USA og Kina har skabt betingelserne for at løse, ikke alene problemerne i de amerikansk-kinesiske relationer, men næsten alle problemerne i verden. En »win-win«-fremgangsmåde over for sådanne problemer er nu på bordet, gennem samarbejde mellem Rusland, Kina og USA – og dette vil forhåbentlig også bringe europæiske nationer ind i processen, hvis den mentale spændetrøje med nulsumsspil, hund-æder-hund og geopolitisk én-mod-alle kan overvindes.

Det haster stærk med, at de fælles udviklingsprojekter, som er blevet aftalt mellem USA og Kina, omgående bliver gennemført. Den massive boble i det vestlige finanssystem er – på trods af Trumps påstande om, at boblen repræsenterer fremskridt – parat til at briste, som det i stigende grad erkendes af mange af dem, der skabte boblen ved at nægte at genindføre Glass/Steagall efter krakket i 2008. Kina, Japan og andre

indehavere af enorme mængder af amerikanske statsobligationer har givet udtryk for deres interesse i at investere denne statsgæld i amerikanske infrastrukturprojekter og industriel genrejsning. Trump opmuntrer tydeligvis denne proces, så vel som også at hjælpe amerikanske industrier til at deltage i den eksplosive udvikling, der finder sted på globalt plan gennem den Nye Silkevejsproces.

Den eneste måde, dette kan ske på, er, at Trump-administrationen vedtager **LaRouches Fire Love**, og efter Hamiltons principper skaber en infrastrukturbank, der kan dirigere statslig og international kredit til reel udvikling – før boblen brister. På denne måde kan man skille sig af med de værdiløse dele af Wall Streets hasardspilsgæld, gennem en ordnet konkursprocedure, snarere end i et kaotisk kollaps.

Vigtigst af alt, så kan og må vi vende det kulturelle forfald med narkoepidemien, pornografien og volden, der nu dominerer vestlig kultur. I en tale til et valgmøde i Danmark, fredag, indfangede Helga Zepp-LaRouche denne presserende sandhed:

»Så jeg mener, at problemet ikke er, at Kina vokser frem. Problemet er, at Europa har bevæget sig væk. Vi har en smuk tradition. Vi har en klassisk periode, renæssancen i Italien, den andalusiske renæssance, École Polytechnique i Frankrig. Vi har en tysk, klassisk periode, der har frembragt nogle af de mest fremragende tænkere, komponister, digtere; I ved, den rige tradition, der forbinder Tysklands klassiske periode med Danmarks klassiske periode

Så der er mange punkter, hvor vi kan sige, 'Lad os gå tilbage til vore bedste traditioner, og så vil vi finde ud af, at Europas klassiske perioder, og Kinas konfutsianske tradition og andre landes klassiske perioder virkelig skaber grundlaget for en ny renæssance.'

Jeg mener, vi befinner os ved et utroligt, historisk øjeblik, og vi bør erindre os Friedrich Schillers ord, 'Et stort

øjeblik bør ikke finde et lille folk' .«

# **Præsidenterne Trump og Xi iværksætter et gigantisk skridt fremad for menneskeheden**

## **LaRouche PAC Internationale Webcast,**

### **10. nov., 2017**

*Præsidenterne for disse to lande har gentagne gange understreget, at denne nye relation, som de nu indvier, vil gå langt ud over noget, vi tidligere har set, og, gennem den relation, som USA og Kina nu har skabt med præsident Donald Trumps statsbesøg til Kina, kan ikke alene de problemer, som begge disse lande individuelt står overfor, konfronteres og løses, men, med samarbejdet mellem disse to lande sammen med andre partnere i hele verden, kan de fleste af, hvis ikke*

*alle, de problemer, menneskeheden på nuværende tidspunkt står overfor, også løses.*

Vært Matthew Ogden: God aften, det er den 10. nov., 2017, og dette er vores strategiske webcast fra larouchepac.com.

Det er ingen overdrivelse at sige, at vi er vidne til det vigtigste øjeblik i moderne verdenshistorie. Vi ser udfoldet sig for vore øjne en ny æra; en ny æra, både mht. amerikansk-kinesiske relationer, med de begivenheder, der har fundet sted i løbet af de seneste par dage, og, som følge heraf, også en ny æra for hele verden. Disse to lande, der uden for enhver diskussion er de to, vigtigste lande på planeten, har nu smedet en relation, der ikke har noget sidestykke mht. niveau, og mht. størrelsesorden.

Præsidenterne for disse to lande har gentagne gange understreget, at denne nye relation, som de nu indvier, vil gå langt ud over noget, vi tidligere har set, og, gennem den relation, som USA og Kina nu har skabt med præsident Donald Trumps statsbesøg til Kina, kan ikke alene de problemer, som begge disse lande individuelt står overfor, konfronteres og løses, men, med samarbejdet mellem disse to lande sammen med andre partnere i hele verden, kan de fleste af, hvis ikke alle, de problemer, menneskeheden på nuværende tidspunkt står overfor, også løses.

Jeg vil sætte et par billeder på skærmen fra præsident Trumps »Statsbesøg-Plus« til Kina, som er uden fortilfælde. Her ser vi præsident Trump og Melania Trump hilse præsident Xi og Kinas førstedame, Peng Liyuan; her ankommer de til Beijing. Man ser det kinesiske folks overvældende entusiasme – her er det kinesiske skolebørn, der vifter med kinesiske og amerikanske flag for at hilse præsident Xi Jinping og præsident Trump. Man ser niveauet af entusiasme, som tydeligvis overvælder præsident Trump, og denne velkomst blev iscenesat for ham; og den rundvisning, de fik i Den Forbudte By, og som ikke har noget fortilfælde i historien. På næste

billede synger nogle skolebørn fra Beijing for præsident Trump og Melania Trump. De fik også en fuld opførelse af en opera fra Peking-operaen i Den Forbudte By og en meget hjertelig middag. Her har vi et billede af præsident Trump, præsident Xi Jinping, Melania Trump og Kinas førstedame Peng Liyuan.

Som man kan se, så var dette et ekstraordinært statsbesøg, og begge præsidenter sagde gentagne gange, at de to dage, de tilbragte sammen, er absolut uforglemelige og har tjent til at skabe det, der allerede var et meget varmt, personligt, særligt forhold mellem de to.

Det, vi har set vokse frem af dette besøg, kan kun beskrives som indvielsen af en ny epoke i de amerikansk-kinesiske relationer. Det går langt ud over, hvad en masse af de mennesker, der så frem til denne begivenhed, har forsøgt at sige, og, på trods af al propagandaen i pressen og i medierne i USA, så var dette ekstraordinært i sin store betydning for USA's og Kinas fremtid, som to lande; men også for verdens fremtid. Det, vi har set komme ud af disse møder, både mellem præsidenterne Xi og Trump personligt, og også af de udvidede møder, der fandt sted langs sidelinjen, er meget i overensstemmelse med linjerne af det, vi har krævet i løbet af de seneste uger, hvis ikke måneder, mht. de forretningsmæssige forbindelser, forretningsaftalerne mellem USA og Kina; men udtrykkeligt også mht. ideen om, at USA tilslutter sig Bælte & Vej Initiativet.

For det første vil jeg rapportere, at der rent konkret blev underskrevet forretningsaftaler og aftaler om bilaterale investeringer til en værdi af over \$250 mia. mellem amerikanske og kinesiske selskaber – det er en kvart billion dollar i bilaterale investeringer; men ideen om USA's tilslutning til Bælte & Vej Initiativet blev gentagene gange meget udtrykkeligt nævnt, af Xi Jinpings egen mund, under begivenheder i løbet af dette topmøde, første gang under den afsluttende, fælles pressekonference, og også under et møde mellem regeringsfolk og erhvervsfolk; og ved begge disse

begivenheder opfordrede præsident Xi Jinping udtrykkeligt amerikanske selskaber til at tilslutte sig Bælte & Vej og sagde, at der vil blive praktisk samarbejde inden for energi, samt investeringer i infrastruktur; og helt konkret blev en fælles aftale underskrevet mellem General Electric og den Kinesiske Silkevejsfond, som i fællesskab oprettede en investeringsplatform inden for energiinfrastruktur.

Reuter rapporterer om denne aftale på følgende vis: »General Electric Co. og kinesisk statsfond etablerer Bælte & Vej plan for handelsinitiativ, for i fællesskab at etablere en investeringsplatform til energiinfrastruktur, siger Kinas regering ... Silkevejsfonden og GE Energy Financial Services underskrev en aftale om 'samarbejde' om etablering af platformen i Beijing, sagde Ministeriet for Udenlandsk Valuta (SAFE) i en erklæring, dateret torsdag ... 'De to sider vil i fællesskab investere i elektricitetsnet, ny energi og olie og gas, i lande og regioner langs Bælte & Vej', sagde SAFE. 'Samarbejdet mellem Silkevejsfonden og GE vil ikke alene styrke samarbejdet mellem avancerede produktionsindustrier fra Kina og USA, men også fremme økonomisk udvikling og handelsudvikling i regionerne for denne investering.'«

Dette er et direkte og konkret eksempel på et førende amerikansk selskab, der tilslutter sig Bælte & Vej, og denne samarbejdsaftale mellem Silkevejsfonden og General Electric i dette tilfælde, reflekterer en langt mere generel retningsbestemmelse mht. sådanne aftaler.

Det, som præsident Xi Jinping gentagne gange understregede, var, at Kina er fremtidens økonomi, og den vækst, som Kina har oplevet i løbet af de seneste årtier, vil kun fortsætte, og denne forretningsmæssige og økonomiske relation mellem USA og Kina vil være til fordel for både det kinesiske og det amerikanske folk.

Jeg vil gerne afspille for jer, et par uddrag fra præsident Trumps og præsident Xi Jinpings præsentationer ved diverse

anledninger under dette statsbesøg.

Vi vil først afspille et lille klip fra præsident Trumps bemærkninger ved et udvidet, bilateralt møde, hvor man ser [USA's udenrigsminister] Rex Tillerson og ambassadør Terry Branstad og præsident Trump, der taler for den kinesiske delegation. Man hører fra præsident Trump, hvor fuldstændig overvældet, han var, over den varme modtagelse, han fik, og hvor stor betydning, han tillægger de fremtidige amerikansk-kinesiske relationer; og i klippet siger han, at han mener, de fleste, hvis ikke alle, problemer i verden sandsynligvis kan konfronteres og løses med denne relation, som Kina og USA har skabt.

Umiddelbart herefter, i det samme klip, ser man et par uddrag af bemærkninger fra først præsident Trump og dernæst præsident Xi Jinping for begivenheden for erhvervsledere, der blev afholdt under dette topmøde. Her vil man høre præsident Trump tale om graden af gensidig, økonomisk forbundethed og samarbejde mellem Kina og USA, og dernæst hører man præsident Xi Jinping selv tale om USA og amerikanske selskaber, der går sammen med Bælte & Vej Initiativet.

Lad os lytte til dette klip:

PRESIDENT TRUMP: Mr. President, thank you very much. It's an honor to be with you. There can be no more important subject

than China-U.S. relation. We have between us, and we have to include some other countries which would quickly come in; we have

a capacity to solve world problems for many, many years to come.

Our meeting last night was absolutely terrific. Our dinner was beyond that. We had a dinner that was going to last

quickly,  
20-25 minutes, because I was travelling and you were so nice.  
And you said we'll just do a quick dinner. And I think it had  
to  
last at least two hours, and we enjoyed every minute of it,  
with  
your beautiful wife and Melania together. Their relationship  
is  
a great one; and our relationship has already proven to be a  
great one.  
Our meeting this morning in front of your representatives  
and my representatives was excellent; discussing North Korea,  
and  
I do believe there's a solution to that, as you do; discussing  
trade with the United States, knowing that the United States  
really has to change its policies because they've gotten so  
far  
behind on trade with China – and frankly with many other  
countries. And I have great respect for you, for that,  
because  
you're representing China. But it's too bad that past  
administrations allowed it to get so far out of kilter. But  
we'll make it fair, and it will be tremendous for both of us.  
My feeling toward you is an incredibly warm one; as we said,  
there's great chemistry, and I think we're going to do  
tremendous  
things for both China and for the United States, and it is a  
very, very great honor to be with you.  
Thank you very much. The hosting of the military parade  
this morning was magnificent, and the world was watching.  
I've  
already had people calling from all parts of the world – they  
were all watching. Nothing you can see is so beautiful. So,  
I  
just want to thank you for the very warm welcome and I look  
forward to many years of success and friendship, working  
together

to solve not only our problems, but world problems, and problems of great danger and security. I believe we can solve almost all of them, and probably all of them.

Thank you very much for having us, I very much appreciate it.... [end video]

PRESIDENT TRUMP: Thank you very much. Thank you. And thank you [Commerce] Minister Zhong Shan for that introduction;

and especially thank you to President Xi and Madame Peng for serving as such warm and gracious hosts to Melania and me during

our time, here in your very, very beautiful country.

To both the American delegation and to the Chinese business representatives here, your discussions greatly strengthen our partnership and provides a critical bridge between our business

community and yours, and thank you for that. During my time in

Beijing, President Xi and I have had several conversations about

our common goals and interests. Beyond that, we talk often.

It's a very good chemistry between the two of us, believe me.

My administration is committed to improving our trade and business relationships with China. The contributions of the business community represented here today are vital to our efforts, to ensure peace and prosperity for our two nations.

Together we can unlock a future of opportunity, wealth and dignity far beyond anybody's wildest dreams. In your discussions

today I hope you will learn from each other, and identify new ways to advance our economic cooperation. I am depending on all

of you to work together to find opportunities of mutual

agreement  
and shared prosperity.

The hardworking people of America and the hardworking people of China deserve the very best solutions to achieve prosperity,  
happiness, and peace. Thank you very much. Thank you.  
[applause]

ANNOUNCER: Thank you, President Trump. And now please welcome Mr. Xi Jinping, the President of the People's Republic of

China. [applause]

PRESIDENT XI: [as interpreted] The Honorable President Trump, Chinese and American business representatives, ladies and gentlemen, dear friends:

It is my real pleasure to have President Trump with us today for this China-U.S. business exchange.

Over the years the business communities of our two countries have been committed to the friendship between our two nations. You are a strong driving force for economic cooperation and overall relations between our two countries. Your commitments and your contribution are highly appreciated.

This year marks the 45th anniversary of the Shanghai Communiqué. Over the past 45 years, China-U.S. economic relations and trade ties have achieved historic development, delivering great benefits to our two peoples. Last year,

General

Motors, Ford, and Fiat Chrysler, the three U.S. automakers, manufactured and sold over 5 million vehicles in China. The number was bigger than their combined sales in other parts of the world.

The Chinese investment in the United States is also rising rapidly, and has created over 140,000 jobs directly for the local

communities in the United States. During President Trump's visit this time, as we have witnessed right now, our companies will sign commercial contracts and two-way investment agreements worth over \$250 billion U.S. dollars. These are great examples of the vast potential and win-win nature of China-U.S. economic cooperation.

China-U.S. business cooperation has vast potential. As the biggest developing and developed country, China and the U.S. have much more areas for economic cooperation, rather than competition. We will continue to encourage Chinese companies to invest in the United States, and also welcome active participation of American companies and financial institutions in the Belt and Road projects.

With our economic relations expanding rapidly, it is natural that we may have differences, from time to time. The important thing is, we act in the spirit of mutual benefit and mutual understanding, and seek proper settlement through dialogue and consultation. A Chinese philosopher once observed that trading can generate friendship and mutual benefit. Looking ahead, I have full confidence that with joint efforts of you, the business representatives present here, today, and the business communities of our two countries, China-U.S. economic relations will achieve greater success on the basis of equality and mutual benefit, and our two peoples, will gain increasing benefits along this process.

Thank you. [applause]

[end video]

OGDEN: So you just heard President Xi Jinping explicitly say that we will welcome Chinese enterprises to proactively invest in the United States, and, we welcome U.S. companies and

financial institutions to take part in the projects under the Belt and Road Initiative. So that's explicitly calling for this

kind of win-win, mutually beneficial relationship between China

and the United States, both in terms of investments in the United

States, and infrastructure development, and businesses, and, U.S.

participation in the Belt and Road Initiative.

What you're about to hear is a few clips from the final press conference that was held between President Trump and President Xi Jinping. And during this press conference, President Xi repeated that emphasis of the United States cooperating with China on the Belt and Road Initiative. He said,

"for China and the United States, win-win cooperation is the only

right choice and the pathway to a better future." He said,

"It

is necessary to formulate and launch economic cooperation for the

next phase, to have continued in-depth discussion on trade imbalance, export, investment environment, market openness and other issues, and work to support practical cooperation in energy, infrastructure, the Belt and Road Initiative, and other areas.

So let's play this clip the concluding press conference, from President Xi Jinping and President Trump:

[begin video]

PRESIDENT XI: [as interpreted] Your Honorable President Donald Trump, friends from the press, good afternoon. It is my great pleasure to meet all of you, together with President Trump. Let me begin by extending once again a warm welcome to the President for his state visit to China. Yesterday and earlier today, the President and I have had in-depth discussions on China-U.S. relations and major international and regional issues of mutual interest. We reviewed the important progress made in the relationship since we met at Mar-a-Lago, and we discussed how to further move forward the relationship in the months ahead in great depth, and we reached a series of new and important consensus. Our meeting is constructive and productive. I shared with the President, the policies adopted at the 19th Party Congress. I conveyed China's firm commitment to deepen reform, greater opening up, and a path of peaceful development, and China's desire to expand converting interests with other countries and promoting coordination and cooperation among major countries. President Trump shared with me his domestic reform agenda and foreign policy priorities. The development of China and the United States is mutual reinforcing, without contradicting each other. Our respective success serves the common interests of both countries. We believe that facing the complex and changing international landscape, and maintaining world peace and stability in promoting global development and prosperity, China and the United States, being two large countries, share more common interests, shoulder greater responsibility, and enjoy

broader room for cooperation.

The healthy, stable, and growing China-U.S. relationship is not only in the fundamental interest of the Chinese and American

people, it also meets the expectations of the international community. For China and the United States, win-win cooperation

is the only right choice and the pathway toward a better future.

We agreed to keep close touch through mutual visits, meetings, phone calls, and correspondence, with a view to having

timely communications on major issues of shared interest. We agreed to make the most of the diplomatic and security dialogue,

comprehensive economic dialogue, social and people-to-people dialogue, and law enforcement and cyber-security dialogue – four

high-level dialogue mechanisms – and work together for greater results out of these dialogues.

We believe that China and the United States are the two largest economies and important engines of global economic growth. We need to further expand trade and investment cooperation, strengthen macroeconomic policy coordination, pursue

healthy, stable, and dynamically balanced economic and trade relations.

It is necessary to formulate and launch economic cooperation plans for the next phase, to have continued in-depth discussion

on trade imbalance, export restrictions, investment environment,

market openness, and other issues, and work to support practical

cooperation in energy, infrastructure, Belt and Road Initiative,

and other areas.

Just now, the President and I witnessed the signing of some major cooperation agreements by our businesses. During this visit, the two sides signed over \$250 billion U.S. dollars of commercial deals and two-way investment agreements.

According to China's timetable and roadmap for opening up, China has announced a number of steps to promote market access.

This speaks volumes of the broad space for further economic and

trade cooperation between the two countries, which would deliver

great benefits to the two peoples.

As two distinctive countries, our two sides may have different views or differences on some issues. This is only natural. The key is to properly handle and manage them.

There

is far more common interest between our two countries than differences. It is important to respect each other's sovereignty

and territorial integrity, respect each other's choice of development path, and our difference. As long as the two sides

commit to a constructive approach, we can put aside and diffuse

differences, while at the same time build common ground and advance cooperation.

We also discussed the international responsibilities our two countries shoulder: We agreed to enhance communication and cooperation on major international, regional, and global issues,

and jointly seek proper resolution of relevant hotspot issues to

make greater contribution to peace, stability, and prosperity of

relevant regions and the world at large.

On the Korean Peninsula nuclear issue, we reiterated the firm commitment to achieving denuclearization of the

peninsula, and upholding international non-proliferation regime. The two sides will continue to fully and strictly implement UN Security Council resolutions. At the same time, the two sides commit to working toward a solution through dialogue and negotiation, and we are ready to discuss with relevant parties, the pathway leading to enduring peace and stability in the peninsula and the Northeast Asia. The two sides will maintain communication and cooperation on the Korean Peninsula issue.

We believe that China and the United States, our countries are the important influence in the Asia Pacific. As I said to the President, "the Pacific Ocean is big enough to accommodate both China and the United States."

Ladies and gentlemen, dear friends: President Trump's state visit is a successful and historic visit. Together the two of us

have set out the direction and draw up the blueprint for China-U.S. relations in the coming period. We will work with the

United States and act on the consensus we reached, seek further

progress in U.S.-China relations to bring greater benefit to our

peoples, and people across the world.

Thank you very much. [applause]

ANNOUNCER: Thank you very much, Your Excellency. Now, President Trump, you have the floor.

PRESIDENT TRUMP: Thank you.

President Xi, I want to thank you for that incredible welcoming ceremony, earlier this morning. It was truly memorable and impressive, and something I will never forget. Melania

and I  
are honored to visit your country, with its ancient history,  
dynamic people, and thriving culture.  
I also want to thank you and Madame Peng for a tour that was  
given to us yesterday of the very majestic Forbidden City.  
Your  
people are proud of who they are, and what they have built  
together, and your people are also very proud of you.  
I want to congratulate you on the recent and very successful  
19th Party Congress. Perhaps now, more than ever we have an  
opportunity to strengthen the relationship between our two  
countries.  
President Xi and I discussed improving our economic  
relationship. We want a vibrant trade relationship with  
China,  
we also want a fair and reciprocal one. Today, I discussed  
with  
President Xi the chronic imbalance in our relationship, as it  
pertains to trade, and the concrete steps that we'll jointly  
take  
to solve the problem of the massive trade distortion. This  
includes addressing China's market access restrictions, and  
technology transfer requirements, which prevent American  
companies from being able to fairly compete within China.  
The United States is committed to protecting the  
intellectual property of our companies and providing a level  
playing field for our workers. At the same time, our  
relationship  
with you and China is a very important one to me, and to all  
the  
people of our country. And just by looking at the tremendous,  
incredible job-producing agreements just signed those major  
companies, we're off to a very, very good start.  
As part of our commitment to regional stability and peace,  
the United States also continues to advocate for reforms that  
advance economic freedom, individual rights, and the rule of  
law.

The United States, working with China and other regional partners, has an incredible opportunity to advance the cause of peace, security, and prosperity all across the world: It's a very special time, and we do, indeed, have that very, very special opportunity. A great responsibility has been placed on our shoulders, President; it's truly a great responsibility.

And

I hope we can rise to the occasion and help our countries and our citizens reach their highest destinies and their fullest potentials.

I want to thank you, again – you're a very special man – for your gracious hospitality. I send my warmest regards to your citizens. I honor their heritage, and celebrate their great, great possibilities and potential for the future. In the coming

months and years, I look forward to building an even stronger relationship between our two countries, China and the United States of America, and even closer friendships and relationships,

between the people of our countries.

Mr. President, thank you very much. [applause]

[end video]

OGDEN: So you just heard President Trump there say that this is a very, very extraordinary, special opportunity, to build

this cooperative relationship between the United States and China, one which he said, is very, very important for him, and also for the people of the United States, – which is very true.

And he said he looks forward to continuing to build a strong and close relationship between these two countries. And I thought

it was very notable that he said, on such a personal level, he said, "this is a special time"; he said, "we, indeed, have a very, very special opportunity." And he said for the two of them, to President Xi Jinping, "a great responsibility has been placed on our shoulders." He addressed President Xi directly. He said, "It's a truly great responsibility, and I hope we can rise to the occasion and help our countries and our citizens reach their highest destinies and their fullest potential." And he said, "I want to thank you again, you're a very special man." This is an extraordinary testament to this relationship that President Trump has forged with President Xi Jinping and just how grateful he was for the hospitality that he received, and the extraordinary successes that came out of this summit. As President Xi said, in those remarks you just heard, he said, together the two of them have "laid out the blueprint for U.S.-China relations" with the purpose of benefitting the people of the United States and China. And he said this was a very important and very historic visit. And indeed, it was. The Chinese foreign minister, at a press conference laid out, no less than 23 specific areas where the U.S. and China delegations reached an important agreement. He said: "We have reached extensive and important consensus on the development of China-U.S. relations." And those 23 specific areas included no less than what he said, in his words, "protecting world peace, stability and prosperity, carrying out

head of state diplomacy," which includes as you heard from President Xi, phone calls, continued personal meetings, constant exchange of views and consultation between these two heads of state; this also includes giving full play to the four high-level dialogue platforms that were agreed to previously; enhancing macro-policy coordination including global economic governance; exchanges and dialogues at various levels between the two militaries; drug control was also included. And, I didn't include it in those clips, but one of the things that President Trump repeatedly came back to, was the agreements that they had reached in terms of controlling the opioid flow which has contributed so much to the opioid epidemic here in the United States, most specifically the fentanyl phenomenon; but also was included in this, was an agreement for international non-proliferation and the denuclearization of the Korean Peninsula, which you heard both of them refer to, and fighting terrorism, together. So there are 23 specific areas of mutual cooperation that were agreed to during this summit. From those two press conferences, I hope you get the sense just how historic this visit was and how much significance President Trump placed on the opportunity to have this state visit, and how much significance President Xi Jinping placed on President Trump's willingness to engage in this bilateral summit; and how much hope they both have for the continued growth in this relationship. Now, President Xi Jinping immediately went from this summit that they held in Beijing to attend the APEC summit, and both

President Xi and President Trump delivered important and significant speeches. But I think you can see, from the preliminary reports of President Xi Jinping's speech, that he has

taken what was consolidated in this bilateral summit between himself and President Trump, and immediately brought it to the world stage in terms of the future of the Belt and Road Initiative.

What President Xi Jinping's speech at the APEC summit was completely centered around, is the idea of scientific growth and

innovation, as the driver, the source of the growth, the driver

behind the Belt and Road Initiative. He said, that an old Chinese

saying reads, that development is an unending journey. He said,

a Chinese philosopher said, "we should focus our mind on the future, not the past. So we need reform and innovation to achieve growth, we must build a community of shared future for mankind," reviewing a theme that he had made a very central facet

of his speech to the CPC Party Congress.

He said: In order to do that, one, we must pursue innovation-driven development, new drivers of growth. He said the only way to sustain growth is through innovation and breakthroughs in science. And then he said, we must enhance connectivity. This is the best way to have win-win outcomes.

He

said, this will boost the real economy, and he emphasized that the Belt and Road Initiative is a joint endeavor for infrastructure and connectivity. He said, it is from China, but

it belongs to the world. It's oriented to the future, and although largely focused on Asia and Africa, so far, he emphasized, it is open to all partners, obviously, the United States included.

And he said: It is his hope that the Belt and Road Initiative will create a broader more dynamic platform for world

economic growth. And the audience stood up and applauded that with a sustained ovation.

And then he emphasized at the conclusion of this speech at the APEC summit, "We want to enable more countries to board the

express train of China's development." And then he reflected on

what China has achieved and what China is committed to continuing

to achieve. He said: We are embarked on a new journey involving

our greater integration with the world. We will continue to open

up; we will work with others to create new drivers of development

through the Belt and Road Initiative. He said: Our goal is to

ensure a better life for people. We aim for this in everything

we do. This involves increasing people's living standards, ending poverty. By 2020, each and every one of China's 1.3 billion people should have decent lives, he said. "No one will

be left behind."

And then he concluded by saying: China also has a new international approach to create a community with a shared future

for mankind. China's dream is connected to the dreams of each of

your countries. We strive for durable peace, universal security,

and common prosperity. We want harmony among all nations by creating a win-win situation. He said: We will make the international order more just and equitable.

So that's the vision for the world which President Xi Jinping has laid out, and that's the vision which now President

Trump has, in a very significant way joined the United States and

China in this idea of a shared and common destiny.

I think we can be assured that out of this historic summit that we witnessed over the last two days, a very, very close relationship will continue to be formed between President Trump

and President Xi Jinping, personally; and that relationship, as

we enter this new era in terms of U.S.-China relations, will, indeed, herald the coming of an entirely new paradigm for mankind.

So, what I want to do to conclude here is to play just a very short excerpt from Helga Zepp-LaRouche's international webcast, yesterday, which she broadcast yesterday on the Schiller

Institute New Paradigm site, and is available on the Schiller Institute YouTube channel [<https://youtu.be/iXPHh02e9fw>], and this was even prior to some of the concluding remarks that you just heard from President Trump and President Xi Jinping. But you can see, the importance that Helga Zepp-LaRouche places on the events that we just witnessed over the last two days. So, here's Helga Zepp-LaRouche:

[begin video]

HELGA ZEPP-LAROUCHE: I think from what we can know today, which is the second day of I would say an historic visit of President Trump in China, I think it is exactly what I expected

would happen: That both sides know perfectly well that the future of mankind depends on the relationship between the United

States and China, as *the* most important two nuclear powers and economic powers in the world. And I think it went very well.

The statements by President Xi Jinping characterizing the meeting as a strategic new beginning, a mutual beneficial relationship of historic importance which can solve not only the problems of the two peoples, but of the whole world, I think this is absolutely to the point. And President Trump was very enthusiastic: He praised China and its great President, who, according to his Tweet, feels very warm feeling – I mean, this is really good. Because if the two Presidents understand each other and can make it work, then I fully agree, there is no problem in the world which cannot be tackled.

So I think this is a gigantic step forward, and I think it's also interesting that Trump, who was very much talking about the trade gap between the United States and China, however, he said he does not blame China for that, because he respects it, that President Xi would do everything for the maximum benefit of his own country and people; and then he blamed previous U.S. administrations for having allowed to drop exports to China so much that this trade gap now exists. And remember, the Chinese always wanted to import much more from the United States, but the previous administrations which were on a confrontation, containment, encirclement policy towards China, they refused to sell many of the products which China wanted to buy with the pretext that they had “dual use,” that things could be used both for civilian and military purpose – and naturally, there's almost anything you can use for either peaceful or not so

peaceful purposes, depending on what is the intent of your policy.

So, I think this is very good. They concluded, I think, somewhere in the range of \$250 billion in deals, various things

ranging from infrastructure, transport, energy, agricultural exports from the United States to China, just a very wide variety

of economic deals. They also decided to not only improve and strengthen the relationship between the two Presidents, but to increase the cooperation on all levels, to strengthen the four permanent dialogues which had been arranged already in Florida in

April, one of them dealing with economic cooperation. And I think an absolute basis has been laid to continue to develop this

relationship to the benefit, not only of China and the United States, but, really, for the whole world.

So naturally, they agreed fully on the need to solve the North Korea problem, on which they want to work together, and also Trump expressed a confidence that with the help of China, and Russia, which he said on an earlier occasion, that problem can be brought to a positive solution.

While I have not seen any direct mentioning of the United States working with the Belt and Road Initiative as such, I know

that that is the mindset of President Xi, and I think that also

coming out of the 19th National Congress of the Communist Party

of China, where Xi Jinping has made the goal of to build a "community of a shared future of mankind," I think this trip by

President Trump has been a gigantic step in the right direction.

And I think the Chinese really know how to bring into consciousness, the 5,000-year history of China, and Trump was

treated really very well. They had a one-day or several hour special treatment in the Forbidden City which was closed to the public, and they performed three Beijing operas, and showed the restoration of ancient handicrafts. So Trump was very, very happy, and he sent a message to Xi Jinping saying that he and Melania will never forget this experience. So I think from a human standpoint this is very positive.

And these journalists should just go and be ashamed of themselves, because they are so cynical that never will anything move their hearts and minds, and probably these minds are dried out like old prunes anyway, so I wouldn't worry about what they're writing, because I think these two Presidents have made a very positive step, moving human history forward.

[end video]

OGDEN: So as you can see, Helga LaRouche concluded by saying, no matter what you read in the Western press, disregard this, because, indeed, we have just witnessed one of the most crucial developments in human history. As you could see, she said, these two Presidents have moved human history forward. It's a very gigantic step in the right direction, she said, and a very significant victory in our ongoing fight for a new international paradigm, a "shared future for mankind" in the words of Xi Jinping.

So with this significant victory under our belt, Helga Zepp-LaRouche in the last day has called on American to redouble our efforts for Lyndon LaRouche's Four Economic Laws here in the United States: The Hamiltonian national banking program by

which

we can maximize the participation of the United States in this Belt and Road Initiative.

And we've got a lot of potential, that came out of this visit, and it's our job to fully educate the American people on

what was discussed and what the opportunities are that are now before us, with President Trump clearly, personally committed to

this relationship with China, his personal relationship with President Xi Jinping, and as President Xi Jinping repeatedly mentioned, this potential for joint investment between Chinese firms in the United States, and also participation by U.S. companies in the Belt and Road Initiative – exactly what we've been calling for over the last number of months, in terms of the

United States joining the New Silk Road.

With that said, I think for those of you who viewed those excerpts, we did witness the unfolding of human history before our very eyes; with these events over the last several days, we

now are in a new era for U.S. history. And I think we have to recognize the implications of that, recognize the responsibility

that that presents to us, to continue to move history forward in

this direction.

So thank you very much for joining us, and I'm sure that we'll see further developments coming out of President Trump's visit to Asia over the next few days. So please stay tuned to [larouchepac.com](http://larouchepac.com), as we have a number of other live events planned

over the coming days, and we'll see you at the beginning of next week.

# **Valgmøde den 10. november 2017, del I, med Tom Gillesberg, Helga Zepp-LaRouche og meget smuk sang**

Helga Zepp LaRouche Addresses Copenhagen Campaign Event of 'Friends of the Schiller Institute,' Nov. 10, 2017

- The Legacy of Friedrich Schiller and the Schiller Institute
- 
- In the Confucian Concept of Xi's New Silk Road Today –

*Schiller Institute Chairwoman and founder Helga Zepp-LaRouche was introduced by Schiller Institute in Denmark Chairman Tom Gillesberg, who is running for mayor of Copenhagen on the Friends of the Schiller Institute slate.*

HELGA ZEPP-LAROUCHE: I'm very happy to be here by Hangout video, because there are a lot very important things happening which the Western media are absolutely hiding from the population. As a matter of fact, since you referred to the founding of the Schiller Institute in 1984, I was just reflecting

that the purpose why I created the Schiller Institute in the first place, was because I saw the world very much in need of a

different idea of relations among nations.

And that was the main reason why this institute was created, because I realized, in 1983, the relationship between Germany

and

the United States, Europe and the United States, the so-called "advanced sector" and the developing countries, all of these foreign relations were terrible. For slightly different reasons

in each case, but I basically said, "this is not the way nations

should organized themselves, and that is not how they should relate to each other."

So I came up with the idea to create an institute devoted to the development of a just new world economic order, whereby every

person on the planet would eventually have a decent life, that was explicitly the idea; and that this new world economic order

would only function if it would be combined with the idea of a dialogue of cultures on the highest level, where one country would not refer to the worst tradition of the other, but to the

best, and vice versa. And that all of this would be accompanied

by a lot of Classical culture, a lot of emphasis on science, on

science and technology as the motor for such a development.

Now, I don't want to go through the long history of the Schiller Institute, which has done an enormous amount of work on

five continents since its existence, but I'm very happy to say that if you look at the world today, especially in the last several days, a lot of what the Schiller Institute was meant to

be, is coming into being.

People really have to realize that the summit which just took place between President Xi Jinping and President Trump, was

an absolutely historic breakthrough. Now, if you listen to the

Western media, you would think the opposite; you would think, if

you read the *New York Times* you would say, "Trump sold out to the Chinese, because Xi Jinping is much more powerful than Trump." If you listen to second channel of German TV, their comment yesterday was that, yes, this was all a big show, but Trump is so irrational and changing so quickly that in two weeks

he will not even remember what happened. Or, the *Frankfurter Allgemeine Zeitung* this morning, I had to laugh when I was reading this. On the front page, they said if Deng Xiaoping were

still alive, he would have wept tears of joy when he saw that Xi

Jinping and Trump were meeting, seeing eye-to-eye, treating each other as equals.

So the Western media are just completely beside themselves, they're cynical, they're absolutely geopolitically blinded in such a way that they can't even look at what is going on.

Now, let me tell you what really happened: First of all, on Wednesday [Nov. 8], the Chinese government did something which has never happened, giving an honor to Trump which they have never given to any other foreign head of state. They closed down

for an entire day the Forbidden City; this is the largest complex

of palaces in the world. Since the 17th century, it was the seat

of the emperors, and it is just one large complex of palaces, one

after the other: it has opera houses, it has living quarters, it's just an unbelievable environment.

They closed this down, and they performed for President Trump and his wife Melania, excerpts from three Beijing operas,

and they showed ancient handicrafts in restoration; and really

steeped the Presidential couple in Chinese culture. Which everybody who knows it, knows it's extremely beautiful and extremely impressive. And they called this a "State Visit-Plus."

A commentator from the think tank CASS [Chinese Academy of Social Sciences] said this has never happened in the history of China,

either; they have never given a head of state such a high-level visit, so it was a highest honor ever given to a foreign President.

Now, the Western press is not reflecting why this is the case, but President Xi said that this is the beginning of a

new start of relations between the United States and China, and

it will do very important, good things not only for the two people, but for the entire world. And Trump, on his side, said,

what could be more important than the two largest economic countries finding a good cooperation; and he also said that he looks ahead to many years of friendship and collaboration between

the two countries, accomplishing incredible things.

Obviously, not unimportant was the fact that there were trade deal deals signed for, altogether \$253 billion, ranging from energy, agricultural products, airplanes were being bought,

infrastructure. And in a certain sense, this is important, and

designed to grow – it's not the end of it. Trump made several speeches where he said – there was an incredible trade gap up to

now, but he doesn't blame the Chinese for it, he blames the former U.S. administrations for allowing this to happen.

So obviously, there are many positive things in this trade

relation, as such, but I think more importantly the spirit which comes from the New Silk Road, which is the policy which has been put on the agenda by Xi Jinping since 2013, and which in the four years since, has grown to be the largest economic infrastructure project ever in history: Already something like 70 countries are collaborating. They are building infrastructure corridors, six major corridors, almost 40 cargo trains and connecting between China and Europe, now, every week. The development is spreading with absolute excitement into Latin America, into Africa, into even European countries.

The biggest change, in my view, has happened in Africa, because China has invested in a rail line from Djibouti to Addis

Ababa; now from Kenya; another line is being built to Rwanda. Many hydropower dams, projects for hydropower, irrigation, industrial parks. And all of this has led to a completely different attitude of the Africans, who, for the first time, see

the perspective of overcoming their underdevelopment.

The philosophy behind all of this is the idea that only if you have harmonious development of all nations on this planet, can you have a peaceful development in China. And this is based

on the Confucian idea that only with the maximum development of the individual, who should become a wide person, is spread throughout the entire family and all the families develop harmoniously, can you have peace in the nation, and obviously in the world, among the nations.

This is not understood by the West at all. They are absolutely convinced – and I think some of these political forces are so geopolitically entrenched that they really believe

this, that they cannot mention that a country can actually be devoted to the common good of its people. And that China is doing that is without any debate, because, as Tom just mentioned,

I was in China in 1971, during the Cultural Revolution, and I saw

the country in distress. And I went back in '96, and I saw the

absolutely incredible change for the better in these 25 years.

And what has happened in the last 30 years is just the biggest economic miracle of any country on the planet. China has

lifted 700 million people out of poverty, and what happened at the just-concluded 19th Party Congress of the CPC, was that Xi Jinping announced that by the year 2020, China will have eradicated *all* poverty. There are only 42 million people left who are poor, in rural areas, and they now are using modern technology to overcome that, by providing the means for e-commerce to the farmers in the rural areas of poor regions, so

they can market their products via the internet, and that way they are starting to develop more income and more wealth, so that

they will no longer be poor by the year 2020. I have no reason to

believe that they will not succeed in doing that, because, when

you see the vector of development of the last 30 to 40 years, they are going to accomplish that.

By the year 2035, China wants to be a modern socialist country, and Xi Jinping has developed a plan up to the year 2050,

for China to be a strong, modern, harmonious, democratic,

happy  
people.

Now, in this speech, at this party convention, Xi Jinping mentioned I think it was 15 times or so, that the purpose of the political work of the Communist Party is that people should have

a better and happier life. And what China is doing is obviously

a model which is much more devoted to the common good, than you

find it in the West, where, if you compare it to the poverty level in the European Union, for example, where you have 120 million people who are poor; or you compare it to the economic situation in the United States, where for the first time in an industrial nation, you have a lowering of the life-expectancy! Now, if there's any parameter for the productivity and the well-being of an economy, it is the life expectancy of its people. And if you an industrial country with the collapse of the life span, then you know that there is something absolutely

wrong. And this is the result of what happened with the neo-liberal system, especially since the United States with the

neo-cons decided to become the leader of a unipolar world, which

went along with the neo-liberal system, where the rich became so

rich that it is unreasonable, and the poor become poorer.

And you have right now, I think something like 95 million people in the United States who are no longer counted as being in

the labor force, because they have given up looking for work, or

they are sick, or they are in prison, or they are somehow misplaced in some other form.

So, I think that what is happening right now is that Xi

Jinping has put on the agenda a model of economic cooperation which needs to be studied. I think it's a *big* mistake that the

Europeans are just dismissing it. Like, for example, the French

Economic and Finance Minister Bruno Le Maire just went to Berlin

yesterday, and there he addressed a German-French economic forum,

where he said, now Europe must stop being naïve, we must be united to stand up against China, against Russia, against the United States. And then the German Foreign Minister Sigmar Gabriel yesterday on a TV show basically said the same thing – he said, now, Europe must stand united against the aggressive powers of Russia and China, where human rights mean nothing.

I mean, this is such an arrogance! You know, talking about "democracy," why don't you just look for a second at what happened with Hillary Clinton's campaign? Now the big scandal in

the United States is that the Democratic Party leadership, one year before the party convention was to supposedly decide on the

candidate for the 2016 Presidential election, has decided it would be Hillary. And then they channeled illegal money, violating FEC rules up and down, right and left, intriguing against Bernie Sanders. And then, concocting "intelligence" against Trump with the help of British intelligence, played back

into the United States. I mean, this is a joke! There is no democracy, not in this present system.

And I think that to accuse Russia and China of being "aggressive" is just absolutely wrong! The whole question of what was the Ukraine crisis: [Former German Chancellor] Helmut

Schmidt said it very clearly: The reason why the Ukraine crisis

happened, and where it started was in the Maastricht

conference in 1992, because that was when the EU decided to have the Eastward expansion without limit. And that is the same thing as what the NATO expansion to the East was, breaking all promises made to Gorbachev at the time, that NATO would never expand to the borders of the Soviet Union, or Russia for that matter. So we are in a real crisis. And rather than being so arrogant and saying there are no human rights in China and Russia, and these countries are “aggressive” – which they are not – we should rather reflect on what should the future be? China happens to be the only country which has presented a strategic model of international relations based on a win-win cooperation of respect for the sovereignty of the other country, of non-interference, of accepting the other social model of the other system; and this is a strategy for peace. This is the idea of overcoming geopolitics. And we should not forget that it was geopolitics which was not only the cause for many wars in history, but especially two world wars in the 20th century. And the idea to have an inclusive, win-win cooperation among all countries on the planet, what should be against that? Why can Europe not, why can't Denmark, and Germany, and France, and Italy, just say: When the relationship between the United States and China is already now on such a new historical basis, where the strategic partnership between China and Russia is also very, very strong, and Putin and Xi Jinping have both said that the relationship between these two countries are on the best level ever. And now China and the United States are saying the same thing about their two countries. Now, what could be better, than

to have the United States, China and Russia working together for a new paradigm of relations among nations? Why can the European nations not just say, "Well, that is very good, because if the biggest nuclear powers can cooperate in a peaceful way, then the danger of a thermonuclear war is obviously diminished and could be eliminated in a short period of time; and we cooperate." I mean, we have so many tasks which are urgent: The reconstruction of Southwest Asia, of the Middle East, of countries which have been completely destroyed by wars which are the outgrowth of regime change, of the unipolar world, on wars based on lies, which have cost {millions} of people their lives in Iraq, Afghanistan, Syria, Yemen. These countries have been absolutely destroyed and they need to be reconstructed. There is already a discussion that the only way you can do that, is by extending the New Silk Road into the Middle East. And I have said for a very long time, that the only way how you can have peace in the Middle East, is if all the major neighbors – Russia, China, India, Iran, Egypt, hopefully the United States, and hopefully European nations, are all working together, and then you can eliminate the present tensions and frictions and ongoing fights, which have almost been eliminated in Syria and Iraq. And look at Africa: Don't you think it's time that we join hands with China in the development of Africa? Do you really think that the underdevelopment of Africa is a natural condition? No! It is the result of hundreds of years of colonialism, of

decades of IMF conditionalities, which insisted, that countries should pay their debt and not pay for infrastructure and not pay for social expenditures. And the reason why Africa has been in such a terrible condition is because it was the policy of the West {not} to develop the African continent. And now China has come, and said, "no," we have the idea to eliminate poverty in every corner of the planet, and they have started the industrialization of Africa, and Xi Jinping has offered to Europe, to the United States, to join hands and have joint projects in all of these countries.

Don't you think it's time that we become adult as a human species? I think it should be clear to everybody that in the age of thermonuclear weapons, war cannot be a way of resolving conflicts. And I think also, the idea that the human species should be able to come up with an idea of self-governance of one

human species; that it's not a natural condition that you always will have one nation against another nation, or a group of nations against another group of nations.

In reflecting about what happened in the recent period, especially with the 19th Party Congress of the CPC, where Xi Jinping developed a perspective between now and 2050, it is very

clear that if you look at the long arc of human civilization, sometime the idea that we would be the one humanity, the "community for a shared future for mankind" – which is the formulation Xi Jinping always uses – had to come! And that it comes from China should not be a reason not to be up on the idea.

It has to do with the 5,000 year history of China, the 2,500 years of Confucian tradition that this idea was made by China,

but it is a universal idea, it's not something limited to one culture or one nation.

So I think we are at a very exciting moment of history. I feel very much vindicated that the work, not only of the Schiller

Institute, but the organization associated with the name of my husband, Lyndon LaRouche, is now being implemented. This goes back all to the early '70s, where my husband developed the proposal for an International Development Bank, the IDB. This was

picked up by the Non-Aligned Movement in '76, in their final resolution in Colombo, Sri Lanka; and it was the idea that a new

credit institution should be created, replacing the IMF, which would provide – at that time, the idea was 400 billion deutschemarks, or \$200 billion approximately, per year, for technology transfer to the developing countries.

And that's what China is now doing. That's what they're doing with the AIIB, with the New Development Bank, with the different Chinese banks, focusing on the real economy.

Then, if you look at all the development plans we have been working on: The first development plan for Africa, we published

in 1976. We had a plan for the development of Latin America, working with [then Mexican President] López Portillo. We had a

40-year development plan for India, on which we worked together

with Indira Gandhi. We had a 50-year development plan for the Pacific Ocean Basin in the early '80s.

Then, in '89, we had the Productive Triangle for the development of East and West Europe. And in '91, when the Soviet

Union disintegrated, we proposed a peace plan for the 21st century, starting with Eurasian Land-Bridge, which we already called the New Silk Road, at that time.

So I feel very much that our lives' work has absolutely come

into reality. And what we have to do now, is we have to get European nations to understand that the crisis not that China is

making these proposals, and the crisis is not that Trump is rejecting the neoliberal model, at least as it was represented by

Bush and Obama and Hillary. The real crisis is that people in Europe are still absolutely somehow in chains to their own ideological thinking that they, first of all, are very Euro-centric; they think Europe is the navel of the world; while

in reality, the power center is shifting to Asia, since they have

better principles than we have right now.

And just to illustrate the point, the Bundeswehr, the German army, put out this study already in February of this year, where

they have basically six scenarios by the year 2040. It has all

options, where the worst option is Europe will completely collapse, many European countries will leave the EU and join with

the Russia bloc; and Europe will just lose all importance. If you look at these six scenarios, what you see there is an absolutely wrong method of thinking: It's the projection of the

status quo, of geopolitical thinking, and naturally in a changing

world, there is no way how such thinking can survive, therefore,

if they keep thinking that way, this is probably what happens in

Europe.

Now, look at what China is doing, instead. They just created the largest, highest-level regulatory body, which is even

more important and has higher ranking than all the ministries,

for the case of a new financial crisis. And it has absolutely nothing to do with the Chinese debt, because the Chinese debt has, as a counterforce, real assets – investments in infrastructure, in industries and so forth, so if there would be

a blowout, these assets will be there. While the monetarist system of the trans-Atlantic sector, people have learned absolutely nothing after the crisis of 2008. That is the real danger, and obviously China is looking at that, and Xi Jinping has said this in many speeches since the G20 summit last year in

Hangzhou, that the causes of the 2008 crisis have not been eliminated, and therefore the danger of a new crisis is absolutely there.

So what we have to do, is we have to absolutely reflect, what is wrong with the European thinking. The problem is not that other countries are rising and we are stagnating. The problem is that Europe has turned away from its highest traditions.

We have now a pretty decadent culture. If you look at the youth culture, pop music, many of these so-called pop singers are

outright Satanic: They are ugly, they promote an image of man which is a beast, it's full of violence, it's pornographic, and

it's just "everything goes." There is no more limit, there is no

morality, everything is allowed: You don't have two sexes, you

have in Germany now officially three sexes, you have 49 genders,

it's just becoming absolutely Sodom and Gomorrah, or very much parallel to the end-phase of the Roman Empire, where you had similar phenomena.

So, I think that the problem is not China rising. The problem is that Europe has moved away. We have a beautiful tradition. We have a Classical period, the Renaissance of

Italy,  
we have the Andalusian Renaissance, the École Polytechnique in France. We have a German Classical period which has produced some of the most outstanding thinkers, composers, poets, you know, the rich tradition linking the Classical period of Germany  
with that of Denmark. I mean, Danish people saved the life of Friedrich Schiller.  
So there are enough points where we can say, "Let's just go back to our best traditions, and then we will find out that the Classical periods of Europe, and the Confucian tradition of China, and the Classical periods of other nations, are indeed creating the basis for a new Renaissance."  
I think we are at an incredible moment of history, and we should just remind ourselves of the words of Friedrich Schiller,  
who said, "A great moment should not find a little people."  
So  
let's try to elevate our people, to think big, think beautiful,  
become beautiful souls, create the basis that all children have a chance to become geniuses. And if that is in our willpower to do, and this is why the election campaign of Trump and the other members of the Schiller Institute are so absolutely important, and that is why we should all be happy that the Schiller organization exists in Denmark and creates an option for all Danish people to join this incredible historical moment and make a better world for all of us. *Så jeg mener, at det, der tydeligvis er ved at vokse frem, er et mere og mere integreret, nyt økonomisk system, hvor det grundlæggende set er meget klart, så længe, europæerne, eller i det mindste EU og den tyske regering, fortsat har en kold og uvenlig holdning, så er det, som en erhvervsmand for nylig sagde, »hvis de ikke springer på toget, vil de se lysene fra den bageste vogn forlade stationen, og de bliver stående tilbage«.*
